FROM: Department of Purchasing and Contracting, DeKalb County, Georgia

ADDENDUM NO.: 3

Invitation to Bid (ITB) No.: 16-100761, Yellow River Force Main, is hereby amended as follows:

1. This bid opening has been extended to December 2, 2016.

2. We have received questions pertaining to this ITB. The questions and their resulting answers appear below:

   a.) Question:

   From Addendum #2, It looks like we are now required to conduct the geotechnical investigation as part of the bid. Where is it listed in the revised bid item list? Also, if the section of the specifications that was amended to require additional Geotech is the microtunneling, is that where this cost would be added? If so and Microtunneling is not the option chosen then how is it paid? Should not a bid line item be added for this?

   Answer:

   The geotechnical report is an incidental but required submittal required for the project. The Contractor should cover the cost of the geotechnical report in a single Pay Item or amongst several Pay Items. The revised language states only a single geotechnical report is required. From that report the method of advancing the pipeline to the other side (jack and bore or a form of microtunneling / pilot tube microtunneling will be selected.

3. Modification to the Bid.

4. If a bid has been submitted and anything in this Addendum causes the bidder to change the item offered or to increase or decrease the proposal price, the new price and / or changes will be inserted below:
