DEPARTMENT OF WATERSHED MANAGEMENT

PROTECT OUR SEWERS EVEN AT SCHOOL!!!

Help Protect DeKalb County's
Sanitary Sewer System!!!

DID YOU KNOW...

Improper disposal of medical and personal care waste through toilets or floor drains, can cause blockages in pipes, which ultimately cause sanitary sewer overflows (SSOs)?

SSOs OCCUR WHEN...

Wastewater is blocked and overflows from a manhole or broken pipe; or backs up into your building. SSOs are health hazards and harm the environment.

IT'S A VIOLATION!

It's a violation of the Clean Water Act and can result in fines to the County. This can potentially cost you money to correct your lines if not installed to code.
