Dear DeKalb Residents:

Did you know DeKalb County holds a long history of sustainability? The region is one of

Georgia's largest sources of recovered materials. For its compressed natural gas (CNG) fleet vehicles, the DeKalb County Sanitation Division uses natural gas produced at the Seminole Road Landfill. During the second quarter of 2015, half of DeKalb County's tractors and front loader vehicles will be fueled by CNG.

You've helped us make strides toward sustainability, and we are still on that journey. When you recycle, you are keeping the environment clean, saving precious natural resources for our future, and reducing the need for new landfills. DeKalb County's Curbside Recycling Program contributes to this effort, and I encourage each of you to take part.

Currently, more than 59,000 single-family homeowners are enrolled in our recycling subscription service. However, we encourage more of the county's eligible homeowners to participate.

Imagine what we can accomplish if just half of our eligible DeKalb residents enroll. For more information about the Curbside Recycling Program, and to subscribe, please visit www.keepdekalbbeautiful.org.

Additionally, in 2015, we anticipate upgrades to our overall quality of service to ensure our neighborhoods are cleaner and neater. Please stay tuned for further updates.

Together, we can ensure DeKalb County remains a great place to live.

Sincerely,

Lee May

DeKalb County Interim CEO

CURBSIDE RECYCLING PROGRAM

Recycling reduces landfill space. DeKalb's Curbside Recycling Program is a voluntary subscription-based program available to residents who receive solid waste collection services from DeKalb's Sanitation Division. Effective July 6, 2015, your single-stream and yard trimmings recycling collection will occur on the same day as your garbage collection.

Rolling Forward to One Program

One-day-a-week sanitation collection service will begin for all residential customers effective July 6, 2015.
