

Public Hearing: YES  NO

Department: Planning & Sustainability

**SUBJECT:**

**COMMISSION DISTRICT(S): 2 & 6**

**Application of The Church in Atlanta Inc c/o Dennis Webb, Jr. to request a Special Land Use Permit (SLUP) to rebuild and expand a Place of Worship in the R-100 (Single-family Residential) District, at 2345 Shallowford Road.**

**PETITION NO: N8. SLUP-21-1244393 2020-1539**

**PROPOSED USE:** Proposed expansion of an existing Place of Worship

**LOCATION:** 2345 Shallowford Road, Atlanta, GA 30345

**PARCEL NO. :** 18-233-07-002

**INFO. CONTACT:** Jeremy McNeil, Sr. Planner

**PHONE NUMBER:** 404-371-2155

**PURPOSE:**

Application of The Church in Atlanta Inc c/o Dennis Webb, Jr. to request a Special Land Use Permit (SLUP) to rebuild and expand a Place of Worship in the R-100 (Single-family Residential) District. The property is located on the northeast side of Briarcliff Road and Shallowford Road, at 2345 Shallowford Road in Atlanta, Georgia. The property has approximately 427 feet of frontage along Briarcliff Road, 600 feet of frontage along Shallowford Road and contains 8.08 acres.

**RECOMMENDATION:**

**COMMUNITY COUNCIL:** Approval

**PLANNING COMMISSION:** Approval with Conditions.

**PLANNING STAFF:** Approval with conditions.

**STAFF ANALYSIS:** The site is located within an Institutional Character Area designated by the DeKalb County 2035 Comprehensive Plan which designate specific areas that provide institutional services that consist of large areas used for religious, civic, educational and governmental purposes. The proposed expansion and redevelopment will not create an adverse impact on the adjoining land uses. Therefore, it is the recommendation of the Planning and Sustainability Department that the Special Land Use Permit (SLUP) for the expanded place of worship on the subject site be "Approved, subject to Staff's recommended conditions".

**PLANNING COMMISSION VOTE: Approval with Conditions 8-0-1.** A. Atkins moved, J. Johnson seconded for Approval with Staff's recommended conditions, with a modification to condition #2 to read as follows: "That the proposed expansion and redevelopment shall be submitted in substantial conformance with the submitted site plan, dated October 28, 2020". E. Patton abstained.

**COMMUNITY COUNCIL VOTE/RECOMMENDATION: Approval 5-0-0.**

**Recommend Conditions- SLUP-21-124493**

1. The approval of this SLUP application by the Board of Commissioners has no bearing on the requirements for other regulatory approvals under the Zoning Board of Appeals, or other entity.
2. That the proposed expansion and redevelopment shall be submitted in substantial conformance with the submitted site plan, dated October 28, 2020.

<b>Proposed Building Sq. Footage:</b> N/A	<b>Existing Building Sq. Footage:</b> N/A
<b>Proposed Lot Coverage:</b> <80%	<b>Existing Lot Coverage:</b> <80%

## **SUBJECT PROPERTIES AND ZONING HISTORY**

The property is located on the northeast side of Briarcliff Road and Shallowford Road, at 2345 Shallowford Road in Atlanta, Georgia. The site contains approximately 8.08 acres with approximately of 661 feet of street frontage along Shallowford Road, and approximately 428 feet along Briarcliff Road. The subject property is surrounded R-100 zoned properties to the north, east, south, and west. Directly north and south of the subject property are a places of worship. To the east and west are detached single family homes.

The subject property is currently zoned R-100 (Residential Medium Lot-100) District with a future land use designation of Institutional (INS). The property appears to have been zoned R-100 (Residential Medium Lot-100) since adoption of the first zoning ordinance and map in 1956.

## **PROJECT ANALYSIS**

Based on the submitted materials, the applicant is seeking to obtain a Special Land Use Permit to allow for the redevelopment and expansion of an existing place of worship. Per Chapter 27- Article 4.1.3 of the DeKalb County zoning ordinance, all places of worship located with the R-100 zoning district requires approval of a Special Land Use permit. The existing place of worship was constructed in 1977 and was never granted approval of a Special Land Use permit.

Per the letter of intent, on June 21, 2020 a vandal started a fire that damaged a portion of the building which caused extensive smoke and water damage. The fire was limited to the rear of the building, damaging part of the structure and leaving a large hole in the roof. Due to the nature of the damage, the church cannot operate.

Based on the submitted site plan, the proposed improvements will include approximately 1,835 square foot expansion to the first floor of the building along with an 11,450 square foot second floor, and additional 71 parking spaces.

## **IMPACT ANALYSIS**

**Section 27-7.4.6 of the DeKalb County Code states that the following criteria shall be applied in evaluating and deciding any application for a Special Land Use Permit.**

**A. Adequacy of the size of the site for the use contemplated and whether or not adequate land area is available for the proposed use including provision of all required yards, open space, off-street parking, and all other applicable requirements of the zoning district in which the use is proposed to be located:**

The Subject Property is approximately 8.088 acres, which is adequate land area for the proposed use and the proposed building expansion, including the provision of all required yards, open space, off-street parking, and all other applicable requirements of the R-100 district in which the use is proposed to be located. The fact that the Subject Property has contained a church use for the past 43 years points to the appropriateness of the site.

**B. Compatibility of the proposed use with adjacent properties and land uses and with other properties and land uses in the district:**

The church use is appropriate given the surrounding land uses.

**C. Adequacy of public services, public facilities, and utilities to serve the contemplated use:**

The subject property is currently served by water and sewer and access to other public services and facilities.

**D. Adequacy of the public street on which the use is proposed to be located and whether or not there is sufficient traffic carrying capacity for the proposed use, so as not to unduly increase traffic or create congestion in the area:**

The surrounding roadways are adequate to handle the amount of traffic coming from the Church, particularly given that the roads have accommodated the Church's traffic for over 43 years.

**E. Whether or not existing land uses located along access routes to the site will be adversely affected by the character of the vehicles or the volume of traffic generated by the proposed use.**

The subject property is located directly on Briarcliff Road and Shallowford Road with existing curb cuts on each. The Church will continue to utilize the existing curb cuts which adequately serve the property. Therefore current use will no adversely affect the character of the vehicles or the volume of traffic.

**F. Adequacy of ingress and egress to the subject property and to all proposed buildings, structures, and uses thereon, with particular reference to pedestrian and automotive safety and convenience, traffic flow and control, and access in the event of fire or other emergency:**

The proposed redevelopment will have adequate ingress and egress to the subject site.

**G. Whether or not the proposed use would create adverse impacts upon any adjoining land use by reason of noise, smoke, odor, dust, or vibration that would be generated by the proposed use:**

The proposed redevelopment should not create adverse impacts upon any adjoining land use by reason of noise, smoke, odor, dust or vibration.

**H. Whether or not the proposed use would create adverse impacts upon any adjoining land use by reason of the hours of operation of the proposed use:**

The hours of operation should not create adverse impacts upon adjoining land uses.

**I. Whether or not the proposed use will create adverse impacts upon any adjoining land use by reason of the manner of operation of the proposed use.**

The proposed use will not create adverse impact on the adjoining land use by reason of manner of use.

**J. Whether or not the proposed use is otherwise consistent with the requirements of the zoning district classification in which the use is proposed to be located.**

Proposed use is a permitted use within the R-100 zoning District with a Special Land Use Permit (SLUP).

**K. Whether or not the proposed use is consistent with the policies of the comprehensive plan.**

The site is located within an Institutional Character Area designated by the DeKalb County 2035 Comprehensive Plan which designate specific areas that provide institutional services that consist of large areas used for religious, civic, educational and governmental purposes.

**L. Whether or not the proposed use provides for all required buffer zones and transitional buffer zones where required by the regulations of the zoning district in which the use is proposed to be located.**

A 50-foot transitional buffer is required adjacent to residentially zoned property to the south.

**M. Whether or not there is adequate provision of refuse and service areas.**

Adequate refuse areas will be provided.

**N. Whether the length of time for which the special land use permit is granted should be limited in duration:**

The proposed use is a permanent use and should not be limited to any length of time on the subject site.

**O. Whether or not the size, scale and massing of proposed buildings are appropriate in relation to the size of the subject property and in relation to the size, scale and massing of adjacent and nearby lots and buildings.**

The proposed SLUP is compatible in size and massing to adjacent and nearby buildings in the area.

**P. Whether the proposed use will adversely affect historic buildings, sites, districts, or archaeological resources.**

The proposed SLUP will not adversely affect historic buildings, sites, districts, or archaeological resources.

**Q. Whether the proposed use satisfies the requirements contained within the supplemental regulations for such special land use permit.**

The proposed SLUP complies with all of the supplemental regulations per Sec.27- 4.2.42 of the *DeKalb County Zoning Code*.

**R. Whether or not the proposed use will create a negative shadow impact on any adjoining lot or building as a result of the proposed building height.**

The proposed SLUP request does not create a negative shadow impact on any adjoining lot or building.

**S. Whether the proposed use would be consistent with the needs of the neighborhood or the community as a whole, be compatible with the neighborhood, and would not be in conflict with the overall objective of the comprehensive plan.**

The proposed use would be consistent with the needs of the neighborhood or the community.

## **COMPLIANCE WITH DISTRICT STANDARDS**

The site zoned R-100 District must comply with minimum development standards per Article 2 – Table 2.2 Residential Zoning Districts Dimensional Requirements of the DeKalb County Zoning Ordinance.

<b>STANDARD</b>	<b>REQUIREMENT</b>	<b>PROPOSED</b>	<b>COMPLIANCE</b>
LOT WIDTH (C-1)	MINIMUM OF 100 FEET ON A PUBLIC STREET FRONTAGE	661 feet of street frontage along Shallowford Road, and approximately 428 feet along Briarcliff Road	YES
LOT AREA (C-1)	15,000 SQUARE FEET	8.08 acres	YES
LOT COVERAGE	Max. 35%	unclear	May need a variance
FRONT BUILDING SETBACK	30 FEET	>30 Feet	YES
FRONT BUILDING SETBACK ON ARTERIALS	35 FEET	>35 Feet	YES
TRANSITIONAL BUFFER Table 5.2(a)	50 feet adjacent to Residential Districts	>50 feet	Yes
HEIGHT	2 stories/35 Feet	2-Story	YES
PARKING Article 6	Max: one space per 20 square feet of assembly area Min: one space per 40 square feet of assembly area	211 parking spaces	YES

### **STAFF RECOMMENDATION:**

The site is located within an Institutional Character Area designated by the DeKalb County 2035 Comprehensive Plan which designate specific areas that provide institutional services that consist of large areas used for religious, civic, educational and governmental purposes. The proposed expansion and redevelopment will not create an adverse impact on the adjoining land uses. Therefore, it is the recommendation of the Planning and Sustainability Department that the Special Land Use Permit (SLUP) for the expanded place of worship on the subject site be APPROVED subject to the following conditions.

1. The approval of this SLUP application by the Board of Commissioners has no bearing on the requirements for other regulatory approvals under the Zoning Board of Appeals, or other entity.
2. That the proposed expansion and redevelopment shall be submitted in substantial conformance with the submitted site plan, dated October 28, 2020.

Zoning comments: 12/14/2020

N1. Constitution Road is classified as a minor arterial. Please see Chapter 5 of the Zoning Code and Section 14-190 of the Land Development Code for required improvements. A right of way dedication of 40 feet from centerline or such that all public infrastructure is on right of way, whichever greater, is required. Requires a 6 foot sidewalk, a 10 foot planting strip, bike lanes (or multiuse path) and street lighting along all property frontages at permitting. You may want to check whether this goes against the planning efforts in the DeKalb County SDAT Report Plan to limit trucks on Bouldercrest Road.

N2. Mercer University Drive and Flowers Road are both classified as collector roads. . Please see Chapter 5 of the Zoning Code and Section 14-190 of the Land Development Code for required improvements. A right of way dedication of 40 feet from centerline or such that all public infrastructure is on right of way, whichever greater, is required. Requires a 6 foot sidewalk, a 10 foot planting strip, bike lanes (or multiuse path) and street lighting along all property frontage at permitting. Coordination is required with GDOT Project PI No. 0015646. Dedicate necessary right of way and easements needed for bridge construction.

N3. Rock Chapel Road is classified as a major arterial and state route. GDOT review and permits required, including updated traffic signal permit, prior to receiving permit. Requesting a traffic study to include all phases with proposed land uses. Please see Chapter 5 of the Zoning Code and Section 14-190 of the Land Development Code for required improvements. A right of way dedication of 50 feet from centerline or such that all public infrastructure is on right of way, whichever greater, is required. Requires a 6 foot sidewalk, a 10 foot planting strip, bike lanes (or multiuse path) and street lighting along all property frontage at permitting.

N4. No comments

N5 & N6. Flat Shoals Pkwy is classified as a major arterial and state route. GDOT review and permits required prior to receiving permit. Please see Chapter 5 of the Zoning Code and Section 14-190 of the Land Development Code for required improvements. A right of way dedication of 50 feet from centerline or such that all public infrastructure is on right of way, whichever greater, is required. Requires a 6 foot sidewalk, a 10 foot planting strip, bike lanes (or multiuse path) and street lighting along all property frontage at permitting. Dedicate right of way to match surrounding parcels. Flakes Mill Road is classified as a minor arterial. . A right of way dedication of 40 feet from centerline or such that all public infrastructure is on right of way, whichever greater, is required. Requires a 6 foot sidewalk, a 10 foot planting strip, bike lanes (or multiuse path) and street lighting along all property frontage at permitting. Limit access points to one access point on each road by closing the access point nearest the intersection.

N7. No comments

N8. Briarcliff Road and Shallowford Road are both classified as minor arterials. Please see Chapter 5 of the Zoning Code and Section 14-190 of the Land Development Code for required improvements. A right of way dedication of 40 feet from centerline or such that all public infrastructure is on right of way, whichever greater, is required. Requires a 6 foot sidewalk, a 10 foot planting strip, bike lanes (or multiuse path) and street lighting along all property frontage at permitting.

N9. Covington Hwy is classified at a major arterial and state route. GDOT review and permits required prior to receiving permit. Please see Chapter 5 of the Zoning Code and Section 14-190 of the Land Development Code for required improvements. A right of way dedication of 50 feet from centerline or such that all public infrastructure is on right of way, whichever greater, is required. Requires a 6 foot sidewalk, a 10 foot planting strip, bike lanes (or multiuse path) and street lighting along all property frontage at permitting.

N10. North Druid Hill is classified as a major arterial. Please see Chapter 5 of the Zoning Code and Section 14-190 of the Land Development Code for required improvements. A right of way dedication of 50 feet from centerline or such that all public infrastructure is on right of way, whichever greater, is required. Requires a 6 foot sidewalk, a 10 foot planting strip, bike lanes (or multiuse path- preferred) and street lighting along all property frontage at permitting.

## DEKALB COUNTY GOVERNMENT PLANNING DEPARTMENT DISTRIBUTION FORM

The following areas below may warrant comments from the Development Division. Please respond accordingly as the issues relate to the proposed request and the site plan enclosed as it relates to Chapter 14. You may address applicable disciplines.

### DEVELOPMENT ANALYSIS:

- **Transportation/Access/Row**

Consult the Georgia DOT as well as the DeKalb County Transportation Department prior to land development permit. Verify widths from the centerline of the roadways to the property line for possible right-of-way dedication. Improvements within the right-of-way may be required as a condition for land development application review approval. Safe vehicular circulation is required. Paved off-street parking is required.

- **Storm Water Management**

Compliance with the Georgia Stormwater Management Manual, DeKalb County Code of Ordinances 14-40 for Stormwater Management and 14-42 for Storm Water Quality Control, to include Runoff Reduction Volume where applicable is required as a condition of land development permit approval. Use Volume Three of the G.S.M.M. for best maintenance practices. Use the NOAA Atlas 14 Point Precipitation Data set specific to the site. Recommend Low Impact Development features/ Green Infrastructure be included in the proposed site design to protect as much as practicable the statewaters and special flood hazard areas. **The discharge from the stormwater management facility, from the development shall be connected to an existing storm sewer structure to prevent properties downstream from experiencing an increased volume of runoff after construction.**

- **Flood Hazard Area/Wetlands**

The presence of FEMA Flood Hazard Area **was not** indicated in the County G.I.S. mapping records for the site; and should be noted in the plans at the time of any land development permit application. Encroachment of flood hazard areas require compliance with Article IV of Chapter 14 and FEMA floodplain regulations.

- **Landscaping/Tree Preservation**

Landscaping and tree preservation plans for any building, or parking lot must comply with DeKalb County Code of Ordinances 14-39 as well as Chapter 27 Article 5 and are subject to approval from the County Arborist.

- **Tributary Buffer**

State water buffer **was not** reflected in the G.I.S. records for the site. Typical state waters buffer have a 75' undisturbed stream buffer and land development within the undisturbed creek buffer is prohibited without a variance per DeKalb County Code of Ordinances 14-44.1.

- **Fire Safety**

Plans for land development permit must comply with Chapter 12 DeKalb County Code for fire protection and prevention.

Board of Health

12/14/2020

To: Mr. John Reid, Senior Planner  
From: Ryan Cira, Environmental Health Manager  
Cc: Alan Gaines, Technical Services Manager  
Re: Rezone Application Review

General Comments:

DeKalb County Health Regulations prohibit use of on-site sewage disposal systems for:

- multiple dwellings
- food service establishments
- hotels and motels
- commercial laundries
- funeral homes
- schools
- nursing care facilities
- personal care homes with more than six (6) clients
- child or adult day care facilities with more than six (6) clients
- residential facilities containing food service establishments

If proposal will use on-site sewage disposal, please contact the Land Use Section (404) 508-7900.

Any proposal, which will alter wastewater flow to an on-site sewage disposal system, must be reviewed by this office prior to construction.

This office must approve any proposed Food Service Operations, Tourist Accommodations, Body Art Studios, Swimming Pools and Water Parks prior to starting construction.

Public health recommends the inclusion of sidewalks to continue a preexisting sidewalk network or begin a new sidewalk network. Sidewalks can provide safe and convenient pedestrian access to a community-oriented facility and access to adjacent facilities and neighborhoods.

For a public transportation route, there shall be a 5ft. sidewalk with a buffer between the sidewalk and the road. There shall be enough space next to sidewalk for bus shelter's concrete pad installation. Recommendation: Provide trash can with liner at each bus stop with bench and monitor for proper removal of waste.

Since DeKalb County is classified as a Zone 1 radon county, this office recommends the use of radon resistant construction.

Please provide additional information relating to the following statement.

According to studies conducted by the Institute of Traffic Engineers (ITE) 6/7<sup>TH</sup> Edition (whichever is applicable), churches generate an average of fifteen (15) vehicle trip end (VTE) per 1,000 square feet of floor area, with an eight (8%) percent peak hour factor. Based on the above formula, the \_\_\_\_\_ square foot place of worship building would generate \_\_\_\_\_ vehicle trip ends, with approximately \_\_\_\_\_ peak hour vehicle trip ends.

Single Family residence, on the other hand, would generate ten (10) VTE's per day per dwelling unit, with a ten (10%) percent peak hour factor. Based on the above referenced formula, the \_\_\_\_\_ (Single Family Residential) District designation which allows a maximum of \_\_\_\_\_ units per acres, and the given fact that the project site is approximately \_\_\_\_\_ acres in land area, \_\_\_\_\_ daily vehicle trip end, and \_\_\_\_\_ peak hour vehicle trip end would be generated with residential development of the parcel.

COMMENTS:

Field and plans reviewed. Nothing found that would disrupt traffic flow.

## I. INTRODUCTION

This Application seeks a Special Land Use Permit to allow an existing church that was damaged by fire to be rebuilt and expanded. The church, known as The Church in Atlanta (the “Church”<sup>1</sup>), is on a ±8.088 acre tract of land located in Land Lots 232 and 233, 18th District, DeKalb County, known as 2345 Shallowford Road (the “Subject Property”). The Subject Property contains a ±21,509 square foot (sf) structure, parking lots, and associated improvements. The building houses the congregation for the Church, a non-denominational Christian church. The Subject Property is zoned R-100 which allows a place of worship through a Special Land Use Permit (SLUP). The Applicant is unaware of any previous SLUP approvals for the Subject Property, however it has been actively used as a place of worship for at least 43 years.<sup>2</sup>

The Church constructed the building in 1977 and has continuously used it as its place of worship since that time. On June 21, 2020, however, a vandal started a fire that damaged a portion of the building and caused extensive smoke and water damage throughout. The fire was limited to the rear of the building, damaging that part of the structure and leaving a large hole in the roof that is now temporarily protected by a tarpaulin. The bigger issue, however, was water damage from the fire sprinklers and fire hoses, which affected most of the interior. Due to the extensive nature of the damage, the Church cannot use any part of the building and must renovate it entirely before reopening.

In addition to addressing the damage to the structure, the Church is taking this

---

<sup>1</sup> The term “Church” will be used herein to describe both the organization and the building.

<sup>2</sup> The current church use began in 1977 and pre-dates the DeKalb County Zoning Ordinance’s SLUP requirement for such uses.

opportunity improve the building. The proposed improvements include a  $\pm 1,835$  sf expansion to the first floor of the building, the addition of an  $\pm 11,450$  sf second floor, and the addition of  $\pm 71$  parking spaces. These improvements necessitate the approval of a SLUP and the instant application.

In particular, the Applicant seeks to improve the functionality of the existing structure, largely gained through a proposed second floor.<sup>3</sup> The existing building does not have a formal second floor, but has a small, mezzanine-level room for the audio/visual equipment overlooking the main congregation area. All the other church functions are currently held on the main floor, including congregational areas, church offices and Sunday school classrooms. The addition of the second floor will allow the children's Sunday school classes to be moved upstairs along with an improved audio/visual room for the Sunday meetings. This will free up space on the first floor to be used as church offices, reading rooms, and/or small gathering rooms. The Church is also proposing a  $\pm 1,821$  sf addition to the first floor that will contain small study rooms, a bookroom, and a service office. Finally, the Church will be upgrading the exterior architecture to make it more aesthetically pleasing, as well as adding unlit sports amenities in the rear of the property. It is important to note that the proposed improvements do not include expanding the main assembly area, which does not contain fixed seating.

In addition to the building improvements, the Church seeks to expand its parking which does not meet its current needs or the minimum required by DeKalb County Code. The Church currently holds three regular, weekly meetings at the building: a Sunday morning congregational gathering, a Sunday evening ministry message, and a prayer night on Wednesdays. The Sunday

---

<sup>3</sup> The proposed  $\pm 11,450$  sf second floor is not an entire floor, but less than half of the first floor footprint.

morning gathering has the largest attendance with around 300 congregants, while attendance at the other meetings is closer to 50 to 100 people. The Church also hosts a regional conference once a year. Currently, the Church is under parked with 140 parking spaces located on either side of the building.<sup>4</sup> This is insufficient to accommodate the vehicles for the Sunday morning gatherings and often leads to parishioners parking in the grassed area along Shallowford Road. To alleviate the parking situation, the Applicant is proposing the addition of 71 parking spaces in the grassed area where congregants currently park, which will also bring the Church into compliance with the DeKalb County Code's parking requirements.

These improvements will be a welcome addition to the Church, which has been a long-standing member of the community. Throughout its 43 years of existence on the Subject Property, the Church has co-existed in harmony with the surrounding neighborhood. The Subject Property is located in a predominantly residential area, but directly abuts no housing. Other places of worship are nearby, as well as a park. To the north is the Shallowford Presbyterian Church, zoned R-100; to the east is Mary Scott Park, owned by DeKalb County and zoned R-100; to the south is the right-of-way of Briarcliff Road; and to the west is the right-of-way of Shallowford Road. Further out are more R-100 districts, including single family residential lots in the Flair Forest subdivision to the north of Shallowford Presbyterian Church; to the east, beyond Mary Scott Park, is the Brookdale Park single family subdivision; to the south, across Briarcliff Road, is the Globe Academy school (formerly the Briarcliff Methodist Church); and to the west, across Shallowford Road, are single family residences within the Eco Hills subdivision.

---

<sup>4</sup>DeKalb County Code of Ordinances § 6.1.4 requires one (1) space for each forty (40) square feet of floor space in the largest assembly room, which equates to 209 parking spaces.

Importantly, the Applicant is not pursuing the instant SLUP to fit a new use onto the property, but rather to continue a use that has existed within the community for decades. The Applicant submits this document as a Statement of Intent with regard to its Application, a preservation of the Applicant's constitutional rights, and a written justification for the proposed SLUP as required by the DeKalb County Code of Ordinances ("Zoning Code"), §§ 27-7.4.6 and 27-4.2.42.

## **II. CRITERIA TO BE APPLIED TO SPECIAL LAND USE PERMITS**

- A. Adequacy of the size of the site for the use contemplated and whether or not adequate land area is available for the proposed use including provision of all required yards, open space, off-street parking, and all other applicable requirements of the zoning district in which the use is proposed to be located.**

The Subject Property is ±8.088 acres, which is more than adequate land area for the proposed use and the proposed building expansion, including the provision of all required yards, open space, off-street parking, and all other applicable requirements of the R-100 district in which the use is proposed to be located. The fact that the Subject Property has contained a church use for the past 43 years points to the appropriateness of the site.

- B. Compatibility of the proposed use with adjacent properties and land uses and with other properties and land uses in the district.**

The church use is appropriate given the surrounding land uses. As noted above, the Church abuts no residentially-used property. Further, and although there are some neighborhoods in general proximity, residential areas are typically interspersed with certain civic and institutional uses such as schools, parks and churches. Indeed, churches are an integral part of residential communities and are often found in proximity to single family residential. For that reason, DeKalb County allows church uses in almost all residential zoning districts with a

SLUP.<sup>5</sup>

**C. Adequacy of public services, public facilities, and utilities to serve the proposed use.**

The Subject Property is currently served by water and sewer and access to other public services and facilities. It is anticipated that there will be adequate service for the proposed expansion.

**D. Adequacy of the public street on which the use is proposed to be located and whether or not there is sufficient traffic-carrying capacity for the use proposed so as not to unduly increase traffic and create congestion in the area.**

According to the ITE Trip Generation Manual, the ±13,271 sf church expansion<sup>6</sup> (ITE category 560, Church) will generate a net increase of 11.55 trips during the weekday A.M. peak hour, 12.47 trips during the weekday P.M. peak hour, 120.90 trips on a weekday, and 486.12 trips on a Sunday. The surrounding roadways are adequate to handle the amount of traffic coming from the Church, particularly given that the roads have accommodated the Church's traffic for over 43 years. Moreover, while the proposed expansion is adding more area to the Church building, it is not expected to increase the number of congregants coming to the Church. In reality, the proposed expansion may not cause any additional vehicular trips beyond the current situation.

Regardless, Briarcliff Road and Shallowford Road are classified as a minor arterials per the DeKalb County Recommended Functional Classification Map, which indicates that these roadways are intended to accommodate large amounts of vehicular traffic. Consequently, if

---

<sup>5</sup> Only the Mobile Home Park (MHP) district does not allow a place of worship use.

<sup>6</sup> The trips from the existing church are already carried by the surrounding roadways and therefore only the net increase of the expansion is analyzed.

additional trips are generated by the proposed expansion, they will have little to no noticeable impact on the adjacent roadways.

Moreover, the peak traffic is on Sunday mornings during the Church's main service and significantly less throughout the week. Sunday mornings are not typically times of heavy traffic volumes for roadways and consequently when the Church will have its largest traffic impact, the adjacent roadways will have significantly lower volumes.

**E. Whether or not existing land uses located along access routes to the site will be adversely affected by the character of the vehicles or the volume of traffic generated by the proposed use.**

The Subject Property is located directly on Briarcliff Road and Shallowford Road with existing curb cuts on each. The Church will continue to utilize the existing curb cuts which adequately serve the property. Also, as stated in the paragraphs above, the proposed expansion is not anticipated to generate much, if any, any additional traffic and the adjacent arterial roadways have sufficiently accommodated vehicular traffic from the existing church for over four decades.

**F. Ingress and egress to the subject property and to all proposed buildings, structures, and uses thereon, with particular references to pedestrian and automotive safety and convenience, traffic flow and control, and access in the event of fire or other emergency.**

The Subject Property is served by two curb cuts which will remain after the renovation of the site. These same curb cuts adequately serve the existing Church and a significant increase, if any, in vehicles and pedestrians entering/exiting the site is not anticipated. Therefore, there will be adequacy of ingress and egress to the Subject Property and to all proposed buildings, structures, and uses thereon, with particular reference to pedestrian and automotive safety and convenience, traffic flow and control, and access in the event of fire, or other emergency.

**G. Whether or not the proposed use will create adverse impacts upon any**

**adjoining land use by reason of noise, smoke, odor, dust, or vibration generated by the proposed use.**

No. As stated in previous paragraphs, the Subject Property is bordered by a similar church use to the north, a park to the east, and right-of way on the remaining two sides. The Church holds its services inside and generates little to no noise, smoke, odor, dust, or vibrations. Further, the Applicant does not anticipate any significant change in conditions after the proposed renovations.

**H. Whether or not the proposed use will create adverse impacts upon any adjoining land use by reason of the hours of operation of the proposed use.**

No. The proposed hours of operation for the Church are compatible and complementary to with the surrounding uses. Additionally, the Church is not contemplating any change in its hours of operation after the grant of the SLUP.

**I. Whether or not the proposed use will create adverse impacts upon any adjoining land use by reason of the manner of operation of the proposed use.**

No. As noted in the paragraphs above, the existing Church has been in operation for over 43 years and has existed in harmony with the surrounding neighborhood.

**J. Whether or not the proposed plan is consistent with all of the requirements of the zoning district classification in which the use is proposed to be located.**

Yes. The Subject Property is zoned R-100 and a place of worship is allowed in that district subject to the grant of a SLUP. The proposed building expansion will be compliant with the R-100 building setbacks and height requirements. However, the Applicant anticipates the need for a variance to increase the lot coverage beyond the 35% maximum allowed by R-100 to 38.7%.

**K. Whether or not the proposed use is consistent with the policies of the Comprehensive Plan.**

The Subject Property is designated as “Institutional” (INS) by the County’s Comprehensive Land Use Plan (“Comp Plan”). The intent of the INS character area is to designate specific areas to provide institutional services. The Comp Plan expressly notes churches and religious institutions as one of the primary uses in the INS character area. Accordingly, the proposed use is fully allowed within this character area, and promotes the following specific goals and strategies of the County’s Land Use Plan.

- Compatibility—Ensure that institutional land is compatible with adjacent uses.
- Buffer—Use landscaping and other buffering to separate developments from surrounding uses.
- Aesthetics—Create and implement performance and aesthetic standards to protect adjacent properties.

**L. Whether or not the proposed plan provides for all required buffer zones and transitional buffer zones where required by the regulations of the district in which the use is proposed to be located.**

Yes. The proposed improvements will adhere to the site dimensional and landscaping requirements prescribed by the DeKalb County Code of Ordinances for the R-100 district.

**M. Whether or not there is adequate provision of refuse and service areas.**

Yes. The refuse and service areas will remain in the same configuration as currently exist onsite.

**N. Whether the length of time for which the special land use permit is granted should be limited in duration.**

No. The proposed use is a permanent use and a time limitation is neither necessary nor

appropriate.

**O. Whether or not the size, scale and massing of proposed buildings are appropriate in relation to the size of the subject property and in relation to the size, scale and massing of the adjacent and nearby lots and buildings.**

Yes. The existing structure is of adequate size for the proposed use and is consistent with the size and scale of other surrounding churches.

**P. Whether the proposed plan will adversely affect historic buildings, sites, districts, or archaeological resources.**

No. The existing building is not historic and the proposed improvements will not adversely affect historic buildings, sites, districts, or archaeological resources.

**Q. Whether the proposed use satisfies the requirements contained within the Supplemental Regulations for such special land use permit.**

Yes. The church meets the supplemental requirements of Zoning Code § 27-4.2.42. Specifically, it will meet the following:

- (a) The Church building not be located within 50 feet of a residentially zoned property; also, the building will be more than 20 feet from the side non-residential uses and more than 30 feet from the rear non-residential use.
- (b) The required setback from any street right-of-way shall be the front-yard setback for the R-100 district (40' setback).
- (c) The parking areas and driveways for any such uses shall be located at least twenty (20) feet from any property line, with a visual screen, provided by a six-foot-high fence or sufficient vegetation established within that area. A portion of the proposed drive will be within 20-feet of the right-of-way of Shallowford Road, however all other parking areas, including all parking spaces, will be more than 20 feet from the

property lines. The Applicant is anticipating a variance to this requirement.

- (d) The Church is located on a lot greater than 3 acres ( $\pm 8.088$  ac) and has a frontage of more than 100 feet (205.68 feet on Briarcliff Road and 315.10 feet on Shallowford Road).
- (e) Both Briarcliff Road and Shallowford Road are classified as minor arterials per the DeKalb County Recommended Functional Classification Map.
- (f) There are no other buildings or structures operated by the Church on the property that are not a place of worship.

**R. Whether or not the proposed building as a result of its proposed height will create a negative shadow impact on any adjoining lot or building.**

There will be no negative shadow impact on any adjoining lot. The proposed second-story addition's proposed 26-foot height will still be below the 35-foot maximum building height for the R-100 district. Also, given the size, location, trees, and distance, the proposed church addition will not create a negative shadow impact on any adjoining lot or building.

**S. Whether the proposed use would be consistent with the needs of the neighborhood or the community as a whole, be compatible with the neighborhood, and would not be in conflict with the overall objective of the comprehensive plan.**

As noted in the paragraphs above, the Subject Property has been used a place of worship since 1977 and has existed harmoniously with the surrounding community. Furthermore, the Comprehensive Plan identifies the Subject Property for institutional uses, including a church.

### **III. PRESERVATION OF CONSTITUTIONAL RIGHTS**

As owner of the property, the Applicant respectfully submits that the current zoning classification of and rules relative to a place of worship's right to use the Subject Property

established in the DeKalb County Zoning Ordinance, to the extent they prohibit this use, are unconstitutional, and constitute an arbitrary, irrational abuse of discretion and unreasonable use of the zoning power because they bear no substantial relationship to the public health, safety, morality or general welfare of the public and substantially harm the Property owners in violation of the due process and equal protection rights of the property owner guaranteed by the Fifth Amendment and Fourteenth Amendment of the Constitution of the United States, and Article I, Section I, Paragraph I and Article I, Section III, Paragraph I of the Constitution of the State of Georgia. Further, the failure to allow this use would constitute a taking of the owner's private property without just compensation and without due process in violation of the Fifth Amendment and Fourteenth Amendment of the Constitution of the United States, and Article I, Section I, Paragraph I and Article I, Section III, Paragraph I of the Constitution of the State of Georgia.

Further, the Applicant respectfully submits that the Board of Commissioners' failure to approve the requested Special Land Use Permit would be unconstitutional and would discriminate in an arbitrary, capricious and unreasonable manner between the Property Owner and owners of similarly situated property in violation of Article I, Section III, Paragraph I of the Constitution of the State of Georgia and the Equal Protection Clause of the Fourteenth Amendment of the Constitution of the United States.

A refusal to allow the development in question would be unjustified from a fact-based standpoint and instead would result only from constituent opposition, which would be an unlawful delegation of authority in violation of Article IX, Section II, Paragraph IV of the Georgia Constitution.

A refusal to allow the development in question would be invalid inasmuch as it would be

denied pursuant to an ordinance which is not in compliance with the Zoning Procedures Law, O.C.G.A. § 36-66-1 et seq., due to the manner in which the Ordinance as a whole and its map(s) have been adopted.

Opponents to this request lack standing, have failed to exhaust administrative remedies, and have waived their rights to appeal by failing to assert legal and constitutional objections.

The proposed use at issue in this Special Land Use Permit is a church that will house a religious assembly protected by the Religious Land Use and Institutionalized Persons Act of 2000. A denial of this Special Land Use Permit will impose a substantial burden on the religious assembly's free exercise and will result in disparate treatment of a religious institution in violation of the Religious Land Use and Institutionalized Persons Act of 2000 of the United States.

#### **IV. CONCLUSION**

For the foregoing reasons, the Applicant respectfully requests that the Special Land Use Permit at issue be approved. The Applicant also invites and welcomes any comments from Staff or other officials of DeKalb County so that such recommendations or input might be Incorporated as conditions of approval of this Application.

This 29 day of October, 2020.

Respectfully submitted,

Dennis J. Webb, Jr.

Kathryn M. Zickert

Re: Community Meeting – Special Land Use Permit

Dear Neighbor:

You are receiving this notification because you are a property owner within 500 feet of 2345 Shallowford Road. The Church in Atlanta, Inc. will be submitting a Special Land Use Permit Application to DeKalb County to reactivate a church use for the property, which was impacted by a recent fire. A community meeting has been scheduled to inform the surrounding property owners about the proposed project, and to allow them to ask questions, present concerns, and make suggestions. Due to the current COVID-19 situation, the community meeting will be held via webconference as follows:

Time: Wednesday, October 28, 2020, 7:00 pm

### LEGAL DESCRIPTION

All that tract or parcel of land lying in and being in Land Lot 232 of the 18th District, DeKalb County, Georgia being more particularly described as follows:

Commencing at a 5/8-inch capped rebar set at the westerly end of the curved intersection of the easterly right of way of Shallowford Road (having a variable width, publicly dedicated right of way) and the northwesterly right of way of Briarcliff Road (having a variable width, publicly dedicated right of way), said rebar being the TRUE POINT OF BEGINNING.

Thence leaving said intersection and continuing along said right of way of Shallowford Road the following courses and distances: North 23 degrees 54 minutes 48 seconds West a distance of 276.79 feet to a point; along a curve to the left, said curve having a radius of 1795.41 feet, with an arc distance of 315.10 feet, with a chord bearing of North 27 degrees 58 minutes 45 seconds West and a chord length of 314.70 feet to a point; Thence leaving said right of way of Shallowford Road North 67 degrees 41 minutes 55 seconds East a distance of 465.60 feet to a point; Thence South 89 degrees 03 minutes 16 seconds East a distance of 452.18 feet to a point; Thence South 42 degrees 34 minutes 41 seconds West a distance of 81.58 feet to a point; Thence South 31 degrees 55 minutes 30 seconds West a distance of 189.96 feet to a point; Thence South 19 degrees 25 minutes 52 seconds West a distance of 256.55 feet to a point on said right of way of Briarcliff Road; Thence continuing along said right of way of Briarcliff Road the following courses and distances: along a curve to the left, said curve having a radius of 680.00 feet, with an arc distance of 288.59 feet, with a chord bearing of South 50 degrees 53 minutes 23 seconds West and a chord length of 286.43 feet to a point; North 32 degrees 40 minutes 05 seconds West a distance of 9.00 feet to a point; along a curve to the left, said curve having a radius of 680.00 feet, with an arc distance of 52.01 feet, with a chord bearing of South 37 degrees 02 minutes 55 seconds West and a chord length of 52.00 feet to a point; South 48 degrees 46 minutes 08 seconds West a distance of 55.63 feet to a point on the easterly end of the curved intersection of the easterly right of way of Shallowford Road and the northwesterly right of way of Briarcliff Road; Thence continuing along said curved intersection along a curve to the right, said curve having a radius of 50.00 feet, with an arc distance of 97.97 feet, with a chord bearing of North 80 degrees 02 minutes 49 seconds West and a chord length of 83.03 feet to a point, said point being the TRUE POINT OF BEGINNING.

Said tract of land contains 8.088 acres (352,325 square feet).

PROJECT NO.: 20-4507  
 CIVIL DRAWN BY: CRH  
 CIVIL DESIGNED BY: MDV  
 LANDSCAPE DRAWN BY:  
 CHECKED BY:  
 DATE: 10-28-2020

**OPTION 2 DESIGN CONCEPT:**

- TWO PRIMARY ELEVATION STYLES
- "A" HAS STOREFRONT FENESTRATION APPEARANCE AND A HIGHER STONE BASE
- "B" HAS INDIVIDUAL FIXED WINDOWS WITH SOME SPACING BETWEEN EACH AND A LOWER STONE BASE
- THE TWO WINGS HAVE A LOWER ROOF BECAUSE OF CEILING HEIGHTS ALTHOUGH THEY STICK OUT FURTHER THAN THE MAIN ENTRY
- THE MAIN ENTRY IS RECESSED IN THIS SCHEME TO ENLARGE THE COURTYARD IN FRONT AND CREATE A GRANDER ENTRY. IT HAS A FLAT METAL CANOPY THAT IS TIED TO THE REAL STONE COLUMNS

1 OPTION 2 ELEVATION  
1/16" = 1'-0"
