COMMISSION DISTRICT(S): Commission District 03; Super District 07 Application of Griffin & Davis Consulting, Inc. Rezone property from R-75 (Residential Medium Lot - 75) to MR-1 (Medium Density Residential-1) to allow for development of single-family attached townhomes, at 1484 Columbia Drive. PETITION NO: N9. Z-21-1245080 (2021-2910)

PROPOSED USE: Single-family attached townhomes.

LOCATION: 1484 Columbia Drive, Decatur, Georgia 30032

PURPOSE:

Application of Griffin & Davis Consulting, Inc. Rezone property from R-75 (Residential Medium Lot - 75) to MR-1 (Medium Density Residential-1) to allow for development of single-family attached townhomes. The property is located on the east side of Columbia Drive, approximately 337 feet north of Columbia Circle, at 1484 Columbia Drive (a.k.a. 1500 Columbia Drive), and the rear of 1512 Columbia Drive on the east side of Columbia Drive), and the rear of 1512 Columbia Drive on the east side of Columbia Drive approximately 237 feet north of Columbia Circle at 1520 Columbia Circle, Decatur, Georgia. The property has approximately 406 feet of frontage on Columbia Circle (1484 Columbia Drive) and no frontage (1520 Columbia Circle) and contains 2.79 acres.

<u>RECOMMENDATION:</u> COMMUNITY COUNCIL: Approval.

PLANNING COMMISSION: Denial.

PLANNING STAFF: Denial.

STAFF ANALYSIS: The proposed development does not have a traditional neighborhood character, described in the 2021 Comprehensive Plan Update as having some or all of the following characteristics, compared to other residential character areas: more grid -like street patterns, on - street parking, small, regular lots, and buildings closer to the front property line. Nor does it have "increased pedestrian access to retail and other activities" envisioned for a Traditional Neighborhood character area and described in TN Policy No. 2. The application does not provide enough details about the proposed amenity area to determine whether it would be compatible with the single-family properties that adjoin it on four sides. In addition, narrower than required buffers around the edges of the property might be insufficient to mitigate the effects of the three-story heights of the proposed townhomes on adjacent properties. Finally, single-family homes are currently under 100 feet from the subject property indicate that there is a viable market for the single-family residential development under the existing R-75 zoning. Therefore, the recommendation of the Department of Planning and Sustainability is "Denial".

PLANNING COMMISSION VOTE: Denial 9-0-0. Vivian Moore moved, LaSonya Osler seconded for Denial, per Staff recommendation.

COMMUNITY COUNCIL VOTE/RECOMMENDATION: Approval 5-3-1. Support was based on precedent established by a nearby townhome development and confidence in County requirements for stormwater detention. Other Board members and some neighbors voiced concerns about the proposed detention facility and townhome heights, as well as the impact of both on surrounding single-family properties. Some neighbors expressed support for the increased density of the proposal as envisioned by a plan for the Glenwood-Columbia Drive area.

Based on DeKalb County records, it appears that the R-75 zoning of the property has not changed since adoption of the first zoning ordinance and map in 1956.

SITE AND PROJECT ANALYSIS

The subject property is a 2.79-acre site comprised of two parcels: 1484 Columbia Drive, a 2.51- acre (109,335 square foot) parcel that fronts on Columbia Drive, and 1520 Columbia Circle, which is a .22-acre (9,578 square foot), land-locked parcel that shares a portion of 1484 Columbia Drive's southeastern property line. Columbia Drive is a four-lane minor arterial. A traffic signal is located on Columbia Drive, where the southeastern property line of the subject property intersects with the Columbia Drive right-of-way. The center of 1484 Columbia Drive is mowed grass with several mature trees; thickly growing trees and underbrush border the parcel, especially on its east side where 1520 Columbia Circle adjoins it. 1520 Columbia Circle is wooded. The topography slopes very gradually to the southeast so that 1520 Columbia Circle is approximately 10- feet lower than the center of 1484 Columbia Drive.

The property is located on the western edge of a large single-family residential district, which extends for approximately one mile to the northeast and is zoned R-75. Residential neighborhoods, also zoned R-75, are located across Columbia Drive to the west. Properties to the northwest of the subject property, on the west side of Columbia Drive, were assembled and rezoned in 2018 to MR-2 (Medium-Density Residential-2) for a townhome development called Lauren Park. At the same time, the assemblage was re-designated as TC (Town Center. Lauren Park has been developed on a portion of the assemblage located behind a single-family residential property with frontage on Columbia Drive, occupied with a single-family house, and zoned R-75. An access easement for a private drive provides vehicular access from Columbia Drive and across the R-75 property to Lauren Park. The other portion of the MR-2 assemblage fronts on Columbia Drive. It has not been redeveloped and is still occupied with a single-family house.

The proposal under consideration is for a 30-unit townhome development with a density of 10.75 units per acre. Two access points from Columbia Drive and a 28-foot-wide internal private drive provide vehicular access to the units. One of three proposed buildings faces Columbia Drive and has rear-loaded garages; the other two buildings have front-loaded garages and face the internal private drive. 1550 Columbia Circle, now a separate parcel, is proposed to be combined with 1484 Columbia Drive and used for an underground detention facility and above-ground amenity area; no details are provided about the amenity area. The site plan indicates that a walkway and landscape strip would be constructed in front of the building that faces Columbia Drive, between two segments of the private drive, and that 5-foot sidewalks and landscape strips would be provided along some of the sides of the private drive; however, these sidewalks are not linked to provide continuous pedestrian circulation throughout the site or to the existing sidewalk along Columbia Drive.

LAND USE AND ZONING ANALYSIS

Section 27-7.3.5 of the Zoning Ordinance, "Standards and factors governing review of proposed amendments to the official zoning map" states that the following standards and factors shall govern the review of all proposed amendments to the zoning maps.

A. Whether the zoning proposal is in conformity with the policy and intent of the comprehensive plan:

The applicant has filed a companion application to the rezoning proposal under consideration in this report, to amend the Future Land Use Map from Suburban (SUB) to Traditional Neighborhood (TN).

The proposed development does not have a traditional neighborhood character, which is described in the *2021 Comprehensive Plan Update* as having some or all of the following characteristics, compared to other residential character areas: more grid-like street patterns, on-street parking, small, regular lots, and buildings closer to the front property line. Nor does it have "increased pedestrian access to retail and other activities" envisioned for a Traditional Neighborhood character area and described in TN Policy No. 2. While Traditional Neighborhood character area policy No. 7 supports "new well-designed, small-scale infill multifamily residences to increase neighborhood density and income diversity", the developer has presented the development as market-rate housing and has not shown how an increase in density would benefit the surrounding neighborhood at the selected location. Specifically, the proposed development is inconsistent with the following policies of the 2021 Comprehensive Plan Update for the Traditional Neighborhood character area:

Policy No. 15: Density - Promote moderate density, traditional neighborhood development style residential subdivisions, which may utilize alley ways and rear vehicular access.

Policy No. 12: Bicycle and Pedestrian - Encourage good vehicular and pedestrian/bike connections to retail/commercial services as well as internal street connectivity, connectivity to adjacent properties/ subdivisions, and multiple site access points.

B. Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby properties:

The application does not provide enough details about the proposed amenity area to determine whether it would be compatible with the single-family properties that adjoin it on four sides. It is not possible to conclude whether the zoning proposal is suitable in view of the single-family residential use of adjacent and nearby single-family residential properties.

C. Whether the property to be affected by the zoning proposal has a reasonable economic use as currently zoned:

Single-family homes are currently under construction at 1520 and 1528 Columbia Drive, 100 feet from the subject property, indicating that there is a viable market for the single-family residential development possible under the existing R-75 zoning. Many of the homes along Columbia Drive near the subject property are large and appear well-maintained, showing evidence of ongoing investment in the single-family housing type.

D. Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property:

The site plan shows narrower transitional buffers along the edges of the development site than the required minimum 30-foot buffers. As the buffers are important to mitigate the effects of the three-story heights of the proposed townhomes on adjacent properties, there is a possibility that the proposed development would affect the usability of nearby properties.

E. Whether there are other existing or changing conditions affecting the use and development of the property, which give supporting grounds for either approval or disapproval of the zoning proposal:

The Lauren Park townhome development is located across Columbia Drive to the northwest. However, the zoning connection between the subject property and the Lauren Park development is incomplete. Columbia Drive, a four-lane major arterial, forms a boundary between the R-75 zoning of the neighborhoods on its east side and the R-75 and MR-2 zoning on its west side. In addition, because a portion of the Lauren Park assemblage has not been redeveloped and is still occupied with a single-family house, only single-family homes are located on the west side of Columbia Drive, directly across Columbia Drive from the subject property and along Columbia Drive up to the front entranceway of Lauren Park townhomes. Thus, there is little visual or land use connection between the Lauren Park development and the proposed townhomes on the subject property.

F. Whether the zoning proposal will adversely affect historic buildings, sites, districts, or archaeological resources:

No historic buildings, sites, districts, or archaeological resources are located on the property or in the surrounding area.

G. Whether the zoning proposal will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities, or schools:

There has been no indication that the zoning proposal will be burdensome on existing public infrastructure. The County Public Works Department has commented that right turn in, right turn out is recommended for the southernmost access point for the proposed development, because of the proximity of the traffic signal on Columbia Drive to this access point. The School District has commented that neighborhood elementary, middle, and high schools are expected to have capacity for the students that would be generated by the development.

H. Whether the zoning proposal adversely impacts the environment or surrounding natural resources:

The zoning proposal would not have adverse impacts on the environment or surrounding natural resources beyond those that are typical when an undeveloped property is redeveloped.

STAFF RECOMMENDATION: DENIAL.

The proposed development does not have a traditional neighborhood character, described in the 2021 Comprehensive Plan Update as having some or all of the following characteristics, compared to other residential character areas: more grid -like street patterns, on - street parking, small, regular lots, and buildings closer to the front property line. Nor does it have "increased pedestrian access to retail and other

activities" envisioned for a Traditional Neighborhood character area and described in TN Policy No. 2. The application does not provide enough details about the proposed amenity area to determine whether it would be compatible with the single-family properties that adjoin it on four sides. In addition, narrower than required buffers around the edges of the property might be insufficient to mitigate the effects of the three-story heights of the proposed townhomes on adjacent properties. Finally, single-family homes are currently under 100 feet from the subject property indicate that there is a viable market for the single-family residential development under the existing R-75 zoning. Therefore, the recommendation of the Department of Planning and Sustainability is "Denial".

NEXT STEPS

Following an approval of this zoning action, one or several of the following may be required:

- Land Disturbance Permit (Required for of new building construction on non-residential properties, or land disturbance/improvement such as storm water detention, paving, digging, or landscaping.)
- **Building Permit** (New construction or renovation of a building (interior or exterior) may require full plan submittal or other documentation. Zoning, site development, watershed and health department standards will be checked for compliance.)
- **Certificate of Occupancy** (*Required prior to occupation of a commercial or residential space and for use of property for a business. Floor plans may be required for certain types of occupants.*)
- **Plat Approval** (*Required if any parcel is being subdivided, re-parceled, or combined. Issued "administratively"; no public hearing required.*)
- Sketch Plat Approval (Required for the subdivision of property into three lots or more. Requires a public hearing by the Planning Commission.)
- **Overlay Review** (*Required review of development and building plans for all new construction or exterior modification of building(s) located within a designated overlay district.*)
- **Historic Preservation** (A Certificate of Appropriateness is required for any proposed changes to building exteriors or improvements to land when located within the Druid Hills or the Soapstone Geological Historic Districts. Historic Preservation Committee public hearing may be required.)
- Variance (Required to seek relief from any development standards of the Zoning Ordinance. A public hearing and action by the Board of Appeals are required for most variances.)
- **Minor Modification** (*Required if there are any proposed minor changes to zoning conditions that were approved by the Board of Commissioners. The review is administrative if the changes are determined to be minor as described by Zoning Code.*)
- **Major Modification** (*Required submittal of a complete zoning application for a public hearing if there are any proposed major changes to zoning conditions that were approved by the Board of Commissioner for a prior rezoning.*)
- **Business License** (*Required for any business or non-residential enterprise operating in Unincorporated DeKalb County, including in-home occupations).*
- Alcohol License (Required permit to sell alcohol for consumption on-site or packaged for off-site consumption. Signed and sealed distance survey is required. Background checks will be performed.)

Each of the approvals and permits listed above requires submittal of application and supporting documents, and payment of fees. Please consult with the appropriate department/division.

N7. Memorial Drive is a state route. Review and approval of GDOT District 7 is required prior to a land disturbance permit (<u>rmathis@dot.ga.gov</u>) Memorial Drive is classified as a Major Arterial. Infrastructure Requirements: 50 foot right of way dedication from centerline or such that all public infrastructure is within public right of way, whichever greater, 6 foot sidewalk, 4 foot bike lane (or 10 foot multiuse path in lieu of required bike lanes and 6 foot sidewalk), 10 foot landscape strip and street lights. East Anderson Road is classified as a local road. The Land Development Code requires improvements on all property frontages. Infrastructure is within public right of way, whichever greater, 5 foot right of way dedication from centerline or such that all public infrastructure is within public right of way, whichever greater, 5 foot sidewalk, 6 foot landscape strip and street lights. A variance from the Zoning Board of Appeals for the Zoning Code requirements is necessary to eliminate the infrastructure improvements. However, the Transportation Division requires that the right of way dedication of 27.5 feet from centerline be donated- even if ZBA variances for sidewalks, streetlights, etc. are granted. The Land Development Code Section 14-200 (5) requires 3 access points for 170 units. If you propose over 150 units, you will need a variance from the BOC for the Land Development Code prior to approval of the land development permit. You will also need a variance from the BOC if you do not dedicate the right of way on East Anderson Road.

- To: Planning & Sustainability Department
- From: Ryan Cira, Environmental Health Manager
- Cc: Alan Gaines, Technical Services Manager
- Re: Rezone Application Review

General Comments:

DeKalb County Health Regulations prohibit use of on-site sewage disposal systems for

- multiple dwellings
- food service establishments
- hotels and motels
- commercial laundries
- funeral homes
- schools
- nursing care facilities
- personal care homes with more than six (6) clients
- child or adult day care facilities with more than six (6) clients
- residential facilities containing food service establishments

If proposal will use on-site sewage disposal, please contact the Land Use Section (404) 508-7900.

Any proposal, which will alter wastewater flow to an on-site sewage disposal system, must be reviewed by this office prior to construction.

This office must approve any proposed food service operation, tourist accommodation or swimming pool prior to starting construction.

Public health recommends the inclusion of sidewalks to continue a preexisting sidewalk network or begin a new sidewalk network. Sidewalks can provide safe and convenient pedestrian access to a community-oriented facility and access to adjacent facilities and neighborhoods.

For a public transportation route, there shall be a 5ft. sidewalk with a buffer between the sidewalk and the road. There shall be enough space next to sidewalk for bus shelter's concrete pad installation.

Since DeKalb County is classified as a Zone 1 radon county, this office recommends the use of radon resistant construction.

Please provide additional information relating to the following statement.

According to studies conducted by the Institute of Traffic Engineers (ITE) <u>6/7¹¹¹</u> Edition (whichever is applicable), churches generate an average of fifteen (15) vehicle trip end (VTE) per 1, 000 square feet of floor area, with an eight (8%) percent peak hour factor. Based on the above formula, the______square foot place of worship building would generate______vehicle trip ends, with approximately______peak hour vehicle trip ends.

Single Family residence, on the other hand, would generate ten (10) VTE's per day per dwelling unit, with a ten (10%) percent peak hour factor. Based on the above referenced formula, the _____(Single Family Residential) District designation which allows a maximum of _____units per acres, and the given fact that the project site is approximately _____acres in land area, _____daily vehicle trip end, and _____peak hour vehicle trip end would be generated with residential development of the parcel.

I. Background and Introduction

The Dekalb County zoning ordinance Section 27-7.3 authorizes the Board of commissioners to approve applications to Amend Official Zoning Map of DeKalb County Georgia in an individual case, provided such amendment is consistent with the intent and purpose of the ordinance and the "Comprehensive Land Use Plan." This circumstance is applicable to the properties and therefore the reason for this application.

The properties are located at 1484 Columbia Drive and 1520 Columbia Circle and are approximately 2.51 and 0.22 acres respectively. The current Land Use designation is Suburban in the DeKalb County Comprehensive Land Use and are in the R-75 District. On or around March 1st the prospective owner Mr. Chima Nwosu, of Kova Real Estate, LLC (Kova), secured this property by contract and has made no modifications to the property. The property currently contains no habitable structures, a few trees, and is essentially undeveloped. Kova intends to clear the property, enhance the perimeter buffers, if necessary, and develop approximately 34 single-family attached units (Townhomes) known as Columbia Heights Townhomes. The townhomes are expected to be 3-storey with an average size of 1,700 sq.ft.. Kova hereby submits this Application to Amend Official Zoning Map of DeKalb County Georgia.

This document is submitted as Kova's written justification in support of the application request. The application form, a site plans, the properties' legal description, and a location map are submitted with this document.

This request from Kova, is to present an application to amend the Zoning Maps of the properties located at 1484 Columbia, 1520 Columbia Circle from R-75 to MR-1. This amendment is to allow for the development of 34 single-family attached units.

The following standards and factors are found to be relevant to the exercise of the county's zoning powers and shall govern the review of all proposed amendments to the official zoning map.

A. WHETHER THE ZONING PROPOSAL IS IN CONFORMITY WITH THE POLICY AND INTENT OF THE COMPREHENSIVE PLAN.

The DeKalb County 2035 Comprehensive Land Use Plan permits residential 3 story single-family attached townhomes. The proposed development is therefore in conformity with the policy and intent of the comprehensive plan.

B. WHETHER THE ZONING PROPOSAL WILL PERMIT A USE THAT IS SUITABLE IN VIEW OF THE USE AND DEVELOPMENT OF ADJACENT AND NEARBY PROPERTY OR PROPERTIES.

The proposed zoning of MR-1 will allow for the development of townhomes. The development will be 100% residential in concert with all the adjacent residential properties. Furthermore, approximately 500-feet north on Columbia Drive is Lauren Parc, a 71-unit townhome community.

C. WHETHER THE PROPERTY TO BE AFFECTED BY THE ZONING PROPOSAL HAS A REASONABLE ECONOMIC USE AS CURRENTLY ZONED.

The property is currently zoned R-75 and is vacant. R-75 permits single family detached homes with a minimum lot size of 10,000 square feet. While the Property does have a reasonable economic use, the proposed townhomes will be an enhancement to the economic viability of the Property and the community as a whole.

D. WHETHER THE ZONING PROPOSAL WILL ADVERSELY AFFECT THE EXISTING USE OR USABILITY OF ADJACENT OR NEARBY PROPERTY OR PROPERTIES.

The development proposed is 100% residential and is consistent with adjacent properties and the Lauren Parc Townhomes. The rezoning proposal will therefore not adversely affect the existing use or usability of adjacent or nearby properties in the area.

E. WHETHER THERE ARE OTHER EXISTING OR CHANGING CONDITIONS AFFECTING THE USE AND DEVELOPMENT OF THE PROPERTY WHICH GIVE SUPPORTING GROUNDS FOR EITHER APPROVAL OR DISAPPROVAL OF THE ZONING PROPOSAL.

There are no known existing zoning conditions on the property.

F. WHETHER THE ZONING PROPOSAL WILL ADVERSELY AFFECT HISTORIC BUILDINGS, SITES, DISTRICTS, OR ARCHAEOLOGICAL RESOURCES.

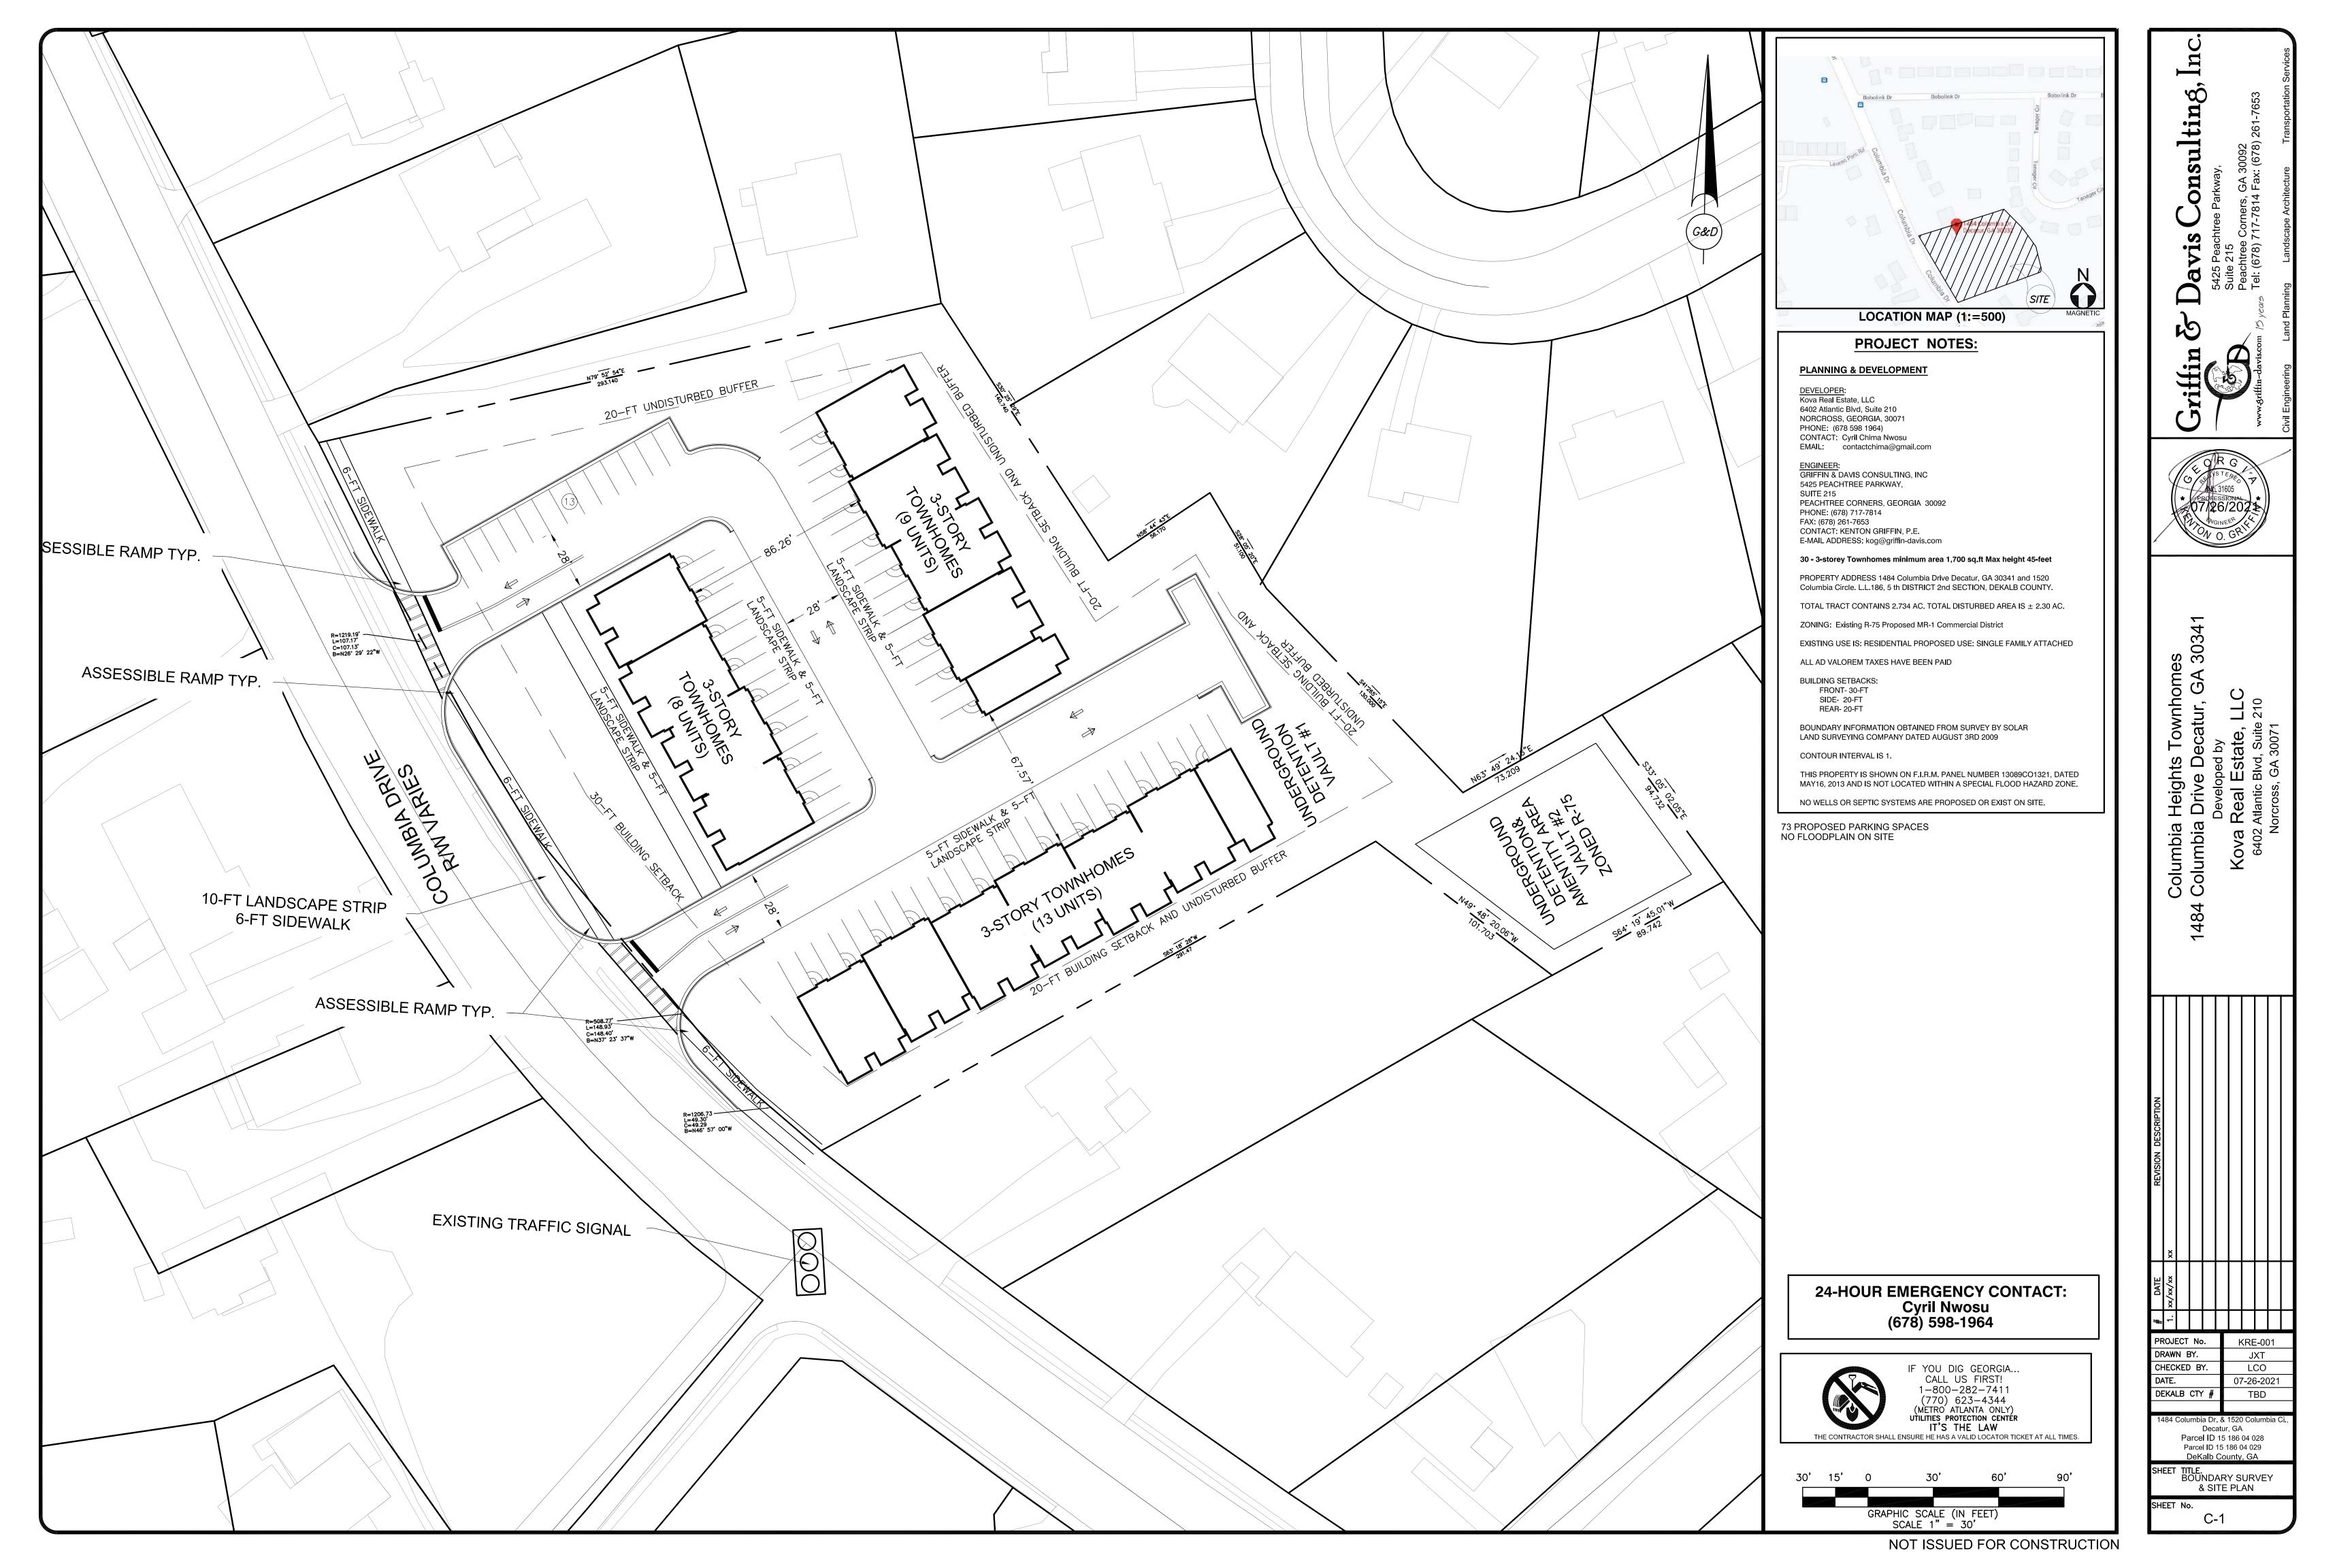

There are no historic buildings on site and there are no known archaeological resources affected by this zoning proposal.

G. WHETHER THE ZONING PROPOSAL WILL RESULT IN A USE WHICH WILL OR COULD CAUSE AN EXCESSIVE OR BURDENSOME USE OF EXISTING STREETS, TRANSPORTATION FACILITIES, UTILITIES, OR SCHOOLS.

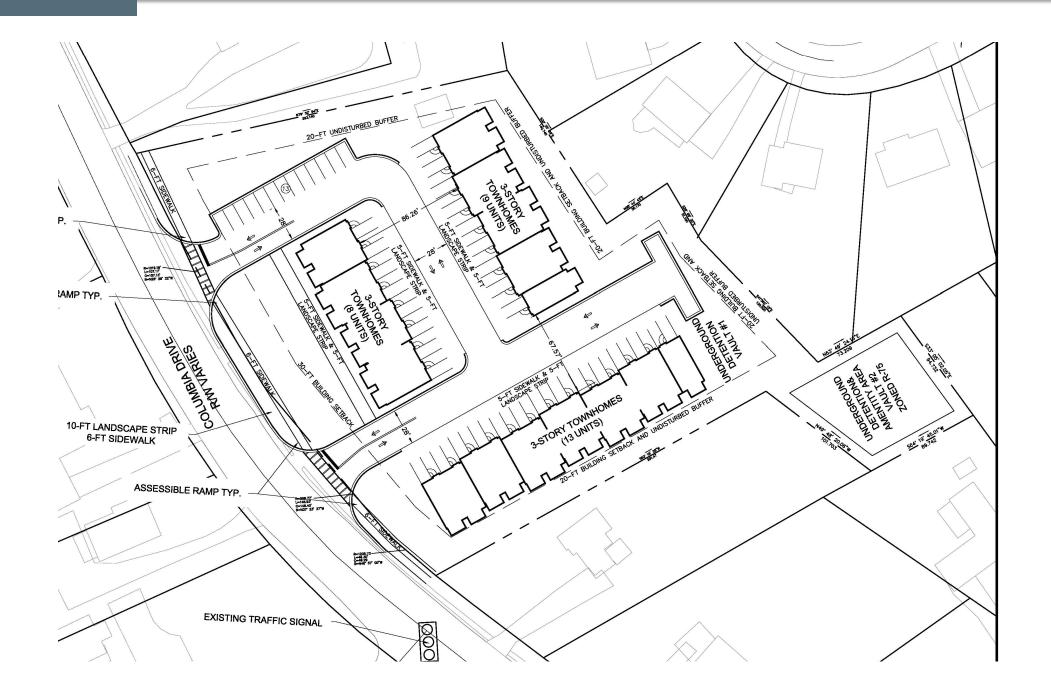

The proposed development will contain 34 single family attached units. The development of these townhomes will not result in excessive use of the existing infrastructure. The adjacent roadway to the development is Columbia Drive. This section of Columbia Drive is a 4-lane undivided roadway classified as a local arterial.

H. WHETHER THE ZONING PROPOSAL ADVERSELY IMPACTS THE ENVIRONMENT OR SURROUNDING NATURAL RESOURCES.

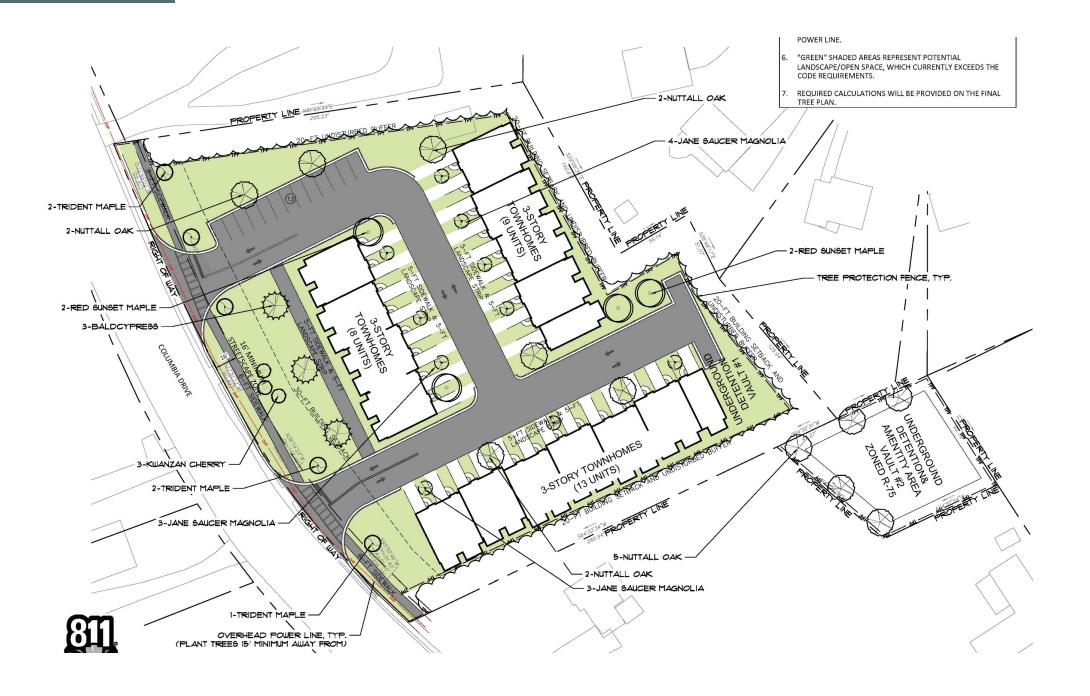

A site visit revealed no evidence of wetlands, water of the US or waters of the state on site; therefore, the zoning proposal has no adverse impacts to any identified environmental resource.
