(I) / (We),

being (owner) (owners) of the property _____,

hereby delegate authority to _____

to file an application in (my) (our) behalf.

Signature of Owner/Date

Please review the following information

Approval of this Certificate of Appropriateness does not release the recipient from compliance with all other pertinent county, state, and federal regulations.

Before making any changes to your approved plans, contact the preservation planner (404/371- 2155). Some changes may fall within the scope of the existing approval, but others will require review by the preservation commission. If work is performed which is not in accordance with your certificate, the Preservation Commission will issue a cease and desist order and you may be subject to other penalties including monetary fines and/or required demolition of the non-conforming work.

If your project requires that the county issue a Certificate of Occupancy at the end of construction, the preservation planner will need to inspect the completed project to ensure that the work has been completed in accord with the Certificate of Appropriateness. The review may be conducted either before or after your building inspection. If you will be requiring a Certificate of Occupancy, please notify the preservation planner when your project nears completion. If the work as completed is not the same as that approved in the Certificate of Appropriateness you will not receive a Certificate of Occupancy. You may also be subject to other penalties including monetary fines and/or required demolition of the non-conforming work.

If you do not commence construction within twelve months of the date of approval, your Certificate of Appropriateness will become void. You will need to apply for a new certificate if you still intend to do the work.

Please contact the preservation planner, David Cullison (404/371-2155), if you have any questions.
