

Public Hearing: YES ☒ NO ☐

Department: Planning & Sustainability

SUBJECT:

COMMISSION DISTRICT(S): Commission District 03 Super District 06

Application of Clark Property and Porch & Square for a Land Use Plan amendment for properties at 1058 and 1078 Moreland Avenue from TN (Traditional Neighborhood) to CRC (Commercial Redevelopment Corridor), at 1078 Moreland Avenue.

PETITION NO: D5. LP-22-1245473 (2022-1179)

PROPOSED USE: Traditional Neighborhood to Commercial Redevelopment Corridor

LOCATION: 1078 & 1058 Moreland Avenue, Atlanta, Georgia 30316

PARCEL NO. : 15-145-15-054

INFO. CONTACT: Brian Brewer, Sr. Planner

PHONE NUMBER: 404-371-2155

PURPOSE:

Application of Clark Property and Porch & Square for a Land Use Plan amendment for properties at 1058 and 1078 Moreland Avenue from TN (Traditional Neighborhood) to CRC (Commercial Redevelopment Corridor). The property has 299 feet of frontage on Shadowridge Drive and contains 9.3 acres.

RECOMMENDATION:

COMMUNITY COUNCIL: (June 8, 2022) Approval. (Feb. 9, 2022) Approval.

PLANNING COMMISSION: (July 12, 2022) Pending. (May 3, 2022) Full Cycle Deferral.

PLANNING STAFF: Approval.

STAFF ANALYSIS: The intent of the Commercial Redevelopment Corridor Character Area is to promote the redevelopment of declining commercial corridors and to improve the function and aesthetic appeal of more stable commercial corridors. These areas mostly consist of strip -style shopping centers that are in need of aesthetic or functional improvements, are in economic decline or are vacant. They are often characterized by a high degree of vehicular traffic, on site parking, moderate floor to area ratio and large tracts of land. The proposed density for areas of this type is up 18 dwelling units per acre, with a maximum height of 3 stories. **Primary Uses** • Townhomes • Condominiums • Apartments • Health Care Facilities • Retail and Commercial • Office • Institutional Uses • Entertainment and Cultural Facilities • Park and Recreational Facilities • Public and Civic Facilities **Major CRC Corridors** • Memorial Drive • Lawrenceville Highway • Covington Highway • Panola Road • Turner Hill Road • Rock Chapel Road • Hairston Road **Policies** Cyclists and Pedestrians - Provide safe and attractive facilities for bicyclists and pedestrians. Transportation - Provide transportation alternatives to reduce automobile dependency. Mixed-Use Redevelopment - Redevelop older strip commercial centers into viable mixed -use developments. Streetscape - Create pedestrian scale communities that focus on the relationship between the street, buildings, streetscape improvements and people. Mixed Use Districts - Create compact mixed -use districts and reduce automobile dependency and travel to obtain basic services. Density - Cluster high density development at nodes & along major corridors outside of established residential areas. Landscaping - Use landscaping and other buffers to protect pedestrians from heavy traffic. Aesthetics - Create and implement performance and aesthetic standards to improve visual appearance. Signage - Implement signage and billboard controls. Parking - Require parking to the side or rear of buildings. Connectivity - Promote parcel interconnectivity. TOD - Promote transit -oriented development. Bike Parking - Provide safe and accessible areas

for bicycle parking. Transit Incentives - Provide incentives to encourage transit compatible development. Transportation - Accommodate and encourage the development of multi-modal transportation centers, where appropriate. Access Management - Create and implement driveway controls and access management standards. Tree Preservation - Establish tree preservation and landscaping standards. Development - Focus development on parcels that abut or have access to the designated Commercial Redevelopment Corridor. Redevelopment Concept - In appropriate locations, build new commercial structures closer to street on existing under-utilized parking lots creating internal smaller or decked parking. Architectural Standards - Upgrade the appearance of existing older commercial buildings with façade improvements. Permitted Zoning • MU-5 • MU-4 • MU-3 • MU-2 • MR-1 • MR-2 • C-1 • OI • HR-1 • HR-2 • RSM **Development Guidelines** *Setbacks* Greater setbacks shall be required when adjacent to lower density residential uses and transitional buffers shall be required. *Buffers* Development shall incorporate enhanced buffers in an effort to protect single family neighborhoods. *Heights* Proposed development shall consider and implement staggered heights when adjacent to single family residential neighborhoods. The development proposal includes a mix of uses on parcels in both the jurisdictions of City of Atlanta and Unincorporated DeKalb County. The two parcels in the City of Atlanta incorporate the greater height allowed by the City's Codes. These parcels have frontage on Moreland Avenue. The subject parcels being considered for a Land Use Plan Map amendment are being reviewed based on a submitted site plan that indicates a walkable, grided, layout of attached single-family residential units (45 three-story, townhomes). The attached Site Plan (dated 02-03-2022) incorporates the policies in the 2021 Comprehensive Plan 5 Year Update. For this reason, staff's recommendation for the proposed Land Use Amendment application is, "Approval".

PLANNING COMMISSION VOTE: (July 12, 2022) Pending. (May 3, 2022) Full Cycle Deferral 8-0-0. Vivian Moore moved, Jon West seconded for a Full Cycle Deferral, per Staff recommendation. Edward Patton was not present for this vote.

COMMUNITY COUNCIL VOTE/RECOMMENDATION: (June 8, 2022) Approval 5-2-0. Board members were concerned about the extension of a CRC land use designation into a TN neighborhood. **(Feb. 8, 2022) Approval 8-0-0.** The Land Use Map amendment is a precursor to zoning application, which will be considered by the Community Council at their April meeting.

Inconsistent

Proposed Density: 45 units

Existing Density: N/A

Proposed Units/Square Ft.: N/A

Existing Units/Square Feet: N/A

Proposed Lot Coverage: 56%

Existing Lot Coverage: N/A

Companion Application:

Applicant has a companion Rezoning Application (Z-22-1245472) to rezone the subject parcels from RSM (Small Lot Residential Mix) (conditional) Zoning District to the MR-2 (Medium Density Residential-2) Zoning District for construction of townhomes and cottage units.

STAFF RECOMMENDATION: Approval

The intent of the Commercial Redevelopment Corridor Character Area is to promote the redevelopment of declining commercial corridors and to improve the function and aesthetic appeal of more stable commercial corridors. These areas mostly consist of strip -style shopping centers that are in need of aesthetic or functional improvements, are in economic decline or are vacant. They are often characterized by a high degree of vehicular traffic, on site parking, moderate floor to area ratio and large tracts of land. The proposed density for areas of this type is up 18 dwelling units per acre, with a maximum height of 3 stories.

Primary Uses

- Townhomes
- Condominiums
- Apartments
- Health Care Facilities
- Retail and Commercial
- Office
- Institutional Uses
- Entertainment and Cultural Facilities
- Park and Recreational Facilities
- Public and Civic Facilities

Major CRC Corridors

- Memorial Drive
- Lawrenceville Highway
- Covington Highway
- Panola Road
- Turner Hill Road
- Rock Chapel Road
- Hairston Road

Policies

- Cyclists and Pedestrians - Provide safe and attractive facilities for bicyclists and pedestrians.
- Transportation - Provide transportation alternatives to reduce automobile dependency.
- Mixed-Use Redevelopment - Redevelop older strip commercial centers into viable mixed -use developments.
- Streetscape - Create pedestrian scale communities that focus on the relationship between the street, buildings, streetscape improvements and people.
- Mixed Use Districts - Create compact mixed -use districts and reduce automobile dependency and travel to obtain basic services.
- Density - Cluster high density development at nodes & along major corridors outside of established residential areas.
- Landscaping - Use landscaping and other buffers to protect pedestrians from heavy traffic.
- Aesthetics - Create and implement performance and aesthetic standards to improve visual appearance.
- Signage - Implement signage and billboard controls.
- Parking - Require parking to the side or rear of buildings.
- Connectivity - Promote parcel interconnectivity.
- TOD - Promote transit -oriented development.
- Bike Parking - Provide safe and accessible areas for bicycle parking.
- Transit Incentives - Provide incentives to encourage transit compatible development.

- Transportation - Accommodate and encourage the development of multi-modal transportation centers, where appropriate.
- Access Management - Create and implement driveway controls and access management standards.
- Tree Preservation - Establish tree preservation and landscaping standards.
- Development - Focus development on parcels that abut or have access to the designated Commercial Redevelopment Corridor.
- Redevelopment Concept - In appropriate locations, build new commercial structures closer to street on existing under-utilized parking lots creating internal smaller or decked parking.
- Architectural Standards - Upgrade the appearance of existing older commercial buildings with façade improvements.

Development Guidelines

Setbacks

Greater setbacks shall be required when adjacent to lower density residential uses and transitional buffers shall be required.

Buffers

Development shall incorporate enhanced buffers in an effort to protect single family neighborhoods.

Heights

Proposed development shall consider and implement staggered heights when adjacent to single family residential neighborhoods.

The development proposal includes a mix of uses on parcels in both the jurisdictions of City of Atlanta and Unincorporated DeKalb County. The two parcels in the City of Atlanta incorporate the greater height allowed by the City's Codes. These parcels have frontage on Moreland Avenue.

The subject parcels being considered for a Land Use Plan Map amendment are being reviewed based on a submitted site plan that indicates a walkable, grided, layout of attached single-family residential units (45 three-story, townhomes) and a cottage court. The attached Site Plan (dated 02-03-2022) incorporates the policies in the 2021 Comprehensive Plan 5 Year Update. For this reason, staff's recommendation for the proposed Land Use Amendment application is, 'Approval.'

Re: Rezone Application Review

General Comments:

DeKalb County Health Regulations prohibit use of on-site sewage disposal systems for

- multiple dwellings
- food service establishments
- hotels and motels
- commercial laundries
- funeral homes
- schools
- nursing care facilities
- personal care homes with more than six (6) clients
- child or adult day care facilities with more than six (6) clients
- residential facilities containing food service establishments

If proposal will use on-site sewage disposal, please contact the Land Use Section (404) 508-7900.

Any proposal, which will alter wastewater flow to an on-site sewage disposal system, must be reviewed by this office prior to construction.

This office must approve any proposed food service operation or swimming pool prior to starting construction.

Public health recommends the inclusion of sidewalks to continue a preexisting sidewalk network or begin a new sidewalk network. Sidewalks can provide safe and convenient pedestrian access to a community-oriented facility and access to adjacent facilities and neighborhoods.

For a public transportation route, there shall be a 5ft. sidewalk with a buffer between the sidewalk and the road. There shall be enough space next to sidewalk for bus shelter's concrete pad installation.

Since DeKalb County is classified as a Zone 1 radon county, this office recommends the use of radon resistant construction.

Zoning Comments – Feb. 2022

- N1. No comment
- N2. McAfee Road is classified as a collector road. Miter right of way at corner to allow for ADA ramps. Please note that DeKalb Transportation has recently acquired right of way and easements for the construction of sidewalks along McAfee. Make sure the survey is updated with the changes to ensure no impacts future setback requirements.
- N3. No comment
- N4. Please see chapter 5 of the zoning code and chapter 14 of the land development code for required infrastructure improvements. Misty Valley Road is classified as a local road. Right of way dedication of 27.5 feet from centerline or such that all public infrastructure is within right of way, 6-foot landscape strip, 5-foot sidewalk, pedestrian scale street lighting required. Miter right of way to allow for ADA ramps at the corner of Misty Valley at Glenwood. Glenwood is classified as a minor arterial. Right of way dedication of 40 feet from centerline or such that all public infrastructure is within right of way, 10-foot landscape strip, 6-foot sidewalk with a 4-foot bike and OR a 10 for multiuse path (preferred), pedestrian scale street lighting required. No poles or utility obstructions (including guy wires) to remain within the pedestrian/bike facilities. Interior street must be private. Section 14-200(6)- watch required street spacing. Hard to tell if you have enough offset on the plans submitted but the offset may come up at the land development stage. Ensure intersection and stopping sight distance for the new road and Misty Valley during permitting.
- N5. Please see chapter 5 of the zoning code and chapter 14 of the land development code for required infrastructure improvements. Old Rockbridge Road is classified as a local road. Right of way dedication of 27.5 feet from centerline or such that all public infrastructure is within right of way, 6-foot landscape strip, 5-foot sidewalk, pedestrian scale street lighting required. Rockbridge Road is a minor arterial. Right of way dedication of 40 feet from centerline or such that all public infrastructure is within right of way, 10-foot landscape strip, 6-foot sidewalk with a 4-foot bike lane OR a 10-foot multiuse path (preferred), pedestrian scale street lighting required. If installing a gate, there needs to be a queueing area for entry and a place to turn around if entry is not granted. We cannot have cars backing out onto Rockbridge Road.
- N6. No Comment
- N7. No Comment
- N8. Please see chapter 5 of the zoning code and chapter 14 of the land development code for required infrastructure improvements. Panola Road is classified as a major arterial. Right of way dedication of 50 feet from centerline or such that all public infrastructure is within right of way, 10-foot landscape strip, 6-foot sidewalk with a 4-foot bike lane OR a 10-foot multiuse path (preferred), pedestrian scale street lighting required.
- N9. Please see chapter 5 of the zoning code and chapter 14 of the land development code for required infrastructure improvements. LaVista Road is state route 236. GDOT review and approval required prior to land development permitting. Lavista Road is classified as minor arterial. Right of way dedication of 40 feet from centerline or such that all public infrastructure is within right of way, 10-foot landscape strip, 6-foot sidewalk with a 4-foot bike lane OR a 10-foot multiuse path (preferred), pedestrian scale street lighting required. Only one access point will be allowed onto LaVista Road.
- N10. No Comment

- N11. Please see chapter 5 of the zoning code and chapter 14 of the land development code for required infrastructure improvements. Unable to comment about specifics without site plan. Shadowridge Drive is classified as a local road. Right of way dedication of 27.5 feet from centerline or such that all public infrastructure is within right of way, 6-foot landscape strip, 5-foot sidewalk, pedestrian scale street lighting required. Moreland Ave. is SR 42. GDOT review and permits required prior to land development permitting. Moreland Ave. is classified as minor arterial. Right of way dedication of 50 feet from centerline or such that all public infrastructure is within right of way, 10-foot landscape strip, 6-foot sidewalk with a 4-foot bike lane OR a 10-foot multiuse path (preferred), pedestrian scale street lighting required.
- N12. No Comment

DEKALB COUNTY GOVERNMENT PLANNING DEPARTMENT DISTRIBUTION FORM

The following areas below may warrant comments from the Development Division. Please respond accordingly as the issues relate to the proposed request and the site plan enclosed as it relates to Chapter 14. You may address applicable disciplines.

DEVELOPMENT ANALYSIS:

- **Storm Water Management**

Compliance with the Georgia Stormwater Management Manual, DeKalb County Code of Ordinances 14-40 for Stormwater Management and 14-42 for Storm Water Quality Control, to include Runoff Reduction Volume where applicable is required as a condition of land development permit approval. Use Volume Three of the G.S.M.M. for best maintenance practices. Use the NOAA Atlas 14 Point Precipitation Data set specific to the site. Low Impact Development features/ Green Infrastructure shall be included in the proposed site design to protect as much as practicable the statewaters and special flood hazard areas.

- **Flood Hazard Area/Wetlands**

The presence of FEMA Flood Hazard Area **was not** indicated in the County G.I.S. mapping records for the site; and should be noted in the plans at the time of any land development permit application. Encroachment of flood hazard areas require compliance with Article IV of Chapter 14 and FEMA floodplain regulations.

- **Landscaping/Tree Preservation**

Landscaping and tree preservation plans for any building, or parking lot must comply with DeKalb County Code of Ordinances 14-39 as well as Chapter 27 Article 5 and are subject to approval from the County Arborist.

- **Tributary Buffer**

State water buffer **was** reflected in the G.I.S. records for the site. Typical state waters buffer have a 75' undisturbed stream buffer and land development within the undisturbed creek buffer is prohibited without a variance per DeKalb County Code of Ordinances 14-44.1.

Existing right of way width _____
Proposed number of traffic lanes _____
Proposed right of way width _____

Please provide additional information relating to the following statement.

According to studies conducted by the Institute of Traffic Engineers (ITE) 6/7TH Edition (whichever is applicable), churches generate an average of fifteen (15) vehicle trip end (VTE) per 1, 000 square feet of floor area, with an eight (8%) percent peak hour factor. Based on the above formula, the _____ square foot place of worship building would generate _____ vehicle trip ends, with approximately _____ peak hour vehicle trip ends.

Single Family residence, on the other hand, would generate ten (10) VTE's per day per dwelling unit, with a ten (10%) percent peak hour factor. Based on the above referenced formula, the _____ (Single Family Residential) District designation which allows a maximum of _____ units per acres, and the given fact that the project site is approximately _____ acres in land area, _____ daily vehicle trip end, and _____ peak hour vehicle trip end would be generated with residential development of the parcel.

COMMENTS:

Field and plans reviewed. Found nothing that would disrupt traffic @ this time.

Community Engagement

The Process

The Quarry is a complex project that requires a balance between land conservation, “gentle density” that scales down to the surrounding single family homes, the creation of public space the community can benefit from, mixed-use and mixed-income development, while still being economically viable to come to fruition. We believe the best way to reach a balanced solution for large projects that impact the community is to authentically engage residents and stakeholders in the design process.

The development team is taking a collaborative, community design approach to come up with a plan for the project. We will be utilizing a variety of outreach strategies to gather information, including online and in-person survey responses on major themes to create the initial designs and feedback to rate specific site plan options. After obtaining initial survey data, we will host community meetings to narrow down the design iterations and continue to shape the site plan through community feedback.

Community Surveys

INITIAL FEEDBACK SURVEY

Please review the **Site Info** (/site-info) page of this website and then take the **Initial Feedback Survey here** (<https://www.surveymonkey.com/r/79SNKZB>) to let us know what you think.

Re: Proposed development at 1078 Moreland Ave SE aka “The Quarry”

Subject: Letter of Support for Design Characteristics & Approach Proposed by Clark Property R+D and Porch & Square

To whom it may concern,

The community surrounding this property has been actively engaged in development discussions with Clark Property R+D and Porch & Square for the last couple months. We would like to voice our support of their process, the iteration of ideas and design characteristics, and their attentiveness to hearing community ideas, and balancing a diverse range of views. This letter of support has signatures of 41 households from the local community, which emphasizes our shared enthusiasm.

We have found their process, thoughtfulness, and great level of organization to be outstanding, especially when compared to other developers that have approached our community. We are intent on having Clark Property R+D and Porch & Square secure the final development plan, as we fear that alternate developers (based on recent proposal patterns) would approach this process very differently and in a way that would be at odds with our values. Clark Property and Porch & Square are local developers who live in our community. They have a great reputation for other developments in the immediate area including the former Masonic Lodge at Glenwood and Moreland.

Clark Property and Porch & Square will need your support in expediting plans, as this particular development would require coordination with multiple local governments and a conservation partner. We appreciate your attention and interest in this development parcel thus far.

Most importantly, our community is largely in agreement for these key tenets to balance:

- Conserve as many natural features as possible (trees, streams, soil)
- We want to keep development characteristics within bounds that are satisfactory to abutting neighbors
- We want a balance of housing types (rental, for sale, apartments, homes) and prioritizing both affordable and market rate housing
- Convert the former Skyhaven Elementary School into a park, connected to the Skyhaven quarry space

- Prioritize connectivity to The Path Foundation Donzi trail and The BeltLine
- Create green space to connect to other green spaces throughout the area
- We are aware this requires rezoning of the parcel, and we are in support of Clark Property R+D and Porch & Square's design direction and approach

Though final details are in progress and subject to neighborhood approval, we are in support of a thoughtful and contextually-sensitive development on this property that incorporates the following characteristics.

- Moreland Side of the Creek:
 - Mixed-use
 - Mix of for-rent/for-sale
 - Low-medium density that scales down from Moreland to the surrounding Skyhaven and Beechview neighbors
- Shadowridge Side of the Creek:
 - Conservation with some small activation on the Shadowridge side
 - No change to land use and zoning on the Shadowridge side of the creek
- Both Sides of the Creek:
 - Public space and pedestrian connection through the site
 - Partnering with a conservation partner such as The Conservation Fund

Thank you for your support and expediency in helping Clark Property R+D to move forward with their plans.

In summary, we ask that our representatives:

- DeKalb County: Take actions to ensure Clark Property and Porch & Square's development project is successful
- DeKalb County: Coordinate with Clark Property/Porch & Square and The Conservation Fund to secure the conserved portion of the property
- DeKalb County: Convert Skyhaven Elementary to a park
- City of Atlanta: Support development on the Moreland side of this property

Sincerely,

Community members and constituents of the Skyhaven/South Moreland area

9 November, 2021

Commissioner Andrew Baker, Director
DeKalb County Planning & Sustainability
Decatur, Georgia

Good morning Commissioner Baker,

I thank you in advance for your ear, time and assistance.

From our previous conversation and correspondence you are distinctly aware of the multi-jurisdictional and multi-zoned Quarry parcels at 1058 and 1078 Moreland Avenue. Just as the immediately impacted and extended community rallied against the subjective simultaneous upzoning and annexation of subject properties, for the entirety of the first two (2) quarters of 2021, the same now come before you, and the county, for support. The unified neighbors and supporting East Atlanta Community Association Land Use and Zoning Committee actively sought and attracted another developer to consider the complexities of the physical product, technical challenges, and to consider the future impact of this site in terms of long range growth and connectivity.

And they nailed it!

The development team led by Jesse Clark, of Clark Property R+D, and Andy Schneggenburger, of Porch and Square, continue to address several areas of concern and priority for the community, City of Atlanta, investors, and most importantly those areas cited as critical by DeKalb County. More specifically:

- ☐ Mixed-income housing with varied options townhomes, apartments, cottages (sfr);
- ☐ Multi-generational living with focus on legacy residents ;
- ☐ Increased density with low intensity impact to land,
- ☐ Integration of naturally occurring environmental element 60+ft of exposed igneous rock (granite) adjacent to nationally protected and in peril waterways (tributary Ripplewater Creek, Intrenchment Creek, Sugar Creek);
- ☐ Suring up conservancy partners from offset of project ready, willing, and able to partner with DeKalb County;
- ☐ Connectivity via trails to the Beltline, Covington, Conyers, and beyond;
- ☐ Creating a mixed Retail, Residential, and Entertainment destination for robust commerce and tax revenues;
- ☐ *Pedestrian*- centric design with masterful use of existing tree canopy as a filter, sustainable natural barrier and ambient decor;
- ☐ Mindfully, safe Ingress and Egress transition with nod to traffic best practices safety vehicular flow, an increased attention to a curb that sees no less than 100+ accidents per year with corresponding fatalities; and
- ☐ Attention to the character of a recognized National Registry Historic District and introduction of complimentary progressive development.

While definitely not imperfect, or I daresay the GOAT, it has been an enviable engagement worthy of replication for the entirety of the county, city, and country, as it relates to infill development. Developers can engage in financially, socially, and environmentally successful projects.

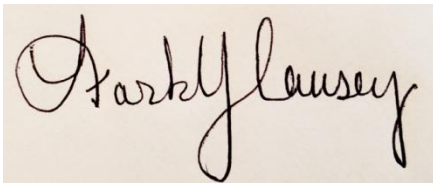

Commissioner Baker, the neighbors support this effort and seek your support beyond word but in deed. The community seeks your authentic review of the projects contribution to our community and greater county. More specifically:

- ☐ Engage in dialog with conservancy partners as it relates to valuation and critical transition of land to the county, upon improvement; and
- ☐ Work with designated representatives ensuring site plans alignment with parcel parameters and ways to address any variations thereof.

Commissioner Baker can we speak? What is the best time for me to connect directly with you? Please advise. I am flexible and will most assuredly make the time.

Again Commissioner Baker, I thank you in advance for your ear, time, and assistance.

Sincere regards,

A handwritten signature in black ink on a light beige background. The signature is written in a cursive, flowing style and reads "Karla Lightfoot Causey".

Letter of Application and Impact Analysis

Application to Amend Land Use

Designation for a Portion of the Property at

1078 Moreland Ave., SE and 1058

Moreland Ave., SE

Project Overview

Parcel size and location - The subject parcel is a combination of (5) parcels hereby referred to as 1078 Moreland Avenue SE, forming a long rectangle of approximately 11 total acres, with approximately 365' of frontage on the east side of Moreland Avenue just north of the intersection with Skyhaven Road / United Avenue. The parcel extends east approximately 1,524' to the Shadowridge Drive right of way, across which sits the former Skyhaven Elementary School site. The Moreland Avenue frontage to a depth of 196' lies within the City of Atlanta, with the remainder of the parcel is in unincorporated DeKalb County.

Geographic Conditions – The subject parcel has a number of geographic features which present particular hardships for its development. Grade gradually drops more than 50' vertically from the Moreland frontage to the centerline of Ripplewater Creek, a tributary of Intramural Creek and the South River, which flows in a southerly direction through the parcel, bisecting it in two. A former working granite quarry lies just east of the creek, the face of which has a 40' rock cliff at its highest point. This unique geographic feature was formerly a city-owned quarry which utilized prison labor from the old prison farm site a few miles away, but has been left undisturbed since being abandoned some time around the 1960s. Since then (50+ years), urban forest has grown at the top of the quarry cliff and in the remaining area to the far eastern edge of the site, creating a beautiful combination of natural amenities (creek, quarry cliff, forest) ideal for preservation as public park space. The western half of the subject parcel (applicable to this proposed land use amendment) was cleared and graded about 15 years ago in preparation for a residential development that was never completed. There remains no substantial or mature tree growth in this western portion of the site other than along the immediate north and south property line boundaries.

Zoning and Land Use Conditions: The subject parcel is part of a larger area with a designated land use of Traditional Neighborhood (TN) and a zoning classification of RSM (CZ-00093 approved by DeKalb County BOC on 2/27/01 and modified on 5/15/03, with a conditional site plan). This parcel is the only one in the TN area with the RSM zoning; the majority of the remaining TN area is zoned R-75 with small pockets of R-60, and an incongruent area of commercial zoning at the Village Creek Landing commercial shopping center to the south fronting on Moreland Avenue. Immediately south of the TN area are large portions of land with CRC land use designation, indicating that this request is consistent with other Moreland corridor conditions nearby. The area of the subject property proposed for the land use amendment is completely land-locked behind City of Atlanta MRC-1 commercial zoning along Moreland, and the creek in the middle of the site. There is no access from the north or south sides of the site, which are adjacent to the backyards of homes on Beechview and Edgemore Drives to the north, and

Skyhaven Rd. to the south. Gresham Ave. dead-ends on the north side, but at an area where the sharp difference in grade at the quarry makes extending the road financially infeasible. The only access to the subject area is through the City of Atlanta MRC-1 land on Moreland Ave. All of the adjacent R-75 parcels that back onto the subject area are very deep lots, with homes sited between 150-200' from the property line. In summary, the parcel is buffered from surrounding single-family homes by the generous depth of those R-75 lots and the substantial mature tree growth on each of them. The subject parcel is at a point on the Moreland Ave. corridor where use along the east side transitions from commercial uses on this City of Atlanta frontage and to the south, and single-family uses to the immediate north. There are multiple large parcels immediately south of Skyhaven Road on the east edge of Moreland with the CRC land use designation.

Community Engagement: our development team has proactively engaged surrounding neighbors and the broader community over the last eight months in a series of (5) community design meetings to collaboratively generate a development concept for this complex site that most of the community can support. The process has involved in-person charrettes to explore design options, electronic surveys to determine community priorities, and an iterative process to reach a mutually preferable development design that meets as many community concerns and desires as possible, while accommodating the financial and practical needs of the project. To be as inclusive as possible, communication channels have included maintaining a project website (www.skyhavenquarry.com), dropping flyers at all homes on adjacent streets, and extensive use of social media and neighborhood digital communication networks. The current concept involves the following components, which are contingent upon each other as part of the development master plan, and which have been directly informed by community input:

1. Amending the land use *only* for the western part of the site between the creek and the Moreland-fronting City of Atlanta commercial zoned portion.
2. Donation of approx. 4 acres of the site (stream, quarry, a portion of urban forest) to DeKalb County for the creation of a unique new park in an area that currently has little park space;
3. Space for a cross-site trail running east-west from Shadowridge Dr. (and the potential future county park at the former Skyhaven Elementary property) to Moreland and United Avenues, opening eventual access to the Beltline further west;
4. Low-intensity mixed-use development with multi-family residential and community-serving retail/office on the commercial-zoned City of Atlanta portion on Moreland Ave., with a pedestrian-oriented design along Moreland;
5. Moderate-intensity low-height residential townhome development on the subject area of this application, behind the mixed-use development fronting Moreland;
6. Robust landscape buffers and screening along the backyards of adjacent properties, and side yards where applicable;
7. A small-footprint cottage court-style development at the east end of the site on Shadowridge Drive;
8. Incorporation of activated outdoor space including a plaza and generous internal pedestrian walkways;
9. Stormwater management utilizing large amounts of pervious pavement areas and above-grade retention to reduce sewer impact;

Letter of Application

In addition to the overview provided above, please see the following information requested in the application.

- a) *Proposed zoning classification:* The proposed land use is Commercial Redevelopment Corridor (CRC); the proposed zoning classification will be MR-2 (standard 12 units/acre up to 24 units/acre with bonuses), to support the proposed townhomes.
- b) *Reason for the rezoning or special use or modification request:* This land use amendment request is the result of a rigorous community design process which has created a development concept with numerous positive impacts for this very complex site. It is driven by the proposed donation of a large portion of the property with unique and desirable geographic features to DeKalb County for park space including a portion of the existing urban forest on the eastern half. The community advocated for preservation of additional forest area and minimal development on the eastern side of the property so as to limit impact on neighborhood streets, in return for accommodating higher-intensity development on the western side accessed from Moreland Avenue. Meeting these goals results in a 'Transfer Development Rights' approach requiring a higher unit/acre permission than provided for in the current TN land use and RSM zoning.
- c) *Existing and proposed use of the property:* The subject area of the property, about 4.16 acres, is currently unimproved, having been left undisturbed since about 2006 when the previous development project was abandoned; the proposed use is attached zero-lot-line single-family residential (townhomes).
- d) *Detailed characteristics of the proposed use (e.g. floor area, height of building(s), number of units, mix of unit types, number of employees, manner and hours of operation):* The proposed townhomes will be relatively consistent in design, with a few of them smaller in size to accommodate siting conditions, but averaging 1,600 sf and (3) bedrooms. Please see the chart below for additional details. The consistent change in grade conditions across the site also provides opportunity for variations in unit configuration and size, depending on specific location on site. Most units will have drive-under garages, with a few limited to designated surface parking based on grade and layout conditions.

Max. units/acre CRC/MR-2	12-24 units
Proposed units/acre (4.16ac)	10.8
Proposed total units	45
Mix of unit types	1200-1800 sf / 2&3BR
Avg. unit size	1600 sf
Total floor area	72,000 sf
Proposed max. building height	45' max. / 3 stories

- d) *Statement of conditions discussed with the neighborhood or community:* Most of the conditions negotiated with the surrounding neighborhood and community are reflected on the site plan, such as the area to be donated to DeKalb County for future park space, the inclusion of townhome units on the subject area, no new through road from Moreland Ave. to Shadowridge Dr., maximum 4-story building heights throughout the project, and increased setbacks and landscape screening (where needed) adjacent to single-family back yards.

Impact Analysis

The following is a description of standards and factors to be considered for the proposed Comprehensive Plan land use map amendment at 1078 Moreland Avenue, SE, per Article 7.3.4 of the Zoning Ordinance of the Dekalb County.

- 1. Whether the proposed land use change will permit uses that are suitable in view of the use and development of adjacent and nearby properties.*

The proposed land use change will permit uses that are suitable in relation to the existing uses and development of nearby properties.

- The existing land use is Traditional Neighborhood (TN) low density single-family, although along the immediate area of the Moreland Avenue corridor there are numerous instances of zoning classifications that misalign with TN and support low and medium density commercial uses, such as the Village Creek shopping center which houses the Kroger and multiple other retail businesses. This is indicative of an active corridor experiencing redevelopment due to the post-recession economic recovery of the past 10 years, and the rapid growth of the region's core. The proposed development will add moderate residential density to the area without disrupting neighborhood quality of life in the surrounding single-family area. The new housing will support the commercial component proposed for the Moreland Avenue frontage, but also is within a one-block walkable distance to the Kroger and other businesses and services in the Village Creek shopping center.
- The proposed land use is Commercial Redevelopment Corridor (CRC), which allows low and medium density residential and mixed use. The CRC designation will bring this portion of the parcel (which is accessible only from Moreland Avenue) into alignment with the commercial and mixed-use character of the Moreland Avenue corridor to the immediate south, including the adjacent properties and other CRC-designated areas already in place nearby on the corridor. The Village Creek shopping center currently designated as TN could also appropriately be given the CRC designation.
- The proposed CRC land use will also formalize an orderly transition from commercial use to low-density single-family use at this point on Moreland Avenue. Currently the transition is abrupt, with single-family uses backing directly onto commercial zoned property. This proposal assigns moderate-intensity residential development to a commercially-land-locked parcel, allowing for a gradual transition in use that buffers the adjacent single-family homes.
- The proposed CRC land use enables the development of this land in a manner which directly supports a number of Comprehensive Plan priorities, including corridor revitalization (Moreland Avenue) and new housing options near the Bouldercrest Logistics Cluster economic development priority area.

- 2. Whether the proposed land use change will adversely affect the existing use or usability of adjacent or nearby property.*

The proposed land use change will not adversely affect the existing uses or usability of nearby properties.

- Other immediately adjacent properties are part of an established single-family area and are unlikely to change. The proposed use and development concept will ensure that this undeveloped parcel will be developed in a way that tactfully address transitional development concerns of nearby neighbors with a compatible residential use.

- Other nearby properties to the south along Moreland Avenue have commercial uses which will be supported by the moderate residential density proposed.
- The proposed land use amendment will bring the parcel into compatible alignment with the City of Atlanta land use designation for the portion of the parcel fronting Moreland Avenue, by allowing for development that transitions down from the Moreland corridor frontage into the heart of the residential neighborhood to the east, and creates a dramatic new park space for the neighborhood.
- The proposed amendment will positively affect adjacent and nearby properties by allowing for the development of this long-unimproved parcel in a manner that provides new commercial amenities and a reasonable degree of residential intensity.

3. *Whether the proposed land use change will result in uses which will or could cause excessive or burdensome use of existing streets, transportation facilities, utilities or schools.*

The proposed land use change will not result in uses which would cause excessive or burdensome use of existing streets and infrastructure.

- The proposed land use amendment intentionally applies only to the land-locked portion of the subject parcel that can be accessed only from Moreland Avenue, so that the impact of the new development will not be experienced on the interior of the neighborhood.
- Moderate intensity residential use is proposed for the subject parcel, which is not impactful enough to cause excessive or burdensome results. The addition of the proposed residential use on the property will support increased ridership of the MARTA bus lines on Moreland Avenue.

4. *Whether the amendment is consistent with the written policies in Comprehensive Plan text.*

The proposed land use change is consistent with many written policies in the Comprehensive Plan text.

- The development enabled by the proposed land use change contributes directly to successful outcomes identified in Chapter 6 Community Goals, including:
 - Natural & Historic Resources
 - Preservation – approximately (4) acres of unique land will be donated to DeKalb County for new park space, supporting additional goals of Open Space Acquisition and creation of new Neighborhood Parks. This is of particular value at this location since there are no other DeKalb County parks within a one mile walking distance (Glen Emerald Park is the closest, a little more than a mile away).
 - Trail Network – the development concept incorporates trail access across the site from Moreland Avenue to the former Skyhaven Elementary site, which is also a prime opportunity for conversion to new park space. There is also an opportunity to include a north-south trail connection along the creek in support of a future Gresham Avenue Neighborhood Greenway or Ripplewater Stream Trail, both of which are proposed in the South Moreland LCI Master Plan.
 - Housing
 - Infill – this proposal will develop a large infill site with new housing options
 - Multi-family and Mixed-Use – while the area of the property subject to this land use amendment would not have mixed-use development, it is part of a larger mixed-use project that will provide a variety of new multi-family and single-family housing options.
 - Economic Development

- Revitalize Corridors – the proposed project will develop a long-unimproved and challenging parcel, contributing directly to the revitalization of the Moreland Avenue corridor.
- Public/Private Partnerships – the donation of park space to DeKalb County is part of a public-private partnership to develop this challenging parcel and increase DeKalb County’s neighborhood park inventory.
- Land Use
 - Protection of Single Family Residential – surrounding TN/R-75 neighborhoods would be ensured of a compatible, transitional residential development with this concept.
 - Mixed Use Development – see other comments regarding the mixed-use nature of the proposed project.
 - Enhanced Buffers – through the community engagement process, enhanced buffers utilizing fencing and landscaping will be utilized to soften the visual impact to adjacent single-family parcels.
 - Streetscaping – the proposed project is ordered around a central east-west ‘shared street’ which employs traffic-calming design elements to create a comfortable pedestrian environment. Along the Moreland frontage, the project also provides an upgrade to the quality and safety of the Moreland Avenue streetscape in this location by integrating wide sidewalks and standard streetscape amenities per City of Atlanta requirements.

5. Whether there are environmental impacts or consequences resulting from the proposed change.

The proposed land use change will have minimal environmental impact, and will help stabilize the buffer of Ripplewater Creek though the property.

- Tree removal – the subject area of the site had been cleared and graded 15 years ago in preparation for a previous development that was never completed.
- Project will utilize a variety of design and material-related stormwater management strategies to mitigate the impact of runoff on Ripplewater, and will further allow for stabilizing strategies on both sides of the creek.
- The change will also allow for the preservation of approximately (4) acres of 50-year old urban forest and the multiple environmental benefits these pocket urban forests provide.

6. Whether there are impacts on properties in an adjoining governmental jurisdiction in cases of proposed changes near county boundary lines.

- The proposed amendment brings the subject parcel into compatibility with the land use of the City of Atlanta portion of the parcel that fronts onto Moreland Avenue (Low Density Commercial), and will incorporate its development as part of the project. The mixed-use component of the project will be within the City of Atlanta, and the residential townhome portion of the project will be within the subject DeKalb County portion. Both parts will be visually and spatially connected together by an open plaza and linear shared street forming the spine of the townhomes’ configuration.

7. Whether there are other existing or changing conditions affecting the use and development of the affected land areas which support either approval or denial of the proposed land use change.

- The Moreland Avenue corridor is beginning to show a substantial growth trend as development interest has begun to focus on the un- and under-developed portions of the corridor, including this site. Recent activity includes the pending redevelopment of the large Valu Village shopping center and the new office complex on the west side of Moreland Avenue across from Village Creek shopping center. This proposal presents a moderate approach to the development of this difficult parcel which has been generated in collaboration with the community.

▪

8. *Whether there are impacts on historic buildings, sites, districts or archaeological resources resulting from the proposed change.*

- The proposed amendment will allow for the development of the larger parcel in a manner which will conserve the existing historic granite quarry, the Ripplewater Creek bed, and a portion of 50-year old urban forest, preserving these geological and natural amenities for DeKalb County stewardship and public use as park space. There is also a valuable opportunity for DeKalb County to acknowledge the history of the granite quarry with an interpretive installation, which used prison labor from the nearby prison farm to quarry the stone for local use.

Disclosure of Campaign Contribution

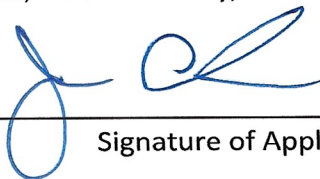

PLEASE READ THE FOLLOWING BEFORE SIGNING

- I. This application form must be completed in its entirety. In addition, any application that lacks any of the required attachments or payment of the filing fee shall be determined to be incomplete and shall not be accepted.
- II. Disclosure of Campaign Contributions in accordance with the Conflict of interest in Zoning Act, O.C.G. A Chapter 36-67A, the following questions must be answered. Have you, the applicant made \$250.00 or more in campaign contributions to a local government official within two years immediately preceding the filing of this application? _____ Yes ☒ No*

If the answer is yes, you must file a disclosure report with the governing authority of DeKalb County showing:

1. The name and official position of the local government official to whom the campaign contribution was made.
2. The dollar amount and description of each campaign contribution made during the two years immediately preceding the filing of this application and the date of each such contribution.

The disclosure must be filed within 10 days after the application is first filed and must be submitted to the C.E.O and the Board of Commissions, DeKalb County, 1300 Commerce Drive, Decatur, Ga 30030.

SCHEDULE B, PART II

1.

(a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the Public Records.
2.

Any facts, rights, interest or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
3.

Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
4.

Any encroachments, encumbrances, violations, variations, or adverse circumstances affecting Title that would be disclosed by an accurate and complete land survey of the Land or that could be ascertained by an inspection of the Land.
5.

Any minerals or mineral rights leased, granted or retained by current or prior owners.
6.

Taxes and assessments for the year 2020, which are liens, due and payable; taxes and assessments for the year 2021 and subsequent years, not yet due and payable, and taxes for prior years arising from reassessments or digest disputes.

As to Tax Identification Number 15-145-18-041: the 2020 DeKalb County, Georgia taxes are delinquent in the amount of \$424.84. (Base amount due was \$414.48) Amount due is good through October 31, 2020. (Affects Parcel 1)

As to Tax Identification Number 15-145-18-041: the 2020 City of Atlanta taxes are due in the amount of \$6,190.60. Amount due is good through December 15, 2020. (Affects Parcel 1)

As to Tax Identification Number 15-145-15-054: the 2020 DeKalb County taxes are delinquent in the amount of \$5,195.46. (Base amount due was \$5,068.74) Amount due is good through October 31, 2020. (Affects Parcel 1)

NOTE:

DeKalb County Ordinances provide for the priority of unpaid water and sanitation bills as liens over security encumbrances. Current water bills and sanitation bills for subject property are not available in the public records. Please inquire.

7.

Defects, liens, encumbrances, adverse claims or other matters, if any, created, first appearing in the Public Records or attaching subsequent to the effective date hereof but prior to the date the proposed Insured acquires for value of record the estate or interest covered by this Commitment.

8.

Any lien or right to a lien for services, labor, material or equipment, unless such lien is shown by the Public Records at Date of Policy and not otherwise excepted from coverage herein.

9.

No insurance is afforded as to the amount of acreage or square footage contained in the Land.

10.

Rights of upper and lower riparian owners in and to the waters of any creek or stream that bounds or traverses the Land, free from increase, decrease or pollution.

11.

Rights of tenants in possession, as tenants only, under unrecorded occupancy agreements.

12.

Easements as conveyed in Right-of-Way Deed from Ruby W. Clark to City of Atlanta, dated October 11, 1939, filed for record November 20, 1939 and recorded in Deed Book 507, Page 42, DeKalb County, Georgia records. (Affects Parcels 1 & 2) LEGAL DESCRIPTION IS VAGUE IN NATURE AND MAY OR MAY NOT AFFECT SUBJECT PROPERTY. 1930'S RIGHT-OF-WAY PLANS WERE NOT PROVIDED OR FOUND DURING THE COURSE OF OUR RESEARCH.

13.

Terms and Conditions of that Indemnity Agreement from DeKalb Car Wash # 4 to City of Atlanta, dated October 20, 1988, filed for record October 27, 1988, and recorded in Deed Book 6277, Page 175, aforesaid records. (Affects Parcel 2) LEGAL DESCRIPTION INCLUDES A PORTION OF THE SUBJECT PROPERTY AS SHOWN HEREON.

14.

Terms and Conditions of that Indemnity Agreement from DeKalb Car Wash # 4 to City of Atlanta, dated November 21, 1988, filed for record November 21, 1988, and recorded in Deed Book 6293, Page 554, aforesaid records. (Affects Parcel 2) LEGAL DESCRIPTION INCLUDES A PORTION OF THE SUBJECT PROPERTY AS SHOWN HEREON.

15.

Conveyance of access rights as contained in that certain Right of Way Deed from Charles C. & Emory D. Ozburn to Department of Transportation, dated November 22, 1988, filed for record November 22, 1988, and recorded in Deed Book 6295, Page 89, aforesaid records. (Affects Parcel 2). DOES NOT INCLUDE SUBJECT PROPERTY. RIGHT-OF-WAY IS SHOWN HEREON.

16.

Easement from Charles C. Ozburn to Georgia Power Company, dated March 7, 1989, filed for record April 7, 1989, and recorded in Deed Book 6402, Page 562, aforesaid records. (Affects Parcel 2). LEGAL DESCRIPTION IS BLANKET IN NATURE AND INCLUDES THE PORTION OF THE SUBJECT PROPERTY KNOWN AS 1058 MORELAND AVENUE.

17.

Matters as shown on that certain plat recorded in Plat Book 11, Page 143, aforesaid records. (Affects Parcel 3)

18.

Matters as shown on that certain plat recorded in Plat Book 146, Page 19, aforesaid records. (Affects Parcel 1)

19.

Matters as shown on that certain plat recorded in Plat Book 146, Page 21, aforesaid records. (Affects Parcel 1)

20.

Matters as shown on that certain plat recorded in Plat Book 146, Page 23, aforesaid records. (Affects Parcels 1 & 2)

21.

Exception is taken to liens (if any) found filed against Roswell Holdings, LLC, which are erroneously indexed by DeKalb County under a tax parcel that is not reflected within this tax report.

22.

Matters as would be disclosed by a current and accurate survey and inspection of the Land.
