---

Good afternoon ,

We got the renderings done. Please see below images as well as the video. Is there anything else specifically that you are looking for ?

Good morning,

The recommendation does not address the windows, but just recommends deferral to allow staff and the commission more time to understand your proposal. We've suggested the commission make comments or ask questions at the meeting.

Good morning 🙏 based on recommendation to deny changing windows, is it best to ask for deferment? Could you please clarify what you are looking for so I may get you exactly what you need ?
