

Public Hearing: YES NO

Department: Planning & Sustainability

SUBJECT:

COMMISSION DISTRICT(S): Commission District 04 Super District 06

Application of Avondale Park, LLC c/o Felipe Castellanos for a Major Modification to modify zoning conditions pursuant to CZ-21-1245061 in the MU-5 (Mixed Use 5) zoning district for a mixed residential, office, and commercial development to change the use of the office and retail buildings designated as "A", "B", and "C" on the approved concept plan, to now combine those buildings into one mixed-use building with up to 49,000 square feet of commercial and up to 202 apartment units, at 3458, 3468 and 3478 Mountain Drive.

PETITION NO: D1-2022-2254 CZ-22-1246039

PROPOSED USE: Modify zoning conditions to allow one mixed-use building with commercial uses and apartment units.

LOCATION: 3458, 3468 and 3478 Mountain Drive, Decatur, Georgia 30032

PARCEL NO. : 15-251-01-028

INFO. CONTACT: Planning & Sustainability

PHONE NUMBER: 404-371-2155

PURPOSE:

Application of Avondale Park, LLC c/o Felipe Castellanos for a Major Modification to modify zoning conditions pursuant to CZ-21-1245061 in the MU-5 (Mixed Use 5) zoning district for a mixed residential, office, and commercial development to change the use of the office and retail buildings designated as "A", "B", and "C" on the approved concept plan, to now combine those buildings into one mixed-use building with up to 49,000 square feet of commercial and up to 202 apartment units. The property is located on the north side of Mountain Drive, approximately 250 feet east of Farrar Court at 3458, 3468, and 3478 Mountain Drive in Decatur. The property has approximately 358 feet of frontage on Mountain Drive and contains 9.32 acres.

RECOMMENDATION:

COMMUNITY COUNCIL: (February 16, 2023) Approval w/condition. (October 18, 2022) Approval.

PLANNING COMMISSION: (March 7, 2023) Pending. (November 1, 2023) 3-Cycle Deferral.

PLANNING STAFF: Full Cycle Deferral.

STAFF ANALYSIS: This item was deferred from the November 17, 2022 Board of Commissioner public hearing. No revised plans have been submitted since that meeting. The subject property has undergone many zone changes over the years. It was rezoned from R75 to C-1 in 1985. A 2015 proposal rezoned the property from C-1 to PC-3 (Pedestrian Community). PC-3 was converted to MU-5 (Mixed Use Very High Density) in 2015. In 2015 the Board of Commissioners approved a redevelopment proposal (CZ 15 19443) which consisted of 11 single-family lots, 35 townhome units, 60 multi-family residential units, 149,000 square feet of office space, and 35,700 square feet of retail space. In 2018 the Board of Commissioners approved a major modification to the project (CZ-18-22125) that reduced the number of single-family detached homes, increased the number of single-family attached homes, and removed multi-family units from the project. The office and retail components stayed at the same square footages. Modifications to building materials, landscaping, and building heights were granted. Lastly in March 2022, the Board of Commissioners approved major modifications related to the residential elevations and building materials and added conditions for solar power and electric vehicle charging (CZ-21-

1245061). Modifications to the proposed commercial buildings and the inclusion of live-work units were withdrawn by the applicant. This major modification proposal revisits the configuration and use of the proposed commercial buildings. Currently the approved site plan includes two office buildings and a retail building, in addition to the approved residential components that are presently in the development process. The applicant proposes to consolidate most of the commercial uses into one mixed-use structure with 49,000 square feet of commercial space and approximately 202 apartment units. While the global economic landscape has changed significantly since the initial rezoning was approved, it is unclear whether the requested modification is consistent with the mixed-use goals of the *Zoning Ordinance* and the Kensington Regional Center activity center. Moreover, the *Metro Atlanta Rapid Transit Authority* (MARTA) which owns/operates the Kensington rapid transit rail station at the core of the activity center, has a rezoning request which will be heard by the Board of Commissioners on February 28, 2023. Given the prominence of Kensington Station, this rezoning request should be deferred until the Kensington Station rezoning request is adjudicated, then carefully calibrated with the MARTA rezone application to achieve the Transit Oriented Development (TOD) that is desired for that area. As part of that calibration process, the applicant needs to confirm that their proposed mixed-use project contains the minimum 20% commercial required by the MU-5 zoning district as well as the appropriate types of commercial land uses which will be complementary to the MARTA rezone application. Therefore, upon review of Section 7.3.5 (A, B, D, & E of the Zoning Ordinance), Staff recommends a “Full Cycle Deferral to allow the adjacent MARTA station rezoning to be adjudicated so that this application can be calibrated/designed to provide appropriate mixed-use development to achieve optimal TOD and verify compliance with the min. 20% commercial component of the MU-5 district”.

PLANNING COMMISSION VOTE: (March 7, 2023) Pending. (November 1, 2022) 3-Cycle Deferral 7-1-0. LaSonya Osler moved, Jana Johnson seconded for a 3-cycle deferral to the May 2023 zoning agenda, per Staff recommendation. Jan Costello opposed.

COMMUNITY COUNCIL VOTE/RECOMMENDATION: (February 16, 2023) Approval w/condition 11-0-0. Approval with the condition that the 2018 approved conditions remain. **(October 18, 2022) Approval 9-0-0.**

Re: Rezone Application Review

General Comments:

DeKalb County Health Regulations prohibit use of on-site sewage disposal systems for

- multiple dwellings
- food service establishments
- hotels and motels
- commercial laundries
- funeral homes
- schools
- nursing care facilities
- personal care homes with more than six (6) clients
- child or adult day care facilities with more than six (6) clients
- residential facilities containing food service establishments

If proposal will use on-site sewage disposal, please contact the Land Use Section (404) 508-7900.

Any proposal, which will alter wastewater flow to an on-site sewage disposal system, must be reviewed by this office prior to construction.

This office must approve any proposed food service operation or swimming pool prior to starting construction.

Public health recommends the inclusion of sidewalks to continue a preexisting sidewalk network or begin a new sidewalk network. Sidewalks can provide safe and convenient pedestrian access to a community-oriented facility and access to adjacent facilities and neighborhoods.

For a public transportation route, there shall be a 5ft. sidewalk with a buffer between the sidewalk and the road. There shall be enough space next to sidewalk for bus shelter's concrete pad installation.

Since DeKalb County is classified as a Zone 1 radon county, this office recommends the use of radon resistant construction.

Zoning Comments – October 2022

- N1.** No package to review.
- N2. 1845 Lawrenceville Hwy.** Lawrenceville Hwy is a state route. GDOT review and approval required prior to permitting. Lawrenceville Hwy is classified as a major arterial. Requires a right of way dedication of 50 feet from centerline OR such that all public infrastructure is within right of way, whichever greater. Add ADA Ramps and a pedestrian crossing across Jordan Lane. Requires a 5-foot landscape strip with a 10 foot multi-use path. No poles may remain within the limits of the path. Requires pedestrian scale streetlights. Jordan Lane is classified as a local road. Requires a right of way dedication of 27.5 feet from centerline OR such that all public infrastructure is within right of way, whichever greater. Requires 12-foot travel lane from centerline with curb and gutter. Requires a 5-foot landscape strip with a 5-foot sidewalk. Requires pedestrian scale streetlights. No poles may remain within the limits of the sidewalk. Driveway on Jordan Lane cannot be relocated without Transportation approval- proposed location acceptable.
- N3. 1251 Robinwood Rd.** Build 5 foot sidewalks in front of the subject property and extend to Lawrenceville Hwy within the current right of way. Robinwood Rd is classified as a local road. Requires a right of way dedication of 27.5 feet from centerline OR such that all public infrastructure is within right of way, whichever greater. Requires 12 foot travel lane from centerline with curb and gutter. Requires a 5 foot landscape strip with a 5 foot sidewalk on right of way. Requires pedestrian scale streetlights. Street parking within the right of way must be approved by Roads & Drainage prior to permitting. No poles may remain within the limits of the sidewalk. Interior streets/alleys must be private.
- N4. 3458 Mountain Drive.** Mountain Drive is a state route and requires GDOT review and approval prior to permitting. Requires traffic study to determine required number of lanes and queue lengths at entrances. The study will also determine the need for left turn lanes into the development. Mountain Drive is classified as a collector road. Requires a right of way dedication of 35 from centerline OR such that all public infrastructure is within right of way, whichever greater. Requires a 5 foot landscape strip with a 10 foot multi-use path. No poles may remain within the limits of the path. Requires pedestrian scale streetlights. Speed Limit is 45 mph (per plans). Watch minimum driveway separation spacing in Sec 14-200(6). Speed Limits between 36 to 45mph requires 245 feet of separation between driveways. Developments with 151-300 residential units require 3 access points (Land development Code Sec 14-200(5).) Suggest that if you are seeking a variance that you do it within the zoning process. Interior street must be private.
- N5. 6168 Marbut Rd.** No parking allowed on Marbut Road.
- N6/N7. 2179 Bouldercrest Road.** Bouldercrest Road is classified as a major arterial. Requires a right of way dedication of 50 from centerline OR such that all public infrastructure is within right of way, whichever greater. Replace curbing along property frontage. Requires a 5 foot landscape strip with a 10 foot multituse path. No poles may remain within the limits of the path. Requires pedestrian scale streetlights. No Parking allowed within the right of way.
- N8. 3507 Memorial Drive.** Memorial Drive is a state route. GDOT review and approval required prior to permitting. No comment. Based on the plan, this site it interior to the property and not adjacent to a right of way.

- N9. 311 South Howard St.** (They have the wrong address on the application. It is 211 South Howard Street.) Memorial Drive is a state route within the City of Atlanta. Both agencies will have to review and approve the requirements prior to permitting. For DeKalb: Memorial Drive requires a right of way dedication of 50 foot from centerline OR such that all public infrastructure is within right of way, whichever greater. Requires a 5 foot landscape strip with a 10 foot mulituse path. No poles may remain within the limits of the path. Requires pedestrian scale streetlights. DeKalb Transportation will defer to the City of Atlanta comments for right of way improvements. South Howard St is classified as a collector street. South Howard Street requires a right of way dedication of 35 feet from centerline OR such that all public infrastructure is within right of way, whichever greater. Requires a 5 foot landscape strip with a 10 foot mulituse path. No poles may remain within the limits of the path. Requires pedestrian scale streetlights. Access point must remain at the southern property line on South Howard St. Interior private alley (instead of a shared drive for permitting) must be private. Shared drives not allowed for 6 lots, private alley in this case is allowed.
- N10. 1347 Bermuda Road.** By Code- shared driveways can only be for 2 lots. A variance will be necessary to have 6 lots on a shared driveway. Suggestion: widen to 24 feet and make it a private road. Bermuda Road is classified as a collector road. requires a right of way dedication of 35 from centerline OR such that all public infrastructure is within right of way, whichever greater. Requires a 5 foot landscape strip with a 10 foot mulituse path. No poles may remain within the limits of the path. Requires pedestrian scale streetlights. Watch minimum separation of drives/roads in section 14-200(6) based on the speed limit of the road.
- N11. 8067 Rockbridge Road.** No Access on The Trace. Rockbridge Road is classified as a major arterial. Requires a right of way dedication of 50 feet from centerline OR such that all public infrastructure is within right of way, whichever greater. Requires a 5 foot landscape strip with a 10 foot mulituse path. No poles may remain within the limits of the path. Requires pedestrian scale streetlights. The Trace is classified as a local road. Requires a right of way dedication of 27.5 feet from centerline OR such that all public infrastructure is within right of way, whichever greater. Requires a 5 foot landscape strip with a 5 foot sidewalk path. No poles may remain within the limits of the sidewalk. Requires pedestrian scale streetlights. This property is within the interior of a curve. Intersection sight distance exiting the property (based on AASHTO guidance and sealed by a professional engineer) must be met prior to permitting. Guardrail resign must also take place by a professional engineer along the Rockbridge frontage.
- N12. 1065 Fayetteville Rd.** Fayetteville Road is classified as a collector road. Requires a right of way dedication of 35 feet from centerline OR such that all public infrastructure is within right of way, whichever greater. Requires a 5 foot landscape strip with a 10 foot mulituse path. No poles may remain within the limits of the path. Requires pedestrian scale streetlights. Graham Circle is classified as a local road. Requires a right of way dedication of 27.5 feet from centerline OR such that all public infrastructure is within right of way, whichever greater. Requires a 12 foot travel lane from centerline of road. Requires a 5 foot landscape strip with a 5 foot sidewalk path. No poles may remain within the limits of the sidewalk. Requires pedestrian scale streetlights. Interior streets are shown on site plan as private. If they become public: Requires a right of way dedication of 55 feet. Requires a 5 foot landscape strip with a 6 foot sidewalk. No poles may remain within the limits of the sidewalk. Requires pedestrian scale streetlights.
- N13. 2255, 3375, 3395 Northeast Expressway.** All access is from GDOT right of way. GDOT review and permits required. Further discussions required around the Peachtree Greenway Trail connection. All public infrastructure must be on right of way.
- N14. 1602 Scott Blvd.** Scott Blvd is a state route. GDOT review and approval required prior to permitting. Scott Blvd is classified as a major arterial. Requires a right of way dedication of 50 feet from centerline OR such that all public infrastructure is within right of way, whichever greater. Requires a 5 foot landscape strip with a 10 foot mulituse path. Extend Path to and along Blackmon Drive frontage. No poles may remain within the limits of the path. Requires pedestrian scale streetlights. All interior streets to be private. No access allowed on Blackmon Drive Right in right out only allowed on Scott Blvd- with proper design to prohibit restricted movements.
- N15. 2739 Craigie Ave.** No comment.
- N16. 1259 Sheppard Ct.** No comment.

N17/N18. Not in package to review.

N19. No comment.

DEKALB COUNTY GOVERNMENT PLANNING DEPARTMENT DISTRIBUTION FORM

The following areas below may warrant comments from the Development Division. Please respond accordingly as the issues relate to the proposed request and the site plan enclosed as it relates to Chapter 14. You may address applicable disciplines.

DEVELOPMENT ANALYSIS:

- **Storm Water Management**

Compliance with the Georgia Stormwater Management Manual, DeKalb County Code of Ordinances 14-40 for Stormwater Management and 14-42 for Storm Water Quality Control **(sections have been amended recently; please request the amended chapter)**, to include Runoff Reduction Volume where applicable is required as a condition of land development permit approval. Use Volume Three of the G.S.M.M. for best maintenance practices. Use the NOAA Atlas 14 Point Precipitation Data set specific to the site. Recommend Low Impact Development features/ Green Infrastructure be included in the proposed site design to protect as much as practicable the statewaters and special flood hazard areas.

- **Flood Hazard Area/Wetlands**

The presence of FEMA Flood Hazard Area **was not** indicated in the County G.I.S. mapping records for the site; and should be noted in the plans at the time of any land development permit application. Encroachment of flood hazard areas require compliance with Article IV of Chapter 14 and FEMA floodplain regulations

- **Landscaping/Tree Preservation**

Landscaping and tree preservation plans for any building, or parking lot must comply with DeKalb County Code of Ordinances 14-39 as well as Chapter 27 Article 5 and are subject to approval from the County Arborist.

- **Tributary Buffer**

State water buffer **was not** reflected in the G.I.S. records for the site. Typical state waters buffer have a 75' undisturbed stream buffer and land development within the undisturbed creek buffer is prohibited without a variance per DeKalb County Code of Ordinances 14-44.1.

Please provide additional information relating to the following statement.

According to studies conducted by the Institute of Traffic Engineers (ITE) 6/7TH Edition (whichever is applicable), churches generate an average of fifteen (15) vehicle trip end (VTE) per 1, 000 square feet of floor area, with an eight (8%) percent peak hour factor. Based on the above formula, the _____ square foot place of worship building would generate _____ vehicle trip ends, with approximately _____ peak hour vehicle trip ends.

Single Family residence, on the other hand, would generate ten (10) VTE's per day per dwelling unit, with a ten (10%) percent peak hour factor. Based on the above referenced formula, the _____ (Single Family Residential) District designation which allows a maximum of _____ units per acres, and the given fact that the project site is approximately _____ acres in land area, _____ daily vehicle trip end, and _____ peak hour vehicle trip end would be generated with residential development of the parcel.

COMMENTS:

Plan and Field Reviewed. No problem That would interfere with Traffic Flow.

Approved Site Plan

Conditions CZ-21-1245061
Major Modification of CZ-18-22125

1. The project site shall be developed in general conformity with the location of streets, land uses and buildings as shown on the site plan "Proposed Development at Avondale Park", prepared by Proterra Development LLC, dated June 13, 2018. A buffer with a depth of 10 to 20 feet shall be provided between the proposed alley ("Catalan Circle") of the proposed townhomes and the western property line (abutting the Farrar Court single-family subdivision) as shown on the aforementioned site plan. Existing trees within the transitional buffer shall be preserved and supplemented with new trees to form an effective visual screen as approved by the County Arborist. Invasive species such as bamboo may be removed from the buffer and additional plantings can be added to form a visual screen. Where invasive species are removed from the buffer, special consideration shall be given to prevent erosion and sedimentation during construction. A screen shall be installed along the entire length of the west property line and at the rear property lines of the single-family homes along the east property line, which shall consist of 1) an opaque fence with the finished side facing outwards and with a height of a minimum of six feet and 2) sufficient numbers of the following trees to provide a solid screen at maturity: arbor vitae, cryptomeria, or giant arbor vitae.
2. The landscape plan shall be in substantial compliance to Exhibit E Avondale Park and shall comply with Article 5 and Chapter 14 of the DeKalb County Code. If trees are replaced in the buffer, the preferred trees are one of or a combination of white oak, shumard red oak, southern red oak, or northern red oak. These are also the preferred trees for street trees within the development. The final landscaping plan shall be approved by the County arborist and shall take into consideration the recompense required under the tree ordinance. Within the development, street trees may be planted off the right-of-way if they would otherwise interfere with buried utilities. Recompense should take place within the immediate vicinity of the development along Mountain Drive or along Farrar Court.
3. The development shall comply with Sketch Plan requirements for subdivision prior to the issuance of a Land Disturbance Permit.
4. An outdoor lighting plan shall be submitted, reviewed, and approved by the Planning and Sustainability Department for compliance to the regulations of Section 27-5.6.1 of the County Code prior to the issuance of any building permits. The residential fixtures will be the "Savannah" lamp. Drop dish refractors are prohibited.
5. During construction, the Developer shall post a contact phone number that nearby residents can call to discuss development and construction issues. The developer shall use temporary Best Management Practices (BMPs) for run-off and temporary sedimentation storage in compliance with Section 14.38 (Soil Erosion and Sediment Control), subject to approval of the Land Development Division of the Department of Planning and Sustainability. If the Land Development Division determines that the property owners of Farrar Court (in particular those who will not have the benefit of an undisturbed buffer) are susceptible to damage from erosion, the Department may require, at a minimum, additional row(s) of silt fencing and bales of straw to protect the adjacent properties.
6. Provide compliance with Section 14-40 and Section 14-42 of the DeKalb County Code regarding storm water management and water quality control.
7. Open space and park space shall be as shown on the site plan cited in Condition No. 1.

8. The townhomes and single-family detached units shall have a minimum floor area of 1,200 square feet.
9. All residential buildings shall be designed to have a pitched roof.
10. The building materials shall be those listed in Exhibit B Construction Details of CZ-15-19943. Single-family attached townhomes shall be substantially similar in design to those depicted in *Atl T204 Elevation Plans dated 8/12/21, Elevation Plans Front Elevations, Elevation Plans Rear Elevations, and Elevation Plans Side Elevations*. Single-family detached homes shall be similar to those depicted in *Atl E128 and Atl E129*. The facades of the parking decks shall be consistent with the remainder of the building and shall use the same building materials. The side elevations of all single-family attached townhomes and single-family detached homes shall have windows and architectural detailing as required in Section 27-5.7.6(l)(1) of the County Code.
11. Commercial uses shall be limited to those permitted in the NS (Neighborhood Shopping) District. The following uses are prohibited within the Project Site:
 - a. Animal hospital, veterinary clinic, or boarding or breeding kennels
 - b. Convent or monastery
 - c. Private elementary, middle, or high school
 - d. Hotel, motel, extended stay hotel/motel, or boarding or rooming house
 - e. Movie theater or bowling alley
 - f. Farm or garden supply store
 - g. Liquor store, including retail liquor store as accessory use to hotels, motels and high-rise office building
 - h. Adult entertainment establishment or adult service facility
 - i. Nightclubs or late-night establishments
 - j. Coin-operated laundry or dry-cleaning store (specifically excluding dry-cleaning pressing establishments or pick-up stations and coin-operated laundry facilities within the interior of any multifamily apartment building)
 - k. Home appliance repair or service establishment
 - l. Special events facility
 - m. Drive-through facility (other than dry-cleaning pick-up station)
 - n. Pawn shop
 - o. Check cashing establishment
 - p. Place of worship
 - q. Convenience store
 - r. Gas station
12. Maximum building heights of non-residential buildings shall be eight stories. The townhomes along the west side of the site shall be no more than 40 feet high.
13. Subject to Georgia Department of Transportation approval, the developer shall provide a 6-foot wide sidewalk and a 10-foot wide landscape strip within the Mountain Drive right-of-way prior to the issuance of any certificates of occupancy. Within the landscape strip, provide a minimum of one street tree for every 50 feet of street frontage along Mountain Drive or as approved by the County Arborist so long as there is a minimum of seven trees.

14. Refuse areas shall be screened from public streets and shall be fenced or screened with a combination of materials and colors to match building materials of primary buildings.
15. Recycle collection bins shall be provided for the tenants residing in the townhome and multifamily buildings.
16. No direct vehicular access shall be permitted from the subject property to Farrar Court.
17. Secure bicycle storage lockers shall be provided within the parking deck of the stacked flat residential buildings. The space shall be sufficient for a minimum of 20 bikes.
18. No more than one ground sign shall be permitted on the Mountain Drive frontage. The ground sign shall be a monument style sign with a base and framework made of brick or stone and a maximum height of 6 feet.
19. The approval of this rezoning application by the Board of Commissioners has no bearing on the requirements for other regulatory approvals under the authority of the Historic Preservation Commission, the Zoning Board of Appeals, or other entity whose decision should be based on the merits of the application under review by such entity.
20. A sidewalk shall be extended from the east property line of the subject property to the sidewalk stub located approximately 70 feet from the eastern edge of the driveway into the Tax Commissioner's office.
21. In order to save as many significant trees as possible, utilities shall be installed by tunneling under tree roots, subject to approval by the County Arborist.
22. The developer shall have a soil study and a water percolation test performed before clearing trees and shall submit the study and test results to the DeKalb County staff, who shall determine whether the site is suitable for land disturbance.
23. The developer shall notify residents of properties on Farrar Court, by way of mailbox flyers, 24 hours in advance of any blasting.
24. The proposed sidewalk along Mountain Drive shall be completed in the first phase of construction, pending GDOT approval.

Major Modification
Letter of Intent**

Letter of Application Identifying the proposed zoning classification, the reason for the modification request, the existing and proposed use of the property, and detailed characteristics of the proposed use (e.g., floor area, height of buildings, number of units, mix of unit types, hours of operation, etc.

Overview

The property was rezoned to PC3 case number CZ-15-19943, and two major modifications case Numbers CZ-18-22125, CZ-21-1245061

Current zoning classification for the parcel is MU-5. This classification allows a mix of uses and a variety of housing, office and commercial choices on parcels within close proximity to the Kensington Marta Station. This development strategy also aligns with those set forth in the 2013 Kensington LCI which promotes Transit Oriented Development. The proposed site plan promotes walkability, connectivity and traditional neighborhood development principles.

Modification

The proposed site plan does not vary much from the previously approved site plan: roads, green spaces and building location will remain the same, this modification is to change the use of buildings originally shown on site plan as A.B and C as office and retail to combine them in to one mix use structure with 49k sf of commercial space and approx. 202 apartment units.

RECOMMENDED CONDITIONS

CZ-18-22125

Major Modification of Zoning Conditions of CZ-15-19943

1. The project site shall be developed in substantial conformity with the location of streets, land uses and buildings as shown on the site plan titled "Proposed Development at Avondale Park", prepared by Proterra Development LLC, dated June 13, 2018. A buffer with a depth of 10 to 20 feet shall be provided between the proposed alley ("Catalan Circle") of the proposed townhomes and the western property line (abutting the Farrar Court single-family subdivision) as shown on the aforementioned site plan. Existing trees within the transitional buffer shall be preserved and supplemented with new trees to form an effective visual screen as approved by the County Arborist. Invasive species such as bamboo may be removed from the buffer and additional plantings can be added to form a visual screen. Where invasive species are removed from the buffer, special consideration shall be given to prevent erosion and sedimentation during construction. A screen shall be installed along the entire length of the west property line and at the rear property lines of the single-family homes along the east property line, which shall consist of 1) an opaque fence with the finished side facing outwards and with a height of a minimum of six feet and 2) sufficient numbers of the following trees to provide a solid screen at maturity: arbor vitae, cryptomeria, or giant arbor vitae.

2. The landscape plan will be in substantial compliance to Exhibit E Avondale Park, comply with Article 5 and Chapter 14 of the DeKalb County Code. If trees are replaced in the buffer, the preferred trees are one of or a combination of white oak, shumard red oak, southern red oak, or northern red oak. These are also the preferred trees for street trees within the development. The final landscaping plan shall be approved by the County arborist and shall take into consideration the recompense required under the tree ordinance. Within the development street trees may be planted off the right-of-way if they would otherwise interfere with buried utilities. Recompense should take place within the immediate vicinity of the development along Mountain Drive or along Farrar Court.

3. The development shall comply with Sketch Plan requirements for subdivision prior to the issuance of a Land Disturbance Permit.

4. An outdoor lighting plan shall be submitted, reviewed, and approved by the Planning and Sustainability Department for compliance to the regulations of Section 27-5.6.1 of the County Code prior to the issuance of any building permits. The residential fixtures will be the "Savannah" lamp. Drop dish refractors are prohibited.

5. During construction, the Developer shall post a contact phone number that nearby residents can call to discuss development and construction issues. The developer shall use temporary Best Management Practices (BMPs) for run-off and temporary sedimentation storage in compliance with Section 14.38 (Soil Erosion and Sediment Control) subject to approval of the Land Development Division of the Planning and Sustainability Department. If the Land Development Division determines that the property owners of Farrar Court (in particular those who will not have the benefit of an undisturbed buffer) are susceptible to damage from erosion, the Department may require, at a minimum, additional row(s) of silt fencing and bales of straw to protect the adjacent properties.

6. Provide compliance with Section 14-40 and Section 14-42 of the DeKalb County Code regarding storm water management and water quality control.
7. Open space and park space shall be as shown on the site plan cited in Condition No. 1.
8. The townhomes and single-family detached units shall have a minimum floor area of 1,200 square feet.
9. All residential buildings shall be designed to have a pitched roof.
10. The building materials shall be those listed in Exhibit B Construction Details of CZ-15-19943. The building elevations shall be substantially similar to those depicted in Exhibit C and Exhibit D of CZ-15-19943, as attached. The facades of the parking decks shall be consistent with the remainder of the building and shall use the same buildings materials. The side elevations of all residential buildings shall have windows and architectural detailing as required in Section 275.6(I)(1) of the County Code.
11. Commercial uses shall be limited to those uses allowed in the NS (Neighborhood Shopping) uses district. The following uses are prohibited within the Project Site:
 - a. Animal hospital, veterinary clinic, or boarding or breeding kennels
 - b. Convent or monastery
 - c. Private elementary, middle, or high school
 - d. Hotel, motel, extended stay hotel/motel, or boarding or rooming house
 - e. Movie theater or bowling alley
 - f. Farm or garden supply store
 - g. Liquor store, including retail liquor store as accessory use to hotels, motels and high rise office building
 - h. Adult entertainment establishment or adult service facility
 - i. Nightclubs or late-night establishments
 - j. Coin-operated laundry or dry-cleaning store (specifically excluding dry-cleaning pressing establishments or pick-up stations and coin-operated laundry facilities within the interior of any multi-family apartment building)
 - k. Home appliance repair or service establishment
 - l. Special events facility
 - m. Drive-through facility (other than dry-cleaning pick-up station)
 - n. Pawn shop
 - o. Check cashing establishment
 - p. Place of worship
 - q. Convenience store
 - r. Gas station
12. Maximum building heights of non-residential buildings shall be eight stories. The townhomes along the west side of the site shall be no more than 40 feet high.
13. Subject to Georgia Department of Transportation approval, the developer shall provide a 6-foot wide sidewalk and a 10-foot wide landscape strip within the Mountain Drive right-of-way prior to the

issuance of any certificates of occupancy. Within the landscape strip, provide a minimum of one street tree for every 50 feet of street frontage along Mountain Drive or as approved by the County Arborist so long as there is a minimum of seven trees.

14. Refuse areas shall be screened from public streets and shall be fenced or screened with a combination of materials and colors to match building materials of primary buildings.

15. Recycle collection bins shall be provided for the tenants residing in the townhome and multifamily buildings.

16. No direct vehicular access shall be permitted from the subject property to Farrar Court.

17. Secure bicycle storage lockers shall be provided within the parking deck of the stacked flat residential buildings. The space shall be sufficient for a minimum of 20 bikes.

18. No more than one ground sign shall be permitted on the Mountain Drive frontage. The ground sign shall be a monument style sign with a base and framework finished with brick or stone and a maximum height of 6 feet.

19. The approval of this rezoning application by the Board of Commissioners has no bearing on the requirements for other regulatory approvals under the authority of the Historic Preservation Commission, the Zoning Board of Appeals, or other entity whose decision should be based on the merits of the application under review by such entity.

20. A sidewalk shall be extended from the east property line of the subject property to the sidewalk stub located approximately 70 feet from the eastern edge of the driveway into the Tax Commissioner's office.

21. In order to save as many significant trees as possible, utilities shall be installed by tunneling under tree roots, subject to approval or waiver by the County Arborist.

22. The developer shall have a soil study and a water percolation test performed before clearing trees, shall submit the study and test results to the DeKalb County staff, who shall determine whether the site is suitable for land disturbance.

23. The developer shall notify residents of properties on Farrar Court, by way of mailbox flyers, 24 hours in advance of any blasting.

24. The proposed sidewalk along Mountain Drive shall be completed in the first phase of construction, pending GDOT approval.
