## **I. LETTER OF INTENT**

Toxaway Automotive Group LLC (the “Applicant”) is seeking to operate a minor automotive repair facility for oil changes on +/- 0.4 acres of land being Tax Parcel No. 18 100 01 004 also known as 2209 Lawrenceville Hwy., Decatur, GA 30033 (the “Subject Property”). The Subject Property is currently zoned C-1 and has a land use designation of CRC (Commercial Redevelopment Corridor). While the use of the Subject Property for a minor automotive repair facility is allowed in the C-1 zoning district, the Applicant is seeking a Special Land Use Permit to allow customers to remain in their car while receiving their oil change.

This document serves as a statement of intent, analysis of the criteria under the Dekalb County Special Land Use Permit criteria and contains notice of constitutional allegations as a reservation of the Applicant’s rights.

## **II. DEKALB COUNTY SPECIAL LAND USE PERMIT CRITERIA**

- A. Adequacy of the size of the site for the use contemplated and whether or not adequate land area is available for the proposed use including provision of all required yards, open space, off-street parking, transitional buffer zones, and all other applicable requirements of the zoning district in which the use is proposed to be located.**

The current and future operators of the Subject Property will go virtually unchanged, transitioning from a tire shop to an oil change facility, both allowed by-right under the C-1 zoning as minor automotive repairs. The operators currently comply with all dimensional requirements necessary under C-1.

- B. Compatibility of the proposed use with adjacent properties and land uses and with other properties and land uses in the district, and whether the proposed use will create adverse impacts upon any adjoining land use by reason of traffic volume/congestion, noise, smoke, odor, dust, or vibration generated by the proposed use.**

## Battle Law

The current use of the property is the same as the proposed use. The addition of a drive-through only changes the flow of customers and does not raise the level of traffic volume/congestion, noise, smoke, odor, dust, vibration, or other negative externality that is currently produced.

**C. Adequacy of public services, public (or private) facilities, and utilities to serve the proposed use.**

Since the proposed use does not add to the existing use, merely changes the flow of customers, no additional need for public or private facilities or utilities will be necessary.

**D. Adequacy of the public street on which the use is proposed to be located and whether or not there is sufficient traffic-carrying capacity for the use proposed so as not to unduly increase traffic and create congestion in the area.**

The building is inaccessible from Lawrenceville Highway, the main thoroughfare travelled by most traffic near the business. The site currently has two curb cuts, one on White Blvd., a side street that dead ends into a small condominium complex. The other is fed by the adjacent development's parking lot. The proposed use will utilize the curb cut located in the neighboring property's parking lot as the entrance, and White Blvd. as the exit. The proposed layout removes all traffic off the main road, Lawrenceville Highway. Furthermore, the proposed use will not impede the flow of traffic to its neighbors. Any traffic going to the adjacent development in the direction of travel approaches another entrance before the entrance located near the Subject Property.

**E. Adequacy of ingress and egress to the subject property and to all proposed buildings, structures, and uses thereon, with particular reference to pedestrian and automotive safety and convenience, traffic flow and control, and access in the event of fire or other emergency.**

## Battle Law

All traffic flow of the proposed operations is located off of the main road, and does not increase the current traffic volume. The nature of the business only requires two curb cuts as customers enter and leave. Customers also expect to drive-in, park, and wait on service. Employees also have the responsibility of directing traffic in and out of the site. The Subject Property matches with neighboring uses in safety and design, not adding any additional stress to the pedestrian or vehicle infrastructure. Finally, in the case of emergency, the site does not act as an impediment to the lanes of travel on the main road, the side street, or to the neighboring businesses. Responders have ample land to access any of the surrounding areas and parcels.

**F. Whether the proposed use will create adverse impacts upon any adjoining land use by reason of the manner and hours of operation of the proposed use.**

The hours of the proposed operation will be normal commercial business operating hours.

**G. Whether the proposed use is otherwise consistent with the requirements of the zoning district classification in which the use is proposed to be located.**

The proposed use, minor automotive repairs, is allowed by-right in the C1 zoning classification. The addition of the drive-through is allowed as well, subject to obtaining a SLUP.

**H. Whether the proposed use is consistent with, advances, conflicts, or detracts from the policies of the comprehensive plan.**

The proposed use advances the Comprehensive Plan. As the site is located in a Commercial Redevelopment Corridor, the proposed use places an established business on Lawrenceville Highway that holds high aesthetic and moral standards for operation, priding itself in its level of quality compared to competitors. The new business provides the Corridor a fresh and inviting use of space, without the usual downsides of other minor

## Battle Law

automotive repair shops. The quick flow of cars and limited services available will eliminate the need for unsightly repairs to happen outside of the building and for cars to be located on the lot after hours. The drive-through provides efficient service to customers, a valuable addition to a parcel that will generate higher economic returns to the County.

**I. Whether there is adequate provision of refuse and service areas.**

Because of the limited services available in the business, the small footprint and service area are adequate to house the employees and patrons during operations. There is a small office located which employees may use for breaks. Customers will not leave their vehicles.

**J. Whether the length of time for which the special land use permit is granted should be limited in duration.**

The SLUP should be issued in perpetuity of property ownership.

**K. Whether the size, scale and massing of proposed buildings are appropriate in relation to the size of the subject property and in relation to the size, scale and massing of adjacent and nearby lots and buildings; and whether the proposed use will create any shadow impact on any adjoining lot or building as a result of the proposed building height.**

The proposed use only utilizes an existing building which is much smaller than the neighboring developments. It is a typical, small scale automotive repair shop, similar to many others lining Lawrenceville Highway.

**L. Whether the proposed use will adversely affect historic buildings, sites, districts, or archaeological resources.**

## Battle Law

No historic buildings, sites, districts, or archaeological resources exist nearby.

**M. Whether the proposed use satisfies the requirements contained within the supplemental regulations for such special land use permit.**

The proposed use complies with all supplementary regulations required of drive-through facilities outlined in Sec. 4.2.23. of the Dekalb County Code.

**N. Whether the proposed use would be consistent with the needs of the neighborhood or the community as a whole, as expressed and evidenced during the review process.**

The proposed use of the Subject Property provides a safe, efficient option for the community. All vehicle owners must maintain their cars, and this use provides a quick, affordable option for the most common maintenance service – an oil change. The business owners pride themselves on fast, friendly service. Located multiple turns off a main road, the proposed use will not add to additional traffic, nor detract from the neighborhood character, rather the proposed use revitalizes the neighborhood by creating an attractive façade, unlike many traditional auto service facilities. The proposed use turns a necessity of car ownership into a neighborhood amenity.

### **III. CONCLUSION**

For the foregoing reasons, the Applicant hereby requests that the application for a Special Land Use Permit be approved. The Applicant welcomes any questions and feedback from the planning staff.

### **IV. NOTICE OF CONSTITUTIONAL ALLEGATIONS AND PRESERVATION OF CONSTITUTIONAL RIGHTS**

The portions of the Dekalb County Zoning Ordinance, facially and as applied to the Subject Property, which restrict or classify or may restrict or classify the Subject Property so as to prohibit

## Battle Law

its development as proposed by the Applicant are or would be unconstitutional in that they would destroy the Applicant's property rights without first paying fair, adequate and just compensation for such rights, in violation of the Fifth Amendment and Fourteenth Amendment of the Constitution of the United States and Article I, Section I, Paragraph I of the Constitution of the State of Georgia of 1983, Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and would be in violation of the Commerce Clause, Article I, Section 8, Clause 3 of the Constitution of the United States.

The application of the Dekalb County Zoning Ordinance to the Subject Property which restricts its use to any classification other than that proposed by the Applicant is unconstitutional, illegal, null and void, constituting a taking of Applicant's Property in violation of the Just Compensation Clause of the Fifth Amendment to the Constitution of the United States, Article I, Section I, Paragraph I, and Article I, Section III, Paragraph I of the Constitution of the State of Georgia of 1983, and the Equal Protection and Due Process Clauses of the Fourteenth Amendment to the Constitution of the United States denying the Applicant an economically viable use of its land while not substantially advancing legitimate state interests.

A denial of this Application would constitute an arbitrary irrational abuse of discretion and unreasonable use of the zoning power because they bear no substantial relationship to the public health, safety, morality or general welfare of the public and substantially harm the Applicant in violation of the due process and equal protection rights guaranteed by the Fifth Amendment and Fourteenth Amendment of the Constitution of the United States, and Article I, Section I, Paragraph I and Article I, Section III, Paragraph 1 of the Constitution of the State of Georgia.

A refusal by the Dekalb County Board of Commissioners to amend the land use and/or rezone the Subject Property to the classification as requested by the Applicant would be unconstitutional and discriminate in an arbitrary, capricious and unreasonable manner between the Applicant and owners of similarly situated property in violation of Article I, Section I, Paragraph II of the Constitution of the State of Georgia of 1983 and the Equal Protection Clause of the Fourteenth Amendment to the Constitution of the United States. Any Special Land Use Permit of the Property subject to conditions which are different from the conditions requested by the Applicant, to the extent such different conditions would have the effect of further restricting Applicant's utilization of the property, would also constitute an arbitrary, capricious and discriminatory act in zoning the Subject Property to an unconstitutional classification and would likewise violate each of the provisions of the State and Federal Constitutions set forth hereinabove.

A refusal to allow the land use amendment and/or Special Land Use Permit in questions would be unjustified from a fact-based standpoint and instead would result only from constituent opposition, which would be an unlawful delegation of authority in violation of Article IX, Section II, Paragraph IV of the Georgia Constitution.

A refusal to allow the Special Land Use Permit in question would be invalid inasmuch as it would be denied pursuant to an ordinance which is not in compliance with the Zoning Procedures Law, O.C.G.A Section 36-66/1 et seq., due to the manner in which the Ordinance as a whole and its map(s) have been adopted.

## Battle Law

The existing land use designation and/or zoning classification on the Subject Property is unconstitutional as it applies to the Subject Property. This notice is being given to comply with the provisions of O.C.G.A. Section 36-11-1 to afford the County an opportunity to revise the Property to a constitutional classification. If action is not taken by the County to rectify this unconstitutional land use designation and/or zoning classification within a reasonable time, the Applicant is hereby placing the County on notice that it may elect to file a claim in the Superior Court of Dekalb County demanding just and adequate compensation under Georgia law for the taking of the Subject Property, diminution of value of the Subject Property, attorney's fees and other damages arising out of the unlawful deprivation of the Applicant's property rights.
