SUBJECT:

COMMISSION DISTRICT(S): COMMISSION DISTRICT 05 SUPER DISTRICT 07

Application of Naqib Hussain to rezone the subject parcel from C-1 (Local Commercial) zoning district to C-2 (General Commercial) zoning district to expand from an auto repair and sales business to a major auto repair business.

PETITION NO: D6-2023-1155 Z-23-1246662

PROPOSED USE: Expansion of an existing auto repair business.

LOCATION: 4381 Covington Highway, Decatur, Georgia 30035

PARCEL NO. : 15-196-03-012

INFO. CONTACT: Andrea Folgherait, Planner

PHONE NUMBER: 404-371-2155

PURPOSE:

Application of Naqib Hussain to rezone the subject parcel from C-1 (Local Commercial) zoning district to C-2 (General Commercial) zoning district to expand from an auto repair and sales business to a major auto repair business.

RECOMMENDATION:

COMMUNITY COUNCIL: (Feb. 12, 2024) Approval. (Oct. 2, 2023) Deferral.

PLANNING COMMISSION: (March 5, 2024) Pending. (Nov. 2, 2023) Three-Cycle Deferral.

PLANNING STAFF: Approval with conditions.

STAFF ANALYSIS: The applicant, Naqib Hussain, is seeking a rezone from the Local Commercial (C-1) Zoning District to the General Commercial (C-2) Zoning District to expand and upgrade an existing auto repair and sales business. The business, *All in One Auto Sales*, has been operating for over 20 years along a heavily automobile serviced corridor - Covington Highway. *All in One Auto Sales* will cease automobile sales in order to transition to become solely a major auto repair business, defined as *a business that services passenger vehicles including the dismantling and repair of engines, transmissions, carburetors, drive shafts, and similar major vehicle parts, the provision of collision repair services including body frame straightening and body part replacement, or the painting or re-painting of passenger vehicles and motorcycles*. The applicant has disclosed, both in the application and during the District 5 Community Council meeting, that once funding is available, new bays will be built in the rear of the property to rent to a variety of registered Georgia mechanics. Because the funding for the construction of bays has not yet been achieved, a timeline of redevelopment is not yet determined. The use of the property as a major auto repair shop within the C-2 Zoning District is consistent with adjacent zoning districts and surrounding land uses. Additionally, the subject property is located in a Commercial Redevelopment Corridor (CRC) character area. According to the *2050 Unified Plan*, CRC is intended to improve the function and aesthetic appeal of commercial corridors within the County and promote redevelopment of corridors suffering from decline (pg. 37). The subject site is less than a mile from the Major Mobility Investment Program (MMIP) I-285 Eastside Bridge Replacement project. Continuing to connect this corridor with advanced infrastructure while improving and expanding businesses opportunities along the corridor supports the intent of the CRC Character Area. *Section 5.4.3 Streetscape Elements and Dimensions* will require sidewalk improvement and a landscape strip. Both of which are elements to further the intent of the CRC character area. Currently, the

site consists of a one-story, brick building; metal carport; and a metal building with a gate to the rear of the brick building. The applicant has submitted a site plan, labeled “Site Plan for Rezoning” (see enclosed) of the proposed location for the future building composed of four (4) bays. The proposed change in use will require the applicant to comply with the current regulations specified in Section 8.1.16 *Expansion, redevelopment or improvement of legal nonconforming buildings, structures and/or sites*. The applicant has submitted updated building elevations (see enclosed). It appears the proposed building and bays follow exterior building materials set forth in Section 5.7.4. Staff conducted a preliminary zoning review of the proposal, which appeared to comply with *the C-2 zoning district requirements of the Non- Residential Dimensional Requirements (Section 2.24.1)*. As proposed, it appears the applicant has met the supplemental regulations set forth in Section 4.2.14 *Automobile repair, major, and paint shops*. While the applicant has supplied details of proposed landscaping in the site plan, the applicant may need to seek variances from the Zoning Board of Appeals to meet all requirements set forth in Section 5.4.3 *Streetscape Elements and Dimensions*. Specifically, regarding the landscape strip dimensions and requirements. It appears the proposal satisfies the goals of the CRC character area, is consistent with adjacent and surrounding uses, and meets the requirements of a C-2 Zoning District. Additionally, the applicant has made the necessary improvements to the proposal (landscape efforts, continued site clean-up, proposed building materials to match existing buildings) as requested by Community Council, Planning Commission, and the Board of Commissioners. Therefore, upon review of Section 7.3.5 (A-H) of the *Zoning Ordinance*, Staff recommends “Approval with the attached conditions”.

PLANNING COMMISSION VOTE: (March 5, 2024) Pending. (Nov. 2, 2023) Three-Cycle Deferral 8-0-0. Jan Costello moved, Jon West seconded for a 3-cycle deferral to the May 2024 zoning agenda to allow the applicant time to address the concerns brought by Community Council, Planning Commission and other interested parties, including an enhanced streetscape plan.

COMMUNITY COUNCIL VOTE/RECOMMENDATION: (Feb. 12, 2024) Approval 8-0-1. (Oct. 2, 2023) Deferral. Community Council District 5 voted for deferral to get more information.

Z-23-1246662 (2023-1155)
Recommended Conditions
4381 Covington Highway
March 2024

1. The Applicant shall meet all requirements set forth in *Section 4.2.14 Automobile repair, major, and paint shops*, prior to issuance of building or occupancy permits.
2. An additional and/or new business license shall be withheld until all landscape and site developments come into compliance.
3. All future buildings and/or bays must be in compliance with *Section 5.7.4 (Materials)* unless relief is granted by the Zoning Board of Appeals.
4. Future construction shall be done in substantial compliance with the elevation exhibit (Updated Elevations A, B, and C) attached herein.
5. The approval of this Rezone application by the Board of Commissioners has no bearing on the requirements for other regulatory approvals under the authority of the Zoning Board of Appeals, or other entity whose decision should be based on the merits of the application under review by such entity.

Comprehensive Plan:	Commercial Redevelopment Corridor (CRC)	
	Consistent X	Inconsistent

Staff Recommendation: Approval with Conditions.

The applicant, Naqib Hussain, is seeking a rezone from the Local Commercial (C-1) Zoning District to the General Commercial (C-2) Zoning District to expand and upgrade an existing auto repair and sales business. The business, *All in One Auto Sales*, has been operating for over 20 years along a heavily automobile serviced corridor - Covington Highway. *All in One Auto Sales* will cease automobile sales in order to transition to become solely a major auto repair business, defined as *a business that services passenger vehicles including the dismantling and repair of engines, transmissions, carburetors, drive shafts, and similar major vehicle parts, the provision of collision repair services including body frame straightening and body part replacement, or the painting or re-painting of passenger vehicles and motorcycles*. The applicant has disclosed, both in the application and during the District 5 Community Council meeting, that once funding is available, new bays will be built in the rear of the property to rent to a variety of registered Georgia mechanics. Because the funding for the construction of bays has not yet been achieved, a timeline of redevelopment is not yet determined.

The use of the property as a major auto repair shop within the C-2 Zoning District is consistent with adjacent zoning districts and surrounding land uses. Additionally, the subject property is located in a Commercial Redevelopment Corridor (CRC) character area. According to the *2050 Unified Plan*, CRC is

intended to improve the function and aesthetic appeal of commercial corridors within the County and promote redevelopment of corridors suffering from decline (pg. 37).

The subject site is less than a mile from the Major Mobility Investment Program (MMIP) I-285 Eastside Bridge Replacement project. Continuing to connect this corridor with advanced infrastructure while improving and expanding businesses opportunities along the corridor supports the intent of the CRC Character Area. *Section 5.4.3 Streetscape Elements and Dimensions* will require sidewalk improvement and a landscape strip. Both of which are elements to further the intent of the CRC character area.

Currently, the site consists of a one-story, brick building; metal carport; and a metal building with a gate to the rear of the brick building. The applicant has submitted a site plan, labeled "Site Plan for Rezoning" (see enclosed) of the proposed location for the future building composed of four (4) bays. The proposed change in use will require the applicant to comply with the current regulations specified in *Section 8.1.16 Expansion, redevelopment or improvement of legal nonconforming buildings, structures and/or sites*. The applicant has submitted updated building elevations (see enclosed). It appears the proposed building and bays follow exterior building materials set forth in *Section 5.7.4*. Staff conducted a preliminary zoning review of the proposal, which appeared to comply with *the C-2 zoning district requirements of the Non-Residential Dimensional Requirements (Section 2.24.1)*. As proposed, it appears the applicant has met the supplemental regulations set forth in *Section 4.2.14 Automobile repair, major, and paint shops*. While the applicant has supplied details of proposed landscaping in the site plan, the applicant may need to seek variances from the Zoning Board of Appeals to meet all requirements set forth in *Section 5.4.3 Streetscape Elements and Dimensions*. Specifically, regarding the landscape strip dimensions and requirements.

It appears the proposal satisfies the goals of the CRC character area, is consistent with adjacent and surrounding uses, and meets the requirements of a C-2 Zoning District. Additionally, the applicant has made the necessary improvements to the proposal (landscape efforts, continued site clean-up, proposed building materials to match existing buildings) as requested by Community Council, Planning Commission, and the Board of Commissioners. Therefore, upon review of *Section 7.3.5 (A-H)* of the *Zoning Ordinance*, Staff recommends approval with the following conditions:

1. The Applicant shall meet all requirements set forth in *Section 4.2.14 Automobile repair, major, and paint shops*, prior to issuance of building or occupancy permits.
2. An additional and/or new business license shall be withheld until all landscape and site developments come into compliance.
3. All future buildings and/or bays must be in compliance with *Section 5.7.4 (Materials)* unless relief is granted by the Zoning Board of Appeals.
4. Future construction shall be done in substantial compliance with the elevation exhibit (Updated Elevations A, B, and C) attached herein.
5. The approval of this Rezone application by the Board of Commissioners has no bearing on the requirements for other regulatory approvals under the authority of the Zoning Board of Appeals, or other entity whose decision should be based on the merits of the application under review by such entity.

Proposed right of way width _____

Capacity (TPD) _____
Latest Count (TPD) _____
Hourly Capacity (VPH) _____
Peak Hour. Volume (VPH) _____
Existing number of traffic lanes _____
Existing right of way width _____
Proposed number of traffic lanes _____
Proposed right of way width _____

Please provide additional information relating to the following statement.

According to studies conducted by the Institute of Traffic Engineers (ITE) 6.7th Edition (whichever is applicable), churches generate an average of fifteen (15) vehicle trip end (VTE) per 1,000 square feet of floor area, with an eight (8%) percent peak hour factor. Based on the above formula, the _____ square foot place of worship building would generate _____ vehicle trip ends, with approximately _____ peak hour vehicle trip ends.

Single Family residence, on the other hand, would generate ten (10) VTE's per day per dwelling unit, with a ten (10%) percent peak hour factor. Based on the above referenced formula, the _____ (Single Family Residential) District designation which allows a maximum of _____ units per acres, and the given fact that the project site is approximately _____ acres in land area, _____ daily vehicle trip end, and _____ peak hour vehicle trip end would be generated with residential development of the parcel.

COMMENTS: I did not see any traffic engineering
concerns at this time.

Re: Rezone Application Review

General Comments:

DeKalb County Health Regulations prohibit use of on-site sewage disposal systems for

- multiple dwellings
- food service establishments
- hotels and motels
- commercial laundries
- funeral homes
- schools
- nursing care facilities
- personal care homes with more than six (6) clients
- child or adult day care facilities with more than six (6) clients
- residential facilities containing food service establishments

If proposal will use on-site sewage disposal, please contact the Land Use Section (404) 508-7900.

Any proposal which will alter wastewater flow to an on-site sewage disposal system, must be reviewed by this office prior to construction.

This office must approve any proposed food service operation or swimming pool prior to starting construction.

Public health recommends the inclusion of sidewalks to continue a preexisting sidewalk network or begin a new sidewalk network. Sidewalks can provide safe and convenient pedestrian access to a community-oriented facility and access to adjacent facilities and neighborhoods.

For a public transportation route, there shall be a 5ft. sidewalk with a buffer between the sidewalk and the road. There shall be enough space next to the sidewalk for bus shelter's concrete pad installation.

Since DeKalb County is classified as a Zone 1 radon county, this office recommends the use of radon resistant construction.

Recommend denial

The following areas below may warrant comments from the Development Division. Please respond accordingly as the issues relate to the proposed request and the site plan enclosed as it relates to Chapter 14. You may address applicable disciplines.

Clarification is needed regarding the proposed scope of the redevelopment. Your application states "We want to build more garage bays in the back and rent them out to mechanics". A conceptual plan/drawing showing the proposed redevelopment/location of the bays, any additional pavement/impervious surfaces/parking being proposed, location of additional stormwater mgt facility

The survey indicates a location of a stormwater mgt facility. Additional stormwater mgt facilities will be required to address the additional impervious surfaces to be created, and compliance must be the current county codes For example, Runoff Reduction volume is required by the codes. Please, refer to county codes sec.14-40.

DEVELOPMENT ANALYSIS:

- Transportation/Access/Row

Depends on response/clarification.

- Storm Water Management

Depends on response/clarification.

- (1)Compliance with the Georgia Stormwater Management Manual, DeKalb County Code of Ordinances 14-40 for Stormwater Management and 14-42 for Storm Water Quality Control **(those sections have been amended recently, and available in Municode)**, to include Runoff Reduction Volume where applicable is required as a condition of land development permit approval. Use Volume Three of the G.S.M.M. for best maintenance practices. Use the NOAA Atlas 14 Point Precipitation Data set specific to the site. Recommend Low Impact Development features/ Green Infrastructure be included in the proposed site design to protect as much as practicable the state waters and special flood hazard areas.
- (2)The county codes require the hydrology study to model the existing conditions as wooded
- (3)Runoff Reduction Volume shall be provided unless technical justification is provided regarding the unfeasibility. Strongly recommend investigating the site and identify location where RRV can be provided and re-design/revise the layout to comply with the RRV requirement.

- **Flood Hazard Area/Wetlands**

The presence of FEMA Flood Hazard Area was not in the County G.I.S. mapping records for the site; and should be noted in the plans at the time of any land development permit application.

Encroachment of flood hazard areas require compliance with Article IV of Chapter 14 and FEMA floodplain regulations

- **Landscaping/Tree Preservation**

Landscaping and tree preservation plans for any building, or parking lot must comply with DeKalb County Code of Ordinances 14-39 as well as Chapter 27 Article 5 and are subject to approval from the County Arborist.

- **Tributary Buffer**

State water buffer was not reflected in the G.I.S. records for the site. Typical state waters buffer have a 75' undisturbed stream buffer and land development within the undisturbed creek buffer is prohibited without a variance per DeKalb County Code of Ordinances 14-44.1.

- **Fire Safety**

COMMENTS FORM:
PUBLIC WORKS ROAD AND DRAINAGE**

Case No.: Z-23-1246662

Parcel I.D. #: 15-196-03-012

Address: 4381 Covington Highway, Decatur, GA 30035

Drainage Basin: Cobb Creek/Snapfinger Creek

Upstream Drainage Area: N/A

Percent of Property in 100-Year Floodplain: 0%

Impact on property (flood, erosion, sedimentation) under existing zoning: There is no known flood impact on the subject property. It is located outside the floodplain but there is a FEMA designated Special Flood Hazard Area with regulated floodway on the adjoining parcel south of the property. Erosion and sedimentation activities are not known to affect the property in its present condition.

Required detention facility(s): To be determined if it triggers the applicability criteria in Sec. 14-40(b)(2) of the County code.

COMMENTS:

Any development arising from the rezoning that would not create additional impervious areas may require installation of stormwater BMPs to adequately and safely collect, convey and discharge runoff without any adverse effect on the current MS4 infrastructures.

Property Rezoning from C-1 to C-2:

All in One Auto Sales, inc.

Property address: 4381 Covington Hwy, Decatur, GA 30035

Parcel ID #: 15 196 03 012

I, Baker's Detail Shop, support and agree with All in One Auto Sales, inc. to rezone from C-1 to C-2 for the property 4381 Covington Hwy, Decatur, GA 30035.

All in One Auto Sales, inc. rezoning from C-1 to C-2 will be beneficial not only to themselves but will be beneficial to us as neighbors and for the community. Covington Hwy is an amazing destination for businesses and has brought so much revenue to the county and our economy. With this property rezoning from C-1 to C-2 will offer more business opportunities and more room for growth and development. All in One Auto Sales, inc. complies and is in conformity with the policy and intent of the comprehensive plan.

Letter of Application

A) The proposed zoning classification:

- The proposed zoning classification is C-2.

B) The reason for the zoning or special use or modification request:

- The reason why we are rezoning is because we want to expand and further develop as a business. The business currently sits on 3.190 acres of land, and we are not even using fifty percent of the land. We want to build more garage bays in the back and rent them out to mechanics, automotive technicians, vehicle wrap installers, and vehicle painters. This would greatly benefit the economy and Dekalb County by giving more job opportunities to individuals looking to open their own business or to further expand their business that they currently have. Covington Hwy is flourishing with new opportunities now than it has ever done so in the past. Ever since the newly constructed bridge on Covington Hwy has been built, there is now so much more room for growth and development for the economy and the society in Dekalb County.

C) The existing and proposed use of the property:

- The existing use of the property now is Used Car Sales. The proposed use of the property will be major auto repair and garage bay rental for automotive technicians, mechanics, car wrap installers, and painters.

D) Detailed characteristics of the proposed use:

- The purpose of rezoning is to maximize the number of uses that can be done on the property; our plan is to build more garage bays so that way more revenue can come in. We want to be able to utilize the land to its full potential and give others a piece of the property so that way they can also successfully achieve their goals for their business. We have decided to come to an end for the Used Car Sales business, and we want to do major auto repair in this entity. As of now, we don't have a set timeline on when we are coming to an end in the Used Car Sales business, but it's slowly in the works. Regarding the specifics, (floor area, height of building, number of units, etc.) we do not have anything confirmed yet when it comes to the garage bays that we are building; we are trying to save enough funds so that way we can build these garage bays. These garage bays are very expensive to build and we are currently getting price quotes from builders.

Impact Analysis

A) Whether the zoning proposal is in conformity with the policy and intent of the Comprehensive Plan:

- Yes, the zoning proposal is in conformity with the policy and intent of the comprehensive plan.

B) Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby properties:

- The zoning proposal will be in suitable view of the use and development of adjacent and nearby properties. However, viewing the front of the property, there will not be a view of the use and development because the property is fenced, and the use and development will take place in the back of the property behind the fence.

C) Whether the property to be affected by the zoning proposal has a reasonable economic use as currently zoned:

- The proposed zoning will greatly impact the economy in a positive way. The proposed zoning will bring in more revenue, job opportunities, and wealth not only to the entity but to the community as well. The proposed zoning will have a greater economic impact than the current zoning classification.

D) Whether the zoning proposal will adversely affect the existing use of usability of adjacent or nearby properties:

- No, the zoning proposal will not adversely affect the existing use of usability of adjacent or nearby properties.

E) Whether there are other existing or changing conditions affecting the use and development of the property which give supporting grounds for either approval or disapproval of the zoning proposal:

- There is a great amount of Used Car Sales businesses all throughout Covington Hwy. The competition for Used Car Sales has increased and reached its full potential on Covington Hwy. Our adjacent neighbor is also in the business for Used Car Sales, and our other three neighbors in proximity are also in the business for Used Car Sales. We have been in the Used Car Sales business for about twenty years now, and we have decided it is time for a change and there is a lot more room for growth and development. There is not that many major auto repair facilities compared to the amount of Used Car Sales businesses on Covington Hwy. We came across several

mechanics looking for space to rent so they can expand their business, and they have not found a suitable place and ideal location to open/expand their business, and our place is the perfect place because we have so much space and we are at an ideal location right off the Covington Hwy exit.

F) Whether the zoning proposal will adversely affect historic building, sites, districts, or archaeological resources:

- No, the zoning proposal will not adversely affect historic buildings, sites, districts, or archaeological resources.

G) Whether the zoning proposal will result in a use which will or could cause excessive or burdensome use of existing streets, transportation facilities, utilities, or schools:

- The zoning proposal will not cause excessive or burdensome use of existing streets, transportation facilities, utilities, or schools.

H) Whether the zoning proposal adversely impacts the environment or surrounding natural resources:

- The zoning proposal will not adversely impact the environment or surrounding natural resources.

DISCLOSURE OF CAMPAIGN CONTRIBUTION

In accordance with the Conflict of Interest in Zoning Act, OCGA Chapter 36-67A, the following questions must be answered.

Have you, the applicant, made \$250.00 or more in campaign contribution to a local government official within two years immediately preceding the filing of this application?

Yes _____ No X *

If the answer is yes, you must file a disclosure report with the governing authority of DeKalb County showing:

1. The name and official position of the local government official to whom the campaign contribution was made.
2. The dollar amount and description of each campaign contribution made during the two years immediately preceding the filing of this application and the date of each such contribution.

The disclosure must be filed within 10 days after the application is first filed and must be submitted to the C.E.O. and to the Board of Commissioners of DeKalb County, 1300 Commerce Drive, Decatur, GA 30030.
