ZONING CONDITIONS

Sec. 27-7-3.9 Conditions of zoning. Conditions may be requested by an applicant, recommended by the planning department and planning commission, and imposed by the board of commissioners, as a part of any proposed change to the official zoning map, in accordance with the following requirements:

- A. Conditions may be imposed so as to ameliorate the effect(s) of the proposed developmental change for the protection or benefit of neighboring persons or properties consistent with the purpose and intent of the district(s) involved, and the goals and objectives of the comprehensive plan and state law. No condition shall be imposed which reduces the requirements of the zoning district(s) involved, except as stipulated in Section 8.1.12 of this chapter. All conditions shall be of sufficient specificity to allow lawful and consistent application and enforcement. All conditions shall be supported by a record that evidences the relationship between the condition and the impact of the developmental change. No condition in the form of a development exaction for other than a project improvement shall be imposed within the meaning of the Georgia Development Impact Fee Act, as amended.
- B. Once imposed, conditions of zoning shall become an integral part of the approved amendment and shall be enforced as such. Change to approved conditions shall be authorized only pursuant to Section 7.3.10.
- C. Site plans referenced in the conditions of zoning are conceptual only unless specific aspects of the site plan or the site plan itself are approved as a separate zoning condition. Development shall meet or exceed the imposed zoning conditions and all other applicable law, standards and regulations of DeKalb County. Compliance with the conditions of zoning shall be demonstrated prior to the issuance of a land disturbance permit or building permit and conditional improvements shall be in place prior to the issuance of the first certificate of occupancy.

Sec. 27-7.3.10. Modifications and changes to approved conditions of zoning.

The Director of Planning & Sustainability shall have sole authority to approve minor changes to conditions attached to an approved zoning amendment. Minor changes are those that implement only slight alterations to the approved conditions, made necessary by the actual field conditions at the time of development, that do not alter the impact of the development on nearby properties, nor the intent or integrity of the conditions as originally imposed. Any request for minor change of conditions shall be filed with the director of planning or his/her designee on a written form which shall include a full description of the documents and/or information necessary for the application to be considered complete. At a minimum, if an approved site plan exists, the request for minor changes shall be accompanied by four copies of the proposed revised site plan. The director of planning shall decide whether to grant or deny the request for minor changes to conditions with 30 calendar days of receipt of a complete request for such minor changes. After making a decision, the director of planning shall have 10 calendar days to post a sign on the subject property which reflects the decision of the director and includes the deadline for taking an appeal of the decision. Person(s) identified in Section 7.5.2(B) shall have fifteen (15) calendar days from the posting of the sign to appeal the director of planning's decision by filing an application for appeal with the secretary of the zoning board of appeals. Any major change to conditions attached to an approved zoning amendment shall require an application and public hearings before the planning commission and the board of commissioners, as required in Section 7.2.4 of this article for amendments to the Official Zoning Map. Without limiting the meaning of the phrase, the following shall be deemed to constitute "major change" for the purposes of interpreting this section:

1. The movement of any building or structure adjacent to an exterior boundary line, closer to the boundary line of the property;
2. Any increase in the number of dwelling units or any increase in the total amount of floor space of any nonresidential building;
3. Any decrease in the minimum size of residential units imposed in the original conditional amendment;
4. Any change in any buffer requirement(s) imposed in the original conditional zoning amendment;
5. Any increase in the height of any building or structure;
6. Any change in the portion of floor space devoted to different authorized uses; or
7. Any change to conditions, except minor changes as defined in subsection 7.3.10(A), imposed by the board of commissioners when approving any change to the official zoning map, commonly referred to as a rezoning or a zoning amendment.
