Application of Regal Home Solutions, LLC c/o LaKisha Irby to rezone property from R-100 (Residential Medium Lot-100) zoning district to RSM (Small Lot Residential Mix) zoning district to allow for a personal care home for more than six (6) individuals, at 5346 O'Malley Lane.

PETITION NO: N5-2025-0288 Z-25-1247426

PROPOSED USE: Personal care home, more than six (6).

PURPOSE:

Application of Regal Home Solutions, LLC c/o LaKisha Irby to rezone property from R-100 (Residential Medium Lot-100) zoning district to RSM (Small Lot Residential Mix) zoning district to allow for a personal care home for more than six (6) individuals.

RECOMMENDATION:

COMMUNITY COUNCIL: (April 2025) Denial.

PLANNING COMMISSION: (May 6, 2025) Pending.

PLANNING STAFF: Denial.

STAFF ANALYSIS: The applicant requests a rezoning from R-100 (Residential Medium Lot-100) to RSM (Small Lot Residential Mix) to allow a personal care home for more than six individuals in a single-family home on a 0.46-acre lot. There is a companion application SLUP-25-1247426 to grant a Special Land Use Permit for a personal care home exceeding six persons. The subject property is located at 5346 O'Malley Lane and is surrounded by R-100-zoned properties, which are developed with single-family homes. These two zonings differ in development standards and may undermine the character of the neighborhood should anything new be built. The Comprehensive Plan designates this area as Suburban (SUB), where the intent is to support low-density development that encourages connectivity and preservation of neighborhood character. Staff finds the proposed use of the property as a Personal Care Home for more than 6 individuals to be inconsistent with the Suburban character designation due to its intensity and potential impacts on surrounding homes. The existing home does not appear to be adequately sized or equipped to support a facility of more than six residents, based on the dimensional requirements the home was designed for. Staff notes that while the site Prepared 4/22/2025 by: AKF Page 2 Z-24-1247194 may be appropriate for a personal care home housing six or fewer adults, the proposal to exceed this number raises concerns regarding building capacity, code compliance, and neighborhood compatibility. **Additionally, DeKalb County Health Regulations prohibit the use of on-site sewage disposal systems for personal care homes with more than six clients.** Given that the site is currently on a septic system, this use would not be allowed by health regulations. The proposed use could also introduce a level of density and activity inconsistent with the surrounding single-family environment, potentially resulting in adverse impacts related to noise, excessive parking demand, and overall intensity of use. Interdepartmental comments also note that no on-street parking is permitted within 100 feet of the intersection. While the street network and emergency

access appear sufficient to support the proposed use, the home was originally designed for single-family occupancy and may lack the public facilities, parking, and internal infrastructure required for a higher occupancy personal care facility. Furthermore, staff notes that the application does not clearly identify how many residents are intended, which presents compliance issues with supplemental regulations regarding minimum parking requirements and building layout. These deficiencies hinder the ability of the site to meet zoning standards for care facilities serving more than six individuals. The application does not propose any changes to the site's ingress/egress or the structure's footprint, and there are no known historic or environmental resources that would be affected. However, the scale and density of the proposed use may not be suitable given the lot size and surrounding residential character. The inconsistency between the intensity of the proposed use and the prevailing land use pattern of the neighborhood has led to concerns about appropriateness and potential disruption to the area's character and tranquility. The proposal does meet the standard regarding the supplemental regulation for vicinity of other personal care homes, as the nearest is over 3,000 feet away. In summary, staff recommends ***“Denial”*** of the request to allow a personal care home for more than six individuals. The proposal does not align with the intent of the R-100 or RSM zoning district or the Suburban character area, and it raises significant concerns related to density, infrastructure capacity, and neighborhood compatibility.

Staff Recommendation: Denial.

The applicant requests a Rezoning from R-100 (Residential Medium Lot-100) to RSM (Small Lot Residential Mix) to allow a personal care home for more than six individuals in a single-family home on a 0.46-acre lot. There is a companion application SLUP-25-1247426 to grant a Special Land Use Permit for a personal care home exceeding six persons. The subject property is located at 5346 O'Malley Lane and is surrounded by R-100-zoned properties, which are developed with single-family homes. These two zonings differ in development standards and may undermine the character of the neighborhood should anything new be built. The Comprehensive Plan designates this area as Suburban (SUB), where the intent is to support low-density development that encourages connectivity and preservation of neighborhood character. Staff finds the proposed use of the property as a Personal Care Home for more than 6 individuals to be inconsistent with the Suburban character designation due to its intensity and potential impacts on surrounding homes.

The existing home does not appear to be adequately sized or equipped to support a facility of more than six residents, based on the dimensional requirements the home was designed for. Staff notes that while the site may be appropriate for a personal care home housing six or fewer adults, the proposal to exceed this number raises concerns regarding building

capacity, code compliance, and neighborhood compatibility. **Additionally, DeKalb County Health Regulations prohibit the use of on-site sewage disposal systems for personal care homes with more than six clients.** Given that the site is currently on a septic system, this use would not be allowed by health regulations. The proposed use could also introduce a level of density and activity inconsistent with the surrounding single-family environment, potentially resulting in adverse impacts related to noise, excessive parking demand, and overall intensity of use. Interdepartmental comments also note that no on-street parking is permitted within 100 feet of the intersection.

While the street network and emergency access appear sufficient to support the proposed use, the home was originally designed for single-family occupancy and may lack the public facilities, parking, and internal infrastructure required for a higher occupancy personal care facility. Furthermore, staff notes that the application does not clearly identify how many residents are intended, which presents compliance issues with supplemental regulations regarding minimum parking requirements and building layout. These deficiencies hinder the ability of the site to meet zoning standards for care facilities serving more than six individuals.

The application does not propose any changes to the site's ingress/egress or the structure's footprint, and there are no known historic or environmental resources that would be affected. However, the scale and density of the proposed use may not be suitable given the lot size and surrounding residential character. The inconsistency between the intensity of the proposed use and the prevailing land use pattern of the neighborhood has led to concerns about appropriateness and potential disruption to the area's character and tranquility. The proposal does meet the standard regarding the supplemental regulation for vicinity of other personal care homes, as the nearest is over 3,000 feet away.

In summary, Staff recommends ***“Denial”*** of the request to allow a personal care home for more than six individuals. The proposal does not align with the intent of the R-100 or RSM zoning district or the Suburban character area, and it raises significant concerns related to density, infrastructure capacity, and neighborhood compatibility.

ZONING COMMENTS – MAY 2025

N1-2025-0283 Z-25-1247358 (1619 Pleasant Hill Trl & 7850 Pleasant Hill Rd): 149 units. Pleasant Hill Trail appears to be an unimproved right of way (not abandoned) in the proposed project area (per GIS Map)- classified as local. Verify ownership. If determined to be an unimproved public right of way, infrastructure improvements noted in Zoning Code 5.4.3 and Land Development Code 14-190 are required. This project requires 2 access points- ensure phasing meets required access points at any given time since connecting to other developments. Ensure that there are enough access points to service the entire system when all developments are complete (i.e.- this development cannot put the other developments that it is connecting to out of compliance for number of access points). Please refer to the requirements in Zoning Code 5.4.3 and Land Development Code 14-190. All interior streets require a right of way dedication of 55 feet. Requires a 6-foot landscape strip with a 5-foot sidewalk. Requires streetlights. (hefowler@dekalbcountyga.gov). All intersections must meet AASHTO sight distance requirements.

N2-2025-0285 Z-25-1247420 (4743 Flat Shoals Pkwy): 79 Units. 4743 Flat Shoals Parkway. Flat Shoals Parkway is SR 155 and classified as a major arterial. GDOT review and approval is required prior to permitting. (JLivingston@dot.ga.gov) Please refer to the requirements in Zoning Code 5.4.3 and Land Development Code 14-190. Requires a right of way dedication of 50 feet from centerline OR such that all public infrastructure is within right of way, whichever greater. Along all frontage of SR 155: Requires a 10-foot landscape strip with a 6-foot sidewalk and 4-foot bike lane OR (PREFERRED) a 10-foot multiuse path. Requires pedestrian scale streetlights. (hefowler@dekalbcountyga.gov). Interior streets to be private. General: no poles to remain in sidewalk/path. All intersections must meet AASHTO sight distance requirements.

N3-2025-0286 CZ-25-1247427 (1816 Candler Road); and N4-2025-0287 Z-25-1247428 (3221 Glenwood Road): I-20 Overlay District, Tier 2. Seek guidance from the overlay planner for required infrastructure improvements. Candler Road is SR 155 and a major arterial. GDOT review and approval is required prior to permitting. (JLivingston@dot.ga.gov) Where the overlay is silent: Please refer to the requirements in Zoning Code 5.4.3 and Land Development Code 14-190. Requires a right of way dedication of 50 feet from centerline OR such that all public infrastructure is within right of way, whichever greater. Along all frontage of SR 155: Requires a 10-foot landscape strip with a 6-foot sidewalk and 4-foot bike lane OR (PREFERRED) a 10-foot multiuse path. Requires pedestrian scale streetlights. (hefowler@dekalbcountyga.gov). Glenwood Road is classified as a minor arterial. Please refer to the requirements in Zoning Code 5.4.3 and Land Development Code 14-190. Requires a right of way dedication of 40 feet from centerline OR such that all public infrastructure is within right of way, whichever greater. Requires a 10-foot landscape strip with a 6-foot sidewalk and 4-foot bike lane OR (PREFERRED) a 10-foot multiuse path. Requires pedestrian scale streetlights. (hefowler@dekalbcountyga.gov). Glenhill Place is classified as a local road. Discussions need to be held about approval of truck entrance on this road. No approval of truck entrance without the direct approval of Planning and Development and the Transportation Division. Would prefer truck traffic from Glenwood Rd or Candler Rd (both truck routes). If permission is granted, the entire roadway section (including pavement section) will need to be brought up to current standards to accommodate truck traffic. Requires a right of way dedication of 55 feet. Requires a 6-foot landscape strip with a 5-foot sidewalk. Requires streetlights. (hefowler@dekalbcountyga.gov). Lane widths and other design factors must be designed for truck traffic. General: no poles to remain in sidewalk/path. All intersections must meet AASHTO sight distance requirements.

N5-2025-0288 Z-25-1247426; and N6-2025-0289 SLUP-25-1247425 (5346 O'Malley Lane): No parking within 100 feet of the intersection.

N7-2025-0291 SLUP-25-1247431 (2667 Candler Woods Court): No on-street parking allowed.

N8-2025-0292 SLUP-25-1247429 (3574 Boring Road): No on-street parking allowed.

N9-2025-0293 SLUP-25-1247395 (2615 Shallowford Road): No comments.

N10-2025-0295 SLUP-25-1247423; and N11-2025-0296 SLUP-25-1247424:

Memorial Drive is a state route. GDOT review and approval is required prior to permitting. (JLivingston@dot.ga.gov). If a land development permit is required: Memorial Drive is a major arterial. Please refer to the requirements in Zoning Code 5.4.3 and Land Development Code 14-190. Requires a right of way dedication of 50 feet from centerline OR such that all public infrastructure is within right of way, whichever greater. Along all frontage of SR 155: Requires a 10-foot landscape strip with a 6-foot sidewalk and 4-foot bike lane OR (PREFERRED) a 10-foot multiuse path. Requires pedestrian scale streetlights. (hefowler@dekalbcountyga.gov). No poles to remain in the sidewalk/path. All intersections must meet AASHTO sight distance requirements.

Re: Rezone Application Review

General Comments:

DeKalb County Health Regulations prohibit use of on-site sewage disposal systems for

- multiple dwellings
- food service establishments
- hotels and motels
- commercial laundries
- funeral homes
- schools
- nursing care facilities
- personal care homes with more than six (6) clients
- child or adult day care facilities with more than six (6) clients
- residential facilities containing food service establishments

If proposal will use on-site sewage disposal, please contact the Land Use Section (404) 508-7900.

Any proposal, which will alter wastewater flow to an on-site sewage disposal system, must be reviewed by this office prior to construction.

This office must approve any proposed food service operation or swimming pool prior to starting construction.

Public health recommends the inclusion of sidewalks to continue a preexisting sidewalk network or begin a new sidewalk network. Sidewalks can provide safe and convenient pedestrian access to a community-oriented facility and access to adjacent facilities and neighborhoods.

For a public transportation route, there shall be a 5ft. sidewalk with a buffer between the sidewalk and the road. There shall be enough space next to sidewalk for bus shelter's concrete pad installation.

Since DeKalb County is classified as a Zone 1 radon county, this office recommends the use of radon resistant construction.

MARTA May 2025 Case Comments

D1-2024-1496 CZ-25-1246771 4015 Flat Shoals Pkwy:

This development is adjacent to existing service along Columbia Drive and also fronts planned MARTA service along Flat Shoals Parkway. We recommend that a condition for rezoning be that the developer must coordinate with MARTA to ensure proper pedestrian access between the development and existing and planned bus stops.

N2-2025-0285 Z-25-1247420 4743 Flat Shoals Pkwy:

This development is adjacent to planned MARTA service along Flat Shoals Parkway. We recommend that a condition for rezoning be that the developer must coordinate with MARTA to ensure proper pedestrian access between the development and planned bus stops.

N3-2025-0286 CZ-25-1247427 1816 Candler Road:

This property is adjacent to existing MARTA service as well as the planned Candler Road Arterial Rapid Transit project. While no ART stops are planned in front of this parcel on Candler Road, there will be an increased pedestrian demand for this location due to proximity to improved transit. Sidewalks and driveways for the development should be carefully designed with ped access and safety in mind. Developer should coordinate with MARTA during design phase.

N4-2025-0287 Z-25-1247428 3221 Glenwood Road:

This location is adjacent to existing MARTA service for Route 107. Due to this and proximity to the planned Candler Road Arterial Rapid Transit project, there will be an increased pedestrian demand for this location. Sidewalks and driveways for the development should be carefully designed with ped access and safety in mind. Developer should coordinate with MARTA during design phase.

IMPACT ANALYSIS

(Please respond to the following standards and factors on a separate sheet.)

Section 27-7.3.5. The following standards and factors are found to be relevant to the exercise of the county's zoning powers and shall govern the review of all proposed amendments to the Official Zoning Map:

- A. Whether the zoning proposal is in conformity with the policy and intent of the Comprehensive Plan.
- B. Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby properties.
- C. Whether the property to be affected by the zoning proposal has a reasonable economic use as currently zoned.
- D. Whether the zoning proposal will adversely affect the existing use of usability of adjacent or nearby properties.
- E. Whether there are other existing or changing conditions affecting the use and development of the property which give supporting grounds for either approval or disapproval of the zoning proposal.
- F. Whether the zoning proposal will adversely affect historic building, sites, districts, or archaeological resources.
- G. Whether the zoning proposal will result in a use which will or could cause excessive or burdensome use of existing streets, transportation facilities, utilities, or schools.
- H. Whether the zoning proposal adversely impacts the environment or surrounding natural resources.

To whom it may concern:

The zoning proposal for 5346 O'Malley Lane Stone Mountain, GA 30088 is adequate in size of the site for the use contemplated land area available for the proposed use including provision of all required yards, open space, off-street parking, transitional buffer zones, and all other applicable requirements of the zoning district in which the use is proposed to be located. Compatibility of the proposed use with adjacent properties and land uses and with other properties and land uses in the district, and whether the proposed use will not create adverse impacts upon any adjoining land use by reason of traffic volume/congestion, noise, smoke, odor, dust, or vibration generated by the proposed use.

There is adequate of public services, public (or private) facilities, and utilities to serve the proposed use. There is adequate use of the public street on which the use is proposed to be located and there is sufficient traffic-carrying capacity for the use proposed so as not to unduly increase traffic and create congestion in the area. There is adequate ingress and egress to the subject property and to all proposed buildings, structures, and uses thereon, with particular reference to pedestrian and automotive safety and convenience, traffic flow and control, and access in the event of fire or other emergency. Whether the proposed use will create adverse impacts upon any adjoining land use by reason of the manner and hours of operation of the proposed use. The proposed use is otherwise consistent with the requirements of the zoning district classification in which the use is proposed to be located. The proposed use is consistent with advances, there are no conflicts, or detracts from the policies of the comprehensive plan. There is adequate provision of refuse and service areas. The length of time for which the special land use permit is granted should not be limited in duration. The size, scale and massing of proposed buildings are appropriate in relation to the size of the subject property and in relation to the size, scale and massing of adjacent and nearby lots and buildings; the proposed use will not create any shadow impact on any adjoining lot or building as a result of the proposed building height. The proposed use will not adversely affect historic buildings, sites, districts, or archaeological resources. The proposed use satisfies the requirements contained within the supplemental regulations for such special land use permit. The proposed use would be consistent with the needs of the neighborhood or the community as a whole, as expressed and evidenced during the review process

To Whom It May Concern:

I am a resident of [insert street name and neighborhood] and am writing to express my firm opposition to the proposed rezoning and Special Land Use Permit (SLUP) request for the property located at **5346 O'Malley Lane, Stone Mountain, GA 30088**.

I have deep concerns about this project and its potential negative impact on our community. Specifically, I want to highlight the following issues:

1. **Lack of Honest Community Outreach:** I was made aware that names, including mine and others, were allegedly included on an attendance list for a community meeting regarding this proposal. I did not attend such a meeting and did not authorize the use of my name. This is deeply troubling and raises questions about the integrity of the application process.
2. **Neighborhood Impact:** Our community is a quiet, residential area not suited for the operation of a high-capacity personal care home. This proposal would bring increased traffic, strain on public services, and safety concerns, which are inconsistent with the established character of our neighborhood.
3. **[Optional: Insert personal concern here — e.g., “As a parent of young children, I am particularly concerned about increased vehicle traffic and safety.” or “I purchased my home in this area specifically for the low-density zoning and residential peace it offers.”]**

I respectfully request that the DeKalb County Department of Planning & Sustainability and the Board of Commissioners deny the request for rezoning and special land use at this address. It does not align with the character of our neighborhood and appears to be founded on misleading claims of community support.

Please include this letter in the public record in opposition to **Application No. Z-25-1247426**.

Sincerely,

Colleen W. Morgan

To Whom It May Concern:

I am writing as a long-time homeowner who has lived at 5347 O'Malley Lane for the past 16 years. I am submitting this letter to formally express my *strong opposition* to the proposed rezoning and Special Land Use Permit (SLUP) for the establishment of a personal care home at 5346 O'Malley Lane.

First and foremost, I must bring to your attention a serious and disturbing issue regarding the applicant's claim of community engagement. My name, along with others, was falsely listed as an attendee of a pre-submittal community meeting that I did *not* attend. I have confirmed with multiple neighbors that their names were also included without their knowledge or consent. This constitutes a blatant misrepresentation and undermines the transparency and integrity required in this process. It also raises significant concerns about the applicant's credibility and respect for due process.

Beyond the issue of dishonesty, this proposal poses a direct threat to the residential integrity and character of our neighborhood. O'Malley Lane is a quiet, family-oriented street, and the introduction of a high-capacity personal care facility brings with it the risk of increased traffic, safety concerns, and potential disruptions to our community's stability. The proposed use is not consistent with the established character or zoning of the surrounding area and would negatively impact property values, quality of life, and the long-term vision for our neighborhood.

I respectfully urge the Planning and Sustainability Department, as well as the DeKalb County Board of Commissioners, to reject this application on the grounds of both ethical concerns and its detrimental impact on our community.

Please ensure this letter is added to the public record in opposition to Application No. Z-25-1247426.

Sincerely,

Tiffany Green-Abdullah

To Whom It May Concern:

I am a resident of Lake Michele and Mountain Woods subdivision and I am writing to express my firm opposition to the proposed rezoning and Special Land Use Permit (SLUP) request for the property located at **5346 O'Malley Lane, Stone Mountain, GA 30088**.

I have deep concerns about this project and its potential negative impact on our community. Specifically, I want to highlight the following issues:

1. **Lack of Honest Community Outreach:** The signs posted for this rezoning were only placed in the yard of the house where the rezoning is being sought. I'm sure this is the law, but transparency would have been much more appreciated to have honest dialogue with the owner. Unfortunately, the owner has taken to the NextDoor app and has shown us that she has no intentions of having any honest and respectable conversations. She has name-called and accused some of us of bullying, just because we posted about the upcoming meeting and her desire to rezone. I feel that name calling shows that if we had any issues with her, if this permit is granted, that there will be no urgency to communicate with us on any matter.
2. **Neighborhood Impact:** Our community is a quiet, residential area not suited for the operation of a high-capacity personal care home. This proposal would bring increased traffic, strain on public services, and safety concerns, which are inconsistent with the established character of our neighborhood.
3. This property sits on the corner of the both of the main entrances into the neighborhood and parking will definitely be on the street. With as much traffic as that particular street, there will of course be congestion and accidents waiting to happen.

I respectfully request that the DeKalb County Department of Planning & Sustainability and the Board of Commissioners deny the request for rezoning and special land use at this address. It does not align with the character of our neighborhood and appears to be founded on misleading claims of community support.

Please include this letter in the public record in opposition to **Application No. Z-25-1247426**.

Sincerely,

Shirley Caldwell
