N4. Case No: A-24-1247485

Parcel ID(s): 18 233 06 033

#### Commission District 01 Super District 07

- Applicant: Davis Engineering & Surveying C/o Nick Pesola 24 Dawson Village Way Dawsonville, GA, 30534
- Owner: CHR Homes, LLC 2487 Cedarcrest Road, Ste. 72 Acworth, GA 30101
- Project Name: 2424 Nancy Lane New Single-Family Construction
- Location: 2424 Nancy Lane, Atlanta, GA 30345
- Request: Variances from section 27-2.2.1 to reduce front-yard setback from 35 feet to 30 feet to permit the construction of a single-family home in the R-100 Zoning District.

Staff Recommendation: Approval with condition

**Condition**: The following information about this variance shall be noted on any site plan prepared for the subject property: case number, approval date, type of variance and condition(s) of approval.

#### STAFF FINDINGS:

Davis Engineering is planning to construct a new single-family home within the stream buffer at 2424 Nancy Lane, Atlanta, Georgia, 30345. The property is situated on 0.85 acres and is currently encroaching in the floodplain. The applicant is requesting a reduction of the front-yard setback from 35' to 30' in an effort to adhere to the stream buffer requirements and construct the new home in accordance to approval with a stream buffer reduction variance request at the state level.

1. There is an extraordinary or exceptional physical condition(s) pertaining to the particular piece of property (such as, but not limited to, lot size, lot shape, specimen tree(s), steep slope(s), or preservation of historic characteristics of the property), which was not created by the current owner, previous owner, or applicant; by reason of a clearly demonstrable condition(s), the strict application of the requirements of this chapter would deprive the property owner of rights and privileges enjoyed by other property owners in the same zoning district, as distinguished from a special privilege or convenience sought by the property owner.

The subject property is situated on a double frontage lot, approximately 0.85 ac (37,026 SF) in size, located on the intersection of Nancy Lane and Melinda Drive. There is also a floodplain on the property, severely limiting the buildable area, making it difficult to develop in compliance with the current zoning requirements. The property is in the R-100 (single-family residential) zoning district, which mandates a 35-foot front setback on Nancy Lane. Land Development standards require that all properties building within a stream buffer, must adhere to the 25' state buffer, 50' undisturbed buffer, and 75' impervious buffer, respectively. Due to the constraints imposed by these setbacks, the applicant's proposed plan meets the required setbacks for Nancy Lane, while adhering to the setbacks put forth by the Department of Land Development for the stream buffer. The hardship was not created by the current and/or previous owner but stems from the property's unique features and shape.

# 2. The requested variance does not go beyond the minimum necessary to afford relief, and does not constitute a grant of special privilege inconsistent with the limitations upon other properties in the zoning district in which the subject property is located:

The requested variance is the minimum necessary to provide relief for the construction of the property while limiting conformity. Based on the issue of the stream buffer, there is no feasible way to construct the home entirely within the setbacks. Any other location on the property would pose significant challenges in compliance with regulations. Granting of this application does not provide any special privileges to the applicant, inconsistent with the limitations upon other properties in the zoning district.

# 3. The grant of the variance will not be materially detrimental to the public welfare or injurious to the property or improvements in the zoning district in which the subject property is located:

The proposed variance will not be detrimental to public welfare or surrounding properties. The new construction seeks to bring the construction into compliance while adhering to the current zoning code as close as possible. The applicant is planning to demolish the previous building footprint and semi circle driveway to be in compliance with the current zoning code, while still allowing the property to be useful. Any decision that would result in the home not being permitted to be constructed will continue to negatively impact the neighborhood and would be materially detrimental to the public welfare and improvements to the zoning district in which the property is located.

# 4. The literal interpretation and strict application of the applicable provisions or requirements of this chapter would cause undue and unnecessary hardship:

The literal interpretation and strict application of the applicable zoning requirements would cause undue hardship in this case. As noted in Criteria 1, the presence of the floodplain poses significant challenges and risks for the construction of the property, but also the neighborhood welfare, as mentioned in Criteria 3. Strict adherence to the requirements would limit the ability to develop the property in a just and meaningful way. The requested variance, therefore, addresses these practical challenges by allowing necessary adjustments to the site setbacks while maintaining compliance with other key provisions.

# 5. The requested variance would be consistent with the spirit and purpose of this Chapter and the DeKalb County Comprehensive Plan Text:

The variance request aligns with the spirit and purpose of the DeKalb County Comprehensive Plan, which promotes responsible development while accommodating the needs of property owners within residential neighborhoods. Supplying more livable square footage contributes to the goal of increasing housing supply within the Land Use chapter of the Comprehensive Plan.

#### FINAL STAFF ANALYSIS:

The proposed construction of the single-family home at 2424 Nancy Lane presents unique challenges due to the property's features and shape, which severely limit the buildable area under current zoning requirements. The requested variance to reduce the front-yard setback from 35' to 30' along Nancy Lane is necessary to allow for the practical and needed development of the dilapidated property. The variance is the minimum required for relief, does not constitute a special privilege, and aligns with the spirit and purpose of the zoning ordinance by facilitating redevelopment consistent with the goals of Subdivision (SUB) land use area. Therefore, staff recommends approval.

#### Staff Recommendation: Approval with condition

**Condition**: The following information about this variance shall be noted on any site plan prepared for the subject property: case number, approval date, type of variance and condition(s) of approval.

RE: Letter of Intent - Variance Requests

To Whom It May Concern:

Thank you for taking the time to review our application. We are requesting a reduction of the 40' front setback to a 20' front setback at 2424 Nancy Lane NE, Atlanta, GA 30345. This is a request of variance from Chapter 27-4.2.2 to allow for the construction of a new single-family home. This request will work in conjunction with the stream buffer variance application, a variance through the EPD to allow for the removal of impervious surfaces from the 25' state waters buffer and a potential waiver of water quality requirements.

The property currently contains remnants of in existing residence, pool, shed, patio, concrete court and other impervious items installed prior to current buffer and stormwater ordinances. Our goal is to remove all existing improvements and construct a house as far as is reasonably practicable from the flood plain and state waters onsite. The front setback reduction allows the house to shift further up the hill away from state waters. The increase in elevation closer to Nancy Lane also allows the house to be constructed at a higher elevation than flood plain onsite. Without this variance, there is not enough usable area to redevelop this piece of property in disrepair.

We've determined that the 20' reduction is what is needing to safely allow for grading outside of the state waters buffer while still maintaining a reasonable distance from Nancy Lane. Any less, grading and proper erosion control measures during construction would become exceedingly difficult.

This variance allows this property to be redeveloped into its' original intended use which ultimately enhances the neighboring properties. It benefits the community in two main ways. First, it will increase the value of surrounding residences once a new home has been constructed. It's current condition currently has a negative impact on the neighborhood sitting in disrepair. Second, it provides more housing opportunities in a constricted market assisting in the housing shortage. We feel the proposed variances will have an added benefit to the neighborhood rather than retract from it. The current buffers and setbacks onsite don't allow for a new residence to be constructed at 2424 Nancy Lane NE and it's zoned and sits in a neighborhood where its' only use can be to have a house on it. Without the variance, this lot is unbuildable which makes it virtually impossible to sell or use. We humbly request that you approve our request to reduce the 40' front setback to 20' as well as approve the stream buffer variance request.

As an aside, we'd like to discuss removing the existing 36" pipe that it is constricting water flow onsite. An 18" and 60" pipe choke down to this 36" which is potentially causing some of the floodplain on the property. Please reach out to discuss this measure and we can hopefully work with the EPD as will to come up with a good solution that helps the County.

Sincerely,

Nick Pesola, EIT (npesola@davisengineers.com)

- GAUGE MINIMUM AND ASPHALT OR ALUMINUM COATED.
- GEOTECHNICAL ENGINEER.

CURRENTLY, THIS 0.85 ACRE PROPERTY CONTAINS CONCRETE REMNANTS OF A DEMOLISHED RESIDENCE WITH A CONCRETE PATIO AND POOL WHICH SITS WITHIN THE 25' STATE WATERS BUFFER. THE PROPOSED DEVELOPMENT CONSISTS OF A NEW RESIDENCE WITH A DRIVE, SEWER CONNECTION, GRADING AND ANY OTHER NECESSARY IMPROVEMENTS. A REQUEST TO VARY THE FRONT SETBACK TO 20' AND A REQUEST TO PLACE THE HOUSE WITHIN THE 75' AND 50' BUFFERS IS INCLUDED WITH THIS PLAN.

ADDRESS: 2424 NANCY LANE, ATLANTA, GA PARCEL: 18–233–06–033 TOTAL AREA= 0.85 ACRE DISTURBED AREA= 0.33± ACRE

ZONING:

BUILDING SETBACKS & BUFFERS: EXISTING FRONT: 40' PROPOSED FRONT: 20' SIDE: 10' REAR: 40' BUFFERS ALONG STATE WATERS

BOUNDARY INFORMATION FROM PLAT OF SURVEY FOR 2424 NANCY LANE NE BY SURVEY SYSTEMS ATLANTA DATED 2/14/2024.

UTILITIES SHOWN HEREON ARE FROM EXISTING STRUCTURES AND ABOVE GROUND MARKS FOUND. DAVIS ENGINEERING AND SURVEYING, LLC IS NOT RESPONSIBLE FOR THE LOCATION OF UNDERGROUND UTILITIES.

TOPOGRAPHIC DATA OBTAINED FROM FIELD RUN DATA COMPLETED BY SURVEY SYSTEMS ATLANTA. CONTOUR INTERVAL = 2'

NO PORTION OF THIS SITE IS LOCATED WITHIN THE 100-YEAR FLOOD PRONE AREA AS PER FLOOD INSURANCE RATE MAP NO. 13089c0056k, DATED 8/15/2019.

- <u>GENERAL NOTES:</u>
- ALL CONSTRUCTION WORK, MATERIALS, AND IMPROVEMENTS AT THIS SITE SHALL CONFORM WITH DEKALB COUNTY, GEORGIA REQUIREMENTS.
- ALL STRUCTURES WILL BE REQUIRED TO CONFORM TO THE STANDARD BUILDING CODES HORIZONTAL SEPARATION STANDARDS. APPROVAL OF THIS PERMIT WILL NOT JUSTIFY ANY DEVIATION IN HORIZONTAL SEPARATION STANDARDS AS ADOPTED AND AMENDED BY THE GEORGIA DEPARTMENT OF COMMUNITY AFFAIRS. CONTRACTORS SHALL CONDUCT ALL WORK IN ACCORDANCE WITH THE
- REQUIREMENTS OF APPLICABLE REGULATIONS OF THE OCCUPATIONAL SAFETY & HEALTH ADMINISTRATION (OSHA) AND ALL LOCAL, STATE AND FEDERAL RULES AND REGULATIONS.
- ALL CONSTRUCTION STAKING ON THIS SITE SHALL BE PERFORMED UNDER THE DIRECT SUPERVISION OF A GEORGIA REGISTERED LAND SURVEYOR.
- MATTERS OF RECORD NOT SHOWN HEREON ARE EXCEPTED. THE UTILITIES AND STRUCTURES AS SHOWN ON THIS PLAN WERE FOUND PER ABOVE GROUND EXAMINATION OF THIS SITE, BASED ON VISIBLE INDICATIONS. IT IS THE CONTRACTOR'S RESPONSIBILITY TO VERIFY ALL EXACT LOCATIONS AND ELEVATIONS OF ALL UNDERGROUND UTILITIES AND OTHER STRUCTURES BEFORE THE START OF CONSTRUCTION ON THIS PROJECT.
- 7. IT SHALL BE THE GENERAL CONTRACTOR'S RESPONSIBILITY TO VERIFY THAT ALL UTILITIES ARE AS NOTED IN THE PLANS. ANY DISCREPANCIES SHALL BE REPORTED TO THE ENGINEER AS SOON AS POSSIBLE.
- 8. TOILET FACILITIES SHALL BE MADE AVAILABLE TO CONSTRUCTION WORKERS WITHIN 300' OF SITE.
- 9. NO MATERIAL CAN BE BURIED ONSITE WITHOUT THE APPROVAL OF THE OWNER AND GEOTECHNICAL ENGINEER.
- 10. CONTRACTOR SHALL BE RESPONSIBLE FOR REMOVAL OF ALL DEBRIS AS ACCEPTABLE TO THE OWNER.
- 11. CONTRACTOR IS TO REMOVE ALL ROCK, TOPSOIL, AND UNSUITABLE MATERIALS. 12. MAXIMUM CUT OR FILL SLOPES SHALL BE 2 HORIZONTAL: 1 VERTICAL.
- THIS SITE DOES NOT CONTAIN WETLANDS. 13 14. THIS SITE DOES HAVE STATE WATERS REQUIRING UNDISTURBED BUFFERS.
- EXISTING FEATURES SHOWN BY DASHED LINES OR SHADED. PROPOSED FEATURES SHOWN BY SOLID OR BOLD LINES. CONTRACTOR RESPONSIBLE FOR PROTECTING ADJACENT AREAS AND SHALL BE 16
- RESPONSIBLE TO REPAIR ANY DAMAGE TO A CONDITION EQUAL TO OR GREATER THAN THE ORIGINAL CONDITION.
- ALL HDPE PIPE TO CONFORM TO PIPE MANUFACTURER REQUIREMENTS AND GEOTECHNICAL RECOMMENDATIONS. CONTRACTOR SHALL COORDINATE BUILDING CONSTRUCTION WITH ARCHITECTURAL
- 18 PLANS (BY OTHERS).
- ALL SIGNAGE AND STRIPING TO BE PROVIDED BY CONTRACTOR ACCORDING TO THE MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES (MUTCD) AND OTHER GOVERNING MUNICIPAL STANDARDS AND SPECIFICATIONS, LATEST EDITIONS.
- 20. PRIOR TO CONSTRUCTION, THE CONTRACTOR IS TO VERIFY ALL DIMENSIONS ON THESE DRAWINGS WITH ALL COORDINATING DOCUMENTS AND NOTIFY ENGINEER OF ANY DISCREPANCIES. IF DISCREPANCIES ARE FOUND DURING CONSTRUCTION, THE CONTRACTOR IS TO STOP WORK IMMEDIATELY AND NOTIFY THE ENGINEER. 21. ALL EXISTING MANHOLE COVERS, METER BOXES, AND OTHER UTILITY
- APPURTENANCES LOCATED WITHIN THE LIMITS OF WORK SHALL BE ADJUSTED SO THAT THEIR TOP SURFACES WILL BE FLUSH WITH FINISHED GRADE. 22. ALL TEMPORARY STRIPING AND SIGNAGE NECESSARY TO MAINTAIN SAFE VEHICULAR
- AND PEDESTRIAN TRAFFIC FLOW DURING CONSTRUCTION SHALL BE FURNISHED, INSTALLED, AND MAINTAINED BY THE CONTRACTOR. 23. MUTCD SIGNAGE AND CERTIFIED FLAGGERS SHALL BE EMPLOYED DURING ANY
- ROAD CLOSURE OR TRAFFIC DISRUPTION.

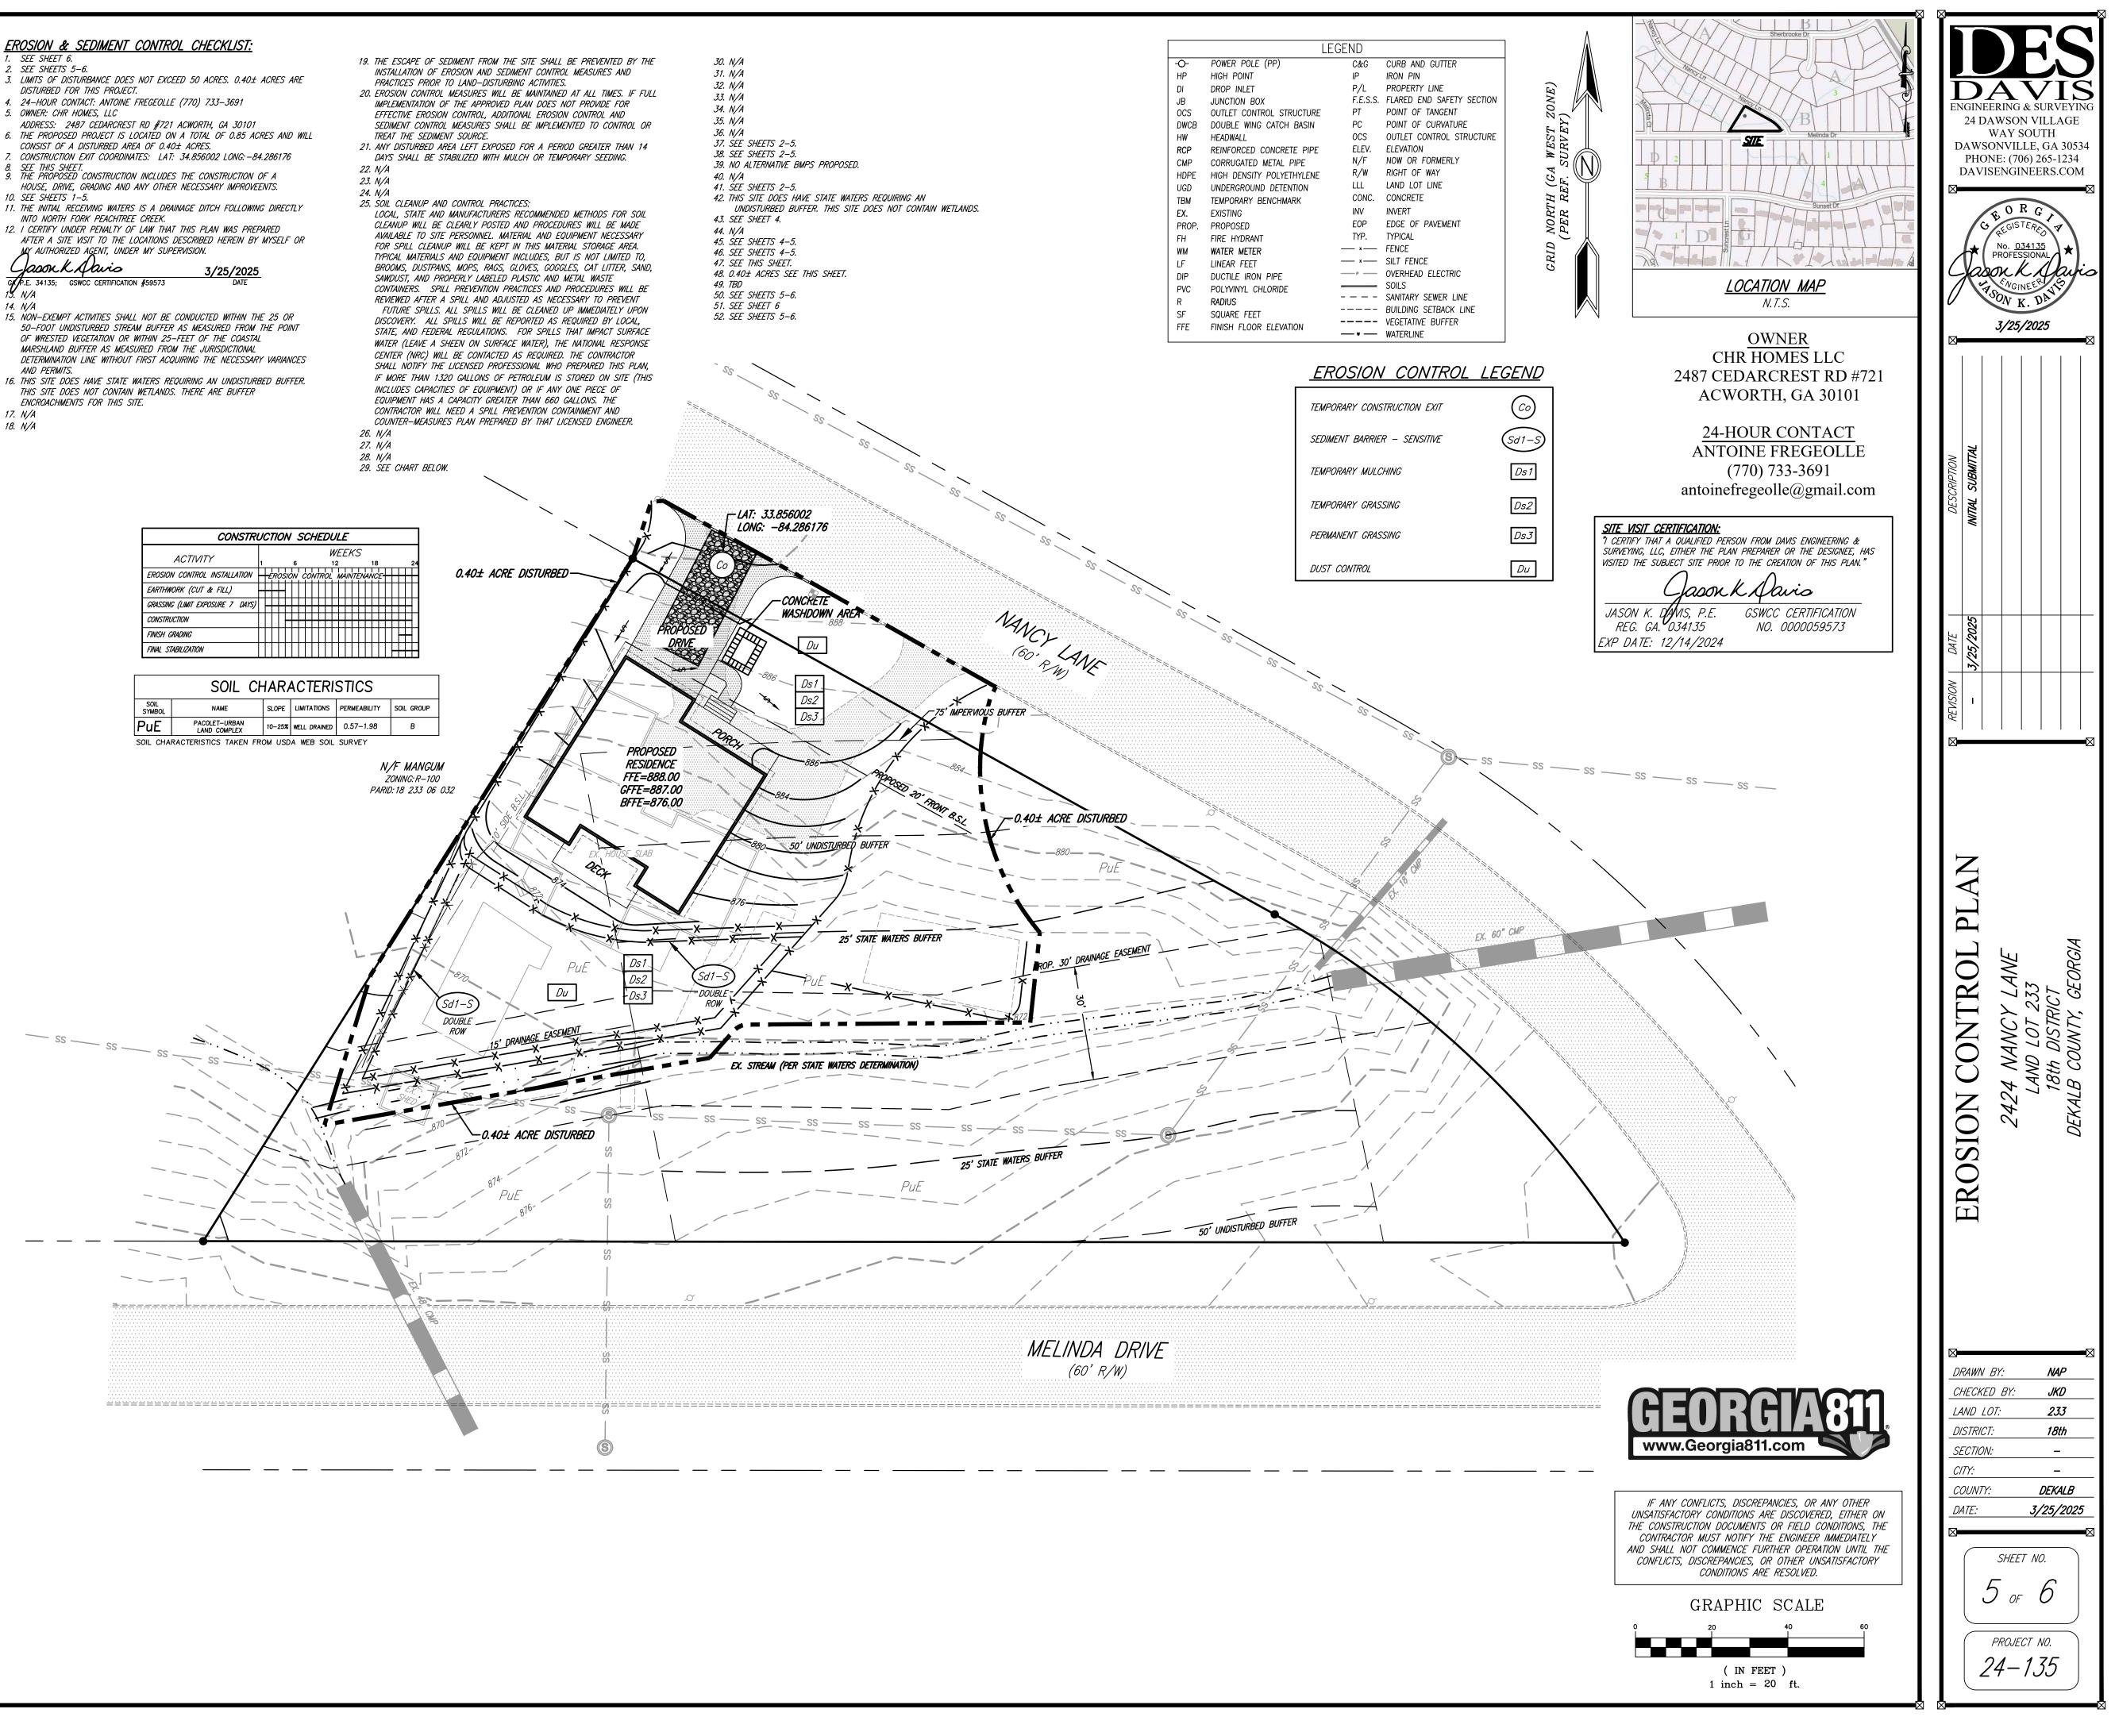

#### EROSION & SEDIMENT CONTROL CHECKLIST:

- 1. SEE SHEET 6.
- 3. LIMITS OF DISTURBANCE DOES NOT EXCEED 50 ACRES. 0.40± ACRES ARE DISTURBED FOR THIS PROJECT.
- 5. OWNER: CHR HOMES, LLC

- 10. SEE SHEETS 1-5.
- 11. THE INITIAL RECEIVING WATERS IS A DRAINAGE DITCH FOLLOWING DIRECTLY INTO NORTH FORK PEACHTREE CREEK. 12. I CERTIFY UNDER PENALTY OF LAW THAT THIS PLAN WAS PREPARED
- MY AUTHORIZED AGENT, UNDER MY SUPERVISION.
- 3/25/2025 P.E. 34135; GSWCC CERTIFICATION #59573 N/A
- 14. N/A 15. NON-EXEMPT ACTIVITIES SHALL NOT BE CONDUCTED WITHIN THE 25 OR 50-FOOT UNDISTURBED STREAM BUFFER AS MEASURED FROM THE POINT OF WRESTED VEGETATION OR WITHIN 25-FEET OF THE COASTAL MARSHLAND BUFFER AS MEASURED FROM THE JURISDICTIONAL
- AND PERMITS. 16. THIS SITE DOES HAVE STATE WATERS REQUIRING AN UNDISTURBED BUFFER. THIS SITE DOES NOT CONTAIN WETLANDS. THERE ARE BUFFER
- 17. N/A 18. N/A
