

DeKalb County Historic Preservation Commission

Monday, September 15, 2025- 6:00 P.M.

Staff Report

Consent Agenda

B. 767 Clifton Road, Meghan Shannon. Replace doors and install an elevator on the rear of a nonhistoric building. **1247756.**

Built 1992 – Nonhistoric (15 243 02 042)

This property is in Druid Hills Character Area #1 and in the Druid Hills National Register Historic District.

- 9-10 767 Clifton Road (Fernbank Museum) (DH), Newell Watkins. Addition of decorative cast stone to north side. 16661. **Approved**
- 2-15 767 Clifton Road (Fernbank Museum) (DH), Fernbank Museum of Natural History – Jennifer Grant Warne. Grading and preparatory steps for a project to install low-impact pedestrian-scale paths, an elevated walkway, boardwalk, educational, interactive exhibit and play areas; also to include native habitat restoration of lowland meadow, riparian banks and forest in the valley east of the museum; and demolish small house. 19731 **Approved with modification**
- 6-15 767 Clifton Road (DH), Fernbank Museum of Natural History – Jennifer Grant Warner. Build elevated walkway, boardwalk, screened pavilion and interactive educational exhibit and play area structures. 19966 **Approved with modifications**
- 8-15 767 Clifton Road (DH), Fernbank Museum of Natural History – Jennifer Grant Warner. Lighting plan for the area previously approved. 20097. **Approved**
- 1-16 845 Clifton Road, 767 Clifton Road and 849 Clifton Road (DH), Fernbank Museum of Natural History - Jennifer Grant Warren. Connect the trail system behind the museum to the existing trail system in Fernbank Forest. This will require the construction of a bridge, a boardwalk, low retaining walls, mulch paths, removal of nonhistoric garden elements and the filling-in of several nonhistoric, manmade ponds. 20551 **Approved**
- 12-19 767 Clifton Road (formerly 1820 Ponce de Leon Avenue) (DH), Dunlavy Law Group, LLC. Demolish damaged carriage house. 1243698. **Approved with modification.**
- 08-20 767 Clifton Road (Fernbank Museum) (DH), Kelly Towers II LLC c/o Ellen W. Smith. Collocate rooftop tower facility to replace the existing cell tower. 1244191. **Approved**
- 05-24 767 Clifton Road, Linda Dunlavy. Replace entry sign. 1247021. **Approved with Modification.**

Summary

The applicant proposes the following work:

1. Install an exterior elevator on the rear façade of a nonhistoric property. An elevator will be installed on the East façade of the main structure of the Fernbank Museum facing towards the existing Wildwoods entrance. The elevator will service the first, second, and third floors of the museum. The shaft of the elevator will be constructed with a brick veneer to match the exterior of the structure, will be installed on the exterior of the building with tie-ins to the existing floor slabs on each level of the structure, and will include white storefront windows placed at each floor level to look out towards the rear of the property. The elevator will not be visible from the Right of Way or from the front entrance of the museum.
2. Replace doors on the exterior rear façade of a nonhistoric property. Exterior doors on the East façade of the structure will be relocated to compensate for the installation of the exterior elevator; these doors will be shifted from the existing curtain wall to two of the arched openings towards the North façade. Also, to the North, on the Terrace of the museum, two more pairs of doors will be replaced as well, however, the location of the doors will not be

altered. The new doors will be automatic sliding doors to allow for accessibility to the interior Great Hall of the museum.

3. Remove and replace decking and paving at rear façade of a nonhistoric property. The boardwalk leading towards the Wildwoods will be extended towards the North of the property, adding an additional 600 square feet to the existing canopy walk; this addition will be constructed with decking and railing to match the existing boardwalk materials. The concrete surface of the Terrace located on the rear of the property will be replaced with in-kind materials.

Recommendation

Approve. The proposed changes do not appear to have a substantial adverse effect on the property or the district. This application appears to meet the guidelines and the staff recommends approval.

Relevant Guidelines

- 5.0 *Design Review Objective* (p45) - When making a material change to a structure that is in view from a public right-of-way, a higher standard is required to ensure that design changes are compatible with the architectural style of the structure and retain character-defining features. When a proposed material change to a structure is not in view from the public-right-way, the Preservation Commission may review the project with a less strict standard so as to allow the owner more flexibility. Such changes, however, shall not have a substantial adverse effect on the overall architectural character of the structure.
- 11.0 *Nonhistoric Properties* (p93) Guideline - In reviewing an application for a Certificate of Appropriateness for a material change to a nonhistoric building, the Preservation Commission should evaluate the change for its potential impacts to any historic development (architecture and natural and cultural landscapes) in the area of influence of the nonhistoric property. Guidelines presented in *Section 7.0: Additions and new Construction* are relevant to such evaluations.

Chief Executive Officer
Lorraine Cochran-Johnson

DEPARTMENT OF PLANNING & SUSTAINABILITY

Interim Director
Cedric W. Hudson, MCRP

Application for Certificate of Appropriateness

Date submitted: 08/22/2025 Date Received: _____

DEPARTMENT OF PLANNING & SUSTAINABILITY

Authorization of a Second Party to Apply for a Certificate of Appropriateness

This form is required if the individual making the request is **not** the owner of the property.

I/ We: Jimmie Mosely

being owner(s) of the property at: 767 Clifton Rd NE, Atlanta, GA 30307

hereby delegate authority to: Meghan Shannon

to file an application for a certificate of appropriateness in my/our behalf.

Signature of Owner(s): 

Date: 8/22/2025

Please review the following information

Approval of this Certificate of Appropriateness does not release the recipient from compliance with all other pertinent county, state, and federal regulations.

Before making any changes to your approved plans, contact the preservation planner via email. Some changes may fall within the scope of the existing approval, but others will require review by the preservation commission. **If work is performed which is not in accordance with your certificate, a Stop Work Order may be issued.**

If your project requires that the county issue a Certificate of Occupancy at the end of construction, an inspection may be made to verify that the work has been completed in accord with the Certificate of Appropriateness. If the work as completed is not the same as that approved in the Certificate of Appropriateness you will not receive a Certificate of Occupancy. You may also be subject to other penalties including fines and/or required demolition of the non-conforming work.

If you do not commence construction within twelve months of the date of approval, your Certificate of Appropriateness will become void and you will need to apply for a new certificate if you still intend to do the work.

DEPARTMENT OF PLANNING & SUSTAINABILITY

How to Obtain a Certificate of Appropriateness

1. Contact the DeKalb County Department of Planning and Sustainability for an application form. You may make your request by emailing **plansustain@dekalbcountyga.gov** AND **pvjennings@dekalbcountyga.gov**.
2. Complete and submit the application via email. Please provide as much supporting material as possible, (plans, material, color samples, photos, etc.). All documents must be in PDF format except for photographs, which may be in JPEG format. Applications are accepted for a 10-day period each month. See page 3(HPC Calendar). **Email the application and supporting documents to plansustain@dekalbcountyga.gov AND pvjennings@dekalbcountyga.gov**. If all documents are not provided the application will not be complete and will not be accepted.
3. Once the application has been received, the Administrative Specialist for the Department of Planning and Sustainability will provide a sign template and instructions on how to post the required signage on the property at least ten days before the preservation commission meeting. If the applicant does not post the required signage and provide evidence of posting within ten days before the preservation commission meeting, their application may be deferred or denied due to improper public notification.
4. The Preservation Planner may visit the property as part of their review. The commission members may view the property from the right-of-way.
5. Applications will be reviewed by the DeKalb County Historic Preservation Commission at its monthly meeting. The Historic Preservation Commission meets on the third Monday at 6 p.m., via Zoom. In unusual circumstances meeting dates and location may be changed.
6. The Historic Preservation Commission may approve, approve with modifications or deny an application. The applicant or any affected person as defined by county code may appeal the decision to the DeKalb County Board of Commissioners. Please contact the Department of Planning and Sustainability if you wish to file an appeal. The Historic Preservation Commission is required to make a decision on an application within 45 days of the date of filing, although this time can be extended if the applicant agrees to a deferral.
7. Although not required, applicants are encouraged to attend the Historic Preservation Commission meetings. Applicants may make a presentation, but presentations are not required. The commissioners may have questions for the applicant.
8. Approval of a Certificate of Appropriateness does not release the recipient from compliance with all other county, state and federal regulations.

DEPARTMENT OF PLANNING & SUSTAINABILITY

Design Checklist for a Certificate of Appropriateness

This checklist was created to help applicants prepare a complete application. Omissions and inaccurate information can lead to deferrals and/or denials of applications. Please review the checklist with the project's architect, designer, or builder. All items will not be applicable to all projects. New construction will involve all categories. One copy of drawings at scale (plus nine reduced sets) should be submitted.

Please address questions regarding applicability to your project to the DeKalb County Preservation Planner at 404-687-3945 or via e-mail at pvjennings@dekalbcountyga.gov.

Applicants are also referred to the DeKalb County website, <http://www.dekalbcountyga.gov/planning-and-sustainability/planning-sustainability>.

I have reviewed the "Design Manual for the Druid Hills Local Historic District".

I have reviewed the DeKalb County Tree Ordinance.

I have reviewed applicable zoning codes regarding lot coverage, garage sizes, stream buffers.

1. General

- a. Label all drawings with the address of the site, owners' name, and contact phone number.
- b. Number all drawings.
- c. Include a graphic scale on reductions.
- d. Date all revisions.
- e. Indicate all unverified numbers with +/- signs
- f. Include photos of the existing condition of the property.

2. Site Plan (existing and proposed) to include:

- a. Topographical plan with significant trees sized and located;
- b. Setback compared to adjacent houses (ask surveyor to show corners of adjacent houses);
- c. Distance between houses;
- d. Façade width to finished face of material;
- e. Grading and elevations across site;
- f. Dirt removal or regrading if more than 18";
- g. Tree protection plan;
- h. Tree removal and replacement plan

3. Driveways and Walkways

- a. Location and relationship to house;
- b. Width;
- c. Material;
- d. Curb cut and apron width

4. Fences & Retaining Walls

- a. Placement on lot;
- b. Height of fence or wall. If retaining wall, height on both sides;
- c. Material;
- d. Railing if necessary

5. Elevations and Floor Plans: <<Indicate all unverified numbers with +/- signs>>

- a. Plans for all floors (drawn to scale, 1/4"=1' preferred);
- b. House orientation on site plan;
- c. Scalable elevations for front, rear, left, right;
- d. Height, grade to ridge;
- e. Streetscape comparison showing heights of two flanking houses on each side;
- f. Height from grade to first floor level at all four corners;
- g. Height from grade or finished floor line to eaves at all four corners;
- h. Ceiling heights of each floor, indicating if rough or finished;
- i. Height of space between the ceiling and finished floor above;
- j. Two people of 5'-6" and 6' height shown;
- k. Landscaping plan

6. Additions

- a. Placement shown on elevations and floor plan;
- b. Visibility from rights-of-way and paths;
- c. Photos of all facades;
- d. Design proportioned to main house;
- e. Landscaping plan;
- f. Materials and their combinations

7. Roof Plan

- a. Shape and pitch of roof;
- b. Roofing material;
- c. Overhang;
- d. Louvers and vents;
- e. Chimney height and material

8. Dormers

- a. Construction details provided;
- b. Shape and size of dormer (show dimensions on drawings);
- c. Overhang;
- d. Size of window(s), with nominal size of sash (show dimensions on drawings)

9. Skylights

- a. Profile;
- b. Visibility from right-of-way;
- c. Material (plastic lens or glass);
- d. Shown in plan and elevation to scale

10. Façade

- a. Consistency in style;
- b. Materials and their combinations
 - brick size and color
 - stone type and color
 - fiber-cement (e.g., Hardie-plank) or wood siding
 - shake or shingle
 - other
- c. Height of foundation at corners;
- d. Ceiling heights comparable to area of influence: basement, first floor, second floor;
- e. Detailing: soldier course, brackets, fascia board; water table;
- f. Height from grade to roof ridge;
- g. Dimensions, proportions and placement of windows, doors

11. Entrance

- a. Height and width of door;
- b. Design of door (e.g., 6-panel, craftsman);
- c. Material of door;
- d. Overhang;
- e. Portico height;
- f. Size and height of columns or posts;
- g. Railing

12. Windows

- a. Consistent with original as well as the area of influence;
- b. Size and proportion similar to original;
- c. Pane orientation and size similar to original;
- d. Type (e.g., double hung, casement);
- e. Fenestration on walls visible from right-of-way;
- f. Simulated divided light (SDL) or true divided light (TDL): location of muntins between the glass, behind the glass or permanently affixed on exterior;
- g. Material of window and any cladding;
- h. Width of muntins compared to original (show dimensions on drawings);
- i. Shutters or canopies
- j. Dimensions of windows and doors.

13. Materials

- a. Show all materials and label them on drawings;
- b. Provide samples of brick or stone;
- c. Provide samples if new or unusual materials

DEPARTMENT OF PLANNING & SUSTAINABILITY

14. Garages / Accessory Buildings

- a. Visibility from street;
- b. Placement on site;
- c. Scale, style appropriate for house;
- d. Show dimensions on drawings;
- e. Materials;
- f. Square footage appropriate for lot size;
- g. Garage door size and design
- h. Show height from grade to eaves and to top of roof

15. Demolitions

- a. Provide documentation from engineer concerning feasibility of rehabilitation;
- b. Provide photographs of structure to be demolished;
- c. Provide plan for proposed redevelopment

Application Process Checklist

This checklist is to ensure that applicants understand the Certificate of Appropriateness (COA) application process from beginning to end. Please verify that you have read over the process shown below and understand the procedures and timeline that will be followed for all submitted COA applications.

- Applications may only be submitted during the period specified on the calendar for each month. Once the filing deadline has passed and that period has expired, **no new applications will be accepted** to be heard at that month's commission meeting. If an application has not been submitted before the filing deadline, it cannot be submitted again until the next period for applications has opened.
- Additional materials submitted after the staff's report have been finalized and posted to the public will not be taken into consideration for the staff report. Staff reports will not be edited once finalized and published – any new materials may be submitted for the record for the commission but will not affect the staff's report for the application.
- Any additional materials submitted after the staff's report has been finalized and posted to the public may be added to the record for the historic preservation commission to review as supplemental materials for the submitted application. Supplemental materials includes:
 - Representative photos
 - Letters of support/opposition
 - Architectural drawings
 - Updated site plans

Supplemental materials **do not** include documents for new work to be added to the already submitted application. Any materials that propose new work that was not included in the original application, will not be added to the record. Any proposed new work that was not included in the original application will need to be included in a new application to be submitted for next month's commission meeting.

I have reviewed the information above and understand the Certificate of Appropriateness process.

I have reviewed the HPC calendar.

Project Fernbank Thrive Projects
Re: Certificate of Appropriateness Application

Dear Paige and the Historic Preservation Commission,

Fernbank is excited to be working towards new museum exhibits and learning galleries in the near future. While most of the improvements will be interior of the building envelope, one component of the project will be focused on improving accessibility and guest experience that has an effect on the exterior of the building. None of these improvements will be visible from Clifton Road or Ponce de Leon rights-of-way. Additionally, these improvements will potentially only be of limited visibility from the rear yards of properties in Barton Woods.

As part of these projects, a new elevator will be added on the backside (east façade) of the building facing the existing Wildwoods entrance. This elevator will be used exclusively for guests and serve the first through third floors of the building. The new elevator shaft will be on the exterior of the building with tie-ins to the existing floor slabs on each level.

In addition to the elevator exterior improvement, the Changing Earth exhibit will require construction materials to be moved in and out of the building. A temporary opening is proposed on the southwest façade of the building, facing the southernmost part of the parking lot. This temporary opening will allow construction activities to minimize the impact on Fernbank guests and staff.

Elevator Shaft

The elevator shaft will pull from existing materials and elements of the building. The shaft will be primarily a brick veneer with brick to match the existing light-colored brick of the Fernbank Museum. A round, white storefront window will be placed at each floor level to provide views out to Wildwoods while riding the elevator. These windows will replicate the existing round windows on the third floor in materiality and proportion.

Boardwalk Adjustments

To ensure that Wildwoods remains fully accessible over the course of the construction of the new elevator, the first phase will be to make a boardwalk adjustment to extend the opening of the Wildwoods Boardwalk to the north. This will allow a portion of the boardwalk to be closed during elevator construction and keep a clear, accessible path for Fernbank guests.

As part of the boardwalk adjustment and elevator construction, portions of the poured-in-place concrete surface of the Terrace will be replaced to match the existing, adjacent concrete.

Accessible Doors

The elevator addition will require some of the existing exterior doors to be shifted from the existing curtainwall to two of the arched openings to the north. This change also allows these doors to be automatic sliding doors, improving accessibility in and out of the Great Hall. Further to the north on the Terrace, two more pairs of doors will be replaced with automatic sliding doors as well to improve accessibility in and out of the Great Hall and Cafe.

Temporary Opening

The temporary opening will be approximately 7'-4" tall and 6'-0" wide. During construction (approximately 11 months), the opening will be infilled with doors for access directly into the future Changing Earth exhibit. Once construction is complete, the opening will be infilled with reclaimed brick from the temporary opening and new, matching brick if there is not enough whole, reclaimed brick. The brick will be toothed in to create a seamless brick repair, returning the elevation to its existing condition.

In conclusion, the proposed changes meet all the relevant Druid Hills Design Guidelines and will not have a substantial adverse effect on the aesthetic, historic, or architectural significance and value of the historic district.

Please feel free to reach out with any questions or additional documentation needed.

Sincerely,

A handwritten signature in black ink, appearing to read 'MSHannon'.
