

## 10.0 ARCHAEOLOGICAL RESOURCES

**Guideline - When planning new construction, additions, site improvements, or demolition, minimize disturbance of terrain to reduce the possibility of destroying unknown archaeological materials.**

**Recommendation - Contact the Historic Preservation Planner on staff with the County in the planning stages to see if the subject property is an area of low or high archaeological site potential or an area of recorded historic occupation.**

**Recommendation - Hire Secretary of the Interior qualified professionals to survey areas where major terrain alteration is planned to identify potential archaeological resources. In the event that an archaeological artifact is found, work shall stop and the County Preservation Planner shall be contacted.**

## 11.0 GUIDELINES FOR NONHISTORIC PROPERTIES

Located within the boundaries of the Druid Hills Local Historic District are three “types,” based on location, of nonhistoric properties: (1) those located in the core of the district, adjacent to or in the immediate vicinity of historic properties; (2) those located in buffer areas situated along the edges of the district; and (3) those located in areas defined as “intrusions.”

Specific guidelines for certain nonhistoric character areas, such as Barton Woods, may be developed in the future; these guidelines may address character-defining features of the architecture and landscape architecture of these areas. See *Section 15.0 Parkwood Character Area* as an example.

**Guideline - In reviewing an application for a Certificate of Appropriateness for a material change to a nonhistoric building, the Preservation Commission should evaluate the change for its potential impacts to any historic development (architecture and natural and cultural landscapes) in the area of influence of the nonhistoric property. Guidelines presented in *Section 7.0: Additions and New Construction* are relevant to such evaluations.**

The 2-story house in this photograph located on Westminster Way is non-historic. Any proposed change requiring a Certificate of Appropriateness to this building would be reviewed for its potential to impact the surrounding historic area. Effects to the building itself would not be relevant.
