Horse Manure Removal Services
FROM: Department of Purchasing and Contracting, DeKalb County, Georgia

ADDENDUM NO. # 1

Request for Quotation No. 3003795, Horse Manure Removal Services is hereby amended as follows:

1. Questions have been received and the responses are indicated below:
 - A. Question:** Could you please provide us with more information such as the estimated start and completion dates, the amount of manure to be removed, and any other relevant details?
Answer: Once the solicitation is awarded, services will begin immediately and will end after a total of 52 weeks (one year) from the day services began. The amount of manure to remove is one 20-yard roll two times per week, every Tuesday and Friday for 52 weeks. Services require to pick up the roll off and dump off at Seminole Landfill and return it to Little Creek Horse Farm.
 - B. Question:** We would also appreciate any information about the site, such as access points and any special considerations that need to be taken into account.
Answer: There is only one road into Little Creek. The road is wide enough for a truck to place and remove a 20 yard roll off. Access is adequate for visitors to view the site.
 - C. Question:** What is the earliest we can get into the horse farm?
Answer: Access is available at all hours. There is a security gate that operates automatically between the hours of 7 am and 9 pm. Before or after those hours, there is a gate code that can be provided if necessary.
 - D. Question:** When we get to Seminole Landfill, do we have to wait in line to weigh in and also weigh out?
Answer: Seminole Landfill will know the answer to this question. Please contact Seminole Landfill.
 - E. Question:** Where do we dump at the landfill?
Answer: The staff at the land fill will direct you as to where to dump.
