Dear Fair Oaks Community Residents:

As part of DeKalb County's Capital Improvement Program, the Department of Watershed Management (DWM) has initiated a project to install approximately 4,700 linear feet of 8-inch pipe on Fair Oaks Road to better serve your community. As part of the Fair Oaks Water Main Replacement project, new water mains, hydrants and meters will be installed between Lavista and Oak Grove roads.

This letter serves as formal notification that county contractors are scheduled to begin major construction activities for this project on Wednesday, August 16, 2017. Normal construction hours within the roadway will be from 9:00 a.m. to 4:00 p.m. Monday through Friday, excluding major holidays. However, in some instances, there may be expanded work hours associated with this project. Residents will receive prior notification should any major schedule changes be required.

Project construction is expected to last from **August 2017—March 2018**. Layne Inliner, working on behalf of DeKalb County, is the authorized contractor for the Fair Oaks Water Main Replacement Project. All workers will be wearing proper identification and driving marked vehicles.

Based on equipment and materials needs, there will be an increase in heavy equipment traffic at certain times during construction. In addition, there may be some one-lane closures along the project route, which could cause traffic delays. Traffic safety and control measures will be implemented as needed to assist drivers in moving safely and orderly through the construction zone. Residents within the area of impact will be notified by letter or door hanger at least 72 hours in advance of any closures or restricted driveway access associated with the closures.

There may also be service disruptions as the old waterlines are retired and properties are connected to the new water main. Residents within the area of impact will be notified by letter or door hanger at least 72 hours in advance of impending service disruptions.

Should you have any questions or concerns regarding the Fair Oaks Water Main Replacement Project, please contact the DWM Project Information line at 1-800-986-1108 or email projectinfo@dekalbcountyga.gov.

We appreciate your patience as we work diligently to make improvements to DeKalb County's water system.

Sincerely,

Margaret Tanner, P.E.
Deputy Director
