Revised 05/24/2019 P&C
DeKalb County Juvenile Court  
Functional Family Therapy (FFT) & Multisystemic Therapy (MST) Services  
Annual Contract with Two (2) Options to Renew

1. **Purpose**

In keeping with Georgia’s goal of increasing public safety through a more effective juvenile system, Criminal Justice Coordinating Council (CJCC) offers funding for local juvenile justice projects that aim to reduce the number of youth served out of home. The Juvenile Justice Incentive Grant Program funding aims to develop programs that address the needs of youth who are typically committed to the Georgia Department of Juvenile Justice (DJJ).

The court implemented the Commitment Alternative Program (CAP), to provide essential services that will restore at-risk youth back into the community, while holding them accountable for their actions and providing evidence-based interventions proven to have lasting impact on their ability to be law-abiding and productive members of the DeKalb County community.

2. **Scope of Services**

   a) The target population for CAP is in alignment with the juvenile justice profile of moderate to high-risk youth offender's ages 13-16 years. This includes youth who have been adjudicated for a felony charge, as well as youth adjudicated for a designated felony charge that could result in commitment to DJJ. The target population also includes youth who have previously been sentenced to Short-Term Programs (STPs) while under the supervision of the DCJC Probation Division.

   b) CAP provides several evidence-based interventions that have been carefully chosen and implemented in order to reduce felony commitments and recidivism rates, reduce annual secure confinement and detention rates, demonstrate cost-savings to citizens, increase overall family functionality, increase public safety, and address the criminogenic needs of the target population. Each evidence-based intervention is chosen specifically to benefit the population of youth we serve. DCJC proposes to continue delivering evidence-based interventions including Functional Family Therapy (FFT) and Multisystemic Therapy (MST).

   c) FFT is a short-term, high quality intervention program with an average of 12 to 14 sessions over three to five months. FFT works primarily with 11- to 18-year-old youth who have been referred for behavioral or emotional problems by the juvenile justice, mental health, school or child welfare systems. Services are conducted in both clinic and home settings, and can also be provided schools, child welfare facilities, probation and parole offices/aftercare systems and mental health facilities.

   d) MST is an intensive family- and community-based treatment program that addresses all environments that impact high risk youth - homes and families, schools and teachers, neighborhoods and friends. MST clinicians must be available to:

   - Travel to the youth and are on call 24/7
   - Work intensively to empower parents and caregivers
   - Work with caregivers to focus youth on school and gaining job skills
   - Introduce youth to recreational activities as an alternative to hanging out with anti-social peers

   e) FFT is a strength-based model built on a foundation of acceptance and respect. At its core is a focus on assessment and intervention to address risk and protective factors within and
outside of the family that impact the adolescent and his or her adaptive development. FFT and MST provide intensive treatment to youth and can effectively serve youth with chronic, persistent delinquency who are at risk for out of home placement. In both models, the frequency of sessions can be adjusted based on clinical need, allowing the service to be responsive to periods of crisis or high risk and to decrease the intensity for families with lower levels of need.

(f) FFT works with the entire family, so the youth and his/her caregivers are present at every session. Consequently, sessions are often held afterschool and on evenings and weekends. FFT proceeds through five phases of treatment, each designed to reduce specific risk factors and enhance protective factors. Early in treatment, the emphasis is on engaging the family and motivating them to participate in therapy. The therapist then conducts an assessment of the family, which is used to guide interventions for behavior change. Interventions often include psychoeducation/parent training and communication skills training, with a focus on changing patterns of family interaction that are maintaining the problem behavior. Once change has occurred within the family with respect to the presenting problems, the therapist helps the family generalize their new skills to other problems within the family as well as to situations outside of the home, such as problems that may be occurring at school. The therapist also helps the family develop supports and resources to support lasting change.

(g) MST can work with the caregivers, youth, or entire family. Sessions are often held with caregivers without the youth present. The therapist often intervenes in other systems, such as school or the peer domain, early in treatment. Assessment includes “fit circles” (identifying factors driving the referral behavior) and sequencing of problem situations. MST draws from a range of research-supported techniques. Interventions are often behavioral in nature, including strategies such as supervision and monitoring plans, reinforcement of desirable behavior, and sanctioning of undesirable behavior, but therapists may also provide family therapy to enhance relationships. MST strives to keep the need for formal services upon completion of MST to a minimum and build natural supports to help the family maintain their progress.

(h) FFT and MST are both delivered by individual therapists who are organized into teams or “sites” for the purpose of supervision, consultation, and service area. FFT and MST therapists should be masters-level clinicians, although both models make exceptions in certain cases that allow for experienced and well-trained bachelor-level therapists.

(i) The outcomes emphasized in each model are very similar. Outcome assessment in FFT focuses on change within the family, such as improved parenting skills, improved communication, and reduced conflict, as well as whether the youth has refrained from substance use and criminal activity, stayed in school, and improved his/her behavior. Outcome assessment in MST focuses on the “universal outcomes” of keeping youth at home, in school, and out of trouble with the law, and “instrumental outcomes” such as improved family relationships, improved parenting skills, and involvement with prosocial peers, which research suggests contribute to the universal outcomes.

(j) FFT has more than 40 years of research behind it, and MST has been studied since the 1980s. Research shows that both treatment models achieve the following short-term (immediate) outcomes: greater likelihood the youth remains at home, improved family functioning, reduced substance use, and fewer youth mental health symptoms and/or behavior problems. Research on MST has also found to improve peer relations, improve school performance, and increase the likelihood that the youth will attend school.

SCHEDULE OF LOCAL SMALL BUSINESS ENTERPRISE PARTICIPATION
OPPORTUNITY TRACKING FORM

The Chief Executive Officer and the Board of Commissioners of DeKalb County believe that it is important to encourage the participation of small and local businesses in the continuing business of County government; and that the participation of these types of businesses in procurement will strengthen the overall economic fabric of DeKalb County, contribute to the County’s economy and tax base, and provide employment to local residents. Therefore, the Chief Executive Officer and the Board of Commissioners have made the success of local small businesses a permanent goal of DeKalb County by implementing the DeKalb First Local Small Business Enterprise Ordinance.

PROVISIONS OF DEKALB FIRST LOCAL SMALL BUSINESS ENTERPRISE (LSBE) ORDINANCE

<table>

</tr>
</thead>
<tbody>
<tr>
<td>Certification Designation</td>
<td>Request For Proposals (RFP)</td>
</tr>
<tr>
<td>LSBE Within DeKalb (LSBE-DeKalb)</td>
<td>Ten (10) Preference Points</td>
</tr>
<tr>
<td>LSBE Outside DeKalb (LSBE-MSA)</td>
<td>Five (5) Preference Points</td>
</tr>
<tr>
<td>Demonstrated GFE</td>
<td>Two (2) Preference Points</td>
</tr>
</tbody>
</table>

Certified Local Small Business Enterprises (LSBEs) located within DeKalb County and prime contractors utilizing LSBEs that are locally-based inside DeKalb County shall receive ten (10) points in the initial evaluation of their response to any Request for Proposal. Certified LSBEs located outside of DeKalb County but within the nine (9) County Metropolitan Statistical Area (MSA) consisting of Cherokee, Clayton, Cobb, Douglas, Fayette, Fulton, Gwinnett, Henry and Rockdale Counties shall receive five (5) points in the initial evaluation of their response to any Request for Proposal. Prime Contractors who demonstrate sufficient good faith efforts in accordance with the requirements of the ordinance shall be granted two (2) points in their initial evaluation of responses to any Request for Proposal. Pro-rated points shall be granted where a mixture of LSBE-DeKalb and LSBE MSA firms are utilized. Utilization of each firm shall be based upon the terms of the qualified sealed solicitation.

Prime Contractor(s) deemed responsible and remains responsive to an Invitation to Bid (ITB) because they are either a certified LSBE-DeKalb or LSBE-MSA firm or has obtained 20% participation of an LSBE-DeKalb or LSBE-MSA firm, submits the lowest bid price shall be deemed the lowest, responsive and responsible bidder.

Prime Contractor(s) deemed responsible and remains responsive to an Invitation to Bid (ITB) and documented good faith efforts, submits a lower bid price than a Prime Contractor that achieved 20% LSBE participation, or otherwise required benchmark, then the Prime Contractor who actually met the benchmark will be given the opportunity to match the lowest bid price of the Prime Contractor who only made good faith efforts. Prime Contractor(s) who choose not to match the lowest bid price, then the Prime Contractor who made the good faith efforts will be deemed the lowest, responsive and responsible bidder.
For all qualified sealed solicitations, the Director of Purchasing and Contracting, DeKalb County Government, shall determine if the bidder/proposer has included written documentation showing that at least twenty percent (20%) of the total contract award will be performed by a certified LSBE. This written documentation shall be in the form of a notarized Schedule of LSBE Participation (Attached hereto as “Exhibit A”). For all contracts, a signed letter of intent from all certified LSBEs describing the work, material, equipment and/or services to be performed or provided by the LSBE(s) and the agreed upon percentage shall be due with the bid or proposal documents and included with “Exhibit A”. The certified vendor list establishes the group of Certified LSBE’s from which the bidder/proposer must solicit subcontractors for LSBE participation. This list can be found on our website https://www.dekalbcountyga.gov/purchasing or obtained from the Special Projects LSBE Program team.

Prime Contractors failing to meet the LSBE benchmark must document and demonstrate Good Faith Efforts in accordance with the attached “Checklist for Good Faith Efforts” portion of “Exhibit A.” The notarized Schedule of LSBE Participation shall be due and submitted with each bid or proposal. Failure to achieve the LSBE benchmark or demonstrate good faith efforts shall result in a bid or proposal being rejected. Prime Contractors that fail to attend the mandatory LSBE meeting in person or via video conference shall mean that the Prime Contractor has not demonstrated sufficient good faith efforts and its bid or proposal if submitted, shall be deemed non-responsive without any further review.

Upon award, Prime Contractors are required to submit a report detailing LSBE Sub-Contractor usage with each request for payment and not less than on a monthly basis. Prime Contractors shall ensure that all LSBE sub-contractors have been paid within seven (7) days of the Prime’s receipt of payment from the County. Failure to provide requested reports/documentation shall constitute a material breach of contract, entitling the County to terminate the Contract for default or pursue other remedies. LSBE sub-contractors must confirm payments received from the Prime(s) for each County contract they participate in.

For eligible bids/proposals valued over $5,000,000.00, the Mentor-Protégé provision of the Ordinance shall apply. Prime Contractors must agree to become mentors and take on an LSBE protégé in an effort to enhance the potential of future LSBEs. Qualifying projects shall be performed by both Mentor and Protégé through a subcontract between both parties. This requirement is in addition to all other applicable sections of the DeKalb First Ordinance. Please review the ordinance, section 2-214 or contact the LSBE Program Representative for detailed information regarding this initiative.
