SCOPE OF WORK & GENERAL REQUIREMENTS

Services For INSPIRE Family Treatment

Introduction:

DeKalb County Juvenile Court – INSPIRE Family Treatment Court is a 18-24 month comprehensive program that will create and utilize a team approach to working with adults with children in DeKalb Family and Children Services (DFACs) custody and struggling with drug addiction. Participants will engage in intensive long-term treatment such as Moral Reconciliation Therapy, Treatment Recovery and Empowerment Model, and Cognitive Behavioral Interventions for Substance Abuse in conjunction with individual and group therapy, accountability through frequent court appearances, observed random drug screenings, and community-based support in order to ensure that their children will achieve timely permanency.

INSPIRE Family Treatment Court will provide the tools needed to break the cycle of addiction, allow children to live safely in their home, reduce the likelihood of relapse, empower parents to successfully address their needs as well as the needs of their child(ren), and build a foundation for a healthy family environment without the snare of addiction.

Trauma Recovery and Empowerment Model (TREM)

The Trauma Recovery and Empowerment Model (TREM) is a fully manualized group-based intervention designed to facilitate trauma recovery among women with histories of exposure to sexual and physical abuse. Drawing on cognitive restructuring, psychoeducational, and skills-training techniques, the gender-specific 24-29 session group emphasizes the development of coping skills and social support. It addresses both short- and long-term consequences of violent victimization, including mental health symptoms, especially posttraumatic stress disorder (PTSD) and depression, and substance abuse. TREM has been successfully implemented in a wide range of service settings (mental health, substance abuse, criminal justice) and among diverse racial and ethnic populations.

Cognitive-Behavioral Interventions for Substance Abuse (CBI-SA)

The Cognitive-Behavioral Interventions for Substance Abuse (CBI-SA) curriculum is designed for individuals that are moderate to high need in the area of substance abuse and well suited for criminal justice populations. The curriculum can be delivered as a stand-alone substance abuse intervention, or incorporated into a larger program, particularly those designed for clients in the corrections system. As the name of the curriculum suggests, this intervention relies on a cognitive behavioral approach to teach participants strategies for avoiding substance abuse. The program places heavy emphasis on skill building activities to assist with cognitive, social, emotional, and coping skill development. Such cognitive behavioral strategies have routinely demonstrated high treatment effects, including when used with a correctional population. The components of the curriculum include pretreatment (optional), Motivational Enhancement, Cognitive Restructuring, Emotional Regulation, Social Skills, Problem Solving, and Relapse Prevention.

MRT

Moral Reconciliation Therapy-MRT® is an effective systematic, cognitive-behavioral approach that treats a wide range of issues including substance abuse, domestic violence, trauma, parenting, job skills, and other issues. The programs are implemented in groups utilizing workbooks directly targeting specific issues.

The bidder has the option to bid on one or all three treatments. Should the bidder choose to bid on all three, administration fees will apply.

QUALIFICATIONS & EXPERIENCE:

- Must present a copy of Certifications for all evidence-based curriculums.
- Must have worked with adults with substance abuse or other presenting issues.
- Must have facilitated the curriculum at least once before.
- Schedule is flexible and able to work during daytime hours.
- Must be able to establish proper boundaries, while still being empathetic.
