Dear Westfield Square Resident:

As part of DeKalb County's Capital Improvement Program, the Department of Watershed Management (DWM) has initiated a project to install a new water main to serve your community. As part of the project, approximately 3,300 linear feet of six-inch pipe will be replaced with eight-inch iron ductile pipe on Downing Lane, Downshire Lane, Downing Square, Downshire Circle, Downshire Square and a small portion of Fair Oaks Road.

**This letter serves as formal notification that county contractors will begin major construction activities for this project on Wednesday, July 5, 2017.** Normal construction hours will be from 9:00 a.m. to 4:00 p.m., Monday through Friday, excluding major holidays. However, in some instances, there may be expanded work hours associated with this project. Residents will receive prior notification should any major schedule changes be required.

Project construction is expected to last between three (3) and five (5) months. GS Construction, Inc., working on behalf of DeKalb County, is the authorized contractor for the Westfield Square Water Main Replacement project. All workers will be wearing proper identification and driving marked vehicles.

Based on equipment and materials needs, there will be an increase in heavy equipment traffic at certain times during construction. In addition, there will be some one-lane closures along the project route, which could cause traffic delays. Traffic safety and control measures will be implemented as needed to assist drivers in moving safely and orderly through the construction zone. Residents within the area of impact will be notified by letter or door hanger at least 72 hours in advance of any closures or restricted driveway access associated with the closures.

Should you have any questions or concerns regarding the Westfield Square Water Main Replacement project, please do not hesitate to contact the DWM Project Information line at 1-800-986-1108 or email [projectinfo@dekalbcountyga.gov](mailto:projectinfo@dekalbcountyga.gov).

We appreciate your patience as we work diligently to make improvements to DeKalb County's water system.

Sincerely,

Margaret Tanner, P.E.

Deputy Director
