**AUDIT OF DEKALB COUNTY  
PURCHASING POLICY  
AUDIT REPORT NO. 2017-008-PC**

---

## **What We Did**

In accordance with the Office of Independent Internal Audit (OIIA) Audit Plan for fiscal year 2017, we conducted a performance audit on the DeKalb County Purchasing Policy. We examined the current purchasing policy and 2015 draft purchasing ordinance to determine whether it:

- Contained the key contracting processes and elements consistent with the principles of the National Institute of Governmental Purchasing (NIGP)
- Complied with the Official Code of Georgia Annotated (O.C.G.A.)

We benchmarked the policy to the Federal Acquisition Regulations (FAR) and other Federal laws (such the Code of Federal Regulations and US Codes) , the Georgia Procurement Manual (GPM), American Bar Association’s (ABA) “Model Procurement Code for State and Local Governments” and procurement policies of other metro Atlanta counties throughout Georgia to identify better practices.

---

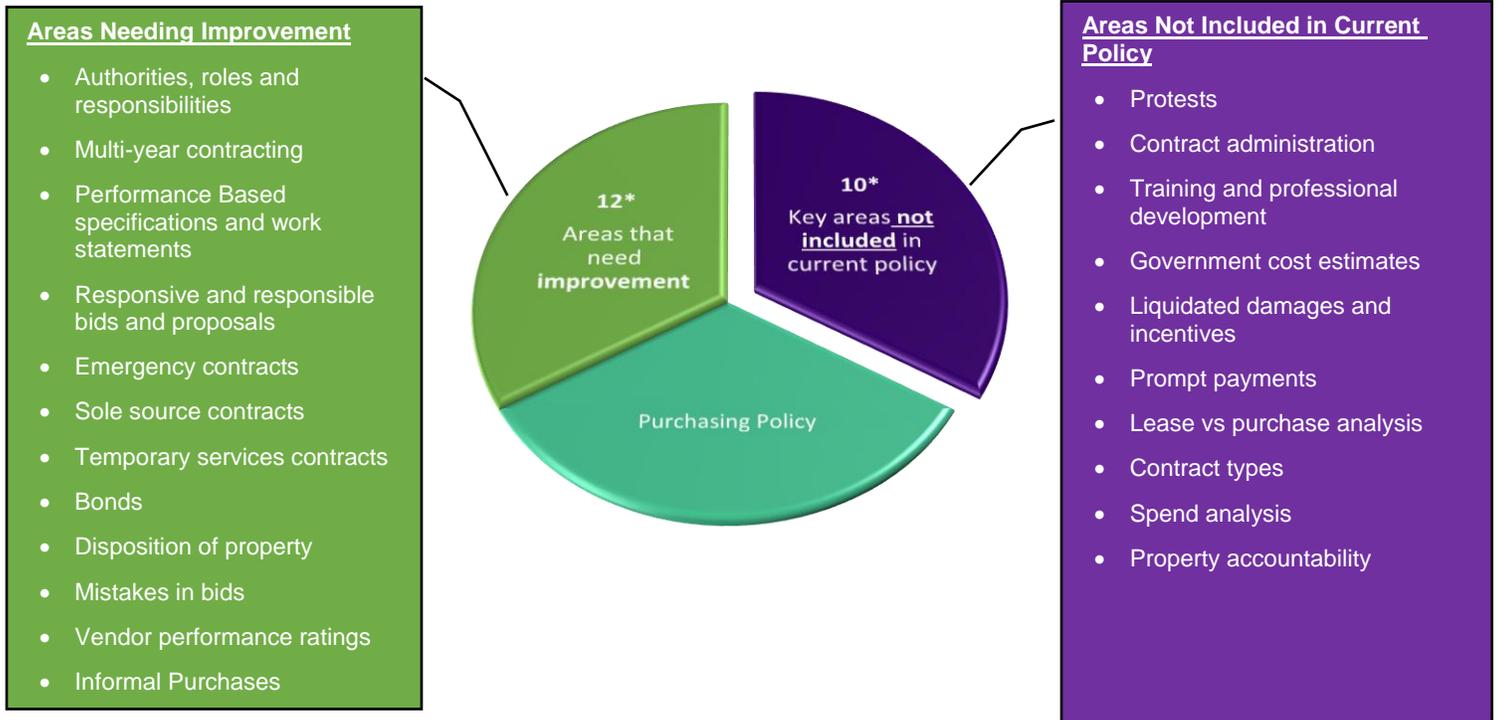

## **What We Found**

We found that the DeKalb County Purchasing Policy needs improvement to address key contracting processes and functions prescribed in the NIGP and be consistent with the O.C.G.A. The County’s purchasing policy does address several key areas that are consistent with the NIGP and guidance in the FAR, GPM, and other counties throughout Georgia such as ethics, source selection techniques (including sealed bids, sealed proposals, and informal purchases), prohibition of split purchases, cooperative purchases, disposition of surplus personal property, restrictive specifications and debarment actions.

In addition, the current policy does not contain several key contracting areas and some areas included in the current policy need to be strengthened to be fully consistent with the NIGP, O.C.G.A. and better practices. Please see the diagram on the following page that outlines the twelve areas that need improvements and ten key areas not included in current policy.

### **What We Recommend**

---

The Chief Procurement Officer (CPO) – Purchasing and Contracting Department, in consultation with the Purchasing Advisory Committee (PAC) and the County Law Department should:

- Revise the current purchasing policy to address the opportunities identified in this report, other key elements of the NIGP and ensure full conformance with the O.C.G.A.
- Review the FAR, GPM, NIGP, purchasing policies of similar counties and other best practices to identify other opportunities to further enhance the purchasing policy. Proposed revisions should be submitted to the DeKalb County Board of Commissioners (BOC) for review and approval
- Periodically review the purchasing policy to ensure the policy continues to effectively meet needs of the County

## **BACKGROUND AND INTRODUCTION**

The NIGP is a national, membership-based non-profit organization providing support to professionals in the public sector procurement profession. The NIGP prescribes the standards that public organizations should develop in their procurement manual. According to the NIGP "Principles and Practices of Public Procurement," procurement organizations should develop a comprehensive policy manual that clearly defines authority, responsibility, and establishes guidelines for the organization and the procurement professional to follow when carrying out their responsibilities.

The O.C.G.A specifies procurement related laws, codes and statutes, applicable to the state of Georgia, counties and municipalities. The current purchasing policy mandates that the County shall conform to all applicable provisions of the laws of the United States and of the State of Georgia.

The FAR is the primary regulation for use by all Federal agencies in their acquisition of supplies and services with appropriated funds. It became effective on April 1, 1984, and provides for coordination, simplicity, and uniformity in the Federal acquisition process. The GPM, dated February 2011, is the official source for all administrative rules issued by the Georgia Department of Administrative Services to govern purchases made by certain state government entities. Both the FAR and GPM serve as relevant resources/guides for County purchasing policy and may be applicable to the County within the context of Federal and/or state grant funding requirements.

The 2000 ABA Model Procurement Code for State and Local Governments provides statutory principles and policy guidance for managing and controlling the procurement for public purposes, administrative and judicial remedies for the resolution of controversies relating to public contracts and the set of ethical standards governing public and private participants in the procurement process. The Code was approved by the policymaking body of the ABA (its House of Delegates) on July 11, 2000. The NIGP participated in the development of the ABA Model Procurement Code for State and Local Governments.

The DeKalb County Purchasing Policy, dated August 6, 2014, is the latest official purchasing policy within DeKalb County. A draft purchasing ordinance was prepared in 2015. Based on our review there was no significant difference from the official Purchasing Policy. In 2015, Section 18 of House Bill 598 was amended to include the Board of Commissioners (BOC) in the policy making process for all purchasing issues. Before this amendment, the Chief Executive Officer had the unilateral power to enact and amend the DeKalb County Purchasing Policy.

The DeKalb County Department of Purchasing and Contracting is responsible for establishing, implementing and enforcing all purchasing procedures in accordance with Georgia law and the County policy. The CPO is responsible for the administration of all transactions governed by the County's purchasing policy and shall serve as the principal procurement officer of the County.

"A PAC shall be established (by CPO - Purchasing and Contracting Department) and comprised of members selected from user departments by the County's Chief Executive Officer, Executive Assistant/Chief Operating Officer, Director of Finance and the CPO and will serve for two year staggered terms. The Committee shall meet periodically (at least annually) to review purchasing

procedures and make recommendations for changes...”<sup>1</sup> The BOC will have the approval authority for the changes.

## **AUDIT RESULTS**

During this engagement, the OIIA examined the NIGP and O.C.G.A. and benchmarked the DeKalb County Purchasing Policy to the FAR and other Federal laws (such the Code of Federal Regulations and US Codes) , GPM, ABA “Model Procurement Code” and procurement policies of other counties throughout Georgia to identify better practices.

As a result, we identified several opportunities to strengthen the current Purchasing Policy as outlined in our finding and recommendation below.

In addition, our audit identified some better practices for consideration in addressing the key procurement areas missing from the Purchase Policy (Appendix III) or areas needing improvement in the Purchasing Policy. (Appendix IV)

### **FINDING: SEVERAL KEY PROCUREMENT AREAS ARE NOT INCLUDED OR NEEDS IMPROVEMENT IN THE PURCHASING POLICY**

**Objective:** Determine if the DeKalb County Purchasing Policy contains the key elements to facilitate an effective procurement process that is consistent with the principles of the NIGP and in compliance with applicable sections of the O.C.G.A.

**Criteria:** According to the NIGP, procurement organizations should develop a comprehensive policy manual that clearly defines authority, responsibility, and establishes guidelines for the organization and the procurement professional to follow when carrying out their responsibilities.

Article 13 and Article 36 of the O.C.G.A. specifies the procurement laws for the state, counties, and municipalities of Georgia.

The FAR (and other Federal regulations and laws), GPM, ABA and other counties purchasing policies throughout Georgia provide guidance and serve as a basis for benchmarking better business practices.

**Condition:** The DeKalb County Purchasing Policy includes several key procurement areas that are addressed in the NIGP such as authority and role of the Chief Procurement Officer, types of source selection (sealed bids, proposals, and cooperative agreements), restrictive specifications, surplus disposition of personal property, prohibition of split purchasing, ethics, professional services and withdrawal of bids. Our examination identified several key procurement areas that are missing from the Purchasing Policy. In addition, some key contracting areas included in the purchasing policy need improvement to strengthen consistency with the NIGP and be compliant with the O.C.G.A. as highlighted in the table on following page.

OIIA noted that the Purchasing department is in the process of drafting a County Procurement Protest policy. We examined the draft document as of August 18, 2017 and noted that so far it does address some of the relevant key elements/better practices of a protest policy identified in Appendix III.

**Consequence:** A purchasing and contracting policy not consistent with the NIGP and non-compliant with the O.C.G.A. impairs the County’s ability to (1) clearly define the roles and responsibilities of all parties involved in the contracting process, (2) mitigate risks to the County, (3) establish accountability for County personnel and (4) safeguard the County’s assets.

**Recommendation:**

The CPO – Purchasing and Contracting Department, in consultation with the PAC and the County Law Department, should:

- Revise the current purchasing policy to address the opportunities identified in this report, other key elements of the NIGP and ensure full conformance with the O.C.G.A.
- Review the FAR (and other Federal regulations and laws), GPM, NIGP, purchasing policies of similar counties and other best practices to identify other opportunities to further enhance the Purchasing Policy. Proposed revisions should be submitted to the BOC for review and approval
- Periodically review the purchasing policy to ensure the policy continues to effectively meet the needs of the County

## **APPENDIX**

---

### **Appendix I- Purpose, Scope and Methodology**

#### **Purpose**

The purpose of the engagement was to:

- Determine if the DeKalb County's purchasing policy contains the key elements to facilitate an effective procurement process that are consistent with the principles of the NIGP and in compliance with applicable sections of the O.C.G.A.
- Identify better practices to enhance the procurement and contracting processes of DeKalb County

#### **Scope and Methodology**

Our scope for the engagement was the current and draft DeKalb County Purchasing Policy. Our approach was to examine the Purchasing policy and compare it to the key contracting processes and elements prescribed in the NIGP and O.C.G.A. In addition, we benchmarked the policy to the Federal regulations and laws, the GPM, and other counties within Georgia to identify better practices to enhance the current policy.

## Appendix II- Management Response

### MEMORANDUM

**TO:** John L. Greene, Chief Audit Executive  
**FROM:** Talisa R. Clark, Chief Procurement Officer  
**SUBJECT:** Audit of the DeKalb County Purchasing Policy-Audit Report No 2017-008-PC

This memorandum will serve as official response to the Audit of the DeKalb County Purchasing Policy received on November 3, 2017. After review of the audit report, the Department of Purchasing and Contracting (P&C) provides the following responses for the audit recommendations listed below.

1. Revise the current purchasing policy to address the opportunities identified in this report, other key elements of the NIGP and ensure full conformance with the O.C.G.A.
  - a. **Already addressing through the development of a purchasing ordinance**
2. Review the FAR, GPM, NIGP, purchasing policies of similar counties and other best practices to identify other opportunities to further enhance the Purchasing Policy. Proposed revisions should be submitted to the DeKalb County Board of Commissioners (BOC) for review and approval
  - a. **Already addressing through the development of a purchasing ordinance**
3. Periodically review the purchasing policy to ensure the policy continues to effectively meet needs of the County
  - a. **Already addressing with the re-classification of the Procurement Projects Manager of the Special Projects Team to be responsible for the management and periodic review and updates to all procurement policies and procedures**

P&C concurs with the audit's findings and recommendations; and provided the same recommendations to the Procurement Ad Hoc Committee during a presentation regarding the current purchasing policy. The twelve (12) improvement recommendations will be addressed during the development of a purchasing ordinance. P&C is currently working with the Law Department to prepare a "draft" purchasing ordinance for the CEO's review and approval. Upon the CEO's approval, the purchasing ordinance will be presented to the BOC for approval per HB598. P&C recommend that it is important to include in the audit report that many of these recommendations were included in the County's previous purchasing policy.

The ten (10) recommendations of the excluded areas will also be addressed during the development of a purchasing ordinance. These areas have already been implemented or have been developed recently by P&C. With the Law Department's assistance, P&C has drafted a protest policy that will be included in the purchasing ordinance. Although several other areas identified in the audit, such as training and development, contract types, liquidated damages, contract administration, etc. was not specified in the current purchasing policy; P&C recommend that it is important to include in the audit report that many of these recommendations are best practices that are implemented, administered and/or included in the County's solicitations and executed contracts.

A set timeline is undetermined at this time, as the final approvals reside with the CEO and BOC Offices.

**Government Cost Estimates**

**Criteria:**

- The NIGP states that procurement officials must investigate bids or proposals that appear abnormally low <sup>1</sup>

**Better Practices:**

- All user agencies shall prepare an independent cost estimate for each project. The purchasing agent shall utilize the independent cost estimates for the evaluation of cost proposals and to assist the department of purchasing and contract compliance and evaluation committee in determining if proposals/bids are reasonably priced <sup>2,4</sup>
- Through market analysis, a more reliable cost estimate for the goods and services can be developed. Pricing may be available through Internet research or suppliers may be willing to offer preliminary price quotes <sup>3</sup>
- Other methods of estimating cost may include reviewing the price of recently awarded contracts for similar purchases or reviewing pricing on any applicable convenience statewide contracts <sup>3</sup>
- Estimating the expected cost of the needed goods or services is necessary for at least two reasons:

1. **“Principles and Practices of Public Procurement-The Evaluation Process” NIGP**  
  
<http://engage.nigp.org/acton/attachment/24793/f-01cb/1/-/-/-/TheEvaluationProcess.pdf>
2. **Section 102-367, paragraph b 1 and c of Fulton County Procurement Ordinances**
3. **Section 2.2.3.4 of GPM**
4. **Section 12 of the Douglas County Board of Commissioners Purchasing Department Procurement Guide**

- The benefit of including this is to emphasize to contracting officers/user departments the importance of including a well-supported cost estimate that help determine the:
  - ✓ Amounts to be budgeted / funding availability
  - ✓ Type of purchasing method to use (Request for proposals, Invitation to Bid, Informal Purchases, etc.)
  - ✓ Reasonableness of the proposal or bid, especially in sole source contracts

**Better Practices:**

- In certain situations, equipment requirements may be more economically filled by rental or lease than by purchase. The decision to rent rather than purchase must be made on a case-by-case basis, and should only be used when it is in the county's best interest <sup>2,3,4</sup>
- A lease may qualify for capital assistance if it meets the following criteria:
  - ✓ The capital asset to be acquired is eligible for capital assistance
  - ✓ Leasing the capital asset is more cost-effective than purchase or construction of asset <sup>2</sup>
- The following factors must be considered before leasing equipment:
  - ✓ Estimated and actual timeframe equipment usage is required
  - ✓ Financial and operating advantages of alternative types of equipment
  - ✓ Total rental/lease cost for the estimated period of use
  - ✓ Net purchase price, if acquired by purchase
  - ✓ Transportation and installation costs

**Better Practices:**

- Responsive means the bidder or proposer has submitted a timely offer, which materially conforms to the requirements and specifications of the solicitation. The response must be considered responsive to be eligible for status as a qualified contractor <sup>3</sup>
  
- Responsible means the company has appropriate legal authority to do business in the state of Georgia, a satisfactory record of integrity, appropriate financial, organizational and operational capacity and controls, and acceptable performance on previous governmental and/or private contracts <sup>3</sup>
  
- Provide examples of non-responsible. Examples of non-responsibility include:
  - ✓ History of non-performance or performance problems on other contracts
  
  - ✓ Record of financial difficulty or business instability
  
  - ✓ Criminal or civil sanctions and/or tax delinquency. A supplier's unreasonable failure to promptly supply information in connection with an inquiry with respect to responsibility may be grounds for a determination of non-responsibility <sup>1,4</sup>

**Better Practices:**

- To determine the appropriateness of a sole-source purchase, research must be conducted to determine if other goods or service providers exist and can satisfy procurement requirements <sup>2</sup>
  
- The procurement professional must provide public notice of the intended sole-source purchase through a posting to the GPR for a minimum of five (5) business days. The purpose of publicizing the sole-source notice is to offer other possible suppliers an opportunity to respond by submitting a protest stating they can provide the specified good or service <sup>2</sup>
  
- All intended sole source acquisitions shall be advertised on the county's bid board/internet for a minimum of five business days <sup>3</sup>
  
- Sole source justifications shall include a description of the supplies and services to include a cost estimate or price or cost analysis <sup>5</sup>

## **Temporary Services Contracts**

### **Criteria:**

- The NIGP states that a procurement manual should provide guidance for the use of special public procurement programs since temporary contracts is a special procurement program <sup>1</sup>

### **County Purchasing Policy:**

- The County's Purchasing Policy includes guidance for use of professional services along with the award procedures from the user activity and procurement office. Professional services can include temporary help services
- The policy needs to be amended to reflect the conditions, rules, and limitations for temporary help services contracts

### **Better Practices:**

- An agency may enter into a contract with a temporary firm for the brief or intermittent use of the skills of private sector temporaries, when the following exists:
  - ✓ An employee is absent for a temporary period because of a personal need including emergency, accident, illness, parental or family responsibilities, or mandatory jury service

2. *Title 5 Code of Federal Regulations (CFR), Section 300.503*

**Mistakes in Bids**

**Criteria:**

- The NIGP also prescribes that contracting officials should examine the submitted documentation to ensure arithmetical errors are corrected and recorded, unless they are substantive to the bid <sup>1</sup>

**County Purchasing Policy:**

- The DeKalb County Purchasing Policy did include guidance outlining the mistake in bid process. It stated that any clerical mistake patently obvious on the face of a bid may be corrected upon written request and verification submitted by the bidder. While this is adequate, our review shows other guidance specifies that the contracting officer can check for mistakes in bids and notify the bidders of any detected potential mistake in bid

**Better Practices:**

- After opening of bids, the Purchasing Director will examine all bids for mistakes. In cases of apparent mistakes, and in cases where there is reason to believe that a mistake may have been made, he/she will request from the bidder a verification of the bid, calling attention to the suspected mistake <sup>1, 2,3</sup>
- Prior to award, the Purchasing Director may correct any clerical mistake apparent on the face of a bid, if

- Revising the policy to reflect this would place additional emphasis on contracting officers to thoroughly review bids and proposals for mistakes, which could potentially reduce contract prices

**Better Practices:**

- The user agency shall monitor and review the performance of contractors/vendors that provide goods and services to the county. Regular performance appraisals shall be documented once every calendar quarter, or once every 60 days where the total contract period is six months or less. This shall not take the place of, but shall be in addition to the mandatory contract performance report required at the end of each contract <sup>2</sup>
- The contract administrator is responsible for ensuring that the performance of contractors/vendors is recorded on the contractor performance report and submitted into the Department of Purchasing and Contracting centralized database <sup>2</sup>
- The contracting officer may exercise options only after determining that the contractor's performance on this contract has been acceptable <sup>3</sup>
- Past performance information (including the ratings and supporting narratives) is relevant information, for future source selection purposes, regarding a contractor's actions under previously awarded contracts <sup>3</sup>
- Agencies shall prepare evaluations of contractor performance for each contract that exceeds the simplified acquisition threshold <sup>3</sup>

**Informal Purchases**

**Criteria:**

- The NIGP cites that public entities should include source selection procedures such as small purchase orders (or informal purchases) in their procurement manual. The County utilizes a procurement method similar to this referred to as a “punch out list” in which user activities purchase items respectively from a list of vendors with catalogued items and prices <sup>1</sup>

**County Purchasing Policy:**

- The County policy did adequately address informal purchase procedures to include dollar thresholds, quotation and documentation by dollar thresholds, and prohibition of splitting informal purchases
- However, it needs to add provisions for the use of “punch out list” contracts

**Better Practices:**

- Define the “Punch out” catalogue contract process. (i.e. A method of filling out repetitive by establishing accounts with qualified vendors)
- Require that user activities ensure funding is available prior to purchasing
