RE: Clean Water Act Consent Decree 1:10cv 4039-WSD
June 30, 2016-2016 2nd Quarterly Report Submittal

Dear Ms. Janovitz:

As required by §IX. Reporting Requirement of the Consent Decree associated with the above referenced civil action, we are submitting the following document for your review and comment:

- June 30, 2016 – 2016 2nd Quarterly Report

I certify under penalty of law that these documents and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering such information, the information submitted is, to the best of my knowledge and belief, true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fines and imprisonment for knowing violations pursuant to CWA Section 309(c)(4).

If you have questions or comments regarding this submittal, please call me at 770-621-7234.

Respectfully,

Scott A. Towler, P.E.
Director
Department of Watershed Management

* The County was asked at our meeting of April 14, 2016 to begin tracking SSO’s that appear to be caused by blockages or other issues located in that section of a private service lateral that is in the County’s right-of-way. As this request was not made until after the completion of collection of 1st Quarter data, some Service Requests did not include enough details from the caller or the responding crews to definitively determine if an issue within a private service lateral was within the County’s right-of-way or was on private property. Out of an abundance of caution, those situations in which such questions remained have been included in this Section II. As has been previously communicated, the County has revised the service request forms and is retraining all response crews on the level of detail required in such reports. As these changes were implemented during the 2nd Quarter of 2016, the County anticipates having all necessary information to accurately track such issues for inclusion in the 2016 3rd Quarterly Report.
