Decatur, GA 30030
(404) 371-2155 / plandev@dekalbcountyga.gov

Planning Commission Hearing Date: November 1, 2018, 6:30 P.M.
Board of Commissioners Hearing Date: November 13, 2018, 6:30 P.M.

STAFF ANALYSIS

Case No.:	LP-18-1235272	Agenda #: N.2
Location/Address:	2346 Pine Mountain Street, Lithonia, Georgia	Commission District: 5 Super District: 7
Parcel IDs:	16 168 01 008	
Request:	For a Land Use Map Amendment from Suburban (SUB) to Light Industrial (LIND) to allow for future industrial uses.	
Property Owner(s):	MH Lithonia Holdings LLC & Nelsem Properties LLC	
Applicant/Agent:	Joseph Cooley	
Acreage:	1.22 acres	
Existing Land Use:	Vacant Land and Building	
Surrounding Properties:	Surrounding properties are either vacant or residentially zoned.	
Adjacent Zoning:	North: M (LIND) South: M(LIND/INS) East: M(LIND) West: M(SUB) Northeast: M(LIND) Northwest: M(SUB) Southeast: M(LIND) Southwest: R-75(SUB)	
Comprehensive Plan:	X Consistent Inconsistent	

Proposed Density: N/A	Existing Density: N/A
Proposed Units/Square Ft.: Future Industrial Uses	Existing Units/Square Feet: Vacant land and buildings
Proposed Lot Coverage: N/A	Existing Lot Coverage: N/A

Companion Application:

The applicant has filed a companion application Z-18-1235197 to rezone the property from RE (Residential Estate) District to M (Light Industrial) District to allow for future industrial uses in accordance with Section 27-4.1 of the DeKalb County Zoning Ordinance.

STAFF RECOMMENDATION: (See Supplemental Land Use Report)

The surrounding properties are zoned M (Light Industrial). The subject parcel is currently vacant and does not have a structure on it. The subject parcel is adjacent to 2356 Pine Mountain Street (same owner as subject parcel) which has direct access to Turner Hill Road (truck route) and Interstate 20.

Therefore, the Department of Planning and Sustainability recommends "Approval".

Acreage: 1.224 Commission District(s): District 5, Superdistrict 7

Current Land Use Designation: SUB Proposed Land Use Designation: LIND

Current Zoning Classification(s): RE (concurrent zoning request to M)

PLEASE READ THE FOLLOWING BEFORE SIGNING

- I. This application form must be completed in its entirety. In addition, any application that lacks any of the required attachments or payment of the filing fee shall be determined to be incomplete and shall not be accepted.
- II.
- III. Disclosure of Campaign Contributions: In accordance with the Conflict of Interest in Zoning Act, O.C.G.A., Chapter 36-87A, the following questions must be answered: Have you, the applicant, made \$250 or more in campaign contributions to a local government official within two years immediately preceding the filing of this application? Yes ___X___ No
- IV.

If the answer is yes, you must file a disclosure report with the governing authority of DeKalb County showing:

1. The name and official position of the local government official to whom the campaign contribution was made.
2. The dollar amount and description of each campaign contribution made during the two years immediately preceding the filing of this application and the date of each such contribution.

The disclosure must be filed within 10 days after the application is first filed and must be submitted to the C.E.O. and the Board of Commissioners, DeKalb County, 1300 Commerce Drive, Decatur, Ga. 30030.

Existing right of way width _____
Proposed number of traffic lanes _____
Proposed right of way width _____

Please provide additional information relating to the following statement.

According to studies conducted by the Institute of Traffic Engineers (ITE) 6/7TH Edition (whichever is applicable), churches generate an average of fifteen (15) vehicle trip end (VTE) per 1,000 square feet of floor area, with an eight (8%) percent peak hour factor. Based on the above formula, the _____ square foot place of worship building would generate _____ vehicle trip ends, with approximately _____ peak hour vehicle trip ends.

Single Family residence, on the other hand, would generate ten (10) VTE's per day per dwelling unit, with a ten (10%) percent peak hour factor. Based on the above referenced formula, the _____ (Single Family Residential) District designation which allows a maximum of _____ units per acres, and the given fact that the project site is approximately _____ acres in land area, _____ daily vehicle trip end, and _____ peak hour vehicle trip end would be generated with residential development of the parcel.

COMMENTS:

Field and plans reviewed. No problem
found that would disrupt traffic.

DeKalb County Long Range Planning Division
Supplemental Land Use Report (for developments in Light Industrial)

Case No. LP-18-1235272 Project Name: N/A	Existing FLU: Suburban Proposed FLU: Light Industrial	Staff Recommendation Approval
---	--	----------------------------------

Light Industrial Intent - The intent of the Light Industrial Character Area is identity areas appropriate for industrial type uses. The location of these areas shall preserve the appeal and appearance of residential and commercial areas from the prospective intrusion of light industrial land uses. These areas consist of areas used in low intensity manufacturing, including wholesale trade, and distribution activities that do not generate excessive noise, vibration, air pollution or other nuisance characteristics.

Light Industrial

Primary Uses

- Light Industrial Uses
- Manufacturing
- Warehouse / Distribution
- Wholesale / Trade
- Automotive
- Accessory Commercial
- Educational Commercial
- Community Facilities

Future Land Use Map for Light Industrial

	Other	N/A			N/A
	Total				
Light Industrial Character Area Policies		Support to Staff Recommendation			Justification
		YES	NO	N/A	
	Provide appropriate infrastructure support for industrial development in designated industrial areas.	☐	☐	☒	No specific project for which to consider adequate infrastructure standards.
2. Buffer	– Protect surrounding areas from the negative impacts of noise and light pollutants.	☒	☐	☒	
3. Residential Protection	- Prohibit the encroachment of industrial uses into established residential areas.	☐	☐	☒	
4. Environmental Compatibility	- Direct development to industrial districts located in areas with compatible soils drainage and other environmental characteristics.	☐	☐	☒	
5. Zoning Compatibility	- Protect existing and zoned undeveloped industrial land from unnecessary intrusion by conflicting land uses.	☒	☐	☐	
6. Re-zoning	- Minimize the rezoning of light industrial properties to residential uses.	☒	☐	☐	
7. Future Designations	- Designate specific areas through the use of zoning and other land use tools for industrial development.	☒	☐	☐	
8. Retrofit	- Develop or, where possible, retrofit property planned industrial parks with adequate water, sewer, storm-water, and transportation infrastructure for all component uses at build-out.	☐	☐	☒	No specific project for which to consider adequate infrastructure standards.
9. Location of Centers	- Locate industrial centers in areas with good access to highways.	☒	☐	☐	The companion case is conditioning approval on truck access only on Turner Hill Road. (Truck route)
10. Landscaping	- Incorporate landscaping and site design to soften or shield views of buildings and parking lots, loading docks, etc.	☐	☐	☒	
11. Regulations Compatibility	- Create and implement zoning and development regulations for industrial uses.	☒	☐	☐	
12. Truck Routes	- Designate truck routes to reduce noise, pollutants and traffic congestion in residential areas.	☒	☐	☐	
13. Access Management	- Provide access controls and management standards in compliance with the DeKalb County Transportation Plan.	☒	☐	☐	Zoning approval is conditioned on truck route access for trucks.
14. Adaptable Reuse	- Convert obsolete and empty industrial buildings into multifamily and/or live-work establishments.	☐	☐	☒

Supplemental Land Use Report *(for developments in Light Industrial)*

Impact Analysis

(In support of Section 27-7.3.4 of the DeKalb County Code states that the following standards and factors shall govern the review of all proposed amendments to the Official Zoning Map.)

Questions	Compliant			Comments to support zoning proposal
	YES	NO	N/A	
A. Zoning proposal is in conformity with the policy and intent of the comprehensive plan:	☒	☐	☐	The site is surrounded by Industrially zoned property. The rezoning is consistent.
B. The zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby properties:	☒	☐	☐	
C. The property to be affected by the zoning proposal has a reasonable economic use as currently zoned:	☐	☒	☐	
D. The zoning proposal will adversely affect the existing use or usability of adjacent or nearby property:	☐	☒	☐	
E. There are other existing or changing conditions affecting the use and development of the property, which give supporting grounds for either approval or disapproval of the zoning proposal:	☒	☐	☐	The site is currently undeveloped with the adjacent properties industrially zoned. The applicant wishes to amend the zoning and land use in order to market the property for Industrial uses.
F. The zoning proposal will adversely affect historic buildings, sites, districts, or archaeological resources:	☐	☒	☐	
G. The zoning proposal will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities, or schools:	☐	☒	☐	Heavy truck traffic would be conditioned to access the site from the truck route. (Turner Hill Rd.)
H. The zoning proposal adversely impacts the environment or surrounding natural resources.	☐	☒	☐

Data Note: N/A means not available.

2012-2016 ACS Estimate: The American Community Survey (ACS) replaces census sample data. Esri is releasing the 2012-2016 ACS estimates, five-year period data collected monthly from January 1, 2010 through December 31, 2014. Although the ACS includes many of the subjects previously covered by the decennial census sample, there are significant differences between the two surveys including fundamental differences in survey design and residency rules.

Margin of error (MOE): The MOE is a measure of the variability of the estimate due to sampling error. MOEs enable the data user to measure the range of uncertainty for each estimate with 90 percent confidence. The range of uncertainty is called the confidence interval, and it is calculated by taking the estimate +/- the MOE. For example, if the ACS reports an estimate of 100 with an MOE of +/- 20, then you can be 90 percent certain the value for the whole population falls between 80 and 120.

Reliability: These symbols represent threshold values that Esri has established from the Coefficients of Variation (CV) to designate the usability of the estimates. The CV measures the amount of sampling error relative to the size of the estimate, expressed as a percentage.

-  High Reliability: Small CVs (less than or equal to 12 percent) are flagged green to indicate that the sampling error is small relative to the estimate and the estimate is reasonably reliable.
-  Medium Reliability: Estimates with CVs between 12 and 40 are flagged yellow-use with caution.
-  Low Reliability: Large CVs (over 40 percent) are flagged red to indicate that the sampling error is large relative to the estimate. The estimate is considered very unreliable.
