#### DeKalb County, Georgia 1300 Commerce Drive, Decatur, Georgia 30030 (404) 371-2741 (404) 371-2750 FAX

June 26, 2018

Chief Executive Officer and Members
DeKalb County Board of Commissioners
DeKalb County, Georgia

The Comprehensive Annual Financial Report (CAFR) of DeKalb County, Georgia, ("DeKalb "or the "County") for the year ended December 31, 2017 is submitted herewith. This report is prepared in accordance with the requirements of the Act providing uniform standards for audits of municipalities and counties within the State of Georgia, approved April 21, 1967 (Ga. Laws 1967, p. 883) as amended by an Act approved March 28, 1968 (Ga. Laws 1968, p. 464).

This report consists of management's representations concerning the finances of the County. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the County has established a comprehensive internal control framework that is designed both to protect the County's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the County's financial statements in conformity with U.S. generally accepted accounting principles (GAAP). Because the cost of internal controls should not outweigh their benefits, the County's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial statement is complete and reliable in all material respects.

The County's financial statements have been audited by Mauldin & Jenkins, LLC, licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the County for the year ended December 31, 2017, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the County's financial statements for the year ended December 31, 2017, are fairly presented in all material respects, in accordance with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

## **DeKalb County Comprehensive Annual Financial Report**

The independent audit of the financial statements of the County was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the government's internal controls over compliance with certain provisions of laws, regulations, contracts and grant agreements. These reports are available in the County's separately issued Single Audit Report.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The County's MD&A can be found immediately following the report of the independent auditors.

#### **Profile of the County**

The County ranks in the top five in population among counties in Georgia (with an estimated 2017 population of 733,900). The County is located immediately east of the City of Atlanta, Georgia, and consists of a portion the City of Atlanta, as well as the cities of Avondale Estates, Brookhaven, Chamblee, Clarkston, Decatur, Doraville, Dunwoody, Lithonia, Pine Lake, Stone Mountain, Tucker and unincorporated areas. The County is bordered by Fulton County on the north and the west, Gwinnett County on the north, and Clayton, Henry, and Rockdale Counties on the south. The County was founded in 1822, consists of 268 square miles and ranks as the 113<sup>th</sup> (out of 159) largest county in the State by size. The City of Decatur was incorporated as the county seat in 1823. Selected county demographic information is provided in the statistical section of this report.

The County is the headquarters for some of the nation's most prominent businesses and organizations, including the Centers for Disease Control and Prevention (CDC), the largest federal agency based outside of Washington, D.C. and the Yerkes National Primate Research Center. Emory University, Oglethorpe University and Agnes Scott College are located in the County. In addition, more than half of metro Atlanta's Fortune 500 companies operate in DeKalb County. The County is also home to Georgia's second busiest airport, the DeKalb Peachtree Airport.

#### Government

A 1981 Act of the General Assembly of Georgia provides for distinct executive and legislative branches of County government. The executive branch is headed by the elected position of Chief Executive Officer (CEO). The legislative branch is made up of the Board of Commissioners, composed of seven members, which elects from its membership a Presiding Officer and Deputy Presiding Officer. The CEO has veto power, which may be overridden by a two-thirds majority vote of the Board of Commissioners. The Board of Commissioners has the power and authority to fix and establish, by appropriate resolution or ordinance (entered in its minutes), policies, rules and regulations governing all matters within its jurisdiction as provided by state law. The CEO has exclusive power to supervise, direct and control the administration of the County government.

The financial statements, schedules, and statistical tables included in this report pertain to all functions and funds directly under the control of the DeKalb County CEO and Board of Commissioners. Also included are trust and agency funds administered and controlled by various elected or appointed officials, which are not reported upon by any other entity. The Board of Health and the Public Library are included as component units of the County. These

component units are partially funded by the County, and derive significant funding from Federal and State appropriations grants and user fees. The Board of Health provides a broad range of physical health services, and the Public Library provides a wide range of information services.

Certain other entities are not included within the scope of this report. These exclusions consist of the DeKalb County Board of Education, the Fulton-DeKalb Hospital Authority, the Atlanta Regional Commission, the DeKalb Board of Family and Children Services, the DeKalb Community Service Board, the DeKalb Housing Authority and the Development Authority of DeKalb County. These entities are not considered component units and have not met the established criteria for inclusion in this report. However, any amounts appropriated for disbursement to these entities as well as any amounts for which the County has contractual liability have been included in the County's financial statements. The Fulton-DeKalb Hospital Authority and the Atlanta Regional Commission are considered joint ventures and summary financial information is provided in the notes to the financial statements.

Annual budgets are adopted by the Board of Commissioners each year for the General, Special Revenue, Enterprise, and Debt Service Funds. The legal level of control at which expenditures may not exceed appropriation is at the department level within each fund. Revenue and appropriation adjustments may be made when the Board of Commissioners approves property tax millage rates. Supplemental allocations can also be made by the Board of Commissioners from the County's General Fund contingency account to fund unforeseen expenditures within the County's Governmental Funds' departments. Individual departments are charged with operating within the scope of their allocated budget and intra-departmental transfers must be submitted for approval by the Finance Department and/or the Chief Executive Officer.

#### **Factors Affecting Financial Condition**

Municipal incorporations and annexations continue to negatively affect, albeit to a lesser degree than in prior years, the financial condition of the County, offset in large part as property values start to return to pre-recession levels. Each newly incorporated city and the County negotiate a unique service delivery agreement documented in an intergovernmental agreement approved by both the County and the City. The City of Stonecrest was approved by the voters in 2016 and began operations in 2017, including Code enforcement and planning services transferred from the County. When examining the impact of incorporations and annexations, the primary services affected are Police, Roads & Drainage, Transportation, and Parks. Each time an area is incorporated or annexed, the revenues and expenditures related to services taken over by the city are no longer reflected in the County's operations. The costs of services transferred to the cities exclude certain legacy costs, such as future pension and OPEB expenses, which generally results in a net loss for the County.

Overall, the primary indicator of the financial health of the County, the assessed values of property, increased during fiscal year 2017. The fiscal year 2017 countywide gross digest now stands at \$28.3 billion. It has surpassed its all-time high for fiscal year 2008 at \$27.9 billion. This figure includes the entire County and countywide revenues are not affected by incorporation and annexations. However, the unincorporated gross digest now stands at \$10.1 billion. Through the annual budget process, the County continues to adapt service delivery levels to match the new digest model. It is a positive sign that DeKalb County is recovering from the financial impacts of the Great Recession. DeKalb continues to focus on improving the financial condition as well as building an adequate level of reserves.

#### **Long-Term Financial Planning**

The County has made great strides in long-term financial planning necessitated by the recent recession. DeKalb is focusing on the stability of all funds individually through the creation of three-year forecasts for each major tax fund in conjunction with the development of the funds' budgets and respective millage rates. Similar forecasts are developed for other significant funds as well. In addition, each annual budget includes a five-year Capital Improvement Plan funded by HOST and Tax Funds. Additionally, in 2018, the County will begin receiving a voter-approved one-cent special purpose local option sales tax (SPLOST) which is required to be used for the capital projects approved in the same referendum.

#### **Cash Management Policies and Practices**

The County maintains a pooled cash and investments account for most County funds with the Georgia Fund One which is a local government investment pool (LGIP). The County seeks to obtain market rates of return on its investments, consistent with constraints imposed by its safety objectives, cash flow considerations, and Georgia State laws. Safety of principal is the foremost objective. The County issued tax anticipation notes (TANS) in 2017 in the amount of \$70 million which were repaid by the end of 2017 in accordance with State law. In 2018, the County currently plans to issue TANS in an amount not exceeding \$45 million. This short-term borrowing is used in the General Fund and other operating funds to better manage cash balances and inter-fund transfers.

#### **Risk Management and Employee Services**

DeKalb County has a Risk Management and Employee Services Division within its Finance Department. The focus of this office is to minimize loss to the County through data analysis and loss prevention programs and to administer the County's property, liability, surety and employee group insurance programs, including workers' compensation; as well as pension administration and payroll processing. The County continues to experience a reduction in the number of workers' compensation claims in 2017. Total claims decreased from 606 in 2016 to 589 in 2017.

#### **Pension and Other Postemployment Benefits**

The County sponsors a single-employer three-tiered defined benefit pension plan for all County employees. Each year, an independent actuary engaged by the Pension Board calculates the amount of the annual contribution that the County must make to the pension plan to ensure that the Plan will be able to fully meet its obligations to retired employees on a timely basis. As of December 31, 2017, the County's pension plan had funded 62.10% of the total pension liability of the plan. The County continues to evaluate contributions made to the Plan to ensure the long-term financial stability and ability to meet obligations as they become due.

# 2017

## **DeKalb County Comprehensive Annual Financial Report**

The County currently offers postemployment health and life insurance benefits for all retirees. These benefits are financed on a pay-as-you-go basis. GASB Statement No. 45 establishes standards for the measurement, recognition and display of OPEB expense/expenditures and related liabilities (assets). GASB Statement No. 45 requires the financial reports of governments to provide a systematic, accrual-basis measurement of the annual OPEB cost. The net OPEB obligation in 2017 totaled approximately \$850 million, an increase of \$22 million or 3% over 2016.

#### **Awards**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to DeKalb County for its comprehensive annual financial report for the fiscal year ended December 31, 2016. This was the 42nd consecutive year that the government has received this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

#### **Acknowledgments**

The preparation of this report has been accomplished through the efficient and dedicated efforts of the entire staff of the Finance Department, particularly the Accounting Services Division, and through the cooperation of the various county departments and elected officials. I wish to express my sincere appreciation to everyone who contributed to the preparation of this report.

Respectfully submitted,

/Zachary L/Williams

INDEPENDENT AUDITORS' REPORT

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

**BASIC FINANCIAL STATEMENTS** 

#### INDEPENDENT AUDITORS' REPORT

The Chief Executive Officer and Members of the Board of Commissioners of DeKalb County,

Decatur, Georgia

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of **DeKalb County**, **Georgia** (the "County"), as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the DeKalb County Board of Health, which represents 77%, 45%, and 66%, respectively, of the assets and deferred outflows of resources, net position deficit, and revenues of the aggregate discretely presented component units. We also did not audit the financial statements of the DeKalb County General Employees' Pension Trust Fund, which represents 69%, 75%, and 52%, respectively, of the assets and deferred outflows of resources, fund equity, and revenues/additions of the aggregate remaining fund information. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for the DeKalb County Board of Health and the DeKalb County General Employees' Pension Trust Fund, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of DeKalb County, Georgia, as of December 31, 2017, and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparisons for the General Fund, the Special Tax District – Designated Services Fund, the Special Tax District – Unincorporated Fund, the Special Tax District - Police Services Fund, and the Fire Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis (on pages 15 through 28), the Schedule of Changes in the County's Net Pension Liability and Related Ratios (on page 93), the Schedule of County Contributions (on page 94), the Schedule of Pension Investment Returns (on page 95), the Schedule of Funding Progress — Other Postemployment Benefits (on page 96), and the Schedule of Employer Contributions to Other Postemployment Benefits (on page 96), be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining fund statements and schedules and the introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining fund statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining fund statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 26, 2018 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

Mauldin & Jerlins, LLC

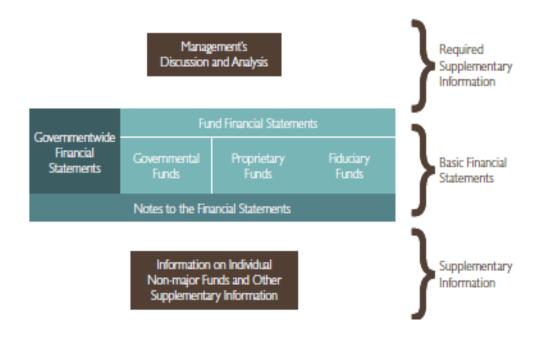

Atlanta, Georgia June 26, 2018

#### **Management's Discussion and Analysis**

As management of DeKalb County ("DeKalb "or the "County"), we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the year ended December 31, 2017. This discussion is intended to: 1) assist the reader in understanding significant financial issues; 2) provide an overview of the County's financial activities; 3) identify changes in the County's financial position; 4) identify material deviations from the original budget; and 5) identify individual fund issues or concerns. We encourage readers to consider the information presented within this section in conjunction with additional information that we have furnished in the financial statements and the notes to the financial statements.

#### **Overview of the Financial Statements**

This document is arranged in the following format:

The County's basic audited financial statements are comprised of three components: 1) government-wide financial statements; 2) fund financial statements; and 3) notes to the financial statements. This report also contains required supplementary information.

**Government-wide financial statements:** The government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business reporting. All governmental and business-type activities are combined to arrive at a total for the primary government. There are two government-wide statements, the statement of net position and the statement of activities, which are produced using the accrual basis of accounting. Additional information on the accrual basis of accounting can be found in **Note 1** on page 50 of this report.

The statement of net position presents information on all of the County's assets and deferred outflows of resources, and liabilities and deferred inflows of resources (for all fund types except fiduciary), with the difference between these reported as net position. Increases or decreases in net position serve as a useful indicator of whether the financial position of the County is improving or deteriorating. This statement combines the governmental funds' current financial resources (short-term) with capital assets, deferred outflows of resources and long-term liabilities and deferred inflows of resources.

The statement of activities presents information showing how the County's net position changed during the most recent fiscal year. The format of this statement is very different from a traditional "income statement". The format is intended to portray the extent to which governmental activities are funded by taxes and the extent to which business-type activities are supported by the revenues they generate. The statement presents all underlying events giving rise to the changes in net position, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Each of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, public safety, civil and criminal court system, planning and development, public works, human services and community development, parks and recreation, library, and health and welfare activities. The business-type activities of the County include water, sewer, sanitation, DeKalb Peachtree Airport, and stormwater.

The government-wide financial statements include DeKalb County itself (known as the primary government), but also a legally separate Board of Health and the Public Library Board for which the County is financially accountable. Financial information for these component units is reported separately from the financial information presented for the primary government itself.

The government-wide financial statements can be found on pages 29-30 of this report. The component unit combining statements are on pages 45-46.

**Fund financial statements:** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. DeKalb County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of DeKalb County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

## DeKalb County Comprehensive Annual Financial Report

**Governmental funds:** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is more limited than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financing decisions. The governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances (deficits) provide a reconciliation to facilitate this comparison between governmental funds and governmental activities (in the government-wide financial statements).

The County maintains 36 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances (deficit) for the general fund, the special tax district designated services fund, the special tax district unincorporated fund, special tax district police services fund, the 2006 transportation, parks and libraries bonds fund and the fire fund all of which are considered to be major funds. Data from the other (non-major) governmental funds are combined into a single, aggregated column.

Governmental funds are reported on the modified accrual basis of accounting. Information on the modified accrual basis of accounting can be found in **Note 1** on page 50 of this report.

The basic governmental fund financial statements can be found on pages 31-38.

**Proprietary funds:** DeKalb County maintains two different types of proprietary funds. Enterprise funds are used to account for quasi-business functions where revenues typically come from charges or fees (gallons of water used, airport rental, etc.) rather than taxes. The County uses enterprise funds to account for its watershed system, sanitation, DeKalb Peachtree Airport, and stormwater activities. Internal service funds are an accounting device used to accumulate and allocate costs internally among the County's various functions based on usage. The County uses internal service funds to account for its vehicle maintenance, vehicle replacement, and risk management activities. Because the Risk Management Fund predominantly benefits governmental activities in the government-wide financial statements. Because the Vehicle Maintenance Fund and Vehicle Replacement Fund predominantly benefit business-type functions rather than governmental, they have been included within business-type activities in the government-wide financial statements; however, the capital lease payable and the related cash proceeds reported in the Vehicle Replacement Fund are allocated to both governmental activities (72%) and business-type activities (28%).

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Watershed System and Sanitation, which are considered to be major funds of the County. Data from the other (non-major) enterprise funds, DeKalb Peachtree Airport and Stormwater, are combined into a single, aggregated column. Internal service funds are also presented in a single column.

The basic proprietary fund financial statements, which are reported on the accrual basis of accounting, can be found on pages 39-42 of this report.

## DeKalb County Comprehensive Annual Financial Report

**Fiduciary funds:** Fiduciary funds are used to account for resources held for the benefit of parties outside the County. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not owned by or available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds, and their financial statements are reported on the accrual basis of accounting as well. DeKalb County maintains eleven (11) fiduciary funds, called agency funds, for Tax Commissioner, Sheriff, Clerk of Superior Court, State Court, Juvenile Court, State Traffic Court, Probate Court, Magistrate Court, State Court Probation, Seized Property, and Magistrate Court Ordinance Division. The agency funds are presented in total, in one column in the Statement of Fiduciary Net Position on page 43. The County also maintains a fiduciary fund for General Employee's Pension. The basic fiduciary fund financial statements can be found on pages 43-44 of this report.

**Notes to the financial statements:** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 47-92 of this report.

#### **Financial Highlights**

- DeKalb County's assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources at December 31, 2017 by approximately \$1.15 billion (net position). The unrestricted net position is a deficit of \$1.1 billion. The net position increased by approximately \$6.6 million.
- As of December 31, 2017, the County's governmental funds reported combined ending fund balances of approximately \$197.7 million an increase of approximately \$20 million when compared to the prior year fund balance.
- At December 31, 2017, the County's General Fund reported a fund balance of \$49 million. This is an increase of approximately \$7.7 million when compared to the prior year fund balance.
- DeKalb County's General Obligation Bonds decreased by \$9,935,000 during the current fiscal year. This decrease is primarily due to principal payments on the General Obligation Bonds.
- In 2017, Watershed operating revenue decreased approximately \$13 million over the prior year. Operating expenses increased approximately \$22.8 million over 2016.

#### Government-wide Financial Analysis

As previously noted, over time net position serves as a useful indicator of a government's financial position. In the case of DeKalb County, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$1,151,729,000 at the close of the most recent fiscal year. This represents an increase of \$6,634,000 or 1% from fiscal year 2016.

By far the largest portion of the County's net position at December 31, 2017, reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment), less any retained outstanding debt used to acquire those assets. The County uses these capital assets to provide services to residents: consequently, these assets are not available for future spending. Although the County's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves are not planned to be used to liquidate these liabilities

An additional portion of the County's net position represents resources that are subject to external restrictions on how they may be used.

#### DeKalb County's Net Position December 31, 2017 and 2016 (in thousands of dollars)

Governmental activities: Governmental activities decreased the County's net position by \$38,827,000.

- Revenue increased by approximately \$41.9 million, primarily due to an increase in property taxes of \$33.7 million as a result of an increase in the digest. Sales taxes came in strong with an increase of approximately \$2.4 million over the previous fiscal year, while other taxes decreased by approximately \$8.4 million over the previous fiscal year.
- Public safety expenses accounted for 33% of governmental expenses during 2017 and were used for police, fire and rescue services. The civil and criminal court system accounted for an additional 28% of the total expenses during 2017 for governmental activities. Public safety increased by approximately \$6.1 million. The expenses for courts increased roughly \$87,000 during 2017.
- General government expenses, which represented 12% of the total expenses for governmental
  activities, included the general administration of the County such as management of finances,
  information systems, human resources, and facilities management, as well as the executive and
  legislative functions of County government. The expenses for general government increased by
  approximately \$13.6 million.
- Public works, which includes the management of roads and transportation networks of the County, accounted for 8% of the total expenses of the governmental activities.
- The remaining governmental expenses for 2017 include parks and recreation (approximately \$25 million), health and welfare (approximately \$37.7 million), planning and development (approximately \$20 million), and library (approximately \$22.3 million).

Total revenue for governmental activities for 2017 is \$626 million.

As depicted in the chart above, the majority of governmental activities are funded through property taxes. The revenue source accounts for approximately \$330 million or 53% of the total. Charges for services accounts for approximately \$102 million or 16% of the total, as well as sales tax at \$94 million or 15%.

Revenues by Sources – Business-Type Activities (FY2017)

Total revenue for business-type activities for 2017 is approximately \$351 million.

As depicted in the chart above, the majority of business-type activities are funded through charges for services. The revenue source accounts for approximately \$327 million or 93% of the total.

**Business-type activities:** Business-type activities increased the County's net position by \$45,461,000.

- The Watershed system contributed to approximately \$42 million of the \$45 million total change in net position which represents 93%.
- Watershed operating revenue for the year totaled approximately \$239 million compared with operating expenses of approximately \$189 million resulting in an operating income for the year of approximately \$50 million. Watershed continues to focus on the planned capital improvement program.
- DeKalb Peachtree Airport contributed approximately \$8.7 million to the increase in net position. Total operating revenues in excess of operating expenses and capital contributions of approximately \$1.5 million accounted for the increase in net position.
- Sanitation had an increase in net position of approximately \$1.5 million due to operating revenues
  exceeding operating expenses by approximately \$1.5 million compared to an operating loss of
  approximately \$16 million in the previous fiscal year which was due to costs associated with the
  program before the once a week service was implemented. In fiscal year 2017, the expenses
  decreased as expected as a result of attrition.

#### Financial Analysis of the Government's Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds:** The focus on the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of fiscal year 2017, the County's governmental funds reported combined ending fund balance of \$197,684,000, an increase of \$20,097,000 in comparison with prior year. Taxes which represents approximately 80% of revenues for the governmental funds, totaled \$499,682,000. This represents an increase of \$43,499,000 or approximately 10% more than the prior fiscal year. This represented an increase in the County digest due to an increase in assessed values. It is a positive sign that DeKalb County is recovering from the financial impacts of the Great Recession. DeKalb continues to focus on improving the financial condition as well as building back an adequate level of reserves. The following paragraphs discuss highlights of the governmental funds.

The General Fund is the primary tax and operating fund for all County revenues and expenditures that are not restricted to, or accounted for, in other funds. Total revenues for the General Fund increased from \$265,017,000 to \$284,186,000. This represents a \$19,169,000 increase from the prior fiscal year. The majority of the increase in revenues is related to property taxes as a result of an increase in assessed property values. Total expenditures for the General Fund increased by approximately \$8,712,000.

The Special Tax District Fund- Designated Services fund accounts for revenues and expenditures attributable to functions such as public works, parks, recreation, roads, and drainage. The fund ended the year with a fund balance of \$2,414,000.

The Special Tax District Fund- Unincorporated fund accounts for revenues and expenditures attributable to functions in the unincorporated areas of the County. The fund ended the fiscal year with a fund balance of \$721,000 as compared to \$2,015,000 in the prior year.

The Special Tax District - Police Services Fund accounts for revenues and expenditures attributable to police services in the unincorporated areas of DeKalb County and some incorporated areas. At the end of fiscal year 2017, fund balance was \$20,822,000 as compared to \$7,045,000 in the prior year.

The Fire Fund accounts for revenues and expenditures attributable to the operations of the County's fire departments. At the end of fiscal year 2017, fund balance was \$5,842,000 as compared to \$381,000 in the prior year.

The 2006 Transportation, Parks and Libraries Bonds Fund ended the year with a fund balance of \$13,646,000. The County is in the process of spending the remaining funds on capital projects related to parks and recreation, library and transportation improvements.

The Hospital Fund accounts for contractual payments made by the County to the Fulton DeKalb Hospital Authority whose financing is provided by a specific annual property tax levy. The fund ended the year with a fund balance of \$622,000 as compared to a deficit of \$1,083,000 in the prior year.

## **DeKalb County Comprehensive Annual Financial Report**

The Development Fund accounts for operations of the County's development department, whose financing is provided by license and permit fees. License and permit revenue increased from \$7,829,000 to \$8,023,000 due to a slight increase in development in the County.

The Emergency Telephone System Fund accounts for monies collected under Georgia law by the telephone companies on behalf of DeKalb County which are used for providing emergency 911 services to residents of the County. The fund ended the year with a fund balance of \$1,673,000, a decrease of approximately \$4 million over the prior fiscal year. This was related to a slight decrease in revenues due to a decline in fees from wired and wireless customers.as well slightly higher than anticipated expenditures as a result of filling vacant E-911 operator positions.

**Proprietary funds:** The County's proprietary funds provide the same type of information related to business-type activities found in the government-wide financial statements, but in more detail. Total net position for the Watershed System was \$1,029,128,000. The total growth in net position was \$41,953,000. Total Watershed operating revenue decreased by approximately \$13 million or 5% less than the prior year. The decrease is primarily a result of lower water production and usage. Operating expenses increased approximately \$23 million or 14% in 2017 due to an increase in salaries and pension costs.

#### **General Fund Budgetary Highlights**

The original fiscal year 2017 budget was adopted with approximately \$4.2 million use of fund balance. The original budget for property tax revenues was decreased by approximately \$16 million. The final budgeted increase in fund balance was approximately \$8.3 million.

#### General Fund (GAAP Budget Basis) Actual Revenues and Expenditures versus Budget Highlights

Actual revenues in General Fund were approximately \$3.2 million under budget at the end of fiscal year 2017. Taxes were under budget by approximately \$4.6 million.

Actual expenditures in the General Fund were \$13.8 million below budget at the end of fiscal year 2017, primarily due to lower than anticipated departmental expenditures for Department of Information Technology, Sheriff Office and Debt Service as well as departmental efforts to spend conservatively.

#### **Capital Assets**

**Capital assets:** The County's investment in capital assets for its governmental and business-type activities as of December 31, 2017 amounted to \$3,106,715,000 (net of accumulated depreciation). Investments in capital assets include land, land improvements, buildings, plants, infrastructure, vehicles and portable equipment, other equipment, leaseholds, intangible water capacity rights and construction in progress.

# DeKalb County's Net Capital Assets (in thousands of dollars)

	Governmental Activities			Business-type Activities				Total Primary Government				
		2017	2016			2017		2016		2017		2016

Other equipment		18,366		15,236		15,964		17,088		34,330		32,324
Leasholds		-		-		120,246		124,047		120,246		124,047
Intangible water capacity rights		-		-		49,865		30,936		49,865		30,936
Construction in progress		97,497		205,725		319,760		332,733		417,257		538,458
Total	\$	1,134,799	\$	1,159,910	\$ -	1,971,916	\$	1,842,190	\$	3,106,715	\$	3,002,100

Total capital assets for governmental activities for 2017 totaled approximately \$1,134.8 million which is a decrease of approximately \$25.1 million over 2016. Additions to the governmental capital assets were approximately \$51 million including \$17.1 million in vehicle and equipment purchases and approximately \$33.2 million in addition to construction in progress, offset by retirements of approximately \$41.5 million and depreciation of approximately \$49.5 million. Additions to Construction in progress consist primarily of:

- \$16 million of public works improvements primarily roads and sidewalks.
- \$5.8 million of public safety improvements including \$4.7 million of additions to the animal shelter.
- \$4.9 million for park improvements.
- \$2.8 million for library expansion and renovations.
- \$3.7million for various other projects.

Total capital assets for business-type activities for 2017 totaled approximately \$1,972 million which is an increase of approximately \$129.7 million over 2016. Additions to business-type activities were approximately \$195.1 million which were offset by retirements of approximately \$7.8 million and approximately \$61 million of depreciation. The majority additions approximately \$178.4 million are for construction projects related to water and sewer improvements.

Additional information on the County's capital assets can be found in *Note 5* on pages 62-63 of this report.

#### **Debt Administration**

#### **Long-Term Debt**

At the end of the current fiscal year, the County had total bonded debt outstanding of \$176,345,000 comprised of general obligation debt backed by the full faith and credit of the government. Total revenue bonds outstanding are \$853,390,000. Debt service on these revenue bonds is paid from customer charges. For the revenue bonds, the County would be required to pay the principal and interest on those bonds should operating revenues not be adequate. There has never been an occasion when operating revenues have not been sufficient to cover all such payments.

# DeKalb County's Outstanding Debt (in thousands of dollars)

		Governmental Activities			_	Business-ty	ctivities	Total Primary Government				
	2017 201		2016		2017		2016		2017		2016	
General obligation bonds	\$	176,345	\$	186,280			\$	-	\$	176,345	\$	186,280
Certificates of participation		22,215		25,000				-		22,215		25,000
Revenue bonds Total	\$	67,505 266,065	\$	71,020 282,300	\$	785,885 785,885	\$	810,715 810,715	\$	853,390 1,051,950	\$	881,735 1,093,015

The County's long-term bonds decreased by \$41,065,000 during the current fiscal year primarily due to principal payments that took place in 2017 as well as savings resulting from the refunding.

The County maintains the following credit ratings from the three rating agencies below that review public sector debt.

	Fitch	Moody's Investors Service	Standard and Poor's
General Obligation	AA-/Stable	Aa3/Stable	No rating
Water and Sewer:			
Prior Lien	AA-/Stable	Aa2/Stable	AA-/Stable
Second Lien	AA-/Stable	Aa3/Stable	A+/Stable

Additional information regarding DeKalb County's long-term debt can be found in Note 6 on pages 64-72 of this report.

State statues limit the amount of general obligation debt by a governmental entity may issue to 10 percent of its total assessed taxable property valuation. The County's net outstanding general obligation debt (less reserve for general bond debt) is \$174,800,000 which is significantly below the current debt limitation of \$2,828,778,000.

#### **Economic Factors**

The County has put a renewed focus on economic development and job creation. It is a priority of the current administration to increase the County's visibility in order to attract businesses, support job growth, and enhance the current approach to economic development. Through DeKalb County's partnership with Decide DeKalb, the vision is to propel the economy forward by leveraging our remarkable access and logistics; celebrating our dynamic diversity; and generating investment in DeKalb's undeniable assets; and promote a prosperous and passionate business community. During 2017, DeKalb County accomplished the following initiatives:

- Attracted and retained 4,800 new jobs for the County.
- Increased investments by \$440 Million.
- Launched the DeKalb Film, Music and Digital Entertainment Commission.
- Implemented the DeKalb Thrives Strategic Plan recommendations that will propel DeKalb forward as a national leader.

#### **Next Year's Budgets**

The 2018 budget was adopted by the Board of Commissioners on February 27, 2018. The total budget is approximately \$1.2 billion. Some of the highlights of the adopted budget include the following:

- Projected to end deficit spending and create a \$75 million rainy day fund.
- Fully implements supporting competitive salaries and benefits with a 3 percent increase in pay for all county employees whose salaries have not been adjusted since 2016.
- Establishing a minimum wage of \$14 per hour for all full-time and regular part-time employees.
- Improving Public Safety by increasing the number of sworn police officers on patrol by 155 positions above current staffing levels with expanded recruiting efforts.
- Fully funds \$250,000 for the development of a comprehensive program that will train all county employees to provide stellar customer service for residents using county services.

#### **Requests for Information**

The financial report is designed to provide a general overview of the County's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the Chief Financial Officer, DeKalb County, 1300 Commerce Drive, Decatur, Georgia 30030.

#### DeKalb County, Georgia

#### Reconciliation of the Governmental Funds Balance Sheet

#### to the Statement of Net Position

#### (in thousands of dollars)

December 31, 2017

Total fund balances for governmental funds		\$ 197,684
Total net position reported for governmental activities in the Statement of Net Position differs from total fund balances for governmental funds because:		
Capital assets used in governmental activities are not current financial resources and therefore not reported in the funds. Amount excludes the net book value of \$35,741 for capital assets allocated from the Vehicle Replacement Internal Service Fund which is reflected in		
the net amount of reflected below for the internal service fund activity and other adjustments of \$127.		1,099,185
Internal service funds are used by management to charge the costs of risk management and vehicle replacement to individual funds.		
The assets and liabilities of the Risk Management Fund in the amount of \$16,582 have been allocated to governmental		
activities on the Statement of Net Position. Also, a large portion (72%) of assets and liabilities of the Vehicle Replacement Fund in the		
amount of \$62,255 has been allocated to governmental activities on the Statement of Net Position.		78,837
Some of the County's taxes and other revenue will be collected after year-end, but are not available soon enough to pay for		
the current period's expenditures, and therefore are reported as deferred inflows of resources in the governmental funds.		42,655
Long-term liabilities and certain deferred outflows and inflows of resources applicable to the County's governmental activities are		
not due and payable in the current period and, accordingly, are not reported as fund liabilities in the governmental funds. Interest		
on long-term debt is not accrued in the governmental funds, but it is recognized as an expenditure when due. All liabilities and		
deferred outflows and inflows of resources - both current and long-term are reported in the Statement of Net Position.

#### DeKalb County, Georgia

# Reconciliation of Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities

#### For the Year Ended December 31, 2017 (in thousands of dollars)

Net change in fund balance - Total Governmental Funds		\$	20,097
The change in net position reported for governmental activities in the Statement of Activities differs from net change in fund balance for total governmental funds because:			
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is capitalized and reported as depreciation expense over their estimated useful lives. This is the amount by which capital outlays (\$41,531) and other adjustments (\$3) exceeded depreciation expense (\$34,029). Note that these amounts exclude the allocation of capital outlay (additions) and depreciation from the Vehicle Replacement Internal Service Fund of \$8,805 and \$15,486, respectively.			7,499
The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to decrease net position as noted below:			
Capital contributions from developers Disposal of capital assets	\$ 451 (26,011)	\$	(25,560)
Bond proceeds are reported as financing sources in governmental funds and thus contribute to the change in fund balance. In the Statement of Net Position, however, issuing debt increases long-term liabilities and does not affect the Statement of Activities. Similarly, repayment of principal is an expenditure in the governmental funds, but reduces the related long-term liability in the Statement of Net Position. This adjustment combines the net changes of the following:			
Amortization of premium on bond Issuance of note capital lease Repayments of bonds and certificates of participation notes Payment on capital leases and note payable	\$ 3,971 (5,697) 16,235 1,942		16,451
Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the Statement of Activities, however, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available. In addition, interest on long-term debt is recognized under the modified accrual basis of accounting when it is due, rather than as it accrues. This adjustment combines the net changes of the following:			
Change in net pension liability, deferred outflows and inflows of resources related to pension plan Change in net other postemployment benefits (OPEB) obligations Change in deferred charges on refunding Change in compensated absences Change in claims and judgments payable Change in accrued interest	\$ (43,706) (16,767) (204) (3,669) 662 185		(63,499)
Unavailable revenue in governmental funds is susceptible to full accrual on the Statement of Activities, and therefore is recognized when earned, regardless of availability.			(2,361)
An internal service funds are used by management to charge the costs of risk management and vehicle replacement to individual funds.  The net expense of the Risk Management Fund (\$4,521) and 72% of Vehicle Replacement (\$4,025) are reported within governmental activities.		_	8,546
Change in net position of governmental activities		\$	(38,827)

#### Note I.

#### **Summary of Significant Accounting Policies**

The financial statements have been prepared in conformity with U.S. generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for governmental units. DeKalb County, Georgia's significant accounting policies are described below.

#### A. Reporting entity

DeKalb County, Georgia (the "County") was created by legislative act in 1822, and operates under an elected Chief Executive Officer and County Commission (seven members) form of government. As required by GAAP, the financial statements of the financial reporting entity include those of DeKalb County (the primary government) and its component units. Also, the fiduciary activities of the County's pension plan and various constitutional officers, judges, and other judicial officials are included in the fiduciary funds. These include the Tax Commissioner, Sheriff, Clerk of Superior Court, State Court, State Court Probation, Juvenile Court, Probate Court, and Magistrate Court.

The component units described below are included in the County's financial reporting entity because the County's financial accountability for the entities and the significance of their operational and financial relationships with the County. In conformity with GAAP, the financial statements of the DeKalb County Board of Health and the DeKalb County Public Library Board have been included as discretely presented component units. The component unit's column in the financial statements includes the financial data for the County's two component units, as reflected in their most recent audited financial statements. These component units are reported in a column separate from the County's financial information to emphasize that they are legally separate from the County. The following discretely presented component units are incorporated into the County's financial report:

DeKalb County Board of Health (the "Board of Health") – The governing board of the Board of Health consists of seven members: the Chief Executive Officer of the County, the Superintendent of the DeKalb County Board of Education (both by virtue of their offices), three members appointed by the County Commission, and two members appointed by other jurisdictions. The County, by virtue of its appointments and the presence of the Chief Executive Officer on the governing board, controls a majority of the Board of Health's governing body positions. Although the County does not have the authority to approve or modify the Board of Health's operational and capital budgets, it does have the ability to control the amount of funding it provides to the Board of Health. Such funding is significant to the overall operations of the Board of Health.

DeKalb County Public Library Board (the "Public Library Board") – The governing board of the Public Library Board consists of twelve members: the Chief Executive Officer of the County, the Executive Assistant to the Chief Executive Officer (both by virtue of their offices), eight members appointed by the County Commission, and two members appointed by other jurisdictions. The County, by virtue of its appointments and the presence of the Chief Executive Officer and the Executive Assistant to the Chief Executive Officer on the governing board, controls a majority of Public Library Board governing body positions. Although the County does not have the authority to approve or modify the Public Library Board's operational and capital budgets, it does have the ability to control the amount of funding it provides to the Public Library Board. Such funding is significant to the overall operations of the Public Library Board.

47

Both component units have June 30 fiscal year-ends. Complete financial statements of the individual component units can be obtained directly from their administrative offices. Addresses for these administrative offices are as follows:

DeKalb County Board of Health 445 Winn Way Richardson Health Center Decatur, GA 30030 DeKalb County Public Library Board 3560 Kensington Road Decatur, GA 30032

In 2003, the County established the DeKalb County Building Authority (the "Building Authority") which is governed by a board comprised solely of members appointed by the Chief Executive Officer of the County and the County's Board of Commissioners. The Public Safety and Judicial Facilities Authority was also created in 2003, and is also governed by a board comprised solely of members appointed by the Chief Executive Officer of the County and the County's Board of Commissioners, and was established to construct and equip County court-related facilities. Although both are legally separate from the County's Board of Commissioners, these authorities are reported as if they were part of the primary government, blended component units, because their sole purpose is to finance and construct and equip County public buildings. The Building Authority's funds are included as non-major debt service and capital projects funds. The Public Safety and Judicial Facilities Authority's funds are included as non-major capital projects and debt service funds. No separate financial statements are available. In 2010, the County established the Urban Redevelopment Agency which is governed by a board comprised solely of members appointed by the Chief Executive Officer of the County and the County's Board of Commissioners and they can impose their will on the Urban Redevelopment Agency by removal of its board members at any time. The agency was established to finance the County's construction of certain types of projects within designated recovery zones. As such, the Urban Redevelopment Agency is a blended component unit of the County and is included as non-major capital projects funds and debt service funds.

The County is also responsible for appointing the members of the DeKalb County Housing Authority and the DeKalb County Development Authority (Decide DeKalb). The County's accountability does not extend beyond making these appointments.

The Fulton-DeKalb Hospital Authority is considered a joint venture with Fulton County, Georgia. The Atlanta Regional Commission is considered a joint venture with other governments of metropolitan Atlanta.

#### B. Basis of presentation

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) display information about the primary government and its component units. These statements include the financial activities of the overall government, except for fiduciary activities. Internal activities have been eliminated. These statements distinguish between the governmental and business-type activities of the County. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The Statement of Activities presents a comparison between direct expenses and program revenues for the various business-type activities of the County and for each function of the governmental activities. Direct expenses are those that are specifically associated with and clearly identifiable to a particular program or function. Administrative overhead charges are included in direct expenses for the business-type activities. Program revenues include 1) fees, fines, and charges paid by the recipients of goods or services offered by the programs and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

The fund financial statements provide information about the County's funds. Separate statements for each fund category – governmental, proprietary, and fiduciary – are presented. The emphasis of fund financial statements is on major governmental and proprietary funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the funds principal ongoing operations. The principal operating revenues of the County's proprietary funds are charges to customers for sales and services. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting these definitions are reported as nonoperating revenues and expenses.

Fiduciary funds are used to account for assets held by the County in a trustee capacity or as an agent for individuals, other governmental units, and/or other funds.

The County reports the following major governmental funds:

The General Fund is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Special Tax District – Designated Services Fund accounts for operations of the County's roads and drainage, and recreation departments. Financing is provided by a specific annual property tax levy and transfers from the special tax district unincorporated fund. Such property taxes are used only to provide roads and drainage and recreation services for all residents of the County not provided with these services by other municipalities.

The Special Tax District – Unincorporated Fund accounts for operations of various County activities which collect revenues that are restricted for use in the unincorporated areas of the County.

The Special Tax District – Police Services Fund accounts for operations of the County's police department whose financing is provided by a specific annual property tax levy. Such property taxes are used to provide police protection for all residents of the County not protected by other municipal police departments.

The 2006 Transportation, Parks, and Libraries Bonds Fund accounts for the proceeds from the 2006 general obligation bond issue and the related capital expenditures.

The Fire Fund accounts for operations of the County's fire department whose financing is provided by a specific annual property tax levy. Such property taxes are used to provide fire protection for all residents of the County not protected by municipal fire departments.

The County reports the following major proprietary funds:

The Watershed System Fund accounts for the provision of water and sewer services to the residents of the County. All activities necessary to provide such services are accounted for in this fund.

The Sanitation Fund accounts for the provision of sanitation services to residents of the County. All activities necessary to provide such services are accounted for in this fund.

The County reports the following fiduciary funds:

The General Employees' Pension Fund accounts for accumulated resources for pension benefit payments to qualified County employees and retirees.

The Agency Funds account for the assets held by the County in a trustee capacity as an agent for individuals or other governmental units.

The County reports the following other fund types:

Internal Service Funds account for vehicle maintenance, vehicle replacement, and risk management-related activities provided to other departments of the County on a cost reimbursement basis.

#### C. Measurement Focus, Basis of Accounting

The government-wide, proprietary and fiduciary financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Agency funds have no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds.

Property taxes, sales taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period if availability criteria have been met. All other revenue items are considered to be measurable and available only when cash is received by the government.

In accounting and reporting for its proprietary operations, the County applies all GASB pronouncements.

#### D. Budgetary Data

An operating budget is legally adopted each fiscal year for all governmental funds except capital projects funds. The level of control (the level at which expenditures may not legally exceed appropriations) for each legally adopted annual operating budget is the department level. Supplemental appropriations may be made annually at mid-year by the Board of Commissioners. Presented final budgetary information reflects all supplemental

appropriations as legally adopted by the Board of Commissioners. The Board of Commissioners must approve any department-level changes to a previously adopted budget. Management may amend the budget without seeking the approval of the Board at any level below the department level.

In accordance with Georgia law, the County has project length balanced budgets for all capital projects funds.

The annual budget cycle begins in August of the preceding year, when budget workbooks are distributed to each department. The County Code requires that the Chief Executive Officer of the County submit a proposed budget to the Board of Commissioners by December 15 or January 15 following an election year. The Chief Executive Officer and Board of Commissioners advertise and conduct public hearings on the proposed budget, in adherence to local ordinance and State law, and adopt a final budget prior to March 1.

The tax millage is set and tax bills are issued around July 1. A revised budget, based on fund balance carryovers and current revenue and expenditure trends, may be adopted prior to this date. Unencumbered appropriations lapse at year-end.

#### E. Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of funds are recorded in order to reserve that portion of the appropriation, are employed in the governmental and proprietary funds. Encumbrances automatically lapse at year-end and therefore, there were no outstanding encumbrances as of December 31, 2017.

#### F. Property Taxes

Property tax billing and collection cycle dates are as follows: lien date – January 1 of each year; levy date – Second Tuesday in July; due dates – October 2 and November 15; and collection dates – anytime during the year.

#### G. Cash, Cash Equivalents, and Investments

Cash management pools which are used essentially as demand deposit accounts and investments with maturities within 90 days of purchase are considered cash equivalents for purposes of the statement of cash flows. Investments are reported at fair value. The local government investment pool, "Georgia Fund 1, "created by OCGA 36-83-8, is a stable asset value investment pool, which follows Standard and Poor's criteria for AAAf rated money market funds and is regulated by the Georgia Office of the State Treasurer. The pool is not registered with the SEC as an investment company. The pool's primary objectives are safety of capital, investment income, liquidity and diversification while maintaining principal (\$1 per share value). The asset value is calculated weekly to ensure stability. The pool distributes earnings (net of management fees) on a monthly basis and determines participants' shares sold and redeemed based on \$1 per share. The pool also adjusts the value of its investments to fair value as of year-end and the County's investment in the Georgia Fund 1 is reported at fair value. The County considers amounts held in Georgia Fund 1 as cash equivalents for financial statement presentation.

#### H. Inventories and Prepaid Items

Inventories are determined by actual physical count and are stated at cost (using average cost flow assumptions) for the governmental activities and at the lower of average cost or market for the business-type activities. Inventories are recorded as expenditures when consumed rather than when purchased. Payments made to vendors for services that will benefit periods beyond the balance sheet date are recorded as prepaid items. The cost of the related payment is recorded as expenditure over the time the related services are provided (consumption method).

#### I. Restricted Assets

Proceeds from the sale of watershed revenue bonds plus interest earned on the investment of these funds are restricted to the construction of new capital facilities and other improvements to the water and sewerage system. All monies in excess of those required maintaining the working capital of the water and sewerage system's operations are transferred to a separate account and restricted to the construction of new capital facilities and other expenses as allowed by the water and sewerage system's bond resolutions. Sinking fund monies are restricted to the payment of bond principal and interest requirements as they become due, as well as maintenance of required reserves. Liabilities payable from these restricted assets are reported separately to indicate that the source of payment is the restricted assets.

#### J. Capital Assets

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at their acquisition value at the date of donation. General infrastructure assets consist of the road network assets that were acquired or that received substantial improvements subsequent to January 1, 1980 and are reported at estimated historical cost. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' useful lives are not capitalized. The County capitalized \$15,651,455 of the interest incurred in business-type activities for the year. Capital assets are depreciated using the straight-line method over the following useful lives and with the following capitalization thresholds.

	Estimated Useful	Capitalization
Asset Class	Lives (in years)	<u>Threshold</u>
Buildings	20-50	Above \$5,000
Intangible Water Capacity Rights	50	Above \$5,000
Land Improvements	15-50	Above \$5,000
Infrastructure	10-5	Above \$5,000
Vehicles	1-10	Above \$5,000
Equipment	5	Above \$5,000

#### K. Claims, Judgments, and Compensated Absences

Liabilities for claims and judgments against the County, including estimated liabilities for claims incurred but not reported at year-end, have been accrued. Liabilities for compensated absences have been accrued in the government-wide and proprietary fund financial statements and are all considered long-term obligations of the County. A liability for these amounts is reported in the governmental funds if they matured and are expected to be paid with expendable available resources.

Employees earn annual leave at the rate of 15 days per year for the first 5 years of employment up to a maximum of 27 days per year after 20 years of employment. There is no requirement that annual leave be taken, but the maximum permissible accumulation at year-end is 45 days. Any accumulation of annual leave greater than 45 days is converted to sick leave at year-end. At termination, employees are paid for any accumulated annual leave up the 45 day maximum. Employees earn sick leave at the rate of 13 days per year with no limitations. A liability for these amounts is reported in governmental funds only if they have matured as a result of employee resignations and retirements.

#### L. Landfill Closure and Postclosure Care Costs

State and Federal laws and regulations require the County to place a final cover on its Seminole Road landfill when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for 30 years after closure. Although closure and postclosure costs will be paid only near or after the date that the landfill stops accepting waste, the County reports a portion of these closure and postclosure care costs as an operating expense during each period on landfill capacity used as of each financial reporting date. The \$18,807,909 reported as landfill closure and postclosure cost liability at year-end represents the cumulative amount reported to date based on the use of 83.6% of the estimated capacity of the landfill. The County will recognize the remaining estimated cost of closure and postclosure care of \$3,677,581, as the remaining estimated capacity is filled based on estimated cost to perform all closure and postclosure activities required. Actual cost may differ from the amount estimated due to inflation, changes in technology, or changes in regulations. Closure and postclosure care financial assurance requirements will be met by adjusting the sanitation rate structures in the enterprise fund as required. The fill capacity of the current waste disposal area will be filled in 2019. The County will build a new waste disposal area which will be ready for disposal in 2019.

#### M. Fund Balance Classifications

In February 2009, GASB issued GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund-type Definitions*. The purpose of the statements is to clarify the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied. With this new statement, the County's fund balance is classified into five hierarchies based on the extent to which a government is bound to observe constraints imposed on the use of resources reported in governmental funds. GASB 54 was adopted and implemented by the County in fiscal year 2011.

Under this statement, the five classifications are: Nonspendable, Restricted, Committed, Assigned and Unassigned. Nonspendable fund balances are amounts that are not in a spendable form, such as inventories, long-term advances to other funds and prepaid items, contractually required to remain intact, or will not be converted to cash in the next operating cycle. Restricted fund balances are amounts on which constraints have been placed by an external party, such as a grantor, creditor, or regulations legally enforceable by external parties or imposed by law through constitutional provisions or enabling legislation. Committed fund balances are amounts on which constraints are placed by a formal action, a resolution in the case of the County, from the County's highest level of decision-making authority, the Board of Commissioners. The formal action for commitments must occur before the end of the fiscal year. Committed amounts may only be changed or rescinded through the same formal action, resolution by the Board of Commissioners. Assigned fund balance are amounts reported in all funds including, general, special revenue, capital projects, debt service, or those not otherwise classified. These amounts are constrained by the County's intent to use for a specific purpose, but restrictions are not externally enforceable. The Chief Executive Officer and the Chief Financial Officer collectively are authorized by the Board to assign fund balances for specific purposes in accordance with the intent and actions of the Board of Commissioners. Under GASB Statement 54, any positive residual fund balance in a special revenue, debt service, or capital projects fund is assigned fund balance by the nature of the fund established by the County to account for these resources. Unassigned fund balances are amounts reported only in the General Fund, the residual fund balances not fund balance not otherwise classified, or the excess of Nonspendable, Restricted, or Committed. Other governmental funds with a deficit fund balance report negative unassigned fund balance. When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted resources as they are needed. For unrestricted amounts of fund balance, it is the County's policy to use fund balance in the following order: committed, assigned, then unassigned.

	General Fund	_	Special Revenue Funds	Debt Service Funds	Capital Projects Funds	Go	overnmental Funds
Fund Balances (in thousands of dollars)							
Nonspendable (in form):							
Prepaid and inventory items	\$ 1,527	\$	-	\$ -	\$ -	\$	1,527
Restricted for:							
Other Special Revenue	-		42,458	-	_		42,458
Debt Service	-		_	1,791	_		1,791
Capital Projects	-		-	-	42,106		42,106
Committed to:							
Other Special Revenue	-		14,144	-	-		14,144
Capital Projects	-		-	-	48,094		48,094
Unassigned:							
Other	47,564		-	-	_		47,564
	\$ 49,091	\$	56,602	\$ 1,791	\$ 90,200	\$	197,684

#### N. Management Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, and deferred inflows of resources and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from estimates. Significant items subject to such estimates and assumptions include: useful lives of capital assets, allowances, pension and OPEB obligations, legal liabilities, and landfill closure and postclosure cost estimates.

#### O. Net Position

The County's Net Position represents the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources in reporting which utilizes the economic measurements focus. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding of any borrowing used (i.e., the amount that the County has spent) for the acquisition, construction or improvement of those assets. Net position is reported as restricted using the same definition as used for restricted fund balance. All other net position is reported as unrestricted.

The County applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

#### P. Deferred Outflows/Inflows of resources

In addition to assets, the County presents the deferred outflows of resources as a representation of the portion of the net position or fund balance. The County reported deferred outflows of resources for a deferred loss on debt refunding. The deferred loss on refunding represents the difference between the cost of defeasing debt, as paid by new debt, and the carrying value of refunded debt and is deferred and amortized over the shorter life of the refunded or refunding debt. The County also reports deferred outflows of resources related to the pension plan as more fully explained in Note 9.

In addition to liabilities, the County presents the deferred inflows of resources as a representation of the portion of the net position or fund balance. The County has only one (1) type of deferred inflow of resource, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category for the County's governmental funds. These unavailable revenues are from taxes and other revenues as these amounts are deferred and will be recognized as inflows of resources in the period that the amounts become available. The County also reports deferred inflows of resources related to the pension plan as more fully explained in Note 9.

#### Note 2

#### **Joint Ventures**

DeKalb County is party to a contract with Fulton County, Georgia and the Fulton-DeKalb Hospital Authority (the "Hospital Authority") for the operation of Grady Memorial Hospital (the "Hospital"). The Hospital provides health services to indigent citizens of both counties. Three (3) members of the Hospital Authority's Board of Trustees are appointed by the DeKalb County Board of Commissioners with another seven (7) members appointed by the Fulton County Board of Commissioners. The entire operations of the Hospital Authority are disclosed as a component unit in the Fulton County, Georgia Comprehensive Annual Financial Report. DeKalb County has a financial interest in the Hospital Authority because operating deficits of the Hospital, up to an annually predetermined amount relating to indigent care, must be funded by Fulton County or DeKalb County under the terms of the contract. The funding formula is based on the ratio of patient levels between the two (2) counties. For the year 2017, DeKalb County funded \$12,934,952 of the Hospital Authority. DeKalb County has limited control over the operating budget of the Hospital, but must approve any debt issuance of the Hospital Authority. The Hospital Authority's debt is secured by a pledge of the operating revenues of the Hospital. Payments to the Hospital Authority are made from the County's other governmental funds. For the year 2017, DeKalb County paid an additional \$7,249,025 towards the Hospital Authority's debt service which is shown as an expenditure on the County's financial statements. Separate financial statements of the Hospital Authority may be obtained from: Fulton-DeKalb Hospital Authority; 80 Butler St. SE; Atlanta, Georgia 30314.

The most recent condensed financial information for the Hospital Authority as of and for year ended December 31, 2017 is as follows (in thousands of dollars):

Total Assets	\$	951,272	Total Operating Revenues	\$ 1,079,844
Total Deferred Outflows of Resources		16,794	Total Operating Expenses	1,099,947
Total Liabilities		462,013	Non-operating Revenue (Expenses)	11,997
Total Net Position		506,053	Fulton County and DeKalb County Contributions	55,421
Current Debt		22,960	Capital Contributions and Other Adjustments	14
Long-Term Debt, including current portion	n	176,184	Increase in Net Position	70,842

The Atlanta Regional Commission (ARC) is the regional planning and intergovernmental coordination agency for the 10-County Atlanta metropolitan area. Under Georgia law, the County, in conjunction with other cities and counties in metropolitan Atlanta, is a member of the Atlanta Regional Commission (ARC) and is required to pay annual dues thereto. During 2017, the County paid \$779,792 in such dues. Membership in the ARC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34, which provides for the organizational structure of the ARC. The ARC Board membership includes the chief elected official of each county and municipality of the area. OCGA 50-8-39.1 provides that the member governments are liable for any obligations of the ARC. Separate ARC financial statements may be obtained from: Atlanta Regional Commission; 40 Courtland St NE; Atlanta, Georgia 30303.

There were, otherwise, no known related-party transactions involving either joint venture during 2017.

#### Note 3

#### **Budget Basis of Accounting**

Revenues and appropriations for the General Fund are budgeted on a basis that is not consistent with GAAP, although all other budgeted funds are budgeted on a GAAP basis. The actual results of operations for the Governmental Funds are presented in this report.

The County has identified one difference between the budget basis and GAAP within the General Fund:

1. Indirect Cost Allocation (Indirect cost allocation is recorded as charges for services, under the budgetary basis, as opposed to reduction in expenditures within the General Fund.)

#### Note 4

## Cash, Cash Equivalents, and Investments

Following are the components of the County's cash and cash equivalents, and investments (including the General Employees' Pension Fund, Agency Funds, and the Component Units) at December 31, 2017 (in thousands of dollars).

Component

# DeKalb County Comprehensive Annual Financial Report

			i cholon	7 190110100		Component
	Unrestricted	Restricted	Restricted	Unrestricted	Total	Units
Cash and Cash Equivalents	\$ 679,857	\$ 174,809	\$ 71,507	\$ 42,183	\$ 968,356	\$ 10,379
Investments		<u> </u>	1,356,090		1,356,090	661
	\$ 679,857	\$ 174,809	\$ 1,427,597	\$ 42,183	\$ 2,324,446	\$ 11,040

Statues authorize the County to invest in obligations of the United States Treasury or agencies, banker's acceptances, bank money market accounts, repurchase agreements, and the Georgia Fund 1 investment pool (a local government investment pool). The General Employees' Pension Fund is also authorized to invest in corporate bonds and debentures which are not in default as to principal and interest; corporate stocks, common or preferred; first loans on real estate where the loans are guaranteed by the Administrator of Veterans Affairs or by the Federal Housing Authority of the United States; certificates of deposit in national banks and state banks insured by the FDIC; and any other investments approved by the Pension Board. The Pension Board establishes and may amend investment policy decisions for the Pension Trust Fund. The Pension Trust Fund also invests in collateralized mortgage obligations (CMOs). These securities are based on cash flows from interest and principal payments on underlying mortgages. CMOs are sensitive to prepayments by mortgages, which may result from a decline in interest rates. The County invests in these securities in part to maximize yields and in part to hedge against a rise in interest rates.

Pension

Agencies

#### Concentration of Credit Risk – Primary Government

The County diversifies its use of investment instruments to avoid incurring unreasonable risks inherent in over-investing in specific instruments, individual financial institutions, or maturities. The County's primary government investment policy limits County investments to the following maximum percentages: U.S. Treasury Obligations 100%, Obligations of the U.S. Government Agencies 100%, Repurchase Agreements 25%, Certificates of Deposit (Commercial Banks) 75%, Certificates of Deposit (S&L Associations) 10%, Local Government Investment Pool (State-Sponsored) 100% and Commercial Bank Money Market Accounts 25%. Maximums may be exceeded temporarily with the prior approval of the County's Chief Financial Officer.

#### Custodial Credit Risks - Deposits

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statues require all deposits and investments (other than federal or state government instruments) to be collateralized by depository insurance, obligations of the U.S. Government, or bonds of public authorities, counties, or municipalities.

To control custodial credit risk, the County's investment policy requires all securities and collateral to be held by an independent third-party custodian in the County's name. The custodian provides the County with monthly values.

#### <u>Interest Rate Risk – Investments</u>

As of December 31, 2017, the County reported \$389,960,319 of State of Georgia GA Fund 1 investments as restricted and unrestricted cash and cash equivalents. The weighted average maturity for GA fund 1 investments was 9 days and the credit rating quality was AAAf as of December 31, 2017.

#### Interest Rate Risk – Investments (Continued)

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. This risk is managed within the portfolio using the duration method. This method is used in the management of fixed income portfolios to quantify the portfolios' sensitivity to interest rate changes.

The County's investment policy also requires that maturities shall be timed such that a minimum of 80% be invested for a period of less than one year and 100% be invested for a period less than two years. The County's pension fund's investment policy, as set by the Pension Board, sets targets of 60% invested in domestic equity, 10% in international equity, and 30% in domestic fixed income.

#### Foreign Currency Risk

At December 31, 2017, \$119,770,748 or 8.4% of Pension Trust assets had exposure of foreign currency risk through investments in foreign companies. These investments had the form of US dollars invested in mutual funds with only international equity holdings.

#### Credit Risk-Investments

As a means of limiting exposure to credit risk, the risk of loss due to the failure of the security issuer or backer, the County limits investments to obligations of the U.S. Government or obligations explicitly guaranteed by the U.S. Government and those deposit-type items which can be collateralized at 110% of the face value. The County's pension funds are not collateralized and are subject to credit and interest rate risk.

The County's Pension Trust Fund (the "Plan") investment policy requires that the fixed income portfolio be of high quality and chosen with respect to maturity ranges, coupon levels, refunding characteristics, and marketability. Fixed income managers are engaged to reduce volatility of the Plan's assets, provide a deflation hedge, and produce a highly predictable and dependable source of income. The quality rating of the overall portfolio must be A or better at all times. As of December 31, 2017, the weighted average quality rating of the fixed income portfolio (i.e., the U.S. Government Securities, Municipal Bonds and Corporate Bonds) was AAA as rated by Standards & Poor's Rating Service.

#### Pension investment rate of return

For the year ended December 31, 2017, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 18.77%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

#### Fair Value Measurements

The County and the Pension Trust Fund categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. The Pension Trust Fund has the following recurring fair value measurements as of December 31, 2017 (dollars in thousands):

Fiduciary Fund (Pension Trust Fund)	Rating	Level 1	Level 2	Level 3	Fair Value	Weighted Average Maturity (Years)

The Government STIF and other cash investments, real estate investment trust, equities – common stock, equities – partnership units – mutual funds, equities – depository receipts classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those investments. The Government STIF and other investments; government issued securities; bonds issued or supported by the federal national mortgage association, federal home loan bank, federal home loan mortgage corporation; various municipal bonds; various corporate bonds; asset-backed notes; and equities – preferred stock classified as Level 2 on the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. The Georgia Fund 1, which the County invests in as discussed previously, is an investment pool which does not meet the criteria of *GASB Statement No. 79* and is thus valued at fair value in accordance with *GASB Statement No. 31*. As a result, the County does not disclose the investment in Georgia Fund 1 within the fair value hierarchy.

#### Governmental activities:

Claims and judgements payable, compensated absences, and capital leases (if any) have typically been liquidated in the general fund and in the internal service (risk management) fund. Net other postemployment benefit obligation and net pension liability for governmental activities have typically been liquidated in the general fund.

The following is a summary of the County's outstanding general obligation bond issues at December 31, 2017 (in thousands of dollars):

Year		Interest	Interest	Issue	Maturity	Αι	uthorized				
Issued	Purpose	Rate (%)	Dates	Date	Date	an	nd Issued	F	Retired	Ou	tstanding
2013	Refunding issue	3.00-5.00	1-1 & 7-1	12/19/13	01/01/20	\$	52,445	\$	19,455	\$	32,990
2016	Refunding issue	3.00-5.00	6-1 & 12-1	04/21/16	12/01/30		143,355				143,355
					Totals:	\$	195,800	\$	19,455	\$	176,345

On April 21, 2016, DeKalb County issued \$143,355,000 at a premium of \$24,926,454, 3.0% to 5.0% general obligation bonds (Series 2016) with varying semi-annual principal and interest payments due (June 1 and December 1) through December 2030. These general obligation bonds were issued for the purpose of refunding \$164,145,000 of the Series 2006 Parks, Libraries, and Transportation General Obligation Bonds. The net present value cash-flow savings resulting from this transaction was determined during fiscal year 2016 to be \$25,077,211. The difference between the cash flows required to service the old debt (refunded debt) and cash flows required to service the new debt (refunding debt) and complete the refunding was determined during fiscal year 2016 to be \$25,808,399. The outstanding balance of the Series 2016 general obligation bonds as of December 31, 2017 is \$143,355,000.

The following is a summary of the County's outstanding general obligation bonds debt service requirements to maturity as of December 31, 2017 (in thousands of dollars):

<u>Year Payable</u>	<u>Principal</u>	<u>Interest</u>			<u>Total</u>
2018	\$ 14,100	\$	7,908	\$	22,008

Totals	\$ 67,505	\$	20,404	\$ 87,909

For financial accounting and reporting purposes, all governmental activities bonds defeased, with a balance of \$246,065,000 at December 31, 2017, are considered retired and, along with the related funds held in trust, are not included in the accompanying financial statements.

# **Notes Payable**

On May 1, 2016, the County's Clerk of Superior Court entered into a software lease purchase agreement with an original principal component of \$2,500,000 for the purposes of purchasing imaging equipment. With this agreement, an escrow account was established in which the cost of acquisition will be paid with amounts transferred from the escrow fund. As of December 31, 2017, the County had \$60,814 of unspent proceeds in the escrow fund account pertaining to this note. Interest and principal payments are made on June 1 and December 1. The note payable matures on December 1, 2020. The outstanding balance of this note payable as of December 31, 2017 is \$1,532 (in thousands).

The following is a summary of the County's governmental activities notes payable debt service requirements to maturity as of December 31, 2017 (in thousands of dollars):

Year Payable	Principal		Int	erest	Total		
2018	\$	496	\$	41	\$	537	
2019		511		27		538

Totals	\$	1,532	\$	80	\$	1,612	

#### **Capital Leases**

During fiscal year 2014, the County entered into an equipment lease/purchase agreement as lessee for the financing of vehicles. The lease agreement qualifies as a capital lease for accounting purposes (titles transfer at the end of the lease term) and, therefore, has been recorded at the present value of the future minimum lease payments as of the date of its inception. The lessor deposited \$28,000,000 with a bank serving as escrow agent (in the County's name) and pursuant to the terms of the escrow agreement, the County will pay each vendor or manufacturer of the equipment its invoice cost and the County is reimbursed from funds held in the escrow account. As of December 31, 2017, the County has purchased \$28,000,000 of vehicles under this agreement and these are capital assets within the Vehicle Replacement Fund. The lease has an original amount of \$28,000,000, matures September 15, 2020 and total interest to be paid of \$1,568,980 and requires payments of interest in various amounts in March and September and principal in September. The County spent 72% of the proceeds on governmental activities and 28% on business-type activities. Accordingly, in the government-wide financial statements, \$13,440,000 or 72% of the remaining lease balance is recorded in governmental activities while \$5,226,666 or 28% is recorded in business-type activities. Annual depreciation of these assets are included in depreciation expense.

On August 4, 2017, the County's Sherriff entered into a software lease purchase agreement as lessee in the amount of \$2,804 (in thousands) for the financing of software systems. The lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of the future minimum lease payments as of the date of its inception. The lease matures on August 15, 2022 and bears an interest rate of 3.147%. Debt service payments of \$305,538 are made semi-annually on February 15 and August 15 beginning on February 15, 2018. As of December 31, 2017, the outstanding balance on the lease is \$2,804 (in thousands) and the cost and accumulated depreciation on the software system acquired under the capital lease is \$1,938 (in thousands) and \$194 (in thousands), respectively. Annual depreciation of this asset is included in depreciation expense.

On October 20, 2015, the County entered into a Hanson Mitigation Software lease purchase agreement as lessee in the amount of \$3,234 (in thousands) for the financing of software systems. The lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of the future minimum lease payments as of the date of its inception. The lease matures on September 1, 2020 and total interest to be paid of \$174 (in thousands) and requires payments of interest and principal of various amounts in March, June, September, and December. As of December 31, 2017, the outstanding balance on the lease is \$1,731 (in thousands) and the cost and accumulated depreciation on the software system acquired under the capital lease is \$3,234 (in thousands) and \$1,617 (in thousands), respectively. Annual depreciation of this asset is included in depreciation expense.

On October 30, 2015, the County entered into a Private Cloud and Software lease purchase agreement as lessee in the amount of \$942 (in thousands) for the financing of software systems. The lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of the future minimum lease payments as of the date of its inception. The lease matures on July 15, 2019 and requires payments of \$188,481 on November 15, 2015 and thereafter on July 15. As of December 31, 2017, the outstanding balance on the lease is \$377 (in thousands) and the cost and accumulated depreciation on the software system acquired under the capital lease is \$942 (in thousands) and \$471 (in thousands), respectively. Annual depreciation of this asset is included in depreciation expense.

The debt service requirements to maturity on the County's capital leases (in thousands) are as follows:

Refunding issue	
Refunding issue	
	New raw water pump station, sewer plant improvement design, lift station improvements Refunding issue Water & Sewer Recovery Zone Economic Development Program Infrastructure Improvements Refunding issue

On December 3, 2015, DeKalb County issued \$70,490,000, 2.0% to 5.0% Water and Sewerage revenue bonds (series 2015) with varying semi-annual principal and interest payments due (April 1 and October 1) through October 2035. These water and sewerage revenue bonds were issued for the purpose of refunding \$75,020,000 of the Series 2006A Water and Sewerage Revenue Bonds. The net present value cash-flow savings resulting from this transaction was determined during fiscal year 2015 to be \$9,244,283. The difference between the cash flows required to service the old debt (refunded debt) and cash flows required to service the new debt (refunding debt) and complete the refunding was determined during fiscal year 2015 to be \$12,364,249. The outstanding balance of the revenue bonds as of December 31, 2017 is \$68,040,000.

For financial accounting and reporting purposes, all water and sewerage revenue bonds defeased (\$194,440,000 at December 31, 2017) are considered retired and, along with the funds held in trust, are not included in the accompanying financial statements.

The various bond indentures contain significant limitations and restrictions on annual debt service requirements, maintenance of and flow of monies through various restricted accounts, minimum amounts to be maintained in various sinking funds, and minimum revenue bond coverage.

The following is a summary of the County's outstanding business-type activities revenue bonds debt service requirements to maturity as of December 31, 2017 (in thousands of dollars):

Year

# Note 8

# **Pollution Remediation Obligations**

Pursuant to the provisions of GASB Statement No. 49, *Accounting and Financial Reporting for Pollution Remediation Obligations*, the County is reporting a \$810,423 liability in its Sanitation Enterprise Fund for its estimated liability due to its standing as a potentially responsible party (PRP) in the Crymes Landfill site. The Crymes Landfill is a privately owned off-site landfill which the Georgia Environmental Protection Division determined required remediation in 1998 pursuant to the Georgia Hazardous Site Response Act (HSRA) HIS Listed 102292. DeKalb County is one of three remaining participants in the Crymes Landfill HSRA action and is responsible for 33.3% of the remediation costs. For several years, the County sent household waste to the Crymes Landfill, extending the life of its own facility. The County has funded and accrued its current share based on prior engineering efforts in the Sanitation Enterprise Capital Fund. Post remediation costs are unlikely.

# **Employee Benefits**

#### A. Defined Benefit Pension Plan Description

The County provides pension benefits for substantially all of its full-time and permanent part-time employees through a single employer defined benefit plan (the "Plan"). The Plan is administered by the DeKalb County Pension Board (the "Board"), composed of seven (7) voting members (the Chief Executive Officer of DeKalb County, two (2) members elected by County employees, two (2) members selected by the DeKalb County Board of Commissioners, one (1) member elected by County retirees, and one (1) member appointed by the other voting members of the Board) and two (2) non-voting members (the County Chief Financial Officer and the County Merit System Director). Separate, stand-alone financial statements of the Plan are prepared and can be obtained from the DeKalb County Department of Finance at 1300 Commerce Drive, Decatur, Georgia 30030.

#### Employees participating prior to September 1, 2005:

The Plan provides retirement benefits of 2.75% of average salary (based on the highest consecutive 36 months of pay over the last 10 years of employment) times years of service with a maximum retirement benefit of 82.5% of average salary. Normal retirement, with at least 10 years of service is age 55 or older. Early retirement (subject to reduction in benefits) is allowed at age 50 with 10 or more years of service. Employees with 30 years of service can retire at any age with no reduction in benefits. An employee can retire at age 65 with three or more years of service.

Termination benefits are as follows: Within the first three years of service, the participant's contributions will be returned without interest. After three but less than ten years of service, the participant may either withdraw contributions plus interest or leave contributions in the Plan and receive a monthly benefit to commence at age 65 equal to the accrued benefit as of the date of termination. After ten years of service, the participant may either withdraw contributions plus interest or leave contributions in the Plan and receive a monthly benefit to commence at their normal retirement date equal to the accrued benefit as of the date of termination. Such terminating employees with ten or more years of service may elect to receive reduced benefits any time after the attainment of 50 years of age.

# Employees beginning participation on or after September 1, 2005:

The Plan provides retirement benefits of 2.25% of average salary (based on the highest consecutive 36 months of pay over the last 10 years of employment) times years of service with a maximum retirement benefit of 67.5% of average salary and normal retirement, with at least 10 years of service, at age 62 or older. Early retirement (subject to reductions in benefits) is allowed at age 55 with 10 or more years of service. Employees age 55 with 25 years of service can retire with no reduction in benefits. An employee can retire at age 65 with seven or more years of service.

Termination benefits are as follows: Within the first three years of service, the participant's contributions will be returned without interest. After three but less than seven years of service, the participant's contributions plus interest shall be returned. After seven years of service, the participant may either withdraw contributions plus interest or leave contributions in the Plan and receive a monthly benefit to commence at their normal retirement date equal to the accrued benefit as of the date of termination. Such terminating employees may elect to receive benefits any time after the attainment of 55 years of age. Retirement benefits are payable monthly for life (ten years guaranteed) with survivor options available subject to reduced monthly benefits. The Plan also provides disability benefits. These benefit provisions and all other requirements are established by State statue and by the DeKalb Pension Act. Any changes to the Plan benefits must be approved by the DeKalb County Board of Commissioners.

#### Actuarially Determined Pension Plan Contribution Requirements and Contributions Made:

The Plan's funding policy provides for the County to contribute the actuarially determined contributions to the Pension Plan each year. The policy was approved and can only be changed, by the Board of Commissioners. The actuary determines the contribution rate in an annual actuarial valuation as of December 31, 2016, and the County contributes on that basis during the fiscal year beginning 21 months after the valuation date. Employees contribute at different levels based on their date of hire: members who began participation prior to September 1, 2005 contribute 10.48% of pay, members whose participation began between September 1, 2005 and December 31, 2015 contribute 8.57% of pay, and members first participating on or after January 1, 2016 contribute 6.42% of pay.

The April 1, 2016 valuation is used to determine the recommended contribution for the fiscal year beginning January 1, 2018. The recommended contribution is the minimum amount required to satisfy the minimum funding standards under Georgia law by virtue of Code section 47-20-10. The minimum required contribution under Georgia law is based on the Plan's normal cost plus the sum of individual bases established for experience gains and losses, plan amendments, assumption changes and method changes.

As of December 31, 2017, employer contributions of 15.0%, or \$42,439,877 were required and actual contributions of \$50,612,509 represent 119.26% of the employer actuarially required contribution.

As of year-end, no investment in any one organization represented 5% or more of Plan assets. Administrative costs of the Plan are financed through investment earnings.

At April 1, 2017, pension plan membership consisted of the following:

Inactive employees or beneficiaries currently receiving benefits	4,687
Inactive employees entitled to but not yet receiving benefits	517
Active employees	5,636
Total	10 840

# **B. Plan Accounting Policies**

Basis of Accounting – the Plan utilizes the accrual basis of accounting.

Investments – All pension plan investments are reported at fair value as discussed in Note 4. No investments represented more than 5% of plan assets at December 31, 2017. Investment income is recognized by the plan when earned.

Contributions – Contributions are recognized when paid or legally due to the pension plan.

Benefit Payments – Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms.

#### C. Net Pension Liability of the County

The components of the net pension liability of the County at December 31, 2016 were as follows:

Total pension liability \$2,299,613,080
Plan fiduciary net position (1,428,073,021)

County's net pension liability <u>\$871,540,059</u>

Plan fiduciary net position as a percentage of the total pension liability

62.10%

The required schedule of changes in the County's net pension liability and related ratios immediately following the notes to the financial statements presents multiyear trend information about whether the value of the Plan assets is increasing or decreasing over time relative to the total pension liability.

Actuarial assumptions: The total pension liability was determined by an actuarial valuation as of April 1, 2017, using the following actuarial assumptions, applied to all periods included in the measurement, with the results rolled forward to the County's measurement date of December 31, 2017.

Inflation 2.75%

Salary increases Inflation plus merit increases that vary by service, ranging from 0.00% to 6.25%

Investment rate of return 6.50%, including inflation, net of investment expenses

Cost-of-living adjustments None

Healthy mortality rates were based on the RP-2000 Combined Healthy Blue Collar Mortality Table, set forward two years, projected generationally from 2013 with Scale AA for males and the RP-2000 Combined Healthy White Collar Mortality Table, set forward one year, projected generationally from 2013 with Scale AA for females. Disabled mortality rates were based on the sex-distinct RP-2000 Disabled Retiree Mortality Table, projected generationally from 2013 with Scale AA.

The actuarial assumptions used in the April 1, 2017 valuation were based on the results of the experience study for the period April 1, 2008 to March 31, 2013.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of December 31, 2017 are summarized in the following table:

Asset Class Domestic equity	<u>Target Allocation</u> 60%	Long-Term Expected Real Rate of Return* 6.71%
International equity	15%	7.71%
Fixed Income	<u>25%</u>	2.11%
Total	<u>100%</u>	

<sup>\*</sup> Real rates of return are net of 2.75% assumed inflation.

Discount rate: The discount rate used to measure the total pension liability is 6.50%. This is a reduction from the discount rate utilized in the prior year of 7.50%. The projection of cash flows used to determine the discount rate assumed that Group 1 participants will contribute 10.48% of pay, Group 2 participants will contribute 8.57% of pay, and Group 3 participants will contribute 6.42% of pay. The County is expected to contribute the actuarially determined contribution. The actuarially determined contribution is equal to the employer normal cost plus a 30-year closed amortization of the unfunded actuarial accrued liability, beginning April 1, 2013 (27 years remaining). Amortization payments are expected to grow by 2.75% annually. Based on these assumptions, the Pension Plan's fiduciary net position is projected to be available to make all projected future benefit payments of current plan members and thus the long-term expected rate of return on Pension Plan investments was applied to all of the projected benefit payments in determining the total pension liability.

Changes in the Net Pension Liability of the County: The changes in the components of the net pension liability of the County for fiscal year end December 31, 2017 were as follows:

	Total P	ension Liability (TPL) (a)	Fiduciary Net Position (FNP) (b)		Net Pension Liability (NPL) (a) - (b)		
Balances at December 31, 2016	\$	2,022,918,372	\$	1,267,586,153	\$	755,332,219	
Changes for the year:							
Service Cost		35,405,164		-		35,405,164	
Interest	Interest 14			-		146,434,261	
Differences between expected							
and actual experience		23,177,231		-		23,177,231	
Changes of assumptions		215,195,717		-		215,195,717	
Contributions-employer		-		50,612,509		(50,612,509)	
Contributions-employee		-		25,074,373		(25,074,373)	
Net investment income		-		228,019,360		(228,019,360)	
Benefit payments, including							
refunds of employee contributions		(143,517,665)		(143,517,665)		-	
Administrative expense		-		(817,527)		817,527	
Other				1,115,818		(1,115,818)	
Net changes		276,694,708		160,486,868		116,207,840	
Balances at December 31, 2017	\$	2,299,613,080	\$	1,428,073,021	\$	871,540,059	

The required schedule of changes in the County's net pension liability and related ratios immediately following the notes to the financial statements presents multiyear trend information about whether the value of plan assets is increasing or decreasing over time relative to the total pension liability.

Sensitivity of the net pension liability to changes in the discount rate. The following presents the net pension liability of the County, calculated using the discount rate of 6.50%, as well as what the County's net pension liability would be if it were calculated using a discount rate that is one percentage-point lower (5.50%) or one percentage-point higher (7.50%) than the current rate:

		Current	
	1% Decrease	Discount Rate	1% Increase
	(5.50%)	(6.50%)	(7.50%)
County net pension liability	\$1,127,125,710	\$871,540,059	\$656,344,342

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective. Calculations are based on the substantive plan in effect on December 31, 2017 and on the pattern of sharing of costs between the County and plan members to that point.

#### D. Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the fiscal year ended December 31, 2017, the County recognized pension expense of \$105,731,752. At December 31, 2017, the County reported deferred outflows of resources and deferred inflows of resources related to pension from the following sources.

	 Deferred Outflows of Resources	Deferred Inflows of Resources		
Differences between expected and actual experience Changes of assumptions Net difference between projected and actual earnings on pension plan investments	\$ 18,541,784 172,156,572	\$ 9,006,613 - 59,811,930		
Total	\$ 190,698,356	\$ 68,818,543		

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal year ending December 31:

2018	\$ 41,800,483
2019	41,801,483
2020	17,699,831
2021	20,578,016
Total	\$ 121,879,813

#### E. Other Postretirement Benefits

Group health benefits are available to all retirees, beneficiaries of, and dependents of retirees, with the County paying up to 70% of the total cost and the retiree paying the remaining amount. Life insurance in the amount of \$7,000 is provided to all retirees without cost to the retiree. These benefits are provided by the DeKalb County Board of Commissioners each year and are not statutory, contractual, or required by other authority.

The DeKalb County Employee and Postretirement Medical & Life Insurance Benefits Plan, administered by the County's Board of Commissioners, is a single-employer defined healthcare plan. The Plan provides medical, dental, vision, and life insurance benefits to active employees, and eligible retirees, and eligible beneficiaries and dependents of retirees. The annual contribution made is based on the projected pay-as-you-go financing requirements. The County does not prepare separate audited GAAP-basis postemployment benefit plan report.

As of April 1, 2017, the date of the most recent actuarial valuation, plan membership was composed of the following:

Total members:	11,545
Current active participants	5,636
Retirees and spouses receiving benefits	5,909

There were no vested inactive employees eligible but not yet receiving benefits.

The County's annual other postemployment benefit (OPEB) cost is calculated based on the Annual Required Contribution of the Employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions.* The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years. Under GASB 45, for financial reporting purposes, an actuarial valuation is required at least biennially for OPEB plans with a total membership (including employees in active service, terminated employees who have accumulated benefits but are not yet receiving them, and retired employees and beneficiaries currently receiving benefits) of 200 or more. The following schedule shows the components of the County's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the County's net OPEB obligation.

The OPEB retirees' contribution average rates for retirees under the age of 65 under the Medical and Prescription Drugs Plan are \$279.48 for retiree only, \$724.04 for retiree and 1 dependent, and \$866.37 for retiree and family. The OPEB retirees' contribution average rates for retirees over the age of 65 under the Medical and Prescription Drugs Plan are \$93.66 for retiree only, \$187.56 for retiree and 1 dependent, and \$281.34 for retiree and family. The OPEB retirees' contribution average rates for retirees under the Dental Plan are \$8.78 for retiree only, \$17.56 for retiree and 1 dependent and \$24.58 for retiree and family.

Schedule of Funding Progress :		
	Va	luation Date
		April 1, 2017
Actuarial accrued liability:		
Retired employees	\$	322,931,919
Active employees		268,937,468
Unfunded actuarial accrued liability (UAAL)	\$	591,869,387
Annual covered payroll	\$	272,830,909
UAAL as a percentage of covered payroll (not less than zero)		216.94%

Schedule of Contributions to Other Postemployment Benefit (OPEB) (in thousands of dollars where applicable):

	 2017	 2016	 2015
Beginning net OPEB obligation	\$ 827,843	\$ 779,505	\$ 726,251
Annual required contribution (ARC)	55,566	79,791	85,507
Interest on net OPEB obligation	33,114	31,180	29,050
Annual required contribution (ARC) adjustment	(46,317)	(43,450)	(38,865)
Annual OPEB cost	 42,363	67,521	75,692
Annual employer contributions made	(19,915)	(19,183)	(22,438)
Net OPEB obligation as of December 31	\$ 850,291	\$ 827,843	\$ 779,505
Percentage of annual employer contributions made to			
annual required contributions	35.8%	24.0%	26.2%
Percentage of annual employer contributions made to			
annual OPEB cost	47.0%	28.4%	29.6%
Net OPEB obligation attributable to:			
Governmental Activities	\$ 640,279	\$ 623,512	\$ 587,405
Business-type Activities	210,012	204,331	192,100
Total	\$ 850,291	\$ 827,843	\$ 779,505

The schedules of funding progress and employer contributions, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of Plan assets are increasing or decreasing over time relative to the actuarial accrued liability for benefits. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future, including assumptions about future employment, mortality, and healthcare costs trends. Amounts determined regarding the liability and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective. Consistent with that perspective, actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. Calculations are based on the substantive plan in effect on April 1, 2017 and on the pattern of sharing of costs between the County and Plan members to that point.

For the April 1, 2017, actuarial valuation, the projected unit credit method was used. This method allocates benefits of each individual by a consistent formula to valuation years. The amortization amount of the unfunded actuarial accrued liability (UAAL) has been computed as a level percentage of payroll using a 30-year amortization period. A closed amortization period has been used which reduces the period by one year annually such that the unfunded liability becomes fully amortized 30 years from the initial valuation. There are 20 years remaining in the amortization period.

The investment return assumption (or discount rate) is selected as the estimated long-term investment return on the investments that are expected to be used to finance the payment of benefits. For funded plans, the considerations in selecting this rate would be similar to selecting the funding interest rate for a pension plan. However, for unfunded plans such as DeKalb County's, the discount rate should be determined with reference to the employer's general assets. In this instance, governmental unrestricted general assets are invested in very short-term fixed instruments. The asset allocation leads to a low discount rate. For the purposes of the 2017 actuarial valuation, a discount rate of 4.00% has been used.

Other actuarial assumptions include medical cost trend rates for those under 65, 7.0% graded to 4.5% over 5 years and for those over 65, 7.5% graded to 4.5% over 6 years. The dental cost trend rate was 4%. Inflation is considered in prior disclosure rates at 2.75%. Employee salary increases are projected at zero other than inflation. Retiree medical contributions are assumed to increase at the same rate as incurred claims. A constant sharing between employer and employee is assumed. All future retirees and 60% of the spouses of married participants are assumed to elect coverage. While not obligated to continue to provide coverage, it is assumed for purposes of this valuation that DeKalb County will maintain a consistent level of cost sharing and benefit provisions.

Actual self-insured pre-Medicare claims experience data through December 2010 was trended to the midpoint of the projection period, adjusted for mandated health care reform changes, aged from the average age of the pre-Medicare retirees and dependents with self-insured medical coverage to age 65 and then blended with the prior year's per capita claims cost.

# F. Deferred Compensation Plan

The County offers its employees an optional deferred compensation plan created in accordance with Internal Revenue Code Section 457. The Plan is available to all County employees and permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. All amounts of compensation deferred under the Plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights, are (until paid or made available to the participant or other beneficiary) solely the property and rights of a Trust created by the County for the benefit of the participants and administered by third parties. The County has adopted the provisions of GASB Statement No. 32, Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans, the County is not required to include 457 Plan assets and liabilities in the financial statements of the County.

# **Risk Management**

The County is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; law enforcement liability; injuries to employees; assumed risks for employee benefits; damage to private parties; and natural disasters. By provision of the State of Georgia Constitution, the County may be immune from liability for most forms of bodily injury and property damage arising out of its operations, if such losses are not insured. It is the policy of the County to utilize immunity as a legal defense against liability claims whenever the risk of loss is not insured and immunity may be asserted.

DeKalb County has a Risk Management Fund to account for and to finance its purchase of insurance and coverage of uninsured risks of loss when immunity cannot be asserted. Under this program, the Risk Management Fund finances two reserves: workers' compensation and incurred but unpaid claims under a self-funded employee medical/indemnity benefit program. The County retains the first \$1,000,000 of expense for each occurrence of workers' compensation injuries, and it retains the first \$200,000 of medical expense claims per year for each covered employee under the comprehensive medical insurance plan. Beyond these limits, the County purchases specific excess insurance to limit further loss. Reserves are established for the medical insurance liabilities based on actuarial projection provided by the plan administrator (Blue Cross and Blue Shield of Georgia). Reserves for workers' compensation are established using an actuarial projection which includes the following: (1) an estimate of future expenses for known claims and known treatment needs, and (2) a statistical projection of incurred but unreported claims, based on recent historical experience of loss development in the County's claims.

The County purchases commercial automobile liability insurance to cover its automobile, trucks, and other on-road vehicles. It also purchases liability coverage for its helicopter fleet and for airport operations. Beyond the limits of the liability policies, the County asserts immunity, and has never been required to pay a claim in excess of those policies. Consequently, no reserve is established for these risk exposures.

Buildings and contents are insured through an "all risk" property damage insurance policy and the County retains the first \$250,000 of each loss, with blanket limits. This retention level is funded by an annual appropriation of \$659,000 which, historically, has been adequate to cover all claims.

Workers' compensation claims are self funded up to a \$1,000,000 retention. Medical and indemnity expenses stemming from work related injuries are primarily paid as they are incurred. Reserves are set for each claim on an undiscounted basis and reduced to zero upon settlement. Healthcare claims are paid through a fully insured HMO and a self funded PPO/HMO & HSA. Healthcare claims for the self-funded plans are paid on a weekly basis. The changes in the liabilities for self-insurance for the last two years are as follows: (in thousands of dollars):

	2017	2016
Workers' compensation:		
Balance forward	\$ 11,008	\$ 10,725
Incurred claims, net of any changes	6,029	7,736
Payments	(6,108)	(7,453)
Ending Balance	10,929	11,008
Health and dental:		
Balance forward	2,684	1,780
Incurred claims, net of any changes	68,940	89,720
Payments	(68,613)	(88,816)
Ending Balance	3,011	2,684
Total liability for self-insurance	\$ 13,940	\$ 13,692

# Note 11 Allowance for Uncollectible Receivables

Allowances for uncollectible receivables at December 31, 2017 are as follows (in thousands of dollars):

	Gross Receivables		0	ollectible ceivables	Net Receivables		
Governmental activities:							
Taxes receivable	\$	57,897	\$	2,211	\$	55,686	
Accounts receivable		18,871		4,831		14,040	
	\$	76,768	\$	7,042	\$	69,726	
Business-type activities:							
Accounts receivable	\$	125,423	\$	71,145	\$	54,278	

#### **Due From Other Governments**

Amounts due from other governments at December 31, 2017 are as follows (in thousands of dollars)

Governmental Activities		Business-type Activities	
U.S. Department of Transportation	\$ 1,902	U.S. Department of Transportation	\$ 800
U.S. Department of Economic Development	41	Georgia Emergency Management Agency	99
U.S. Department of Housing and Urban Development	1,347	Other local governments	 655
Office of Governor - Criminal Justice Coordinating Council	179	Total	\$ 1,554
U.S. Department of Health and Human Services	1,169		
U.S. Department of Justice	526		
Others	 1,757	Component Units:	
Total	\$ 6,921	Miscellaneous State Agencies	\$ 4,224

# Note 13

# Interfund Receivables, Payables, and Transfers

Interfund balances result from the time lag between the dates that (1) inter-fund goods and services are provided or reimbursable expenditures occur and (2) payments between funds are made. Inter-fund receivables net to zero.

Transfers are used to (1) move revenues from the fund that statute or budget requires them to be collected to the fund that the statute or budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. Inter-fund transfers net to zero.

#### Balances due to / from other funds at December 31, 2017 consist of the following (in thousands of dollars):

Due to the General Fund from Non-Major Governmental Funds representing short-term loans:	\$ 9,650
Due to the General Fund from Fire Fund representing short-term loans:	262
Due to the General Fund from the Watershed Fund representing short-term loans:	11,418

### **Commitments and Contingencies**

The County is required by State law to spend 2% of the 8% hotel/motel tax collected on contracts promoting tourism. In fiscal year 2015, the DeKalb County Board of Commissioners voted to appropriate 3.5% portion of the hotel/motel tax collected by the County to the DeKalb Convention and Visitors Bureau ("DCVB"). During 2017, the County collected \$4,413 (in thousands) in total receipts from vendors for the hotel/motel tax. Two of the vendors are located at a facility owned by the State and those vendors send the collected 2% portion directly to the designated State agency per State law. The County received \$1,042 (in thousands) from these vendors for the 3% portion and the adjusted receipts were \$3,371 (in thousands). The County makes payments to the DCVB the month after the funds are received and related payments were \$2,019 (in thousands) or 45.8% of the adjusted receipts.

Litigation – The County is defendant in various legal actions related to claims for alleged damages to persons and property, civil rights violations, zoning matters, and other similar types of actions arising in the course of normal County operations. The total range of reasonably possible amounts for these cases is from \$7,000 to \$2,000,000. In the opinion of the County's management and legal counsel, any potential liability related to these suits pending or unasserted claims are not estimable.

Grant Contingencies – The County has received Federal and State grants for specific purposes that are subject to review and audit by the grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the County's management expects such amounts, if any, will not be material.

#### Note 15

# **Net Position Deficit**

The Sanitation Fund ended fiscal year 2017 with a deficit in net position of (\$10,092) (in thousands). The County will review expenses and revenues related to this proprietary fund and will evaluate if sanitation fees need to be increased and/or if operational costs need to be reduced further. Additionally, the cost savings associated with the change in residential services from twice weekly to once, is only being realized gradually through attrition of personnel.

# **Budget Information**

The County exceeded the legal level of budgeted expenditures in the following departments during 2017 (in thousands of dollars):

<u>Fund</u>	<u>Department</u>	<u>A</u>	<u>mount</u>
General	Transfers Out	\$	19,115
General	Public Safety		1,336
General	Planning and Development		676
General	Health and Welfare		7
Special Tax District - Designated Services	Parks		5,287
Special Tax District - Unincorporated	General Government		11,200
Special Tax District - Police	Public Safety		676
Fire	Public Safety		930
Nonmajor Special Revenue - Development	Public Works		5,668
Nonmajor Special Revenue - County Jail	Transfers Out		36
Nonmajor Special Revenue - Law Enforcement Confiscated	Civil and Criminal Courts		23
Nonmajor Special Revenue - Law Enforcement Confiscated	Public Safety		2,459
Nonmajor Special Revenue - Grant-In-Aid	Public Works		14,720
Nonmajor Special Revenue - Grant-In-Aid	Transfers Out		199
Nonmajor Special Revenue - Justice Assistance Grant	Transfers Out		287
Nonmajor Special Revenue - Rental Motor Vehicle Tax	General Government		7

# Note 17

# **Subsequent Events**

On May 15, 2018, the County Board of Commissioners authorized, through formal resolution, the issuance of the sale of General Obligation Tax Anticipation Notes for 2018 in the aggregate principal amount not to exceed \$45,000,000 for the purposes of obtaining a temporary loan to pay current expenses during 2018 calendar year. As of the audit report date, the TAN proceeds have not yet been received by the County. When issued, the Tax Anticipation Note will mature no later than December 31, 2018.

#### **Tax Abatements**

State statutes control the creation and operation of Development Authorities which therefore gives Development Authorities the authority to create tax abatements under O.C.G.A 36-62 or O.C.G.A 36-42. DeKalb County adopted an economic development program, whereby the County and other local jurisdictions participate in agreements with the Decide DeKalb Development Authority ("Decide DeKalb" or "Authority") and local businesses through a "Bond-Lease Transaction" which creates property tax abatements. Under this arrangement, Decide DeKalb will issue revenue bonds either to the applicant or other purchasers it identifies. The proceeds of the bonds enable Decide DeKalb to take title to the applicant's economic development project. The project then is leased or rented by Decide DeKalb to the applicant, and the applicant pays rental that repay the bonds.

The abatements arise out of the ownership of the property which is the subject of the project. Property owned by the Development Authority is public property and therefore exempt from taxes. When the Authority takes title to property and then leases it, the leased fee created is exempt leaving only the leasehold interest to be taxable assuming the lease is not intended to be a usufruct. The value of the leasehold is influenced by a number of variables. There may arise instances where a lease is a usufruct and the parties agree to a PILOT (Payment in Lieu of Taxes) payment.

The result of such a transaction is that the applicant will receive a reduction in the amounts it otherwise would pay as ad valorem taxes on the project (the "tax incentive"). The tax incentive can be applied over a 10, 15, or 20 year period, as the applicant chooses. The tax incentive is designed to produce approximately, the same present value to the applicant regardless of the term selected.

Tax incentives through Decide DeKalb Bond-Lease Transactions are possible for projects of \$1,500,000 and above. However, because the applicant will pay all associated legal costs and Authority fees, the applicant must weigh the costs against estimated savings, and a project may need to exceed approximately \$10,000,000 before significant net savings are projected.

Decide DeKalb is charged by DeKalb County with providing tax incentives only to significant projects determined by resolution of its board of directors to be worthy and appropriate to achieve its economic development purposes. Prior to providing Decide DeKalb's preliminary approval (the "inducement") to provide tax incentives to a project, several prerequisites must be met:

- A fiscal impact analysis of the project performed by a professional selected by Decide DeKalb and paid for by the applicant.
- For retail projects, Decide DeKalb must obtain a market analysis examining market absorption and the impact of the project on similar retail establishments within the projected service area.
- For projects with a capital investment of \$75 million or greater, Decide DeKalb must obtain a recommendation from its business alliance before providing a final inducement.

- The project qualifies as an eligible project under Georgia's Development Authorities Law.
- Decide DeKalb judges that a Bond-Lease transaction is appropriate for the project.
- Decide DeKalb considers that the applicant can meet its obligations pursuant to all relevant agreements.
- The project complies with applicable ordinances, including zoning requirement.
- The project is found consistent with existing local and regional planning efforts.
- Decide DeKalb judges the project feasible.

In regards to these arrangements with third-parties, a clawback agreement would be a matter of contract in which the role of the parties in verifying the terms of the agreement have or have not been met is defined. Typically, the types of commitments made by the recipients of the tax abatements will relate to economic issues related to the creation or continuation of jobs.

For the fiscal year ended December 31, 2017, the County abated property taxes (real and personal property taxes) totaling \$3,784,177 under this program.

#### Note 19

# **Prior Period Adjustment**

# Board of Health (Discretely Component Unit)

There was a prior period adjustment of \$212,231 for the DeKalb County Board of Health to increase net position and unassigned fund balance. A prior year Rehab Option Adjustment payment to the Georgia Department of Public Health was reversed in the fiscal year 2016 audit in error.

# **Change in Reporting Entity**

# Primary Governmental Activities and Nonmajor governmental funds

As of December 31, 2017, the County decided that the Law Library and the Alternative Dispute Resolution Special Revenue Funds are no longer material enough to be reported within the County's financial reporting entity. These entities have their own separate Boards and were previously reported as blended component units within the County's financial statements. As a result of this change in reporting entities, beginning net position of governmental activities and beginning fund balance of nonmajor governmental funds and governmental funds (in total) were reduced by \$777,000.

# DEKALB COUNTY, GEORGIA NONMAJOR GOVERNMENTAL FUNDS

# **Nonmajor Special Revenue Funds**

The Nonmajor Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than trusts or major capital projects) that are legally restricted or committed to expenditure for specified purposes.

The following Nonmajor Special Revenue Funds are used by the County:

- Development Fund to account for operations of the County's development department, whose financing is provided by license and permit fees.
- PEG Support Fund to account for monies collected from cable companies to provide infrastructure for government access channels.
- County Jail Fund to account for monies collected as a result of a 10% penalty on certain court cases, which are used for the construction, operation, and staffing of County detention facilities.
- Foreclosure Registry to account for operations to protect neighborhoods from becoming blighted through a lack of adequate maintenance and security as a result of foreclosed properties.
- Victim Assistance Fund to account for fines assessed in State and Superior Courts in DeKalb County which are used for victim assistance programs.
- Recreation Fund to account for the operations of various recreational activities provided by the County whose financing is through user fees.
- Juvenile Services Fund to account for monies collected under Georgia law for probation services to juvenile offenders which are used for providing treatment to juvenile offenders.
- Drug Abuse Treatment and Education Fund to account for monies collected under Georgia law related to additional penalties on controlled substance offenses which are used for drug abuse treatment and education programs relating to controlled substances and marijuana.
- Law Enforcement Confiscated Monies Fund to account for monies confiscated under Georgia law by DeKalb law enforcement officers related to controlled substances offenses which are used to defray the cost of complex investigations and to purchase equipment related to said investigations.

# **Nonmajor Special Revenue Funds (continued)**

- Street Lights Fund to account for street light assessments on County residents and businesses which are used for providing street light services for the County's citizens.
- Speed Humps Fund to account for speed hump assessments on County residents which are used for providing speed hump services for the County's citizens.
- Emergency Telephone System Fund to account for monies collected under Georgia law by the telephone companies on behalf of DeKalb County which are used for providing emergency 911 services to residents of the County.
- Grant-in-Aid Fund to account for operations of various grant-in-aid programs. Financing is provided by contributions from various governmental agencies. Such contributions are used only to finance expenditures permitted by the various grant-in-aid contracts and agreements.
- Justice Assistance Grant Fund to account for local law enforcement block grant monies which are used to support law enforcement in the County.
- Hospital Fund to account for contractual payments made by the County to the Fulton DeKalb Hospital Authority whose financing is
  provided by a specific annual property tax levy.
- Hotel / Motel Tax Fund to account for taxes collected by hotels and motels within the County which are used for the promotion of the tourism and convention trade within the County.
- Rental Motor Vehicle Tax Fund to account for taxes collected on motor vehicles rented within the County which is used to fund rental payments on the Porter Sanford III Performing Arts and Center.

# **Nonmajor Capital Projects Funds**

Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities for the County's governmental funds.

The following Nonmajor Capital Projects Funds are used by the County:

- 2001 Parks Bonds Fund to account for the proceeds of the 2001 General Obligation Bond issue and the related capital expenditures for parks.
- Capital Improvement Projects Fund to account for all other monies related to capital expenditures of the County's governmental funds.
- COPS Projects Fund to account for the proceeds of the previously issued certificate of participation notes and related capital expenditures
  through the County.
- Building Authority Juvenile Court Project Fund to account for the proceeds of the 2003 and 2005 Revenue Bonds and the related expenditures for the construction of a juvenile court facility for the County.
- Urban Redevelopment Agency Bonds Fund to account for the proceeds of the 2010 Recovery Zone Economic Development Bonds
  issue and the related capital projects for the renovation and relocation of various buildings.
- HUD Section 108 Fund to account for the guaranteed proceeds from HUD Section 108 used to fund the construction of two community centers and a senior center.
- EPA Brownsfield Revolving Loan Fund to account for a revolving loan fund from which the County is authorized to provide loans and subgrants to clean up sites contaminated with hazardous substances and petroleum, as well as to support community outreach activities and monitor and enforce institutional controls.

# **Agency Funds**

Agency Funds include the following:

- Tax Commissioner to account for all real, personal, tangible, and intangible recording taxes collected and forwarded to the County and other governmental units.
- Sheriff to account for collection fees, proceeds from judicial sales, bond forfeitures, and cash bonds, which are disbursed to other elected officials and agencies, the County, and individuals. The Sheriff also collects, maintains, and disburses monies for civil suits and minors per court order.
- Seized Property to account for monies seized by Public Safety during arrests. These monies are either returned to victims, the arrested party, or forfeited to the County.

The following agency funds are used to account for fines, fees, and other monies collected by the courts and remitted to other parties in accordance with court orders and state law:

- Clerk of Superior Court
- State Court
- Juvenile Court
- State Traffic Court
- Probate Court
- Magistrate Court
- State Court Probation
- Magistrate Court Ordinance Division

# DEKALB COUNTY, GEORGIA STATISTICAL SECTION

# **Statistical Section (Unaudited)**

Statistical tables differ from financial statements because they usually cover more than one fiscal year and may present non-accounting data. These tables reflect social and economic data, financial trends, and the fiscal capacity of the government. The information in this section is presented as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information say about the County's overall financial health.

<u>Contents</u>	<u>Page</u>
Financial Trends These schedules contain trend information to help the reader understand how the County's financial performance and well-being have changed over time.	126-131
Revenue Capacity  These schedules contain trend information to help the reader assess the County's most significant local revenue source, the property tax.	132-137
Debt Capacity  These schedules present information to help the reader assess the affordability of the County's current debt and the County's ability to issue additional debt in the future.	138-143
Demographic and Economic Information  These schedules offer demographic and economic indicators to help the reader understand the environment within which the County's financial activities take place.	144-145
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the County's financial report relates to the services the County provides and the activities it performs.	146-150
Disclosure Information Watershed  These schedules contain disclosures of certain statistical data as it pertains to various series of water and sewerage bonds.	151-161

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

# **Comments Relative to the Statistical Section**

The following statistical tables that are recommended for inclusion by the Government Finance Officer's Association are not included for the reasons stated below:

Special Assessment Collections – Last Ten Fiscal Years (The County has no special assessments for the past ten years related to any debt for which the County is obligated in some manner.)

#### Source: DeKalb County Finance Department

Notes: In 2016, there was a significant reduction in the tax digest which resulted in dreased revenues for the year and an decrease in governmental activities net position. Also, increases in the County's net pension liability and net OPEB obligations resulted in a further decrease in governmental activities net position. The 2016 column was restated as of result of a change in reporting entity. See footnote 20.

### DeKalb County, Georgia Water and Wastewater Treatment System Condition Fiscal Year 2017

#### **Water System Condition**

Facility	Original Ages (Years)	Condition
Raw Water System		
Raw Water Pumps	<5	Excellent
Disk Filters	<5	Excellent
Raw Water Transmission Mains	<1-70	Fair to Excellent
Water Treatment Plant		
Reservoirs	9 to 70	Good to Excellent
Plant	5 to 9	Good
Storage and Pumping		
On-Site High Service Pumping and Storage	1 to 9	Fair to Excellent
Off-Site High Service Pumping and Storage	1 to 70	Fair to Excellent
Transmission and Distribution System	<1-70	Poor to Excellent

Note: The System Engineer's inspection of all System assets was a visual injection of major system components only. The inspection did not include any testing of the System or its components, nor were any underground facilities inspected. The purpose of the inspections was to determine condition assessment and to ensure that the System was in working condition. The County believes that the condition assessment displayed in the table above is consistent with a large, older utility where some assets are older and some are new.
