FOR IMMEDIATE RELEASE

June 30, 2025

Sewer Realignment Resumes June 30

Crews to upsize existing sewer lines

TUCKER, Ga. – Efforts to reduce sewer spills throughout DeKalb County will recommence with the Sewer Realignment Project. The project is one of the initial 103 areas listed on the modified consent decree priority fix list targeting repeat spill areas.

The line repair project is expected to last approximately four months (July 2025 to October 2025), barring any weather delays.

Normal construction hours will be from 7 a.m. to 7 p.m., Monday through Friday, excluding major holidays. An increase in construction-related noise and traffic during work hours should be expected.

Contractors will resume assessing and preparing the impacted areas where more than 4,500 feet of existing 14- and 18-inch-diameter sewer lines will be upgraded to 24-inch-diameter lines. This work will begin on **Monday June 30**, weather permitting.

Should you have any questions or concerns regarding Sewer Realignment Project, please do not hesitate to contact the DWM Project Information line at **1-800-986-1108** or email **projectinfo@dekalbcountyga.gov**.

We appreciate your patience as we work diligently to make improvements to DeKalb County's watershed system.
