Purchasing Agent review and recommendation: EMS Technology Solutions, LLC., is a new vendor to the County. The firm is the sole supplier for Operative IQ management software that is specifically designed for assisting first responders. The Department of Fire Rescue Services is requesting to purchase one (1) Label Printer/ Encoder, an RFID Reader, five (5) RFID Folding Inventory and Tracking Labels, and is insisting on remote training from the vendor for proper use of the software. The firm is the only company that provides Operative IQ management software for first responders. I recommend approval of this sole source.
