

Public Notice of Proposed Award of Sole Source Procurement

Section A – Description of Proposed Sole Source Procurement

Description of Supplies/Services: ScanX Scout (Portable CR system for security investigation). ScanX Scout produces high-resolution digital images in just seconds. The ScanX Scout is a high-performance security x-ray scanner that utilizes flat, flexible digital x-ray film plates to produce superb quality x-ray images. Designed for use in mobile security investigations such as searching suspicious packages and unattended bags the ScanX Scout also can also be used in forensic work, industrial testing as well as weapons, artifact and artwork inspection. Designed for rapid and mobile deployment the ScanX Scout runs on its own built-in battery and can be easily set up and deployed. ScanX Scout Image plates are completely flat and flexible, can be erased automatically after scanning ready for immediate reuse. The x-ray plates are compatible with any of the Golden pulsed x-ray generators, most CP generators and ScanView Imaging software. The x-ray plates can be used in multiples to investigate larger areas. Scanview software then stitches the individually scanned in images into a seamless large x-ray image – ideal for walls, vehicles, longer firearms and weapons.

Demonstration of Contractor’s Unique Qualifications: SCANNA is the exclusive dealer and distributor of the ScanX Scout both in the USA and Internationally.

Section B – To Be Completed by the Department of Purchasing and Contracting
