

# Glenwood Road & Columbia Drive

## Area Redevelopment Plan

In partnership with the Atlanta Regional Commission, the **DeKalb County Department of Planning & Sustainability** is conducting a planning process to identify capital investment and policy changes that can support a more livable, pedestrian friendly environment at the intersection of **Glenwood Road and Columbia Drive.**

This process will take place over the course of the Fall of 2020 with an anticipated conclusion in early December 2020.

**Stay tuned for upcoming opportunities to participate in the planning process and offer insights and input to the planning team.** This will include a virtual design workshop in October, a virtual recommendations summit in November, and ongoing opportunities to provide input online.
