Maintenance Runups

Maintenance runups are prohibited from 10 p.m. to 7 a.m. Maintenance Runups shall only be performed in the designated run-up areas of the airport - runup pad on Taxiway J (*preferred*) or East Ops Area with thrust directed *in-line with parallel runways*.

Intersection Takeoffs

For noise abatement purposes, intersection takeoffs are not recommended. Intersection takeoffs are used to expedite traffic. However, because a shorter section of the runway is used, more engine power might have to be used than if the entire runway length was used in the takeoff.
