Why you want to be Pension Board Member: The health and stability of our pension
is vitally important to each vested employee of DeKalb County. My experience as a lawyer and as a
part-time Magistrate Court Judge, as well as with my experiences in the different departments
within DeKalb County, demonstrate that I will work with the other members of the pension
board to insure that our pension funds are protected and wisely invested for the benefit
of the active employees.

If elected, I will keep the active employees informed regarding the actions of the pension
board and be readily available to anyone with concerns about the status of our pension .

It is my desire that our pension fund be protected to insure that each of us receives
our hard earned pensions for the remainder of our lives. Thank you for your consideration.
