

NOTIFICATION

Department of Watershed Management

CD Pkg 7 Comp 4—Cliff Valley Sewer Improvement Project

The DeKalb County Department of Watershed Management is overseeing the construction of the **Cliff Valley Sewer Improvement Project**.

This door hanger serves as official notice that rock blasting activities will occur between 7:30 a.m. and 5:30 p.m. Date: March 4-June 30, 2026 (intermittently).

Please note that the contractor, **Ruby-Collins, and their subcontractor**, will continue to monitor blast vibrations at various properties near the construction site. Residents closest to the work site may expect momentary and minimal vibrations that last only a few seconds. There may be some residents who have conditions or illnesses impacted by loud or sudden noises. We are advising those residents to leave the area during the blasting times to reduce their exposure to the sound and movement that may occur. All inquiries about this project should be directed to projectinfo@dekalbcountyga.gov or 1-800-986-1108. We appreciate your patience as we work diligently to make improvements to DeKalb County's water distribution system.
