FOR IMMEDIATE RELEASE

May 23, 2025

**Peachtree Boulevard Water Transmission Main Replacement Project
Begins July 7**

Crews will replace aged infrastructure

DECATUR, Ga.— Efforts to improve water service capacity throughout DeKalb County will continue in July with the launch of the Peachtree Boulevard Water Transmission Main Replacement Project. Crews will replace approximately 11,000 linear feet of an existing 30-inch carbon steel main with a 36-inch Ductile Iron main. Crews will also remove the 8-inch and 6-inch pipes running alongside the 30-inch and replace them with 12-inch pipe. Work will begin on Malone Drive, the southern end of the project. Crews will then move to the northbound lane of Peachtree Boulevard and continue north until completion at Carver Drive.

This waterline replacement project, which is expected to last from July 2025 to January 2028, is separated into three phases:

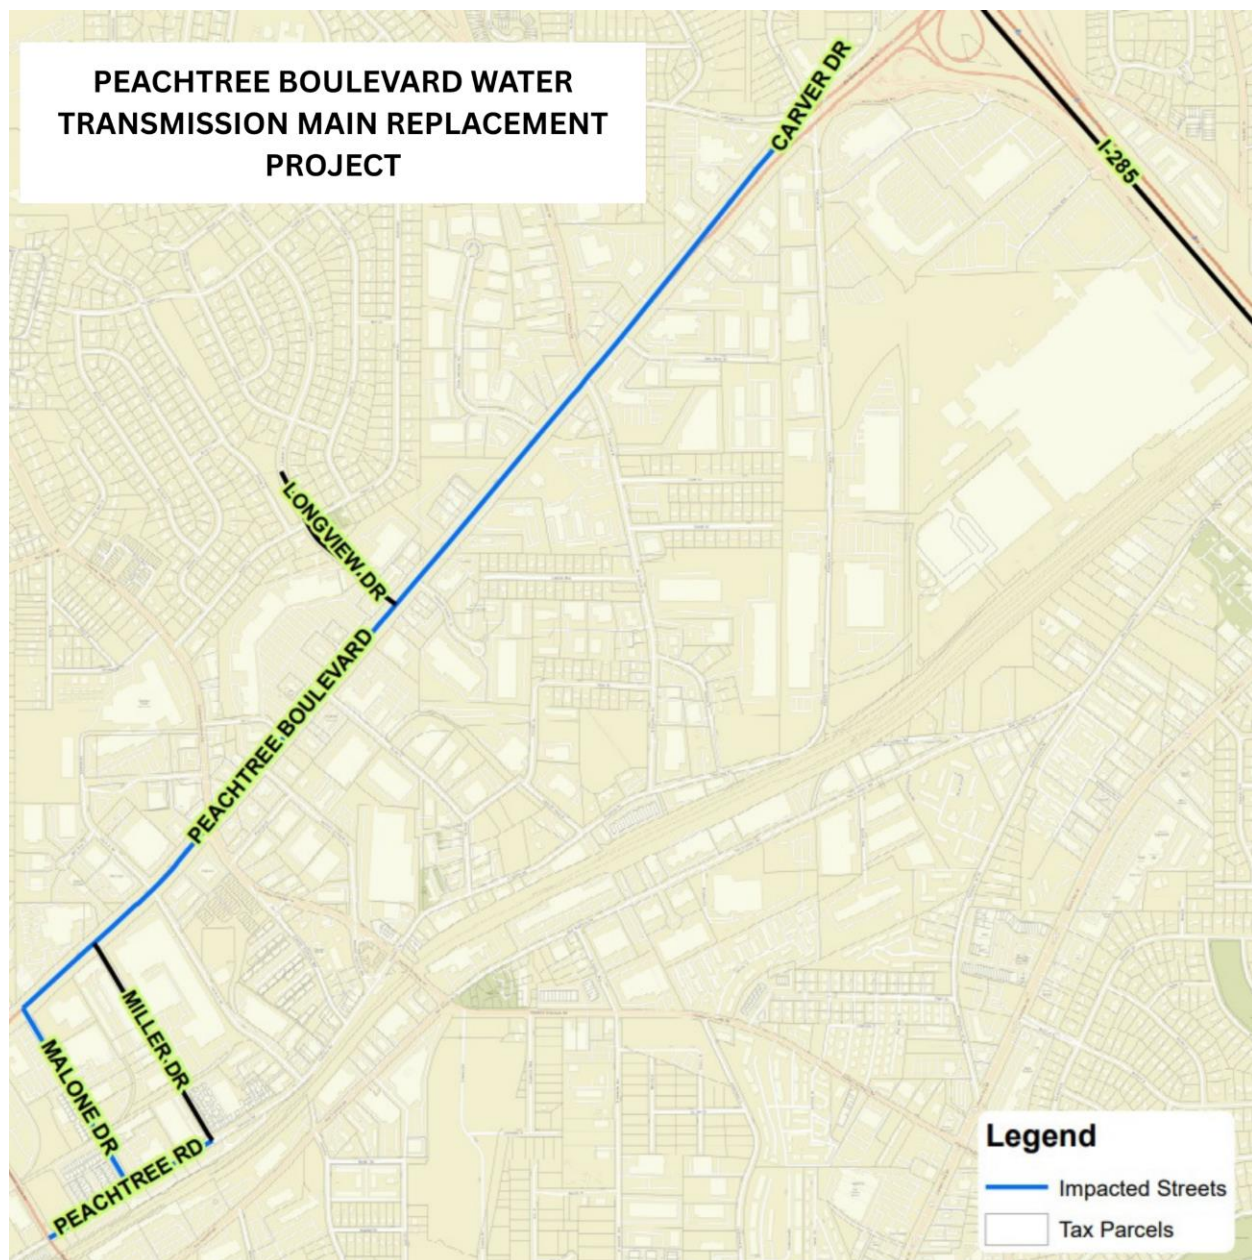

- **Phase I:** Malone Drive (Peachtree Road to Peachtree Boulevard) and Peachtree Boulevard (Malone Drive to Miller Drive)
- **Phase II:** Peachtree Boulevard (Miller Drive to Longview Drive)
- **Phase III:** Peachtree Boulevard (Longview Drive) through Carver Drive

This project is part of DeKalb County's \$4.27 billion capital improvement program to improve capacity and service of the watershed systems serving the community.

Normal construction hours will be from 7 a.m. to 4 p.m., Monday through Friday, excluding major holidays. An increase in construction-related noise and traffic during work hours should be expected.

To learn more about the Peachtree Industrial Water Transmission Main Project, please attend the community meeting on **Tuesday, June 3, 6:30 p.m. at Chamblee City Hall, 3518 Broad St, Chamblee, GA 30341.**

Information also can be obtained by calling the DWM Project Information Line at 1-800-986-1108 or emailing projectinfo@dekalbcountyga.gov with questions.
