

Dear Resident:

Later this week, crews will be conducting chlorination tests as part of the preparation to bring the new pipeline into service.

Next week, we will begin tying in services to the new pipe. During this phase, *some* homes will experience a planned, temporary water outage. To ensure all affected residents are aware in advance, door hangers will be distributed to impacted homes this week.

Should you have any inquiries regarding the Clairmont Terrace Water Main Replacement Project, please do not hesitate to contact me directly or to call the DWM Project Information line at 1-800-986-1108 or email projectinfo@dekalbcountyga.gov. For 24-hour emergencies, please call: 770.270.6243.
