

**Subject:** Peachtree Boulevard Water Transmission Main Replacement Project Update: Dec. 17

Dear Residents/Business Owners:

The final detour/closure at the Rail Trail will be removed by the close of business today. The contractor, Ruby-Collins, will be on break Tuesday, Dec. 23 through Friday, Jan. 2. They will make adjustments to the manholes on Malone and finalize all other items when they return in January. Thank you for your patience with Phase I of the Peachtree Boulevard Water Transmission Main Replacement Project. We will update you about Phase II once all permits have been granted. Have a happy holiday season.
