

**Woodacres Water Main Replacement Project Update: Sept. 17, 2024**

Dear Resident:

We have been notified of an emergency break on Clairmont Terrace, which was made by Operations crews doing work in the area. The break is affecting some homes within the Phase I area of the Woodacres Water Main Replacement Project but is not directly related to the project. We are communicating with Operations to learn more information. Thank you for your patience as this is resolved.
