

BUILDING PERMIT TREE PLAN EXEMPTION FORM

All building permit applications for new construction require an accompanying tree plan to be submitted except:

Lots that meet the following criteria: Check All That Apply

- Parts of a larger subdivision where the approved development permit tree plan meets or exceeds the preservation and specimen tree recompense requirements.
- Total preservation of all trees saved per the approved development permit tree plan to be maintained throughout the building phase.
- There are no trees to be preserved within the bounds of the subject property.

Front yard trees per zoning district are required for all lots in compliance with the current tree ordinance.

- Residential Developments – Fifteen (15) Density Units Per Acre.
- Nonresidential & Multifamily - Thirty (30) Density Units Per Acre.
