File #: 2019-4079
File Status: Preliminary Item

9/10/2019

Public Hearing: YES NO **Department:** Planning & Sustainability

SUBJECT:

COMMISSION DISTRICT(S): 3 & 6

Application of Natasha Taylor to rezone property from R-75 (Residential Medium Lot-75) District to RSM (Residential Small Lot Mix) District to construct a two-family residence (“duplex”), at 316 Wilkinson Drive.

PETITION NO: N12. Z-19-1243389

PROPOSED USE: Two-family residence (“duplex”).

LOCATION: 316 Wilkinson Drive, Atlanta 30317

PARCEL NO. : 15-179-08-005

INFO. CONTACT: Marian Eisenberg

PHONE NUMBER: 404-371-4922

PURPOSE:

Application of Natasha Taylor to rezone property from R-75 (Residential Medium Lot-75) District to RSM (Residential Small Lot Mix) District to construct a two-family residence (“duplex”). The property is located on the east side of Wilkinson Drive, approximately 865 feet south of Memorial Drive, at 316 Wilkinson Drive, Atlanta. The property has approximately 80 feet of frontage along Wilkinson Drive and contains 0.36 acre.

RECOMMENDATION:

COMMUNITY COUNCIL: APPROVAL

PLANNING COMMISSION: PENDING

PLANNING STAFF: DENIAL

PLANNING STAFF ANALYSIS: Per the DeKalb County Zoning Ordinance, the purpose of the R-75 is to provide protections for existing development and to implement the future development map of the county's most current comprehensive plan. The current R-75 district prohibits attached single family structures. This request is inconsistent with the surrounding R-75 zoning which and would result in spot zoning. Per the future land use map, this site is designated as part of the Traditional Neighborhood Character Area. The

Comprehensive Plan states that the intent for Traditional Neighborhood Character Areas is to “preserve the style and appeal of older traditional neighborhood communities.” The existing character of the Parkview Subdivision consist of only single family detached homes on each platted lot. The proposal of two attached single-family development on the subject lot would be inconsistent with the character of the subdivision. Therefore, for the reasons stated above, the Department of Planning and Sustainability recommends “Denial”.

PLANNING COMMISSION VOTE: PENDING

COMMUNITY COUNCIL VOTE/RECOMMENDATION: Approval 5-2-3. Community Council recommended Approval of this application.

STAFF ANALYSIS

Case No.: Z-19-1243389 **Agenda #:** N. 12

Location/Address: 316 Wilkinson Drive **Commission District:** 03 **Super District:** 06

Parcel ID: 15-179-08-005

Request: To rezone property from R-75 (Residential Medium Lot) District to RSM (Residential Small Lot Mix) District to construct a two-family residence (duplex).

Property Owner/Agent: Natesha Taylor

Applicant/Agent: Investment Realty of Atlanta, LLC

Acreage: 0.362 acres

Existing Land Use: Single family residential

Surrounding Properties/ Adjacent Zoning: To the north, south, and east are single family residences. Directly west is the DeKalb Memorial Park and is located within the City of Atlanta.

Comprehensive Plan: TN
(Traditional Neighborhood)

Consistent

Inconsistent

Proposed Density: N/A	Existing Density: One single family detached structure
Proposed Units/Square Ft.: 2 attached single family residences	Existing Unit/Square Feet: 1,535 square feet
Proposed Lot Coverage: 52.1%	Existing Lot Coverage: 14.6%

SITE AND PROJECT ANALYSIS

The subject property is a single-family residential lot located approximately .21 miles south of the Wilkinson Drive and Memorial Drive intersection in the Parkview subdivision of southwest DeKalb County. The property is located east of Wilkinson Drive which is classified as a local street. Based on the submitted survey, the property has a lot area of approximately 15,751 square feet which exceeds the 10,000 minimum square footage of its R-75 zoning classification. Currently, the lot is developed with a one-story, 1,535 square foot detached house that is currently vacant. A driveway from Wilkinson Drive is located along the interior side property line. The rear yard is enclosed by a wooden privacy fence.

The subject property was platted on April 4, 1940 as Lot 2, Block B of the Parkview Subdivision. The Parkview subdivision consist of lots with widths from 60 feet to 80 feet. Lots located to the north and east has widths of 70 feet, and the lot directly south has a lot widths of 80 feet. The character of the subdivision consists of mainly single family detached homes. Located north, south, and east of the subject property are single family detached homes. Directly west is the DeKalb Memorial Park which is located within the City of Atlanta.

The request is to rezone property from R-75 (Residential Medium Lot District) to RSM (Residential Small Lot Mix) District for a proposed two-family attached residence.

Per the submitted Letter-of-Intent, the goal is to demolish the existing single family detached structure and build two attached single family residences. Each home will be two stories with three bedrooms, two and half baths, with two car garage totaling 2, 862 heated square feet. The site will still access Wilkinson Drive and will meet all the setback and lot coverage requirements per the RSM zoning district.

Per the DeKalb County Zoning Ordinance, the purpose of the R-75 is to provide protections for existing development and to implement the future development map of the county's most current comprehensive plan. The current R-75 district prohibits attached single family structures. This request will would be inconsistent with the surrounding R-75 zoning and would result in spot zoning. In addition this request will also be inconsistent with it its' future land use classification of "Traditional Neighborhood Character Area".

LAND USE AND ZONING ANALYSIS

Section 27-832 of the Zoning Ordinance, "Standards and factors governing review of proposed amendments to the official zoning map" states that the following standards and factors shall govern the review of all proposed amendments to the zoning maps.

A. Whether the zoning proposal is in conformity with the policy and intent of the comprehensive plan:

Per the future land use map, the site is designated as a Traditional Neighborhood Character Area. The Comprehensive Plan states that the intent for Traditional Neighborhood Character Areas is to "preserve the style and appeal of older traditional neighborhood communities." The existing character of the Parkview Subdivision consist of only single family detached homes on each platted lot. The proposal of two attached single family structures on the subject lot would be inconsistent with the character of the subdivision.

B. Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby properties:

If the zoning proposal is granted, the first house will face Wilkerson Drive while the second house will be positioned at the rear of the first house while giving an appearance of a single family detached home facing

Wilkerson Drive. However, the proposed zoning district and the attachment of the buildings will be inconsistent with the existing use and development of the adjacent and nearby properties.

C. Whether the property to be affected by the zoning proposal has a reasonable economic use as currently zoned:

In relation to other adjacent properties under their current R-75 classification indicates that the property has reasonable economic use as currently zoned.

D. Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property:

The approval of the RSM district on the subject site will affect the existing use or usability of adjacent properties.

E. Whether there are other existing or changing conditions affecting the use and development of the property, which give supporting grounds for either approval or disapproval of the zoning proposal:

This request will would be inconsistent with the surrounding R-75 zoning and would result in spot zoning therefore giving supporting grounds for disapproval of the zoning proposal.

F. Whether the zoning proposal will adversely affect historic buildings, sites, districts, or archaeological resources:

No historic buildings, sites, districts, or archaeological resources are located on the property or in the surrounding area.

G. Whether the zoning proposal will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities, or schools:

Because the zoning proposal would potentially result in only two new homes, it is not expected to generate a burdensome demand on existing infrastructure. The Department of Public Works Traffic Engineering Division has commented that a review of the application and a field inspection revealed no problems that would interfere with traffic flow.

H. Whether the zoning proposal adversely impacts the environment or surrounding natural resources:

There has been no indication that the zoning proposal will have adverse impacts on the environment or surrounding natural resources beyond those that are typical when new development occurs.

COMPLIANCE WITH DISTRICT STANDARDS

The site must comply with minimum development standards of the RSM (Residential Small Lot) District per Table 2.2 of the DeKalb County Zoning Ordinance.

STANDARD		REQUIREMENT	PROPOSED	COMPLIANCE
UNIT SIZE		Min. 1,200 Square Ft	3,180 Heated Floor Area	Yes
DWELLING UNITS/ACRE		4 Units Per Acre	N/A	N/A
BUILDING SETBACKS	FRONT SETBACKS	15 feet	20 Feet	Yes
	REAR SETBACKS	Min. 15 Feet	Above 15 Feet	Yes
LOT WIDTH (Min.)		25 Feet	80.05 Feet	Yes
HEIGHT		Max. 3 Stories or 45 Feet	Max. 2 Stories	Yes
LOT COVERAGE		Max. 70%	Max 52.1 %	Yes
OPEN SPACE		Min. 20% based	N/A	N/a
PARKING		Min. One and a half (1.5) spaces per dwelling unit, plus one-quarter (0.25) space per dwelling unit to accommodate guest parking.	Applicant is proposing a two-car garage and driveway	Yes

Staff Recommendation: DENIAL

Per the DeKalb County Zoning Ordinance, the purpose of the R-75 is to provide protections for existing development and to implement the future development map of the county's most current comprehensive plan. The current R-75 district prohibits attached single family structures. This request will would be inconsistent with the surrounding R-75 zoning which and would result in spot zoning.

Per the future land use map, this site is designated as part of the Traditional Neighborhood Character Area. The Comprehensive Plan states that the intent for Traditional Neighborhood Character Areas is to “preserve the style and appeal of older traditional neighborhood communities.” The existing character of the Parkview Subdivision consist of only single family detached homes on each platted lot. The proposal of two attached single family development on the subject lot would be inconsistent with the character of the subdivision.

Therefore, for the reasons stated above, the Department of Planning and Sustainability recommends “Denial”.

IMPACT ANALYSIS RESPONES

- A. Yes, the zoning proposal is in conformity with the policy and intent of the Comprehensive Plan.
 - B. Yes, (2) family residences being built will be suitable of the use and development of adjacent and nearby properties.
 - C. No, due to the current condition of the existing property the property value has decreased in comparable to other R-75 homes in the area.
 - D. No, the re-zoning of the property will not adversely affect the usability of adjacent or nearby properties.
 - E. None that I am aware of.
 - F. No, historic buildings, sites, districts, or archaeological resources will be affected by the re-zoning.
 - G. No excessive or burdensome use of existing streets, transportation facilities, utilities, or schools will be affected by zoning proposal.
 - H. No, impacts to the environment or surrounding natural resources will be adversely affected by the zoning proposal.

The installation of erosion and sedimentation control measures and practices shall occur prior to or concurrent with land disturbing activities. Erosion and sedimentation control measures will be maintained at all times. If full implementation of the approved plan does not provide for effective erosion and sediment control additional erosion and sediment control measures shall be implemented to control or treat the sediment source. Additional erosion controls shall be installed as deemed necessary by the on-site inspector. All lots/sites with 2' of fill or greater will require a compaction certificate by a professional registered engineer prior to a building permit and/or prior to footers being poured. Locate and field stake all utilities, easements, pipes flood limits, stream buffers, and tree save areas prior to any land disturbing activities. All tree protection areas to be protected from sedimentation. All tree protection devices to be installed prior to land disturbance and maintained until final landscaping. All tree protection fencing to be inspected daily and repaired or replaced as needed. A final as-built lot survey required prior to issuance of Certificate of Occupancy. A final as-built water quality certificate required prior to Certificate of Occupancy. Dumpsters and/or temporary sanitary facilities shall not be located in street or tree protection area or right-of-way. Water quality BMP(s) to be installed at the time of final landscaping. All collected water shall be directed to the water quality BMP(s). No water quality BMP(s) allowed in undisturbed stream buffers or tree save/critical root zone. Work hours and construction deliveries are: o Monday-Friday 7:00am-7:00pm o Saturday 8:00am-5:00pm

Please provide additional information relating to the following statement.

According to studies conducted by the Institute of Traffic Engineers (ITE) 6/7TH Edition (whichever is applicable), churches generate an average of fifteen (15) vehicle trip end (VTE) per 1, 000 square feet of floor area, with an eight (8%) percent peak hour factor. Based on the above formula, the _____ square foot place of worship building would generate _____ vehicle trip ends, with approximately _____ peak hour vehicle trip ends.

Single Family residence, on the other hand, would generate ten (10) VTE's per day per dwelling unit, with a ten (10%) percent peak hour factor. Based on the above referenced formula, the _____ (Single Family Residential) District designation which allows a maximum of _____ units per acres, and the given fact that the project site is approximately _____ acres in land area, _____ daily vehicle trip end, and _____ peak hour vehicle trip end would be generated with residential development of the parcel.

COMMENTS:

Plans and field reviewed. Found nothing that would indicate traffic problems.
