FOR IMMEDIATE RELEASE

May 21, 2021

Shallowford Road Planned Water Outage on May 25

Construction to repair leaking water main will result in planned outage

ATLANTA, Ga. – On Tuesday, May 25, DeKalb County and its contractors will temporarily interrupt water service to businesses and residents between 2308 to 2960 Shallowford Road from **8 a.m. to 6 p.m.**, to properly replace a leaking 30-inch water line. Residents and businesses will experience low water pressure for several hours.

This work is being performed as a part of the annual water and sewer construction administered by the DeKalb County Office of Engineering & Construction Management Services. Under the program, water mains throughout the county are being replaced with new pipelines to repair damaged lines, improve water pressure, quality and reliability of water service.

DWM contractors have been provided with strict instructions to restore all water service on the dates of interruption unless emergency circumstances arise.

For more information, visit the DWM website at www.dekalbwatershed.com, call the DWM Project Information Line at 1-800-986-1108 or email: projectinfo@dekalbcountyga.gov.
