FOR IMMEDIATE RELEASE

October 27, 2021

**Appalachee Drive Road Water Infrastructure
Replacement Project Begins Nov. 1**
Construction to replace 6-inch water line

Decatur, Ga. – On **Monday, Nov. 1**, DeKalb County Department of Watershed Management (DWM) and its contractors will replace an existing 6-inch with an 8-inch water line on **Appalachee Drive**. Work is expected to last approximately **4 weeks**, unless unforeseen circumstances arise that may impact this schedule. Residents and businesses should not expect a water outage while the line is replaced.

This work is being performed as a part of the annual water and sewer construction administered by the DeKalb County Office of Engineering & Construction Management Services. Under the program, water mains throughout the county are being replaced with new pipelines to repair damaged lines, improve water pressure, quality and reliability of water service.

For more information, visit the DWM website at www.dekalbwatershed.com, call the DWM Project Information Line at 1-800-986-1108 or email projectinfo@dekalbcountyga.gov.
